This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment**.

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{7}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index will be an index to the Monthly catalogue for July, August, and September, the December number will be an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

Senate document 645, 61st Congress, 2d session, Report on condition of woman and child wage earners in the United States, is still making its way through the press. From the fact that vol. 8, Juvenile delinquency and its relation to employment, was published during June, and vol. 7, Conditions under which children leave school to go to work, is a July publication, it might be inferred that the publication is proceeding backward, which of course is not the case. In the preparation of such an extensive series (19 vols.), all the material being drawn from original sources, it is the rule rather than the exception that various happenings prevent the appearance of the volumes in unbroken numerical sequence as planned.

Labor Bureau Bulletin 93, the latest issue in this series, besides the usual summaries of information, considers in detail two subjects of unusual interest, namely: Wholesale prices, 1890 to 1910, and Cost of living in Great Britain, Germany, France, Belgium, and the United States.

The Hagerstown loam, the 7th number in the series entitled Soils of the eastern United States and their use, has been published as Soils Bureau Circular 29. The Hagerstown loam is disintegrated blue limestone and "easily holds high rank among the most fertile soils in the eastern part of the United States." It is found in the great valley extending from eastern Pennsylvania across central Maryland and through western Virginia into Tennessee, Kentucky, and northern Alabama, called the Cumberland valley in Pennsylvania, the Hagerstown valley in Maryland, and the Shenandoah valley in Virginia. Other numbers in this series which have been issued are: 9. The Miami clay loam (Circular 31); 10. The Marshall silt loam (Circular 32); 11. The Knox silt loam (Circular 33); 12. The Carrington loam (Circular 34). Others will follow. Five cents each from the Superintendent of Documents.

A Yearbook paper, entitled The eradication of cattle tuberculosis in the District of Columbia, has been separately issued in a 5 cent pamphlet. It does not claim that cattle tuberculosis has been absolutely extirpated in the District, but that such very marked progress has been made toward extirpation as to ensure success and to afford a valuable object lesson to other communities which may wish to ensure the purity of their milk supply. The method pursued was the tuberculin test and the slaughter of all "reactors," reactors being those cows which reacted to the tuberculin test and thus revealed their tuberculous condition. Autopsies on the "reactors" demonstrated the reliability of the tuberculin test.

Vol. 39, Land decisions, is out of press and on sale at $1.75 a copy in buckram binding. The page following the title-page carries this legend: "This publication (volumes 1 to 39 and Digest covering volumes 1 to 30, inclusive), is held for sale by the Superintendent of Documents, Office of the Public Printer, Washington, D. C., to whom all correspondence relating thereto should be addressed."

Upton's Military policy of the United States has been again reprinted. Sold by the Superintendent of Documents at 65 cents a copy in durable cloth binding.

Farmers' bulletin 456, with the title Our grosbeaks and their value to agriculture, gives reasons why farmers should protect the grosbeaks instead of killing them. Our grosbeaks are finches and finches are little birds which eat a few peas and a few fruits and a great many noxious weed seeds and more noxious insect pests.

Education Bureau Bulletin 2, series of 1911, Opportunities for graduate study in agriculture in the United States, is a list of the various American colleges and universities which offer to graduate students courses in various studies related to modern agriculture. The scope and character of different courses are described. The entrance conditions are the equivalent of a 4-year high-school course. The information brought together in the pamphlet will interest a large number of persons, the tendency toward advanced agricultural study being now great and growing.

The report of the commissioner of corporations on the steel industry has been summarized. Part 1 of the summary, describing the organization, investment, profits, and position of the United States Steel Corporation, can be supplied for 10 cents a copy.

The Interior Department has made a 15-page list of the magazine articles relating to the national parks, reservations, and monuments. The list has several hundred entries, and is believed to be substantially complete to the end of the year 1910.

Second-class mail matter, its uses and abuses, is the title of an address by third assistant Postmaster-General Britt, now published in a pamphlet. Besides the discussion of 2d-class mail problems, the statements are incidentally made that the employees of the Post-Office Department number more than 300,000, that its annual mail transportation aggregates 965,000,000 miles, and that it is the largest business establishment in the world.

The 1910 annual report of the chief of ordnance, U. S. A., published in November last in paper covers and without appendix or index, is now out in red cloth with appendix and index all complete.

Tests of metals, 1910, is a modest volume of 254 pages, now ready for sale at 45 cents in cloth. The corresponding issue for 1909 appeared in April, 1911, in 3 large volumes.

Vol. 10, reports, appendix, and index, completing the publication of the proceedings before the Interstate Commerce Commission in the matter of the proposed advance of railroad freight rates, has now been published. The Commission refused its assent to the proposed advances.

The Interstate Commerce Commission has issued in an oblong pamphlet a series of plates illustrating the standards for railroad safety appliances which the Commission has established. Sold by the Superintendent of Documents at 10 cents.

Translocation of plant food and elaboration of organic plant material in wheat seedlings is the title of Chemistry Bureau Bulletin 138, which has the additional distinction of being the first public document to be illustrated by graphs, of which it has two.

The Indian Affairs Office has published a handy leaflet of information concerning Indian lands for sale under Government supervision. There are many such lands now offered on Indian reservations in California, Colorado, Idaho, Kansas, Minnesota, Montana, Nebraska, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming, thus giving a wide range for selection.

The 1910 annual report of the Life-Saving Service brings to light a new peril of the waters. Of 1,046 vessels involved in disasters of various kinds, 650, or 62 per cent, were gasoline motor boats, and of the 3,013 persons brought in danger, 2,188, or 73 per cent, were on motor boats.

The official title of the case popularly known as the Cunningham coal claims in Alaska it appears is The United States v. Andrew A. Scofield et al., and under this title has been published a pamphlet containing the decision of Commissioner Dennett, the letter of Secretary Fisher, and the correspondence of the Secretary with E. C. Hughes.

Water-supply paper 274, Some stream waters of the western United States, presents the results of chemical analyses of numerous waters which are likely to be utilized on the Government's irrigation projects. 15 cents.

Hydrographic Office publication 87 is the International code of signals, issued biennially. The 1911 edition, which is bound in buckram and sold by the Superintendent of Documents at $1.20, contains colored prints of the flags of the principal maritime nations and a variety of information essential to nautical men.

The librarian is coming into recognition as an important official and one to be reckoned with even by high dignitaries. House document 68, 62d Congress, ordered printed June 12, 1911, is a letter from the Acting Secretary of War, transmitting to Congress the report of Lieut.-Col. H. C. Scott, recommending the destruction of an extensive lot of accounts and other documents connected with the military occupation of Cuba by the United States, which the officer declared to have neither official nor historical value, an estimate confirmed by several indorsements from general officers. House document 92, of the same Congress, ordered printed just one month later (July 12), is another letter from the Acting Secretary of War, in which he states that the Librarian of Congress thinks the documents in question are historically valuable, whereupon the Acting Secretary withdraws his recommendation for their destruction.

Farmers' bulletin 454 tells one of the best stories of farm management and farm success that have been told in many a day. The title is A successful New York farm. 5 cents.

Manufactures Bureau's Miscellaneous series no. 6 is called Promotion of commerce. It is an outline of the service maintained by the Manufactures Bureau and other bureaus and offices of the Government of the United States which aid in the promotion of commerce. The work of the Superintendent of Documents is favorably mentioned.

The address of the Attorney-General on New States and constitutions, at the Yale Law School, June 19, has been published as Senate document 62, 62d Congress.

The President's address on Reciprocity, at Indianapolis July 4, has been published as Senate document 63, 62d Congress.

There is a new 10 cent pamphlet compilation, Laws relating to the reclamation of arid lands by the United States.

American nautical almanac for 1913 is out. 30 cents.

The General Land Office has issued a pamphlet of information concerning the opening of the Fort Berthold and Rosebud Indian reservations to settlement May 1, 1912. The first named is in North Dakota and the second in South Dakota.

An additional list of references on the taxation of incomes has been published by the Library of Congress. 20 cents.

Class L, Education, in the library classification of the Library of Congress, has been printed in large octavo size, 160 pages. Sold by the Superintendent of Documents at 25 cents.

Arizona is a Territory in which irrigation is extensively practiced by the Government and by private enterprise. Experiment Stations Office Bulletin 235 tells about it. 20 cents.

The Census Bureau's final revised announcement of the population of cities shows that this opulent and thrice-blessed country has 3 cities of more than a million inhabitants; 19 cities numbering more than 250,000; 50 of over 100,000, and 178 of between 25,000 and 100,000; altogether, 247 cities exceeding 25,000 in number of residents. For a Government which had at its beginning but one city of such dimensions, this is doing reasonably well.

Daily river stages at river gage stations on the principal rivers of the United States, part 10, for the years 1909 and 1910, is a substantial quarto, published by the Weather Bureau and priced at $4.75 a copy. It is but one of many Government publications embodying the results of scientific study of the quantity, quality, location, etc., of our most valuable mineral resource, water. This publication was listed in the Monthly catalogue for June, page 678.

COMMERCE COURT DECISIONS

The Commerce Court, composed of five circuit judges, was created by act of Congress approved June 18, 1910. It considers appeals from the orders of the Interstate Commerce Commission, and its decisions are therefore of importance to transportation interests and other business interests.

While the Court has been organized and hearing cases for some time, the official publication of its decisions has only recently begun. Nos. 1, 2, 5, 6, and 9 have been printed separately in pamphlet form, document octavo size, without cover, similar to the advance sheets of the decisions of the Interstate Commerce Commission.

As but a limited distribution will be made by the Court, the general public must depend for its supply on the Superintendent of Documents, who will print editions for sale. As little is yet known of the number, size, and periods of publication of these decisions, it is not possible at present to fix a definite price for them. As a temporary expedient, the name of any person or firm remitting $1.00 will be placed on the mailing t to receive these decisions. When a more definite arrangement mes practicable further announcement will be made.

THE CROP REPORTER AND THE CROP REPORTS

The monthly newspaper published by the Statistics Bureau, Agriculture Department, under the title Crop reporter, is true to its title, being given up altogether to the publication of the crop reports of this and foreign countries. It was begun May, 1900, as a quarto of four pages. At the beginning of its 2d year, May, 1900, the number of pages was increased to eight. This size has been continued to the present time, and it can not conveniently be increased.

The volume of reports, however, insists on increasing, and has at last caused the Crop reporter to overflow. The overflow is being taken up in circulars of the Statistics Bureau. Circular 19 carries the foreign crop reports for May, 1911, and circular 20 carries the reports of the same class for June. In previous years these reports have been printed in the Crop reporter. Statistics Bureau Circular 21, which at the time of writing is in press, will give the foreign crop reports for July, and circular 22 will carry the tobacco crop reports for the same month. The November tobacco report will also be printed as a circular. The cotton reports for the current crop season will, as heretofore, be published in the Crop reporter.

OBJECT LESSONS IN SANITATION

The chief of the Government organizations for the protection and promotion of health is the Public Health and Marine-Hospital Service of the Treasury Department. This Service has issued numerous pamphlets on topics relating to diseases and their prevention which have been widely distributed through sale by the Superintendent of Documents and otherwise.

The Service has now issued a new form of publication, appealing to the eye as well as to the mind. It is a set of large-scale charts, nine in number, mounted on strong cloth, with rollers and hangers, ready for immediate use. The nine charts are combined in one group, and arranged to turn over and over, so that one after another may be shown to an audience or class. These charts are not maps. They are pictures—graphic representations of objects which have been much written about of late in publications relating to sanitation. The charts have various titles: Nos. 1, 2, Soil pollution; 3-7, Hookworms; 8, Hookworm patients; 9, Sanitary toilets.

These charts, thus thoroughly mounted and made sufficiently durable for years of use, are sold by the Superintendent of Documents at $3.00 for the set.

STATUTES AT LARGE

Vol. 36, laws of the 61st Congress, has been published in two unusually large parts, aggregating more than 3.500 pages. The books are, as usual, bound in full law sheep. Part 1, Public laws, is priced at $2.75, and Part 2 at $3.25.

RECIPROCITY

The act providing for a reciprocal exchange of commodities with Canada at reduced duties or no duties at all, which was approved by the President July 26, 1911, has been published in pamphlet form as Public no. 3 and is sold by the Superintendent of Documents at 5 cents. The act has not yet been passed by the Canadian Parliament and therefore has not become effective. The Parliament has been dissolved and a new election called, in which the Ministry will endeavor to secure a majority favorable to reciprocity.

BUREAU DISCONTINUED

The Bureau of Statistics and Accounts, Interstate Commerce Commission, has been discontinued since its chief, Mr. Henry C. Adams, has left the service of the Commission. The work formerly done by the Bureau is now divided between the Division of Statistics and the Division of Carriers' Accounts.

The first document published by the new Division of Statistics is Bulletin of the revenues and expenses of steam roads in the United States for the month of April, 1911, being number 28 in that series. All publications emanating from either of the divisions will be entered in the Monthly catalogue under Interstate Commerce Commission.

THE INDIAN HANDBOOKS

Ethnology Bureau Bulletin 40, Handbook of American Indian languages, of which thus far only part 1 has been issued, will have several other parts, three or four at least, and will be several years in course of composition and publication. It is to be said, however, that the parts are not interdependent. Each one discusses a group of languages, and so far as those languages are concerned is complete and not dependent on the other parts. Part 1 is on sale by the Superintendent of Documents at $1.25 cloth bound.

Ethnology Bureau Bulletin 30, Handbook of American Indians north of Mexico, was recently complete in two parts, but has been made incomplete again by the supply of part 1 giving out under the increased demand which sprang up as soon as part 2 was issued. A new print of part 1, in which a few corrections will be made, has now been ordered. It may be a month before the complete work can again be supplied.

NEW EDITIONS, ADVANCE SHEETS, BOUND VOLUMES

The 61st Congress, 3d session, ordered a new revised edition of the Government Report on diseases of the horse, 100,000 copies, and a like edition of the Government Report on diseases of cattle. The new horse book is in press, but the manuscript for the cattle book has not yet been sent to the Public Printer.

There will be two volumes of Treasury decisions this year, January– and July–December. The weekly pamphlet decisions for the first half of the year have all been sent to subscribers, but the index has not yet been printed nor the permanent volume bound. The pamphlets of vol. 21 (for the last half of 1911) are now going out.

Volume 20, Interstate Commerce Commission reports, is relatively in the same condition as vol. 20, Treasury decisions.

DATES OF ISSUE OF THE MONTHLY CATALOGUE

The Governing Council of the American Library Association, in session at Pasadena, Cal., May 23, 1911, adopted a resolution urging the Superintendent of Documents to publish "if possible" a daily or weekly checklist of public documents, so that librarians might be sooner informed than by the Monthly catalogue concerning the actual status of documents which they see mentioned in the daily papers. Under date of June 28, 1911, the Secretary of the Association, Mr. George B. Utley, sent to the Superintendent of Documents official information of the passage of the resolution. July 6, 1911, Mr. Utley was officially informed of the reasons why the issue of the proposed new daily or weekly periodical is not possible.

As it is likely that this information may not reach all interested librarians, a few further words on the general subject it is hoped will not be thought out of place. In a preamble to the A. L. A. resolution of May 23 it is stated that the Monthly catalogue "is not published until several weeks after the period covered by each issue." "Several" is an indefinite term. Two might be considered "several." The statement therefore may be accepted as literally correct, though its implication, that the catalogue is many weeks behind date, is not correct. The Monthly catalogue is required to show what documents have been published during a month. Evidently, therefore, its compilation can not be completed until after the close of the month. The compilation is always completed within three or four days after the month closes. Sometimes the printing does not follow as quickly as one would like. This may seem strange to librarians, to whom the Monthly catalogue is perhaps the most important of all the public documents. If, however, they were in Washington they would soon realize that there are several other Government concerns, and some of them bigger and more exacting than the Documents Office. There is one known as the Congress of the United States which calls for thousands of pages of printing where the Documents Office calls for one, and which, when it calls for the right of way in the Government Printing Office (or anywhere else), is able to get it. The printing of the Superintendent of Documents receives every consideration in the Government Printing Office which it is possible to give, but it can not command the right of way over Congress, President, and Cabinet.

It has been a long time since the Monthly catalogue has failed to be mailed during the month following its date, often by the middle of the month. It is to be noted, also, that its information is quite different from that of "press notices." It enters only documents that have been actually received, and its descriptions are minute and accurate. In its preliminary pages it gives such advance information of forthcoming documents as can be officially secured and vouched for. There is a habit in some Government offices of giving the newspaper reporters information of proposed publications before the copy is ready for the printer, and sometimes before pen has been put to paper. Plans thus prematurely announced are subject to change and the advance notice may thus mislead the reader. Readers of the Monthly catalogue are not thus misled.

The Superintendent of Documents is confident that those librarians who keep well informed recognize his purpose to do everything for the great library interest of the country that the limitations of the law and the Executive pressure upon his and other administrative offices for economy make possible.

MONTHLY CATALOGUE

No. 199 JULY 1911

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Amendment 1 to Rules and regulations for carrying out provisions of insecticide act of 1910 [including collection and examination of specimens of insecticides, paris greens, lead arsenates, and fungicides]. July 13, 1911. 1 p. (Circular 34, amendment 1.) * Paper, 5c.

Before Attorney General in re lard substitute, composed of 80 per cent of vegetable oils and 20 per cent of imported oleo stearin, under meat-inspection law, question submitted by Secretary of Agriculture; brief of solicitor. 1911. cover-title, 11 p. * Paper, 5c. 11—35600

Emergency forage crops; [by David A. Brodie]. July 7, 1911. 4 p. (Circular 36.) * Paper, 5c. Agr 11—1179/2

Food inspection decision 138. July 12, 1911. 1 p. † Agr 7—1659/2

Notice of judgment 895–987, food and drugs act. July 8–20, 1911. † Agr 8—878/4

ANIMAL INDUSTRY BUREAU

Animals imported for breeding purposes for which certificates of pure breeding have been issued by bureau: Horses, Jan.–Mar. 1911. July 15, 1911. 16 p. * Paper, 5c.

Eradication of cattle tuberculosis in District of Columbia; by R. W. Hickman. 1911. iii+231–242 p. ([Yearbook] separate 532.) [From Yearbook, 1910.] * Paper, 5c. Agr 11—822/2

Grading of cream; by B. D. White. 1911. ii+275–280 p. ([Yearbook] separate 536.) [From Yearbook, 1910.] * Paper, 5c. Agr 11—826/2

Method for separation of 7 permitted coal-tar colors when occurring in mixtures; by T. M. Price. July 22, 1911. 7 p. (Circular 180.) * Paper, 5c. Agr 11—1250/2

Service announcements 51; July 15, 1911. [1911.] p. 47–54. [Monthly.] ‡ Agr 7—1658/2

BIOLOGICAL SURVEY BUREAU

Game market of to-day; by Henry Oldys. 1911. iii+243–254 p. il. ([Yearbook] separate 533.) [From Yearbook, 1910.] * Paper, 5c. Agr 11—823/2

Our grosbeaks and their value to agriculture; by W. L. McAtee. June 30, 1911. 14 p. il. (Agriculture Dept. Farmers' bulletin 456.) * Paper, 5c. Agr 11—1239/2

Progress of game protection in 1910; by T. S. Palmer and Henry Oldys. June 29, 1911. 36 p. il. (Circular 80.) * Paper, 5c. Agr 6—1123/6

CHEMISTRY BUREAU

Detection and determination of small quantities of ethyl and methyl alcohol and of formic acid; by Raymond F. Bacon. July 14, 1911. 8 p. (Circular 74.) * Paper, 5c. Agr 11—1242/4

Inspection of imported food and drug products; by R. E. Doolittle. 1911. iii+201-212 p. ([Yearbook] separate 529.) [From Yearbook, 1910.] * Paper, 5c. Agr 11—820/3

Translocation of plant food and elaboration of organic plant material in wheat seedlings; by J. A. Le Clerc and J. F. Breazeale. July 15, 1911. 32 p. il. (Bulletin 138.) * Paper, 5c. Agr 11—1241/5

ENTOMOLOGY BUREAU

House flies; by L. O. Howard. July 31, 1911. 16 p. il. (Agriculture Dept. Farmers' bulletin 459.) * Paper, 5c. Agr 11—1251/2

White flies injurious to citrus in Florida; by A. W. Morrill and E. A. Back. July 12, 1911. 109 p. il. 10 pl. (Bulletin 92.) * Paper, 25c. Agr 11—1243/3

EXPERIMENT STATIONS OFFICE

Cheese and other substitutes for meat in diet; by C. F. Langworthy. 1911. iii+359-370 p. ([Yearbook] separate 543.) [From Yearbook, 1910.] * Paper, 5c. Agr 11—847/3

Courses in agriculture, horticulture, and allied subjects; by F. W. Rane. [Reprint 1911.] 15 p. ([Publication] 893.) [From Bulletin 164.] * Paper, 5c.

Experiment station record, v. 24, no. 7; June, 1911. 1911. cover-title, x+601-700 p. * Paper, $1.00 a vol. (6 nos., 2 abstracts, and an index). Agr 9—832/4

NOTE.—Mainly made up of abstracts of reports and publications on agricultural science which have recently appeared in all countries, especially the United States. Extra numbers, called abstract numbers, are issued quarterly, which are made up almost exclusively of abstracts, that is, they contain no editorial notes and only a limited number of current notes.

Same, v. 24, no. 8; abstract number. June 29, 1911. cover-title, xi+701-800 p. Agr 9—832/4

Same, v. 25, no. 1; July, 1911. 1911. cover-title, x+1-100 p. Agr 9—832/4

Experiment station work 64; May, 1911. July 10, 1911. 24 p. il. (Agriculture Dept. Farmers' bulletin 457.) * Paper, 5c. Agr 6—305/3

Same, v. 4, no. 4. July 21, 1911. iv+61-80 p. il. [Same as Farmers' bulletin 457.] * Paper, 5c. Agr 6—305/3

Irrigation in Arizona; by R. H. Forbes. June 30, 1911. 83 p. il. 1 pl. 3 maps. (Bulletin 235.) * Paper, 20c. Agr 11—1252/2

PORTO RICO AGRICULTURAL EXPERIMENT STATION

Annual report, [fiscal year] 1910. July 17, 1911. 44 p. 4 pl. (Experiment Stations Office. [Publication] 1359.) * Paper, 10c. Agr 6—1362/4

FOREST SERVICE

April field program [and Service notes], 1911. Apr. 15, 1911. p. 105-138, 16° [Quarterly.] ‡ Agr 9—1401

Chaparral, studies in dwarf forests, or elfin-wood, of southern California; by Fred G. Plummer. July 17, 1911. 48 p. il. 7 pl. map. (Bulletin 85.) * Paper, 15c. Agr 11—1244/2

Light in relation to tree growth [with bibliography]; by Raphael Zon and Henry S. Graves. June 30, 1911. 59 p. il. (Bulletin 92.) * Paper, 10c. Agr 11—1245/5

Scrub pine, Pinus virginiana; by W. D. Sterrett. July 22, 1911. 27 p. 1 pl. (Bulletin 94.) * Paper, 5c. Agr 11—1253/2

Uses of commercial woods of United States: 1, Cedars, cypresses, and sequoias; by William L. Hall and Hu Maxwell. June 30, 1911. 62 p. (Bulletin 95.) * Paper, 10c. Agr 11—1254/3

GOVERNMENT PRINTING OFFICE

DOCUMENTS OFFICE

Index to reports and documents of 61st Congress, 1st and 2d sessions, 1909–10, with numerical lists and schedule of volumes. 1911. no. 16, 396 p. * Cloth, 50c.

Same. (H. doc. 999, 61st Cong., 2d sess.)

Monthly catalogue, United States public documents, no. 198; June, 1911. 1911. p. 663–719. [A volume title-page for nos. 187–198 accompanies this issue.] * Paper, 10c. single copy, $1.10 a yr. 4—18088/2

Transportation, list of Government publications relating to roads, railroads, inland waterways, merchant marine, etc., for sale by superintendent of documents. [July, 1911.] 106+[1] p. narrow 12° (Price list 25, 2d edition.) †

INTERIOR DEPARTMENT

NOTE.—The decisions of the Department of the Interior in pension cases are issued in slips and in signatures, and the decisions in land cases are issued in signatures, both being published later in bound volumes at prices ranging from $1.05 to $2.00 per volume. Subscribers may deposit $1.00 with the Superintendent of Documents and receive the contents of a volume of the decisions of either kind in separate parts as they are issued.

[Decisions in appealed pension and bounty-land claims, v. 18, slips] 91-94; June 26-30, 1911. [1911.] [No. 91 is dated Apr. 16, 1910, no. 92 is dated Nov. 25, 1910.]

Decisions of Department relating to public lands, June, 1910-Mar. 1911; by George J. Hesselman. 1911. v. 39, xxii+638 p. [Also issued in separate signatures. These decisions are made up in the office of the Assistant Attorney-General for the Interior Department, but are promulgated by the Secretary of the Interior.] * Cloth, $1.75. 7—23651

Same, v. 40, [signatures] 1-7. [1911.] p. 1-112. 7—23651

Letter submitting telegram from secretary of Arizona in regard to school bonds of Maricopa County, requesting official notification that Arizona has not been admitted as State. July 1, 1911. 1 p. (H. doc. 84.) ‡

Magazine articles on national parks, reservations, and monuments. [1911.] 15 p. †

EDUCATION BUREAU

American schoolhouses [with list of references on school architecture and sanitation]; by Fletcher B. Dresslar. 1911. xv+133 p. il. 65 pl. 202 p. of pl. (Bulletin 5, 1910; whole no. 444.) *Paper, 75c.

Opportunities for graduate study in agriculture in United States; by A. C. Monahan. 1911. 16 p. (Bulletin 2, 1911; whole no. 447.) * Paper, 5c. E 11—1301/2

Report of commission appointed to study system of education in public schools of Baltimore. 1911. 112 p. il. 2 pl. (Bulletin 4, 1911; whole no. 450.) * Paper, 10c. E 11—1259/3

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington.

Alaska. Mineral resources of Alaska, report on progress of investigations in 1910; [articles] by Alfred H. Brooks and others. 1911. 333 p. il. 1 pl. 12 maps, 1 is in pocket. (Bulletin 480.) [Contains list of recent Geological Survey publications on Alaska.] * Paper, 40c. GS 5—752/3

Arizona. Results of spirit leveling in Arizona, 1899-1909; R. B. Marshall, chief geographer. 1911. 94 p. 1 pl. (Bulletin 463.) * Paper, 10c. GS 11—455/2

—— Same. (H. doc. 1441, 61st Cong. 3d sess.)

Arkansas. Results of spirit leveling in Arkansas, Louisiana, and Mississippi, 1896–1909; R. B. Marshall, chief geographer. 1911. 79 p. 1 pl. (Bulletin 458.) [Prepared in cooperation with Louisiana and Mississippi.] * Paper, 10c. GS 11—335/6

Birmingham folio, Ala.; by Charles Butts. [Library edition.] Washington, Geological Survey, 1910. cover-title, 24 p. il. 2 pl. 4 maps, large 4° (Geologic atlas of United States 175.) * Paper, 25c. GS 11—334/2

Brick. Production of sand-lime brick, [calendar year] 1910; by Jefferson Middleton. 1911. 6 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Chromite. Production of chromic iron ore, [calendar year] 1910; by Ernest F. Burchard. 1911. 5 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Gold. Advance chapter from Contributions to economic geology, [calendar year] 1910, pt. 1: Gold and silver [with list of Geological Survey publications; articles] by J. S. Diller, E. S. Larsen, J. T. Pardee, F. C. Schrader, R. W. Stone, J. M. Hill, and Sidney Paige. 1911. 122 p. il. 3 maps. (Bulletin 470 B.) * Paper, 15c.

Kansas. Quality of water supplies of Kansas, by Horatio Newton Parker; with Preliminary report on stream pollution by mine waters in southeastern Kansas, by E. H. S. Bailey. 1911. 375 p. il. map. (Water-supply paper 273.) [Prepared in cooperation with Kansas State Board of Health.] * Paper, 30c. GS 11—460/5

LAND OFFICE, GENERAL

NOTE.—The General Land Office publishes a large general map of the United States, which is sold at $1.00; and also separate maps of the States and Territories in which public lands are to be found, which are sold at 25c. per sheet. California is in 2 sheets. Address the Superintendent of Documents, Washington, D. C.

Cunningham claims coal entries 1-33, Juneau, Alaska, series, United States v. Andrew L. Scofield et al., decision of commissioner of General Land Office, June 21, 1911 [etc.]. 1911. 66 p. * Paper, 5c.

Information relative to Fort Berthold Reservation in North Dakota and Pine Ridge and Rosebud reservations in South Dakota. [Sudwarth Printing Company, Washington, D. C.] June 29, 1911. 15 p. †

Opening Fort Berthold lands, proclamation [and regulations]. [Sudwarth Printing Company, Washington, D. C., June 29, 1911.] 13 p. †

Opening Pine Ridge and Rosebud lands, proclamation [and regulations]. [Sudwarth Printing Company, Washington, D. C., June 29, 1911.] 15 p. †

Maps

Florida, State of, from official records of General Land Office and other sources; compiled by A. F. Dinsmore. Scale 12 m.=1 in. Eckert Lithographing Company, Washington, D. C., 1911. 40.4 × 31.8 in. * 25c.

MINES BUREAU

Electrical Section of bureau, its purpose and equipment [with list of publications on mine accidents and explosives]; by H. H. Clark. 1911. 12 p. (Technical paper 4.) * Paper, 5c. 11—35576

Specifications for purchase of fuel oil for Government with directions for sampling oil and natural gas; by Irving C. Allen. 1911. 13 p. (Technical paper 3.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing.] * Paper, 5c. 11—35575

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

In Court of Appeals of District of Columbia, Oct. term, 1911, patent appeal no. 725, in matter of application of Patrick J. Madden, design for bowl of water-closet; brief for commissioner of patents. [1911.] cover-title, 16 p. ‡

Alphabetical scheme of Florida for use of publishers in distribution of 2d-class mail. 1911. 10 p. large 8° ‡

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given postoffice, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps, for which see Monthly catalogue for January, 1911, page 367.

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Description of new genus and species of hummingbird from Panama; by E. W. Nelson. Washington, Smithsonian Institution, July 8, 1911. [2]+2 p. (Publication 2015; Smithsonian miscellaneous collections, v. 56, no. 21.) † Paper, 5c.

NATIONAL MUSEUM

NOTE.--The publications of the National Museum comprise bulletins, annual reports, and an annual volume of Proceedings. The annual report is included in the Congressional set. The editions of the bulletins and Proceedings are too limited to admit of general distribution, and the volumes of the latter are sent only to libraries.

Allioniaceae of Mexico and Central America; by Paul C. Standley. [July 12] 1911. ix+377-430 p. 4 pl. (Contributions from national herbarium, v. 13, pt. 11.) * Paper, 10c. Agr 11—1236/4

Apogon. Notes on some fishes of genus Amia, family of Cheilodipteridæ, with descriptions of 4 new species from Philippine Islands, scientific results of Philippine cruise of fisheries steamer Albatross, 1907-10, no. 12; by Lewis Radcliffe. NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Supplement 3, 1911, corrections and additions to Bulletin 20; to supplement information given upon charts of Great Lakes. U. S. Lake Survey Office, Detroit, Mich. [July 21] 1911. p. 1–5+1. 6–15+[2] p. map, 4° † 8—35459/3

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{5}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index will be an index to the Monthly catalogue for July, August, and September, the December number will be an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Phillippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

Reprint no. 63 from Public health reports, vol. 26, no. 25, gives statistics of the continued prevalence of smallpox in this country which probably to most readers will seem startling. More than 30,000 cases were recorded in 1910. This seems a large number, but when it is remembered that it is the quota of a nation of 100,000,000, it will be seen that the percentage is small—infinitely small when compared with the frightful ravages of this loathsome disease before the discovery of vaccination. It is also to be noted that of the 30,000 cases only 415, or about 1½ per cent, resulted fatally. Though smallpox has not yet been exterminated, it certainly has been greatly diminished and modified, and the hope that it and other virulent diseases may in time be entirely extirpated no longer seems unreasonable.

Bulletin 5, series of 1910, Education Bureau, title, American schoolhouses, is one of those thorough-going, complete, satisfying treatises which illuminate their subjects and are soon accepted as authoritative handbooks. This, at least, is the estimate one is likely to place on it at a first hasty inspection, and the chances are that it will improve rather than otherwise on further acquaintance. It is not a discussion of education, but of the physical facilities for education, and it seems to leave no side of this subject untouched. It is distinctly modern and will be a revelation to all "old school" officials who may read it. It is much to be hoped that it will be read by many such officials, for the greater the number the greater the good that will follow. American schoolhouses is a stout pamphlet, for though it has only 133 pages of text its proportions are swollen by the 267 plates and 12 figures with which it is illustrated. The examples of convenient and sanitary and beautiful school architecture which it reproduces should excite the ambition of all school officials in the country to as close imitation as their means will permit. One of the lessons to be learned from this book is that good and useful buildings do not necessarily call for large outlay. This American schoolhouse handbook, in paper covers, may be bought from the Superintendent of Documents for 75 cents. The catalogue entry for this bulletin appears in the July Monthly catalogue, page 32.

A new public document has the title Natural history of the American lobster, carrying perhaps an ambiguous sound to the ears of readers who recall that in the United States language the subject word of this title has varied meanings. In this case it means an edible crustacean (Homarus americanus). The work, which is written by Dr. F. H. Herrick, professor of biology, Western Reserve University, is a separately printed advance chapter from Fisheries Bureau Bulletin, vol. 29, not yet published. The separate is known as Fisheries Bureau document 747. It is a royal octavo of 259 pages and 20 plates, several of them colored to the life. The same author wrote the lobster chapter published by the Fish Commission in 1895, but he says that in the last 15 years so much more has been learned of the lobster that it is now perhaps the best known of the invertebrates. Its artificial propagation, at first unsuccessful, has now become highly successful and all fears of a lobster famine have vanished. This book literally turns the creature inside out and leaves the reader no excuse for failing to become lobster-wise. Sold by the Superintendent of Documents at 50 cents.

Another section of the classification of the Library of Congress has been published. It is class A, general works, polygraphy. Sold by the Superintendent of Documents, price 10 cents.

The 1910 annual report of the Civil Service Commission, dated Mar. 3, 1911, finds the outlook for the merit system very gratifying. The number of positions subject to competition has increased from 13,924 in 1883 (when the civil service law was enacted) to 222,278 in 1910. The increase is due to several reasons, among them the extension of Governmental activities to new fields, such extensions having been facilitated by the merit system, which, in the opinion of the Commission, provides the only practicable method of obtaining qualified persons for scientific, technical, and professional work. But 19 special exceptions to appointment under the civil service rules were authorized by Executive order during the year and of these 17 had passed examinations. The President has directed that all applications to him for appointment by Executive order shall be referred to the Civil Service Commission for report.

Agriculture Department Circular 37 is in relation to a national law to prevent the importation of insect-infested or diseased plants. Such a law has been advocated by the Department for some time past, and the circular cites in support the law of a few years ago, barring out diseased or injurious birds or beasts, which has been of great value to the country.

Farmers' bulletin 470 is a compilation of the game laws for 1911. All Farmers' bulletins are sold by the Superintendent of Documents at 5 cents each. Title, contents, and index, for use in binding Farmers' bulletins 426–450 into a permanent volume, have been issued in a pamphlet which the Superintendent of Documents sells at 5 cents.

The beginning of a new series is Insecticide decision no. 1. It is signed by the four members of the Insecticide and Fungicide Board, Agriculture Department. The new board was created by Secretary Wilson's General order 143, Dec. 22, 1910, issued under authority of the act of Apr. 26, 1910, fortified by an appropriation granted Mar. 4, 1911. The purpose of the Board is to pass upon the purity and efficacy of commercial insecticides and fungicides. The members are Marion Dorset (chairman), M. B. Waite, A. L. Quaintance, and J. K. Haywood.

Six more interesting papers in the Yearbook of agriculture for 1910 have been printed in separate pamphlets and are on sale at 5 cents each. The titles are: Community work in the rural high school; Cooperation in the handling and marketing of fruit; Mountain snowfall observations and evaporation investigations in the United States; Nitrogen-gathering plants; The agricultural duty of water; The respiration calorimeter and the results of experiments with it. Many other Yearbook separates are also now available.

Part 35 (Y to Zypkin) completes Animal Industry Bureau Bulletin 39, Index-catalogue of medical and veterinary zoology. Doubtless the 35 parts will some day be published as a volume, and a portly volume it will be. The aggregate of the prices of the parts is $3.40. They contain the catalogue of authors. The completed catalogue will be in three subdivisions—Authors, Subjects, and Hosts. One part of the subject catalogue, Trematoda and trematode diseases, has been published as Hygienic Laboratory Bulletin 37 (401 pages, 30c.). No part of the Hosts catalogue has yet been published.

The food laws of the United Kingdom and their administration, by F. L. Dunlap, is the title on the cover of Chemistry Bureau Bulletin 143, though on the title-page "Great Britain" is substituted for "United Kingdom," a distinction without a difference. This is the publication spoken of in the Congressional investigation of the Chemistry Bureau as having been published while the publication of the United States food laws was prevented. The latest publication of the full text of the State and United States food laws by the Chemistry Bureau was revised to July 1, 1905 (Bulletin 69, in 9 pts.). The latest publication of any kind made by the Chemistry Bureau concerning United States food laws is Bulletin 121, Food legislation during year ended June 30, 1908. Bulletin 143 is on sale at 5 cents.

Entomology Bureau Bulletin 91 has for title The importation into the United States of the parasites of the gipsy moth and the brown-tail moth: a report of progress, with some consideration of previous and concurrent efforts of this kind. This is a long title and correctly descriptive of the contents of the bulletin, which has 312 pages and is illustrated by 28 plates and 74 text figures. The publication must have great interest for naturalists and economists, because it tells a new story, that of the pursuit and destruction of insect pests by the agency of their parasites, scientifically assisted on a scale and by methods unknown before. For a decade or more New England has been trying to exterminate the destructive moths by man power, but men have proved unequal to the task. Insects must be fought with insects, and the methods of carrying such a war to a successful end are outlined in this important bulletin. Sold by the Superintendent of Documents at 65 cents. Bulletin 92 was entered in the July Monthly catalogue, page 14. The title of Bulletin 92, White flies injurious to citrus in Florida, has an odd sound due to the fact that the word "citrus" has been used so much as an adjective that one hardly recognizes it when it appears as a noun. It is, however, all right. Its use by the Entomology Bureau is in itself a guarantee of that, and the dictionary backs it up, thus: "Citrus, n. A genus of trees, including the orange, lemon, citron, etc."

Plant Industry Bureau Circular 82, Crop plants for paper making, illustrates its subject by being itself printed on five kinds of paper. The paper on which pages 1, 2, 19, and 20 are printed is made from cornstalks and cotton hulls; pages 3, 4, 17, and 18, from broomcorn stalks; pages 5, 6, 15, and 16, rice straw and spruce wood; pages 7, 8, 13, and 14, from broomcorn and poplar wood; pages 9, 10, 11, and 12, from cornstalks. All are fairly good white print paper.

The letter of Hon. Charles Nagel, Secretary of Commerce and Labor, advocating Federal charters for corporations, which is addressed to Hon. W. C. Adamson, Chairman of the House Committee on Interstate and Foreign Commerce, has been published in a pamphlet that can be procured from the Superintendent of Documents at 5 cents a copy.

A Digest of circular instructions to consular officers, May 27, 1908, to Jan. 1, 1911, has been published by the Consular Bureau, State Department. The Superintendent of Documents can supply copies at 5 cents.

Special consular reports, no. 46, Optical-goods trade in foreign countries (10c.); no. 47, Australia, its resources, industries, and trade, with suggestions as to its development as a market for American merchandise (10c.); and no. 48, Railway situation in China (5c.), are the latest numbers in this series.

Devil Postpile national monument is the euphonious title of the latest reservation set aside by the President for the protection of natural wonders. It is within the Sierra national forest, California, and it cannot be entirely given over to the owner of the Postpile (whatever that may be) because it has Rainbow Falls also within its limits, and if names go for anything the Falls are the greater attraction.

The 1909 issue of that standard annual, Mineral resources of the United States, is now on sale in cloth, vol. 1, 60 cents; vol. 2, 75 cents.

Geological Survey Bulletin 480, just published, is Mineral resources of Alaska, report on progress of investigations in 1910. It has 13 plates, one of which is a large map in a pocket, and 19 text figures. Price, 40 cents.

Water-supply paper 273, Quality of the water supplies of Kansas, should be of much interest to dwellers in the Sunflower State. It presents a great number of analyses of waters in all parts of the State.

Recent publications of the Mines Bureau are: Technical series 3, Specifications for the purchase of fuel oil for the Government; Technical series 4, The electrical section of the Mines Bureau, its purposes and equipment; Miners' circular 4, The use and care of mine-rescue breathing apparatus.

Internal revenue regulations 16, revised to July 1, 1911, seems intended to discourage the use of opium. It relates to the enforcement of the law of 1890, providing that only citizens of the United States who can give bond of $5,000 may manufacture opium for smoking and must pay a tax of $10 a pound on their product. The law of 1909 prohibits the importation of any opium except for medicine, and imposes penalties of confiscation, fine, and imprisonment for violation.

The new edition of Cavalry drill regulations is now on sale at 50 cents.

There is a new edition of the Navigation laws, the first since 1907. Obsolete provisions have been eliminated as well as new ones incorporated. The law as now in force is presented complete in one volume. $1.

American nautical almanac is sold by the Superintendent of nts at the uniform price of 30 cents a copy. The second edition and the first edition for 1912 are now in stock.

Vol. 20, Interstate Commerce Commission reports (decisions) is now on sale, in buckram, at $1.50. The index has been published in a separate pamphlet, price 10 cents.

Vol. 1, Court of Customs Appeals reports, containing the decisions of this new court from Apr. 1910, to Apr. 1911, has been published. It is in buckram, and sold by the Superintendent of Documents, at $1.00.

Vol. 20, Treasury decisions, Jan.-June, 1911, is now ready. Buckram, $2.00.

In the general arbitration treaties with England and France, now pending in the United States Senate, occurs an unusual use of the word "national" as a noun, in the phrase: "Each of the High Contracting Parties shall designate three of its nationals to act as Members of the Commission of Inquiry." Two dictionaries of high repute were unsuccessfully consulted for the diplomatic meaning of the word national, but the third dictionary (the Standard) yielded this satisfactory definition: "National, n. One who is a member of a nation; in a republic, a citizen; in a monarchy, a subject."

Manual of classification of the German Patent Office, 141 pages, royal octavo, has been translated and published by the United States Patent Office and copies may be had for 15 cents. This publication was entered in the July Monthly catalogue, page 35.

MUCH FOR LITTLE MONEY

In its closing hours the recent special session of Congress (62d Congress, 1st session) sent to press a whole flock of little 5-cent documents of unusual interest and importance. Here is a partial list:

Cotton bill veto message. (Senate doc. 108.)
Free list bill veto message. (Senate doc. 102.)
Statehood bill veto message. (House doc. 106.)
Wool bill veto message. (Senate doc. 101.)

Each of these pamphlets contains, besides the veto message, the full text of the measure vetoed.

The public health, address by the President at Philadelphia, May 4, 1911. (Senate doc. 84.)

Some defects in the Constitution of the United States, address by Chief Justice Clark of North Carolina at University of Pennsylvania, Apr. 27, 1906. (Senate doc. 87.)

Arbitration with Great Britain, text of treaty and message of President. (Senate doc. 91.)

Arbitration with France, authenticated copy and message. (Senate doc. 92.)

Arbitration with Great Britain, treaty with amendments proposed by Committee on Foreign Relations. (Senate doc. 93.)

Arbitration with France, treaty with amendments proposed by Committee on Foreign Relations. (Senate doc. 94.)

Comparison of House bill to reduce duties on manufactures of cotton with amendment proposed by Mr. La Follette. (Senate doc. 95.)

Report of the Committee on Foreign Relations upon the general arbitration treaties with Great Britain and France and the proposed Committee amendments; with appendices. (Senate doc. 98.)

Election and recall of Federal judges, speech of Senator Owen of Oklahoma, July 31, 1911. (Senate doc. 99.)

Recall of judges, address by T. J. Walsh of Helena, Mont., before Washington State Bar Association, July 28, 1911. (Senate doc. 100.)

Report by Senator Borah of Idaho, from Committee on Education and Labor, favoring the establishment of a children's bureau in the Commerce and Labor Department. (Senate rp. 141.)

PUBLICATIONS OF THIRTEENTH CENSUS

Requests for "the complete census of 1910," "abstract of the 13th census," "statistics of bonds and mortgages" in some special county, and such inquiries as "When will the complete census be ready?" "How many volumes in the 13th census and how can I get them?" continue to come to the Superintendent of Documents.

An answer here to these and similar questions may save some time and trouble in correspondence.

None of the final volumes or special reports of the new census has yet been printed, nor is any one of these expected for months or perhaps years to come. The publications made thus far are all in cheap unbound bulletin form, these being the publications which it is practicable to issue most promptly and cheaply for general distribution.

A list of those bulletins which at the time of writing had been published by the Census Bureau and put on sale by the Superintendent of Documents is given herewith.

Cities, final recapitulation of aggregate totals of population of cities of 25,000 and over at 13th census. 3 p. 5c.

Cities, population of cities of 25,000 and over, final revised announcement. 3 p. 5c.

Connecticut, number of inhabitants, by counties and minor civil divisions. 10 p. 5c.

Delaware, statistics of manufactures for State, cities, and industries. 16 p. 5c.

District of Columbia, statistics of manufactures for the District and industries. 13 p. 5c.

Hawaii, statistics of manufactures for Territory, cities, and industries. 15 p. 5c.

Maine, number of inhabitants, by counties and minor civil divisions. 13 p. 5c.

Maryland, number of inhabitants, by counties and minor civil divisions. 13 p. 5c.

Massachusetts, number of inhabitants, by counties and minor civil divisions. 12 p. 5c.

Nevada, statistics of manufactures, for State, cities, and industries. 13 p. 5c.

New Hampshire, agriculture, farms and farm property, live stock, principal crops, and farm expenses. 13 p. 5c.

New Hampshire, number of inhabitants, by counties and minor civil divisions. 8 p. 5c.

New Jersey, number of inhabitants, by counties and minor civil divisions. 14 p. 5c.

New York City, population by enumeration districts. 23 p. 5c.

Population by States and Territories. 7 p. (Bulletin 109.) 5c.

Porto Rico, statistics of manufactures for Territory, cities, and industries. 12 p. 5c.

Rhode Island, number of inhabitants, by counties and minor civil divisions. 7 p. 5c.

Statement showing result of enumeration according to 13th decennial census taken Apr. 15, 1910. 2 p. (61st Cong. 3d sess., Senate doc. 704.) 5c.

United States, population of counties and equivalent subdivisions. 30 p. 5c.

United States, population of counties and equivalent subdivisions. 2d edition. 30 p. 5c.

Vermont, agriculture, farms and farm property, live stock, principal crops, and farm expenses. 13 p. 5c.

Vermont, number of inhabitants, by counties and minor civil divisions. 9 p. 5c.

Wisconsin, agriculture, farms and farm property, live stock, principal crops, and farm expenses. 23 p. 5c.

VAN BUREN PAPERS

Calendar of the papers of Martin Van Buren is the latest addition made by the Library of Congress to the important series of publications guiding investigators to its collection of historical manuscripts. The names of Franklin, Jones, Monroe, Vernon-Wager, and Washington were already in the list, and the name of one who was Senator, Secretary of State, Minister to England, and President is not an unworthy compeer.

The word "calendar" in the library sense is not adequately defined in the dictionaries. A calendar of manuscripts is a calendar no doubt because its entries are arranged in chronological order. But it has come also to mean that calendar entries are not the skeleton entries of a catalogue, but are brief summaries or digests of the contents of the several papers recorded. Thus they have a genuine historical value, not supplying in full the place of the text, but going a good step toward it.

The date of the earliest entry in the Van Buren papers is 1703 and of the latest is 1862. There are of course many gaps, but the amount of material is large, filling a book of 757 pages, and Mr. Van Buren played so large a part in large affairs that his papers are of necessity historically important.

The volume is most copiously and thoroughly indexed and handsomely printed and bound. It is sold by the Superintendent of Documents at $1.00.

NEW LIST ON WOOL

Few things are more certain than that the next session of Congress will be the scene of a battle royal over "Schedule K", which is the schedule of the present tariff law that imposes duties on the importation of wool and the products of wool.

Therefore a timely publication will be the Select list of references on wool, with special reference to the tariff, which the Library of Congress has now in press.

This list will be an unusually large one, filling about 150 pages. Its references will be grouped under various subject headings, as Wool trade and economics, with special reference to the tariff, this being further subdivided under United States, General, Germany, Great Britain, British colonies, Other countries, and History. Sheep raising and Wool manufacture are similarly treated. References are given not only to books and periodicals, but also to the United States Consular reports and to the Congressional record for the recent called session of Congress. An author index and a subject index are supplied. The work will probably be out of press by the time this note reaches the reader.

This full and timely list will be sold by the Superintendent of Documents at a price not yet fixed, but sure to be very low, because, as required by law, it will be based on the cost of paper and printing only.

GREAT INVENTIONS DEDICATED TO THE PUBLIC

Major George Owen Squier, Signal Corps, U. S. Army, has had granted to him patents nos. 980,356, 980,357, 980,358, and 980,359, for "certain new and useful improvements in Multiplex Telephony and Telegraphy." All bear the same date of issue, Jan. 3, 1911. Each one, as published, is inscribed "Dedicated to the public," indicating that the inventor declines to make his inventions a monopoly for personal gain, but on the contrary throws them open unreservedly to public use. This is an act of remarkable generosity and public spirit. Similar inventions have heretofore yielded large profits to the inventors.

Major Squier sets forth several "claims" in his application for patents, but the chief one, and the only one readily grasped by the general reader, is in these words: "The invention has as its object the simultaneous transmission of a plurality of telephonic and telegraphic messages over a single telephonic circuit."

The history of the invention is given by the inventor in a recently-issued pamphlet of 102 pages entitled Multiplex telephony and telegraphy by means of electric waves guided by wires. It will not be attempted here to abstract the pamphlet. Only an electrical expert could do that. The Superintendent of Documents can supply copies at 15 cents in paper covers.

Major Squier's pamphlet is printed as Professional paper of the Signal Corps, U. S. Army, but without number. Beginning in 1881 and ending in 1885, the Signal Corps (then the Signal Service) printed Professional papers numbered 1-18. Evidently it is not intended that Major Squier's pamphlet shall be considered a continuation of that old series. Neither is a new series of Professional papers contemplated. If it were, Major Squier's pamphlet would be made no. 1 of that series. Is it intended that it shall be the lone and only unnumbered Professional paper of the Signal Corps?

REPRINTED BULLETINS, MINES BUREAU

The investigation of mine accidents and fuels having been by law transferred from the Geological Survey to the Mines Bureau, the bulletins resulting from those important lines of work were also transferred. The first editions of some of them having gone out of print, new prints, with new numbers, are in course of being made by the Mines Bureau, with results as indicated in the list following:

Geological Survey Bulletin	416	reprinted as Mines Bureau Bulletin	9

FEDERAL ANTI-TRUST DECISIONS

In the last moments preceding the final adjournment of the 1st session of the 62d Congress the House passed Senate concurrent resolution 3, providing for the compilation and publication of Federal anti-trust decisions, 1900–1911. Three thousand copies are ordered, 1000 for the Senate and 2000 for the House. The order will also carry with it automatically, under the printing law of 1895, an edition of nearly 500 copies for distribution to the depository libraries.

The dates fixed for the new compilation include those already covered by Finch's Federal anti-trust decisions, 1890-1906, published 1907, in 2 vols., and extend the period five years further, to 1911. The full title-pages of Finch's compilation read thus: "Federal anti-trust decisions; cases decided in United States courts, arising under, involving, or growing out of the enforcement of the anti-trust act of July 2, 1890 (26 Stat., 209) including a few somewhat similar decisions not based upon that act; prepared and edited by James A. Finch by direction of the Attorney General." Vol. 1 has the dates 1890–1899 and vol. 2 the dates 1900–1906.

These title-pages presumably indicate the scope of the new compilation, which, like the former one, is to be made under the direction of the Department of Justice. The character of the forthcoming publication is stated only in very general terms in the concurrent resolution.

EXECUTIVE JOURNALS OF THE SENATE

In the Monthly catalogue for May, 1910, was published a note on the several issues of the Executive journals, which are the journals of the proceedings of the Senate when in executive (secret) session. It is in these sessions that the President's nominations to office and the treaties which he has negotiated with foreign countries are considered. As these two classes of acts of the Chief Executive can not be consummated without the "advice and consent" of the Senate, the official record of the Senate's action in secret session is a historical document of the first order. This at least is the opinion of librarians, collectors, and scholars. The Senate apparently is not so much impressed with this view. If it were it would probably print larger editions of the Executive journals, so that at least the public libraries in the larger cities might have sets on file for consultation by all interested persons. This has been done only in the case of the first order for printing, made nearly a century ago.

The Executive journals are not currently printed like the Journals of the public proceedings of the Senate and the House. They are held in confidence until it is supposed no harm can result to the country or to individuals from their publication. The first order for such publication was made in 1828 and under it the Executive proceedings of the first 20 Congresses were printed in three volumes, the edition being 700 copies. The next order for publication was made in 1886 and called for the publication of the proceedings of the 21st–40th Congresses. One hundred copies were ordered and 125 copies were printed. This issue was in 13 volumes (numbered 4–16) but in 15 books, vols. 14 and 15 being each in 2 parts. The next order was made in 1901, and resulted in the issue of vols. 17–27, containing the executive proceedings of the 41st–51st Congresses. The number of copies was 250. The fourth order to print was adopted Jan. 10, 1911, providing for printing 250 copies of proceedings of the 52d–57th Congresses, Dec. 1891–Mar. 1903, and at the same time removing the injunction of secrecy therefrom.

The occasion for the note in the Monthly catalogue, May, 1910, was the appearance of vol. 28, the first one issued under the fourth (and thus far the final) order for printing. Vol. 28 contains the secret journals of the two sessions of the 52d Congress (Dec. 1891–Mar. 1893) and of a special session at the beginning of the 53d Congress (Mar. 4–Apr. 15, 1893). The occasion for the present note is the appearance of vols. 29–32, containing the Executive journals of the 53d–56th Congresses (Aug. 1893–Mar. 1901) and the special session of the Senate of the 57th Congress (Mar. 4–9, 1901). Vol. 29 (53d Congress) is in two parts or books, and so is vol. 31 (55th Congress). Vol. 30 (54th Congress) and vol. 32 (56th Congress) are single books. The whole set, from the 1st Congress to the 57th, is therefore 32 volumes in 36 books.

Vols. 29–32 are indexed in the same copious style first adopted in vol. 28. There are Alphabetical indexes, Geographical indexes, Diplomatic and consular indexes, Army indexes, and Navy indexes, one of each of these five for each session of Congress. Thus the volume for a Congress which has held three sessions has 15 indexes. In vol. 31, pt. 2 (55th Congress), these 15 indexes fill 1077 pages.

The note in the May, 1910, Monthly catalogue stated that the fourth order for printing the Executive journals was passed Apr. 20, 1910, and that it provided for printing to the end of the 58th Congress (Mar. 4, 1905). As the compilers of the Monthly catalogue do not have access to the manuscript Executive journals, this date was assigned on "information and belief," the information coming from a source believed to be authentic.

The apparent incorrectness of the date then given is now shown by printed copies of the resolution of Jan. 10, 1911. "tipped in" to vols. 29–32, evidently as an afterthought. This resolution, adopted in executive session, provides for printing only up to the end of the special session of the Senate of the 57th Congress, Mar. 9, 1901. Resolutions for printing were, it is believed, adopted on both of the dates named, the later one superseding the earlier.

SPEECHES WITHHELD FOR REVISION

On August 4, Rule 7, relating to the publication of "deferred speeches" in the daily Congressional record, was changed to require that the Senate proceedings be printed first in order, the House proceedings second, and the deferred speeches, or speeches withheld for revision, last.

This is a salutary change. For many years it had been the custom to give the right of way to speeches which had not been printed in regular order in the proceedings of the day when they were delivered, or, if not delivered, when permission to print them was granted by the House or Senate. When the orators were ready to have their speeches printed, first place was given them in the daily Record, crowding the current proceedings back to the rear part of the publication. Sometimes the speeches were many and long, making the reports of the proceedings appear remote and obscure in comparison. Evidently this was bad form, and it is in accord with good publishing practice that it has been amended.

There were also various rumors of rivalry among the orators for the conspicuous place on the front page. Now that there isn't any front page for speeches, one cause of contention has been happily removed.

In the bound volumes of the permanent edition of the Congressional record the speeches which, because of their being withheld for revision, have been printed out of their regular order in the daily Record are restored to their proper places in the proceedings. The only exception to this rule is the few speeches which are withheld so long that they are not printed at all in the daily Record and are not received in time to find a place in the bound volumes of the permanent edition. For these speeches it is sometimes necessary to publish an Appendix.

HOW ERRORS GET INTO THE DOCUMENT INDEX

Vol. 1, Annual report of the American Historical Association for the year 1908, was issued early in August, 1910, in its usual form and with perhaps something more than its usual store of historical papers. On its title-page it carried the customary legend, "In two volumes, Vol. I." Everything was very simple, correct, and familiar.

By the time vol. 2 came along in August, 1911, complications had arisen. For several years the 2d volume of the Historical Association report has been given up to the reports of the Historical Manuscripts Commission. The 8th report of this commission is a collection of the diplomatic correspondence of the Republic of Texas, edited by the late Professor Geo. P. Garrison of the University of Texas. Part 1 of this report was published as vol. 2 of the 1907 report of the Historical Association. It was expected that part 2 of the Texan diplomatic correspondence would be published as vol. 2 of the 1908 report, and so it has been, but with a difference. After contents and index had been made ready for printing it was discovered that the concluding part of the Texan correspondence was far too voluminous to be contained in one book, and it was therefore decided to publish vol. 2 of the 1908 Historical Association report in two parts or books, making it a 2-volume report in three books. The ordinary course would have been to divide the Texan correspondence into three parts, using the third part as the second volume of the 1909 Historical Association report. It was thought, however, that the index work, in which all of the Texan material was treated as belonging to the 1908 report, had progressed too far to permit of another arrangement.

This explanation seems due to librarians, because of the fact that the Historical Association report has never before been published in more than two books, and also because of the unusual methods adopted for indicating the division of vol. 2 into parts. On the title-page of the first part appears this somewhat complicated arrangement of volumes, parts, and titles:

Annual report of the American Historical Association for the year 1908
In two volumes
Vol. II (1)
Diplomatic correspondence of the Republic of Texas
Part II
Washington
Government Printing Office
1911

Not even a librarian would be likely to understand at first glance that the figure 1 inclosed in parentheses means that vol. 2 is in two parts, of which this is the first. The librarian will, however, by consulting the table of contents, discover that the instalment of the Texan correspondence fills 1591 pages, while vol. II (1) has but 807 pages, indicating that there must be another book to follow.

Book 3 of the 1908 report has this for title-page:

Annual report of the American Historical Association for the year 1908
In two volumes
Vol. II (2)
Diplomatic correspondence of the Republic of Texas
Part III

The unusual is always a little troublesome, no matter how simple it may appear when explained.

This case, however, is not altogether simple. There is another print of the Historical Association report, which of course its compilers did not take into account in making the innovations just spoken of. This is the Congressional print, which bears a document number assigned in the Government Printing Office, though not by the Superintendent of Documents. In the Congressional print the Historical Association report for 1908 is House document 137 of the 61st Congress, 2d session. The Document index for that session has been compiled, printed, and distributed by the Superintendent of Documents. It is a volume of 396 pages, compiled with great care and labor and some expense. It indexes alphabetically, by their titles, by the names of the Senators and Representatives presenting them, by the Committees reporting them, and also in their numerical order, the 4,311 documents and reports published by and for the session of Congress indicated. Those concerning which correct information was obtained are correctly indexed. These, of course, are nearly all of them. The American Historical Association report for

1908 is a conspicuous exception. Though the final copy of the Index was not sent to the Public Printer till April, 1911, only vol. 1 of the 1908 report had then been received, and no hint that vol. 2 was for the first time to be split into parts had been whispered. Consequently the 1908 report was listed as House document 137, 2 parts, as vols. 124 and 125, and as serial numbers 5827 and 5828. If the Superintendent of Documents had been fully informed, the listing would have been House document 137, 3 parts; vols. 124, 125, and 126; serial numbers 5827, 5828, and 5829.

The indexes to the numbered Congressional documents are sent to some hundreds of public, scientific, and university libraries for their guidance in cataloguing, classifying, and shelving the public documents which the Government of the United States sends to them as gifts. So far as the Historical Association report for 1908 is concerned, it will prove a false guide. It is impossible now to supply to the libraries a pt. 3 of House document 137, or a vol. 126, or a serial number 5829. They must list and label vol. 125 twice—as 125, pt. 1, and 125, pt. 2, and serial number 5828 as 5828, vol. 1, and 5828, vol. 2.

These are awkward and inefficient notations, which the Documents Office never uses except, as in the present instance, upon dire compulsion.

The Superintendent of Documents has of necessity so much to do with the public documents that to withhold information from him is dangerous, in the sense that it is likely to lead to annoyance and loss for many good and unoffending people who depend upon the Superintendent and his publications for their knowledge of Government documents.

THREE MORE CORRECTIONS

Let every librarian get her or his red pen and take down Statutes at large, v. 35, pt. 1, serial 4430, and the file of Consular reports for August, 1911.

In the Statutes, turn to page 49, where, opposite the caption of Chap. 106, will be found the side note "H. R. 4922." This should be S. 4922. The chapter, before it became a law, was Senate bill 4922, not House bill.

In serial 4430 (which is vol. 15, Senate documents, 57th Congress, 2d session) turn to document 209, page 93. There will be found a footnote citing House ex. doc. 25, 32d Cong. 2d sess. Change 2d session to 1st session.

In Daily consular and trade reports, Aug. 29, 1911, page 942, in a list of new Government publications, is this entry: "Detection and determination of small quantities of ethyl and methyl alcohol and of formic acid, 8 pages. Circular 180, Bureau of Chemistry." There is no circular 180 of the Chemistry Bureau. The title given belongs to Circular 74 of that Bureau.

ANOTHER INSTANCE

Something has been said elsewhere in this number of the awkward errors into which Document index, no. 16, was led through lack of information as to an unheralded innovation in the methods of publication of a number of the annual Report of the American Historical Association. A similar but not identical instance is among the month's document happenings.

A bureau issued a multigraphed circular announcing a forthcoming serial publication. This circular was apparently rather widely distributed. Among other things, it announced that under certain conditions the forthcoming publication would be supplied to applicants by the Superintendent of Documents. That official, however, had not been consulted, nor did the Bureau in question think it worth while even to send him a copy of its circular announcement.

Soon after the circulars were put in circulation the Superintendent of Documents began to receive letters asking for the new periodical. Answers were promptly returned stating that the Government had not issued such a publication. Fortunately, before this had gone very far an applicant inclosed in his letter the circular announcement which the bureau had sent him.

This was the first information received at this office as to the proposed new publication.

The Superintendent of Documents is in touch with the document-buying public, a fact worth remembering when a new Government periodical is to be launched.

CORRECTIONS FOR JULY, 1911, MONTHLY CATALOGUE

For "*Paper, 10c." in 3d line of entry with subhead South Dakota on page 34, read "*Paper, 5c."

For "*Paper, 10c." in 3d line of 5th entry under National Museum on page 47, read "*Paper, 20c."

For "Warrior River" in 2d line of 4th entry under Engineer Department on page 53, read "[Black] Warrior River."

EDUCATION BUREAU

Training of teachers of elementary and secondary mathematics, International Commission on Teaching of Mathematics, American report, committee 5. 1911. 23 p. (Bulletin 12, 1911; whole no. 459.) * Paper, 5c. E 11—1680

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington.

Alaska. Mineral resources of Alaska, report on progress of investigations in 1910; [articles] by Alfred H. Brooks and others. 1911. 333 p. il. 1 pl. 12 maps, 1 is in pocket. —— Results of spirit leveling in Texas, 1896–1910; R. B. Marshall, chief geographer. 1911. 133 p. 1 pl. (Bulletin 468; H. doc. 1462, 61st Cong. 3d sess.) [Prepared in cooperation with Texas.] * Paper, 10c. GS 11—456/3

West Virginia. Results of spirit leveling in West Virginia, 1909–10; R. B. Marshall, chief geographer. 1911. 54 p. 1 pl. (Bulletin 477.) [Prepared in cooperation with West Virginia.] * Paper, 5c. GS 11—487/2

MINES BUREAU

Binders for coal briquets, investigations made at fuel-testing plant, St. Louis, Mo.; by James E. Mills. 1911. 56 p. il. (Bulletin 24.) [Includes list of Geological Survey and Mines Bureau publications on briquetting. This is a reprint of Geological Survey Bulletin 343.] * Paper, 10c. 11—35646/2

Experimental work conducted in chemical laboratory of United States fuel-testing plant at St. Louis, Mo., Jan. 1905–July, 1906; by N. W. Lord. 1911. 51 p. (Bulletin 28.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing. This is a reprint of Geological Survey Bulletin 323.] * Paper, 10c. 11—35647

Publications of bureau, Sept. 1911 [and Publications that may be obtained through bureau and through Superintendent of Documents]. [1911.] 4 p. †

Tests of coal and briquets as fuel for house-heating boilers; by D. T. Randall. 1911. 44 p. il. 3 pl. (Bulletin 27.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing. This is a reprint of Geological Survey Bulletin 366.] * Paper, 10c.

Use and care of mine-rescue breathing apparatus [with list of publications on Mine accidents and explosives]; by James W. Paul. 1911. 24 p. il. (Miners' circular 4.) * Paper, 5c.

Utilization of fuel in locomotive practice; by W. F. M. Goss. 1911. 29 p. il. (Bulletin 35.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing. This is a reprint of Geological Survey Bulletin 402.] *Paper, 5c. 11—35648/3

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk Patent Office.

Alphabetical list of patentees to whom patents were issued, May, 1911 [with list of inventions]. [1911.] cxi p. large 8° [Monthly index to Official gazette.] * Paper, 10c. single copy, included in price of Official gazette for subscribers.

Same, June, 1911 [with list of inventions]. [1911.] xc p. large 8° [Monthly index to Official gazette.]

Same, July, 1911 [with list of inventions]. [1911.] lxxxix p. large 8° [Monthly index to Official gazette.]

Annual report of commissioner of patents [to Congress, with indexes to patentees, inventions, etc., calendar] year 1910. 1911. xii+1089 p. large 8° * Cloth, $2.00.

Same. (H. doc. 1348, 61st Cong. 3d sess.)

Classification bulletin, July, 1908–June, 1909, containing classification of subjects of invention [22], revised by Classification Division. 1911. 16 p. large 8° * Paper, 10c. 8—16238

Official gazette, Aug. 1–29, 1911; v. 169, no. 1–5. 1911. cover-title, 1190+[cxii] p. il. large 8° [Weekly.] * Paper, 10c. single copy, $5.00 a yr. 4—18256–8

NOTE.—Contains the patents, trade-marks, designs, and labels issued each week; also decisions of the Commissioner of Patents and of United States courts in patent cases.

Same [title-page, errata, index to decisions, etc., to] v. 167. 1911. [3]+987–990 p. large 8° * Paper, 10c. single copy, included in price of Official gazette for subscribers. 4—18256–8

RECLAMATION SERVICE

Reclamation record, v. 2, no. 20; Aug. 1911. [1911.] p. 217–230, 4° [Monthly.] 9—35252/3

NOTE.—The Reclamation record is sold for 50 cents per year. Subscriptions may be forwarded to the Chief Clerk, U. S. Reclamation Service, Washington, D. C., and remittances should be made payable to the Special Fiscal Agent, U. S. Reclamation Service.

INTERSTATE COMMERCE COMMISSION

NOTE.—The Commission furnishes its Annual reports and many minor publications gratuitously to those who apply for them, but the bound volumes of its decisions, usually known as Interstate Commerce Commission reports, are sold by the Superintendent of Documents. Beginning with v. 18, Opinion 1165, subscribers may deposit $1.00 with the Superintendent of Documents and receive the separate opinions which make up the bound volume of decisions, as they are issued.

Coal. No. 719, in Supreme Court, Oct. term, 1911, Interstate Commerce Commission and United States *v.* Baltimore & Ohio Railroad Company et al.; brief for commission. [1911.] cover-title, 53 p. ‡ 11—35736

Commerce. Act to regulate commerce as amended, and acts supplementary thereto, Commerce Court act, safety appliance acts, act requiring monthly report of accidents, arbitration act, hours of service act, boiler inspection act; revised to July 1, 1911. 1911. 112 p. *Paper, 10c. 11—35734

Decisions. Decisions, Dec. 1910–May, 1911. 1911. xxxvii+737 p. il. (Interstate Commerce Commission reports, v. 20.) * Cloth, $1.50.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given postoffice, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps, for which see Monthly catalogue for January, 1911, page 367.

PRESIDENT OF UNITED STATES

SMITHSONIAN INSTITUTION

Note.—In its lastest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Opinions [30–37] rendered by International Commission on Zoological Nomenclature. Washington, [Smithsonian Institution] July, 1911. p. 69–88. (Publication 2013.) † Price on application. 10—35963/3

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Supplement 4, 1911, corrections and additions to Bulletin 20; to supplement information given upon charts of Great Lakes. U. S. Lake Survey Office, Detroit, Mich. [Aug. 21] 1911. p. 1–5+l. 6–18+[2] p. 4° † 8—35459/3

Charts

Detroit River. Chart of, scale 1:40,000; with inset, Lower Detroit River, showing available channel and positions of aids to navigation, scale 1:25,000. [U. S. Lake Survey Office, Detroit, Mich.] Aug. 15, 1911. 43.1 × 24.3 in. † 15c.

‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index will be an index to the Monthly catalogue for July, August, and September, the December number will be an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Phillippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

The present (2d) Isthmian Canal Commission has reprinted from the 1899–1901 report of the first Isthmian Canal Commission the special report of Commissioner Emory R. Johnson on the industrial and commercial value of the Isthmian canal. This report was written at the request of Professor Johnson's fellow members of the Commission and was published as Appendix NN of the 1899–1901 report. The original plates were used in making the reprint, and copies in paper covers can be supplied by the Superintendent of Documents at 20 cents. The author is professor of transportation and commerce in the University of Pennsylvania.

Miscellaneous series 6, Manufactures Bureau, which appeared in the July Monthly catalogue, page 21, is entitled Promotion of commerce, outline of the service maintained by the Bureau of Manufactures and other bureaus and offices of the Government of the United States. It points out the various ways in which the work of numerous Government offices promotes commerce by supplying information, both technical and general. The extensive distribution of public documents by the Superintendent of Documents has not been overlooked in this enumeration.

The Bulletin of the Pan American Union has now become four monthly bulletins, one in the English language, one in Spanish, one in Portuguese, and one in French. At first there was one magazine in four languages; then there were two, one of them in English and the other in the three European languages spoken in some one or more of the Latin-American republics. The latest and present form is probably final. Each language having now its own magazine, it does not seem possible to do much more for them. There is of course some duplication in the four magazines, but there is sufficient variance in both text and illustrations to fully warrant the designation of each of the four as a distinct magazine. The Bulletin continues to be the most beautifully printed and illustrated magazine (or magazines) in the country.

Sixty-second Congress, Senate document 98, is a reprint of Senate executive reports 1 and 2 of the same session. Executive reports are those made in the executive (secret) sessions of the Senate. They do not reach the public unless they are ordered reprinted in the regular numbered series of documents, as is the case in this instance. The two reprinted reports are those of the majority and minority of the Committee on Foreign Relations on the peace treaty negotiated during the present year with Great Britain by which the scope of arbitration is enlarged beyond any prior international agreement. The majority report, opposing ratification, was presented by Senator Lodge, and the minority report, favoring ratification, was presented by Senator Root with the concurrence of Senators Cullom and Burton. Senator Burton also made a supplemental report which is included in the document. There are also Appendixes A, B, and C, giving the text of the treaty under discussion and of two prior arbitration treaties, 40 pages altogether. There are two prints of Senate document 98, the first one not having the views of the minority. Senate document 98 is listed in the August Monthly catalogue, page 97.

Ethnology Bureau Bulletin 43, Indian tribes of the lower Mississippi Valley and the adjacent coast of the Gulf of Mexico, is priced at 80 cents in cloth covers. It has many illustrations.

The Appointments Bureau of the State Department issues three series of publications, entitled respectively Information regarding appointments and promotions in the consular service of the United States; Information regarding appointments and promotions in the diplomatic service of the United States; Information regarding appointments and promotions in the student-interpreter corps of the United States in China, Japan, and Turkey. Three editions have been issued thus far for the consular service and two each for the diplomatic service and the student-interpreter corps.

House resolution 285, providing for printing 5000 copies of the Judiciary chapter of the new revision of the Revised statutes, and House resolution 286, providing for printing 5000 copies of the Penal code, which is another part of the new revision, were both agreed to in the closing days of the recent Congressional session. The reprints are in slip-law form—uncovered pamphlets. The Penal code is Public 350, 60th Congress, 2d session, and the Judiciary chapter is Public 475, 61st Congress, 3d session. These are the only published fruits thus far of the revision which was begun by a commission in 1897 and was turned over by the commission to Congress in December, 1906.

Carlisle and the red men of other days is the title of a pamphlet, handsome typographically and interesting historically, from the press of the Government Indian School at Carlisle, Pa., where the work is all done by red men of the present day.

Among the valuable "separates" just now being reprinted from the Annual report of the Office of Experiment Stations, Agriculture Department, is one called The results of agricultural extension in Belgium, which embodies lessons of much value to American agricultural communities. Other separates from the same volume describe the Irrigation investigations and the Drainage investigations of the Office for 1910. The three at 5 cents each.

The Commerce Court has published its first docket, for the October session, 1911.

Senators Sutherland and Chamberlain, Representatives Brantley and Moon, President Brown of the New York Central Railroad, and

Editor Cease of the Railway trainman are the members of the Employers' Liability and Workmen's Compensation Commission. The hearings they have held and the briefs which have been filed with them have been printed as Senate document 90, 62d Congress, 1st session, in two volumes.

Senate document 77, 62d Congress, 1st session, Chugach national forest lands in Alaska, is President Taft's message transmitting to the Senate information relating to the Controller Bay lands and refuting sundry attacks which have been made concerning the course of the Administration. This was noted in the August Monthly catalogue, page 112.

A new publication which must be of permanent value as a reference work for lawyers is a Digest of the opinions and briefs of the Solicitor of the Treasury for thirty years, 1880–1910.

The Annual report of the Alaska Agricultural Experiment Stations, a pamphlet of 85 pages and 13 plates, can be supplied for 15 cents. The plates indicate almost tropical luxuriance among the glaciers.

The Library of Congress list of references on wool, concerning which a descriptive note was printed in the August Monthly catalogue, is now on sale by the Superintendent of Documents at 20 cents.

Public Roads Office Bulletin 39, Highway bridges and culverts, is a practical treatise for which a wide demand may be safely predicted.

Hygienic Laboratory Bulletin 77 has the general title, Sewage pollution of interstate and international waters, with special reference to the spread of typhoid fever. Part 1 considers the waters of Lake Erie and the Niagara River.

Animal Industry Bureau Bulletin 141 has for title The improvement of the farm egg. Of course the farm egg is a hen's egg, but the conclusion that the purpose of the bulletin is to teach farm hens to lay better eggs would be far-fetched. The instructions are to farmers and egg-buyers on the care of eggs, so that they may not be injured. The instructions are practical and enforced by illustrations and examples. Paper, 10 cents.

The Government Hospital for the Insane, located in the District of Columbia, has issued no. 3 in its bulletin series. The new number contains 14 papers on themes related to the work of the Hospital, illustrated by 15 plates and 9 figures. It contains also a bibliography of the published work of members of the Hospital Staff.

Chemistry Bureau Bulletin 141 is entitled Experiments on processing of persimmons to render them nonastringent. If modern chemists can take the astringency out of a green persimmon no other problem should daunt them. Price, 10 cents.

The 1911 edition of Infantry drill regulations is now on sale, fabricoid, 35 cents. It contains important changes in the Manual of arms which take effect at once.

The report of the commissioner of corporations on the system of taxing corporations in Ohio, Indiana, Illinois, Michigan, and Wisconsin, being Part 3 of the general report on Taxation of corporations, is now on sale at 15 cents in paper.

Chemistry Bureau Bulletin 134, Maple-sap sirup, first issued October 28, 1910, has now been reprinted. The demand for the first edition soon outran the supply, an experience which is likely to be repeated with the second edition. Paper, 25 cents.

New bulletins of the Education Bureau, series of 1911, are: No. 3, Agencies for the improvement of teachers in service (15 cents); no. 5, Age and grade census of schools and colleges, a study of retardation and elimination (10 cents); no. 10, Bibliography of education, July 1, 1909–June 30, 1910 (15 cents); no. 11, Bibliography of child study, 1908–09 (10 cents).

Advance announcements have been made of two important monographs of the Geological Survey. Vol. 51, Cambrian Brachiopoda, by Dr. Charles D. Walcott, will be bound in two volumes, one of text and one of plates. Vol. 52, The geology of the Lake Superior region, by President Van Hise and Professor Leith of the University of Wisconsin, will have 641 pages, 49 plates, and 76 text figures, and will be sold at $2.50. The Survey edition of the monographs is issued in cloth. The monographs have also Congressional editions. Vol. 51 is House document 119, in 2 parts, forming vol. 53, parts 1 and 2, in the set of House documents. Vol. 52 is House document 114, and vol. 54 of the House document set. All of the 61st Congress, 2d session.

Professional paper 70, United States Geological Survey, The Mount McKinley region, Alaska, has for subject the highest mountain in United States territory, and for that and other reasons is of unusual interest. The sale price is 70 cents in paper covers, this being the only form in which this important series of geological publications is issued for distribution. This was listed in the August Monthly catalogue page 102.

In the July, 1910, Monthly catalogue of public documents three "separates" from Labor Bureau Bulletin 88 were listed. Recently the Publications Division, Commerce and Labor Department, when compiling a list of the Department's publications, discovered these entries. As the Division knew that it had never ordered the publication of any separates from a Labor Bureau Bulletin, and as it was confident that nobody else had any right to order them, inquiry of course followed. It even went so far as to point the finger of suspicion at the Superintendent of Documents, who never prints anything outside of his own lawful field. Finally it was ascertained that the separate prints of the chapters in question had been ordered by a Senate committee which had a sweeping authorization to print anything it liked relating to the subject it was investigating. The three separates will not be included in the forthcoming list of publications of the Commerce and Labor Department.

WORKINGMEN IN EUROPE

The second volume of the Annual report of the commissioner of labor for 1909 has been issued, completing a comprehensive study of workmen's insurance and compensation systems in Europe. The first volume described conditions in Austria, Belgium, Denmark, France, and Germany and was listed in the February Monthly catalogue, page 406. The volume now issued relates to Great Britain, Italy, Norway, Russia, Spain, and Sweden.

These large volumes can be supplied as follows: Vol. 1, in paper covers, $1,00, in cloth binding, $1,10. Vol. 2, in cloth only, $1.00.

Some of the European countries are well in advance of America along these important lines.

NEW SERIES

The Standards Bureau has issued the first of a series of Technologic papers. Those who may receive it should disregard the words "Vol. 1, No. 1" in fine type in the running headlines over the pages. When these words were used it was the intention to make a set of volumes, but it is now the purpose to issue the Technologic papers under numbers only. No. 1, The effect of preliminary heating treatment upon the drying of clays, is a reprint from the Bulletin, vol. 7, no. 2, issued also as Bulletin separate reprint 151, incorrectly numbered 152, but the later numbers will be original papers.

Hardly any other Government bureau is so fertile in new series of publications as the Interstate Commerce Commission. One of the latest, having on its cover the words "First issue, effective on Jan. 1, 1912," is entitled Regulations to govern the issue and recording of passes of steam roads, as prescribed by the Interstate Commerce Commission in accordance with sec. 20 of the act to regulate commerce.

A MISSING NUMBER RESTORED

The number 75 in the series of numbered bulletins of the Forest Service would in the ordinary course have been printed several years ago, no. 74 having been published in 1907 and no. 76 in 1909. But no. 75 was skipped and at one time was said to be abandoned altogether.

It has now turned up in good form, the title being California tanbark oak. It is in three parts, and its chief purpose is to promote the utilization of the wood as well as the bark of this tree. Tests have shown that the wood is as valuable as that of the eastern oaks.

ANTI-TRUST DECISIONS

The new edition of Federal anti-trust decisions, authorized by Congress at its latest session, to be compiled by the Justice Department, it is now ascertained will be published in five volumes.

It will include the material contained in the two volumes of Finch's Anti-trust decisions, 1890-1906, and that which has since accumulated.

A FEW CORRECTIONS FOR THE BENEFIT OF LIBRARIANS

In the List of its publications, 1867–1910, the Education Bureau says, on page 24, in brackets, that its Circular of information 26, issued February, 1872, Reports on the system of public instruction in Greece, is by John M. France. Mr. John Morgan Francis, editor of the Troy, N. Y., Times, was American Minister to Greece in 1872, and beyond all reasonable doubt the author of the Reports in question. Mr. Francis died in 1897.

In the Congressional record for August 15, 1911 (v. 47, no. 106, p. 4136), is reported the introduction of House resolution 285, providing for the printing of 5,000 copies of public law no. 350, 60th Congress, 2d session, entitled "An act to codify, revise, and amend the criminal laws relating to the judiciary." It would be rather alarming if it were necessary to have a code of criminal laws relating to the judiciary. But of course the title is erroneous. The correct title of public law 350, 60th, 2d, is "An act to codify, revise, and amend the penal laws of the United States." Nevertheless, the erroneous title was reproduced in House report 151, recommending the adoption of the resolution. Finally, however, the error was discovered, a corrected print of report 151 was made, and the proper correction was also made for the permanent bound edition of the Record. The error was caused by an accidental mixing of the titles of House resolutions 285 and 286.

WASHINGTON'S WILL

Sixty-second Congress, first session, Senate document 86, will surely be received in the libraries with interest, and probably with surprise, due to the claim of its title that it is " the only authenticated copy " of the last will and testament of George Washington.

This claim presumably rests upon the fact that it contains a certificate of the clerk of the county court of Fairfax County, Virginia, that this copy agrees with the manuscript copy in his office. A like claim is made, however, and no doubt with equal validity, for the pamphlet edition of the will published in Alexandria, Va., in the year 1800. During the same year—the next after Washington's death—editions were published in Philadelphia, New York, and London, and it was included in the pages of the Universal magazine for April, 1800. All of these prints are in the Toner collection in the Library of Congress. The will, with its schedule and notes, was also printed in Sparks's Writings of Washington, 1837, in Ford's Washington wills, 1891, and in Ford's Writings of Washington, 1899. Partial publication has been made in Irving's and other of the numerous lives of Washington. In short, the will is a much-published document, though no one can well say that it has been too much published, its value being beyond question and no more completely characteristic Washingtonian document being known. Senate document 86 is, however, so far as discovered at this writing, the only Government print of it. This is a reprint of the second edition of a pamphlet unofficially published, first, in Washington, 1868, and second, in Wilmington, Del., 1876. It has been sent, as required by law, to the nearly 500 designated depository libraries throughout the country, and in due course will go also to the foreign libraries and learned societies embraced in the Smithsonian Institution's system of international exchange. As there are shortcomings in the document which are likely to prove puzzling to librarians, it would seem that those hard-worked bibliophiles are justly entitled to a few words of explanation.

Following is a complete transcript of the title-page of the pamphlet of which Document 86 is a reproduction:

"The only authenticated copy, full and complete, of the last will and testament of George Washington, of Mount Vernon, embracing a schedule of his real estate and explanatory notes thereto by the testator. To which is added important historical notes, biographical sketches and anecdotes. Second edition, by W. H. Newton." In the center of the page is a woodcut reproduction of the Stuart portrait of Washington.

It will be seen that the imprint gives neither date nor place of publication, and that the title-page of Document 86 copies faithfully the greater part of that of the old pamphlet, even to the singular verb "is," which should be "are." The order of the words, however, is transposed and the portrait is omitted, this omission being more than supplied by the vignette on steel printed as a frontispiece, Another and more important omission is the name of the publisher, W. H. Newton. Mr. Newton is not known to fame, except as the ostensible author of the notes which follow the will in his pamphlet. That he should be robbed of credit for these—a credit which really belongs to his predecessor, the publisher of the first edition—is not so important as the fact that the omission of his name leaves the United States Government the responsible authority for the statement that this publication is the "only authenticated copy" of Washington's will. The omission also, by leaving the publication without a personal publisher, gives a touch of absurdity to the entry. "Notes by the publisher," found in the table of contents. Librarians will notice also in the table of contents "Preface to the first edition" and "Preface to the second edition," said to be on pages v and vi. These pages contain other matter, and the prefaces do not anywhere appear. They are neither in the old pamphlet nor the new. Apparently a leaf containing pages v and vi has been lost out of the old pamphlet, though this cannot be positively determined, because in that print the pages preceding the will itself have neither Roman nor Arabic pagination.

The dedication which, with a rude and inaccurate woodcut copy of Washington's bookplate (not his coat of arms, as stated in the table of contents), occupies page iv, is in the 1876 pamphlet signed by W. H. Newton, but in Document 86 the signature is omitted, leaving the dedication without a parent. Another omission, most important of all, is that of the entire contents of the verso of the title-page, as follows:

"Entered according to Act of Congress A. D. 1868 by A. Jackson, in the clerk's office of the Superior Court of the District of Columbia.

"Transfer of copyright entered in accordance with law in the year 1876, by Wm. H. Newton, in the office of the Librarian of Congress, at Washington.

"James & Webb, printers, Wilmington, Del."

These facts as to the place of publication and the date of copyright will be interesting and valuable to librarians, and taken in connection with Note 24½, found on page 66, they seem to indicate that this second edition of the old pamphlet was printed for some kind of use at the Centennial Exposition, Philadelphia, 1876.

Apparently no harm would have been done by permitting these facts to appear in the Government print, though the copyright is a sort of imposition. Nobody could copyright Washington's will. The only matters subject to copyright in the 1868 and 1876 pamphlets are the title-pages and the Notes supplied by the publishers, which are of but slight historical value.

Those who feel sufficiently interested may examine, in the Library of Congress, the first edition of the will pamphlet. Its imprint is "A. Jackson, publisher, Washington, D. C., 1868," and its title, more modest than that of the second edition, is "Authenticated copy," etc., not "The only authenticated copy, full and complete." It was not until after the transfer of the copyright to Newton, in 1876, that such a claim was set up.

The chief differences between the two editions are (1) that the first is dedicated to W. W. Corcoran of Washington, while the second (from which the Government reprint has been made) has a general dedication to all who cherish the memory of Washington; (2) that the first edition contains facsimile letters from Salmon P. Chase and Charles Sumner, commending the project of publishing the will; (3) that the first edition contains one of the missing prefaces which are listed, but not printed, in Senate document 86; (4) that the first edition has five paginations, making 64 pages in all.

The Chase and Sumner letters do not appear in the second edition, presumably because they are addressed to Mr. Jackson, who is completely eliminated by the new owner of the copyright, Mr. Newton. Senator Sumner's letter shows that he accepted in full and without question Mr. Jackson's statement that until 1868 the Washington will had not been published in full. In view of Mr. Sumner's reputation for scholarship, this is somewhat surprising.

Mr. Jackson is clearly the author of the "Notes by the publisher" which appear in both the Jackson and the Newton editions and in the Government reprint. The only additions made in the 1876 edition to the Notes as they appear in the 1868 edition are nos. 19½, concerning Franklin's gold-headed cane, 22½, as to the whereabouts of Washington's Bible, and 24½, relating to the exhibition of Washington's swords at the Centennial Exposition, Philadelphia, 1876. The name of George Deneale, clerk of Fairfax County, correctly printed four times in the first edition, is twice printed G Geneale in the second edition and in the Government reprint.

Whatever omissions or errors occur in the Government print are also in the old pamphlet as supplied to the Government Printing Office. The instructions to the Government printers were to "follow literally" the copy supplied to them, and they did so.

Recent information concerning the will is of considerable interest. It is still in the courthouse at Fairfax. It has been recently repaired by Mr. William Berwick, the expert manuscript repairer of the Manuscripts Division, Library of Congress, and is now framed under glass, so that visitors may see it without harming it. At the time of making repairs three photographic copies were made, one of which is now in the Library of Congress.

The Washington Lodge of Masons of Alexandria, Va., of which Washington was once Worshipful Master, is planning the publication of a collection of Washington documents, and has obtained permission to have a facsimile of the will made for inclusion therein.

CORRECTIONS FOR MONTHLY CATALOGUES

March, 1911. For "Haker" as subhead for and also in 17th entry on page 509, read "Hacker."

July, 1911. For "* Paper, 15c." in 2d line of 2d entry under Patent Office on page 35, read "† Paper, $1.00."

August, 1911. For "15 cents" in 3d line of 5th paragraph on page 63, read "$1.00 and obtained from the Patent Office."

MONTHLY CATALOGUE

No. 201 **SEPTEMBER** **1911**

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Agricultural statistics, 1910, principal crops and farm animals, transportation rates, exports and imports of United States, and international trade in agricultural products. 1911. iii+499–713 p. ([Yearbook] separate 553.) [From Yearbook, 1910.] * Paper, 15c. Agr 6—1135/3

[Bureau of Animal Industry] order 178 amendment 3 to rule 1 revision 7, 182; Aug. 21, Sept. 13, 1911. [1911.] [Consist of orders concerning quarantine of cattle, etc.] †

Notice of judgment 1021–51, 1054–62, 1069–78, food and drugs act. Aug. 30–Sept. 29, 1911. † Agr 8—878/4

ANIMAL INDUSTRY BUREAU

Animals imported for breeding purposes for which certificates of pure breeding have been issued by bureau: Horses, Apr.–June, 1911. Sept. 15, 1911. 11 p. [Quarterly.] * Paper, 5c.

Fattening poultry; by Alfred R. Lee. Sept. 30, 1911. 60 p. il. 4 pl. (Bulletin 140.) * Paper, 10c. Agr 11—1615/3

Improvement of farm egg; by Harry M. Lamon and Charles L. Opperman. Sept. 12, 1911. 43 p. il. 4 pl. (Bulletin 141.) * Paper, 10c. Agr 11—1546/4

List of accredited veterinary colleges, revision of list contained in regulation 24, Bureau of Animal Industry Circular 150. [Aug. 22, 1911.] 2 p. (Circular 150 A.) * Paper, 5c.

Milk supply of Chicago [Ill.] and Washington [D. C.]; by George M. Whitaker. Sept. 28, 1911. 40 p. il. 8 pl. (Bulletin 138.) * Paper, 15c. Agr 11—1614/3

Service announcements 52 [53]; Sept. 15, 1911. [1911.] p. 63–69. [Monthly.] ‡ Agr 7—1658/2

BIOLOGICAL SURVEY BUREAU

Distribution of American egrets; by W. W. Cooke. Sept. 13, 1911. 5 p. il. (Circular 84.) * Paper, 5c. Agr 11—1541/2

Revision of spiny pocket mice, genera Heteromys and Liomys; by Edward A. Goldman. Sept. 7, 1911. 70 p. il. 3 pl. (North American fauna 34.) * Paper, 10c. Agr 11—1524/4

Three important wild duck foods; by W. L. McAtee. Sept. 9, 1911. 19 p. il. (Circular 81.) * Paper, 5c. Agr 11—1540/2

Woodpeckers in relation to trees and wood products [with bibliography]; by W. L. McAtee. Sept. 26, 1911. 99 p. il. 12 pl. (Bulletin 39.) * Paper, 30c. Agr 11—1616/2

CHEMISTRY BUREAU

Adulterations. Some forms of food adulteration and simple methods for their detection; by W. D. Bigelow and Burton J. Howard. Reprint Sept. 12, 1911. 60 p. (Bulletin 100.) * Paper, 10c. Agr 6—584/3

Chemical apparatus. Two new pieces of chemical apparatus: 1, Apparatus for continuous extraction of liquids with immiscible solvents lighter than water, 2, Apparatus for quantitative reactions which depend on measurement of evolved gas; by R. F. Bacon and P. B. Dunbar. Sept. 22, 1911. 3 p. il. (Circular 80.) * Paper, 5c. Agr 11—1610/5

Drugs. Action of drugs under pathological conditions [with bibliography]; by William Salant. Sept. 16, 1911. 16 p. (Circular 81.) * Paper, 5c. Agr 11—1611/2

Malic acid. Determination of malic acid; by P. B. Dunbar and R. F. Bacon. Sept. 13, 1911. 12 p. (Circular 76.) * Paper, 5c. Agr 11—1608/3

Maple-sap sirup, its manufacture, composition, and effect of environment thereon [with bibliography]; by A. Hugh Bryan. Oct. 28, 1910, reprint Sept. 28, 1911. 110 p. il. 1 pl. (Bulletin 134.) * Paper, 25c. Agr 10—1592/2

Oils. Fluorescent test for mineral and rosin oils; by Percy H. Walker and E. W. Boughton. Sept. 30, 1911. 2 p. (Circular 84.) * Paper, 5c. Agr 11—1617/4

Persimmons. Experiments on processing of persimmons to render them nonastringent, by H. C. Gore; with introduction, by David Fairchild. Sept. 29, 1911. 31 p. il. 3 pl. (Bulletin 141.) * Paper, 10c. Agr 11—1618/3

Poultry. Studies on chicken fat: 1, Occurrence and permanence of lipase in fat of common fowl, Gallus domesticus, by M. E. Pennington and J. S. Hepburn; 2, Oxidation of chicken fat by means of hydrogen peroxid, by Joseph S. Hepburn. Sept. 18, 1911. 11 p. (Circular 75.) * Paper, 5c. Agr 11—1609/4

Tin salts in canned foods of low acid content, with special reference to canned shrimp; by W. D. Bigelow and R. F. Bacon. Sept. 11, 1911. 6 p. (Circular 79.) * Paper, 5c. Agr 11—1542/4

ENTOMOLOGY BUREAU

Boll weevil problem, with special reference to means of reducing damage; by W. D. Hunter. Reprint Sept. 13, 1911. 46 p. il. (Agriculture Dept. Farmers' bulletin 344.) * Paper, 5c. Agr 9—69/2

Indian-meal moth and weevil-cut peanuts; by C. H. Popenoe. Sept. 16, 1911. ii+6 p. il. (Circular 142.) * Paper, 5c. Agr 11—1612/3

Papers on cereal and forage insects: 1, Lesser clover-leaf weevil [with bibliography], by F. M. Webster; 2, Slender seed-corn ground-beetle [with bibliography], by W. J. Phillips; 3, Clover-root curculio [with bibliography], by V. L. Wildermuth; 4, Sorghum midge, by W. Harper Dean; 5, New Mexico range caterpillar, by C. N. Ainslie; 6, Contributions to knowledge of corn root-aphis, by R. A. Vickery; 7, Smoky crane-fly [with bibliography], by James A. Hyslop; 8, Cowpea curculio [with bibliography], by Geo. G. Ainslie. 1911. xi+162 p. il. 5 pl. (Bulletin 85.) * Paper, 30c. Agr 11—1543/4

EXPERIMENT STATIONS OFFICE

Agricultural experiment stations. List of station publications received by office during Aug. 1911. [1911.] 6 p. ([Publication] 1400.) [Monthly.] † Agr 9—1395/2

—— Statistics of land-grant colleges and agricultural experiment stations, 1910; by M. T. Spethmann. 1911. ii+271–314 p. ([Publication] 1388.) [From Report, 1910.] * Paper, 5c. Agr 6—371/5

Belgium. Results of agricultural extension in Belgium; by J. M. Stedman. 1911. iii+425–447 p. ([Publication] 1391.) [From Report, 1910.] * Paper, 5c.

Cereal breakfast foods; by Charles D. Woods and Harry Snyder. Reprint Aug. 16, 1911. 32 p. (Agriculture Dept. Farmers' bulletin 249). * Paper, 5c. Agr 6—788/3

Drainage. Work of drainage investigations, 1909–10; by R. D. Marsden. 1911. iii+43–54 p. ([Publication] 1386.) [From Report, 1910.] * Paper, 5c.

Experiment station record, v. 25, no. 4; Sept. 1911. 1911. cover-title, ix+301–400 p. * Paper, $1.00 a vol. (6 nos., 2 abstracts, and an index.) Agr 9—832/4

NOTE.—Mainly made up of abstracts of reports and publications on agricultural science which have recently appeared in all countries, especially the United States. Extra numbers, called abstract numbers, are issued quarterly, which are made up almost exclusively of abstracts, that is, they contain no editorial notes and only a limited number of current notes.

Farmers' institutes in United States, 1910; by John Hamilton. 1911. ii+387–424 p. ([Publication] 1390.) [From Report, 1910.] * Paper, 5c.

Irrigation investigations, 1910; by Samuel Fortier. 1911. ii+37–43 p. ([Publication] 1385.) [From Report, 1910.] * Paper, 5c.

Nutrition. Origin and development of nutrition investigations of Office of Experiment Stations; by C. F. Langworthy. 1911. ii+449–460 p. ([Publication] 1392.) [From Report, 1910.] * Paper, 5c.

Report. Annual report, year ended June 30, 1910. Sept. 14, 1911. 512 p. il. 29 pl. ([Publication] 1364.) * Cloth, 60c. Agr 9—1394/2

CONTENTS.—Work of office.—Work and expenditures of agricultural experiment stations; by E. W. Allen and J. I. Schulte.—Statistics of land-grant colleges and agricultural experiment stations, 1910; by M. T. Spethmann.—Progress in agricultural education, 1910; by Dick J. Crosby.—Farmers' institutes in United States, 1910; by John Hamilton.—Results of agricultural extension in Belgium; translated by J. M. Stedman.—Origin and development of nutrition investigations of office; by C. F. Langworthy.—Irrigation under Carey act; by A. P. Stover.—Development of methods of draining irrigated lands; by C. G. Elliott.—Guam Agricultural Experiment Station and its work for fiscal year 1910; by John B. Thompson.

ALASKA AGRICULTURAL EXPERIMENT STATIONS

Annual report, [calendar year] 1910. Sept. 9, 1911. 85 p. 13 pl. (Experiment Stations Office. [Publication] 1361.) * Paper, 15c. Agr 6—1413/3

HAWAII AGRICULTURAL EXPERIMENT STATION

Leguminous crops for Hawaii; by F. G. Krauss. Sept. 20, 1911. 31 p. 8 pl. (Bulletin 23; Experiment Stations Office, [publication] 1362.) * Paper, 10c. Agr 11—1504/3

FOREST SERVICE

California tanbark oak: pt. 1, Tanbark oak and tanning industry, by Willis Linn Jepson; pt. 2, Utilization of wood of tanbark oak, by H. S. Betts; Appendix, Distribution of tannin in tanbark oak, by C. D. Mell. Sept. 20, 1911. 34 p. 10 pl. (Bulletin 75.) [See Notes of general interest, page 131.] * Paper, 15c. Agr 11—1606/6

Grazing and floods, study of conditions in Manti national forest, Utah; by Robert V. R. Reynolds. Sept. 15. 1911. 16 p. 5 pl. map. (Bulletin 91.) * Paper, 10c. Agr 11—1607/3

National forest manual: Trespass. 1911. 23 p. [To take effect Sept. 1, 1911, and to constitute a part of the Use book.] * Paper, 5c. Agr 11—1620/2

LIBRARY

Monthly bulletin, July, 1911, v. 2, no. 7. Sept. 15, 1911. p. 185-206. * Paper, 5c. single copy, 50c. a yr. Agr 10—620/2

PLANT INDUSTRY BUREAU

Alfalfa. Cold resistance of alfalfa and some factors influencing it: by Charles J. Brand and L. R. Waldron. Sept. 16, 1910 [reprint 1911, with slight changes]. 80 p. il. 4 pl. (Bulletin 185.) * Paper, 15c. Agr 10—1523/4

Botany. Description of comprehensive catalogue of botanical literature in libraries of Washington [D. C.]; by Alice C. Atwood. Sept. 9, 1911. 7 p. (Circular 87.) * Paper, 5c. Agr 11—1525/3

Bulletins of bureau, 206-212, 1911, v. 27 [title-page and contents]. 1911. 9 p. †

Forage crops for sand-hill section of Nebraska; by H. N. Vinall. Sept. 28, 1911. 23 p. il. (Circular 80.) * Paper, 5c. Agr 11—1619/4

Fruits recommended by American Pomological Society for cultivation in various sections of United States and Canada, revised by committee of American Pomological Society. June 26, 1909 [reprint 1911, with slight changes]. 69 p. map. (Bulletin 151.) * Paper, 15c. Agr 9—1562/3

Market gardening. Frames as factor in truck growing; by W. R. Beattie. Aug. 30, 1911. 29 p. il. (Agriculture Dept. Farmers' bulletin 460.) * Paper, 5c. Agr 11—1518/3

Pasture-land. Utilization of logged-off land for pasture in western Oregon and western Washington; by Byron Hunter and Harry Thompson. Sept. 8, 1911. 20 p. il. (Agriculture Dept. Farmers' bulletin 462.) * Paper, 5c. Agr 11—1545/5

Quack-grass. Eradication of quack-grass; by J. S. Cates. Aug. 31, 1911. 11 p. il. (Agriculture Dept. Farmers' bulletin 464.) * Paper, 5c. Agr 11—1519/2

Tulips. Directions for planting tulip and narcissus bulbs. Sept. 11, 1911. 1 p. †

PUBLIC ROADS OFFICE

Bituminous dust preventives and road binders; by Prévost Hubbard. 1911. iii+297–306 p. ([Yearbook] separate 538.) [From Yearbook, 1910.] * Paper, 5c. Agr 11—828/5

Examination and classification of rocks for road building, including physical properties of rocks with reference to their mineral composition and structure; by Edwin C. E. Lord. Sept. 14, 1911. 28 p. il. 10 pl. 1 tab. (Bulletin 37.) [Supersedes Bulletin 31.] * Paper, 15c. Agr 11—1613/3

Highway bridges and culverts; by Charles H. Hoyt and William H. Burr. Sept. 6, 1911. 22 p. il. 14 pl. (Bulletin 39.) * Paper, 15c. Agr 11—1523/4

PUBLICATIONS DIVISION

Monthly list of publications [of Agriculture Department], Aug. 1911. Aug. 31, 1911. 4 p. ([Publication] 742.) † Agr 9—1414/2

Publications of Bureau of Plant Industry. Edition of Sept. 14, 1911. [1911.] 15 p. (Circular 13.) † Agr 11—256/2

Publications of Bureau of Soils. Edition of Sept. 18, 1911. [1911.] 7 p. (Circular 14.) † Agr 11—273/2

Publications of Bureau of Statistics [of Agriculture Department]. Edition of Sept. 2, 1911. 5 p. (Circular 12.) † Agr 11—255/2

Publications of Office of Experiment Stations. Edition of Sept. 5, 1911. [1911.] 11 p. (Circular 17.) † Agr 11—363/2

SOILS BUREAU

Examination of soils for organic constituents, especially dihydroxystearic acid; by Oswald Schreiner and Elbert C. Lathrop. Sept. 5, 1911. 33 p.+[1] folded l. 2 pl. (Bulletin 80.) * Paper, 10c. Agr 11—1544/3

Soil survey of Bulloch County, Ga.; by Charles N. Mooney, R. B. Hardison, David D. Long, and W. C. Byers. Sept. 5, 1911. 52 p. il. map. [From Field operations, 1910.] †

Soil survey of Concordia Parish, La.; by Charles J. Mann, E. B. Watson, Percy O. Wood, and Risden T. Allen. Sept. 13, 1911. 35 p. il. map. [Prepared in cooperation with Louisiana Agricultural Experiment Station. From Field operations, 1910.] †

Soil survey of Livermore area, Cal.; by H. L. Westover and Cornelius Van Duyne. Sept. 6, 1911. 64 p. il. 2 maps. [From Field operations, 1910.] †

Soil survey of Sumter County, Ga.; by J. C. Britton and F. S. Welsh. Sept. 11, 1911. 47 p. il. map. [From Field operations, 1910.] †

Soils of river flood plains province. 1911. ii+207–252 p. il. 1 pl. [From Bulletin 78.] * Paper, 5c.

STATISTICS BUREAU

Crop reporter, v. 13, no. 9; Sept. 1911. Sept. 14, 1911. p. 65–72, il. 4° [Monthly.] * Paper, 5c. single copy, 60c. a yr.
Agr 9—1417/3

Foreign crops, Aug. 1911; by Charles M. Daugherty. Sept. 14, 1911. 14 p. (Circular 23.) *Paper, 5c. Agr 11—850/3

WEATHER BUREAU

Agriculture. Papers on climatology in relation to agriculture, transportation, water resources, etc.: Correlation; by J. Warren Smith. [1911.] 4 p. il. 4° [From Monthly weather review, May, 1911.] †

Climatological service, district 1, North Atlantic States, report for June, 1911; Wilford M. Wilson, district editor. 1911. 14 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.] * Paper, 5c. single copy, 50c. a yr. for each district.

Same, report for July, 1911; Wilford M. Wilson, district editor. 1911. 14 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 2, South Atlantic and East Gulf States, report for June, 1911; Charles F. von Herrmann, district editor. 1911. 16 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Charles F. von Herrmann, district editor. 1911. 15 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 3, Ohio Valley, report for June, 1911; Ferdinand J. Walz, district editor. 1911. 15 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Ferdinand J. Walz, district editor. 1911. 16 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 4, Lake region, report for June, 1911; Henry J. Cox, district editor. 1911. 11 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Henry J. Cox, district editor. 1911. 11 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 5, upper Mississippi Valley, report for June, 1911; George M. Chappel, district editor. 1911. 14 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; George M. Chappel, district editor. 1911. 14 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 6, Missouri Valley, report for June, 1911; Montrose W. Hayes, district editor. 1911. 21 p. il. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Montrose W. Hayes, district editor. 1911. 19 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 7, lower Mississippi Valley, report for June, 1911; Isaac M. Cline, district editor. 1911. 16 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Isaac M. Cline, district editor. 1911. 16 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 8, Texas and Rio Grande Valley, report for June, 1911; Bernard Bunnemeyer, district editor. 1911. 11 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Bernard Bunnemeyer, district editor. 1911. 11 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 9, Colorado Valley, report for June, 1911; Frederick H. Brandenburg, district editor. 1911. 10 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Frederick H. Brandenburg, district editor. 1911. 10 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 10, Great Basin, report for June, 1911; Alfred H. Thiessen, district editor. 1911. 8 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Alfred H. Thiessen, district editor. 1911. 10 p. il. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 11, California, report for June, 1911; Alexander G. McAdie, district editor. 1911. 12 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Alexander G. McAdie, district editor. 1911. 20 p. il. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Same, district 12, Columbia Valley, report for June, 1911; Edward A. Beals, district editor. 1911. 17 p. 2 p. of maps, 4° [From Monthly weather review, June, 1911.]

Same, report for July, 1911; Edward A. Beals, district editor. 1911. 14 p. 2 p. of maps, 4° [From Monthly weather review, July, 1911.]

Meteorological chart of Great Lakes, Nov. 1911. [1911.] 17.9×26.1 in. [Monthly.] Agr 8—76/2

NOTE.—Contains, on reverse, Highest velocity of wind, 1900–10.—Total amount of snow in inches, unmelted, Nov. 1900–10.—Average depth of snow on ground and average thickness of ice in harbors, etc., in inches, Nov. 1900–10.—Approximate location of submarine signal bell stations, Mar. 1911.—Distribution of wireless telegraph stations on Great Lakes, and call letters for each.—Dates on which navigation closed at ports on Great Lakes during last 5 years.

The meteorological charts of the north Atlantic, north Pacific, and Indian oceans, and the Great Lakes, monthly, and of the south Atlantic and south Pacific oceans, quarterly, are issued by the Weather Bureau for gratuitous distribution to cooperating shipmasters and others interested in ocean meteorology.

Meteorological chart of Indian Ocean, Nov. 1911. [1911.] 17.7×25.9 in. [Monthly.]

Meteorological chart of north Atlantic Ocean, Nov. 1911. [1911.] 17.8×26 in. [Monthly.]

NOTE.—Contains, on reverse, Circular to shipmasters [concerning wireless messages to be sent out by Central Meteorological Bureau of France].—North Atlantic Ocean, water surface temperatures, air temperatures, and currents for October.—North Atlantic Ocean, water surface temperatures, air temperatures, and currents for November.

Meteorological chart of north Pacific Ocean, Nov. 1911. [1911.] 17.8×26 in. [Monthly.]

NOTE.—Contains, on reverse, Abnormal and dangerous current off south coast of Japan.—New naval wireless telegraph stations, north Pacific.—Circular to shipmasters [concerning wireless messages to be sent out by Central Meteorological Bureau of France].—North Pacific Ocean, water surface temperatures, air temperatures, and currents for October.—North Pacific Ocean, water surface temperatures, air temperatures, and currents for November.

Monthly weather review, v. 38, 1910 [index and contents]. 1911. vi p. 4° [Included in price of Monthly weather review.] Agr 9—990/4

Same, v. 39, no. 5; May, 1911. 1911. cover-title, p. 649–813, il. map, 8 p. of pl. and maps, 4° * Paper, 35c. single copy, $4.00 a yr. Agr 9—990/4

NOTE.—This publication is confined to climatological data and the relations between climatology and practical problems in engineering, hygienics, or agriculture.

Same, v. 39, no. 6; June, 1911. 1911. cover-title, p. 815–971, il. map, 8 p. of pl. and maps, 4° Agr 9—990/4

National weekly weather bulletin, Sept. 4–25, 1911; no. 25–28 [1911]. Sept. 6–26, 1911. 24×19 in. [Weekly, Apr.–Sept., monthly remainder of year.] * Paper, 25c. Agr 9—1305/2

Savannah-Charleston hurricane of Aug. 27, 28, 1911; [by Willis L. Moore]. [1911.] 1 p. il. 25.3×21.5 in. †

Temperature departures, monthly and annual, in United States, Jan. 1873–June, 1909. 1911. 5 p. 292 p. of pl. 4° (Bulletin U.) * Cloth, 75c. Agr 11—1655

Trade winds in Porto Rico; by Oliver L. Fassig. [1911.] 4 p. 4° [From Monthly weather review, May, 1911.] †

Weather map [containing forecasts for Northeastern, middle Eastern, and Southeastern States], Sept. 1–30, 1911. [1911.] 19×24 in. [Daily except Sundays and holidays.] *Editions issued at Washington, D. C., 25c. a month, $2.50 a yr.; editions issued at about 50 stations throughout United States, 20c. a month, $2.00 a yr.

Same [containing forecasts for United States], Sept. 1–30. 1911. [1911.] 19×24 in. [Daily. The Sunday edition does not contain as much information as the edition for week days.]

CIVIL SERVICE COMMISSION

NOTE.—The Commission furnishes its publications gratuitously to those who apply for them.

[Announcements and postponements of examinations] Sept. 20–Dec. 28, 1911. Sept. 1–29, 1911. 4° †

COMMERCE AND LABOR DEPARTMENT

NOTE.—The Department of Commerce and Labor distributes the Consular reports gratuitously.

Order placing supervision of commercial agents of Department with chief of Bureau of Manufactures. Jan. 23, 1911. 1 p. 4° (Dept. circular 221.) †

Release on bond of Chinese of exempt classes pending final determination of their right to enter United States. Jan. 14, 1911. 1 p. 4° (Dept. circular 220; Bureau of Immigration and Naturalization.) †

Response to resolution, information relating to seal islands of Alaska. July 19, 1911. 1232 p. il. (H. doc. 93.) * Paper, 80c. 11—35777

Schedule E, classification of merchandise, with rates of duty, and laws and regulations governing preparation of quarter-yearly statements of imports entered for consumption in United States [with Tariff act of Aug. 5, 1909, on imports into United States]. June 30, 1911. 89+[1]+169 p. †

CENSUS BUREAU

Cane and beet sugar, summary of results of census in 1909 issued by bureau. [1911.] 6 l. * Paper, 5c.

Guide to exhibit of municipal statistics of Bureau of Census at International Municipal Congress and Exposition, Chicago, Ill., Sept. 18–30, 1911; [by LeGrand Powers]. 1911. 36 p. * Paper, 5c. 11—35770

Thirteenth census of United States, 1910, bulletin: Agriculture, Maine, farms and farm property, live stock, principal crops, and farm expenses. [Aug. 1911.] 13 p. il. 4° * Paper, 5c.

Same: Population, Iowa, number of inhabitants, by counties and minor civil divisions. [Sept. 1911.] 34 p. il. 4° * Paper, 5c.

Same: Population, Michigan, number of inhabitants, by counties and minor civil divisions. [Sept. 1911.] 28 p. il. 4° * Paper, 5c.

Same: Population, New York, number of inhabitants, by counties and minor civil divisions. [Aug. 1911.] 28 p. il. 4° * Paper, 5c.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The charts, coast pilots, and tide tables of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

United States coast pilot, Atlantic Coast: pts. 1, 2, from St. Croix River to Cape Ann; [by S. M. Ackley, assisted by E. A. Anderson and John Ross]. 3d edition [revised by Herbert C. Graves, assisted by C. L. Warwick and E. Vance Miller]. 1911. 200 p. il. 2 maps, large 8° † Cloth, 50c. 11—35784

Charts

Connecticut River, Deep River to Higganum, Conn.; chart 254. Scale 1:20,000. Washington, Coast and Geodetic Survey, Sept. 1911, first published 1895. 38×22.2 in. † 25c.

Connecticut River, entrance to Deep River, Conn.; chart 253. Scale 1:20,000. Washington, Coast and Geodetic Survey, July, 1911. 38.5×22.9 in. † 25c.

Fidalgo Bay and Valdez Arm, Prince William Sound, Alaska; chart 8519. Scale 1:80,000. Washington, Coast and Geodetic Survey, Sept. 1911. 29.2×38.5 in. † 50c.

Fishers Island Sound, Conn.; chart 358. Scale 1:20,000. Washington, Coast and Geodetic Survey, Aug. 1911. 27.2×40.1 in. † 40c.

Guiuan Harbor, south coast of Samar, P. I., surveyed in 1902, scale 1:20,000; Pambujan Harbor, east coast of Samar, P. I., surveyed in 1906 and 1907, scale 1:35,000; chart 4467. Washington, Coast and Geodetic Survey, Aug. 1911. 30.9×18.8 in. † 30c.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10: that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 154.

—— Same. (H. doc. 1456, 61st Cong. 3d sess.)

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1 : 62,500, 1 : 125,000, and 1 : 250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230,920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least $3.00.

Alabama, Columbiana quadrangle, lat. 33°-33° 15′, long. 86° 30′-86° 45′. Scale 1 : 62,500, contour interval 50 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×14.8 in. † 5c.

California, Antelope quadrangle, lat. 38° 37′ 30″-38° 45′, long. 121° 15′-121° 22′ 30″. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of June 1911. 17.3×13.6 in. † 5c.

California, Arcade quadrangle, lat. 38° 37′ 50″-38° 45′, long. 121° 22′ 30″-121° 30′. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of May, 1911. 17.3×13.6 in. † 5c.

California, Brighton quadrangle, lat. 38° 30′-38° 37′ 30″, long. 121° 22′ 30″-121° 30′. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of June, 1911. 17.3×13.6 in. † 5c.

Idaho, Meadows quadrangle, lat. 44° 30′-45°, long. 116°-116° 30′. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of May, 1911. 17.5×12.6 in. † 5c.

Illinois, La Salle quadrangle, lat. 41° 15′-41° 30′, long. 89°-89° 15′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of May, 1911. 17.5×13.2 in. † 5c.

Maine, Ellsworth quadrangle, lat. 44° 30′–44° 45′, long. 68° 15′–68° 30′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×12.6 in. † 5c.

Maine-New Hampshire, Fryeburg quadrangle, lat. 44°–44° 15′, long. 70° 45′–71°. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×12.7 in. † 5c.

Nevada-California, Hawthorne quadrangle, lat. 38°–39°, long. 118°–119°. Scale 1 : 250,000, contour interval 100 ft. [Washington, Geological Survey] edition of May, 1911. 17.5×13.9 in. † 5c.

New York, Antwerp quadrangle, lat. 44°–44° 15′, long. 75° 30′–75°45′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×12.7 in. † 5c.

Ohio, Covington quadrangle, lat. 40°–40° 15′, long. 84° 15′–84° 30′. Scale 1 : 62,500, contour interval 10 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×13.5 in. † 5c.

Ohio, Delphos quadrangle, lat. 40° 45′–41°, long. 84° 15′–84° 30′. Scale 1 : 62,500, contour interval 10 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×13.3 in. † 5c.

Ohio, Uhrichsville quadrangle, lat. 40° 15′–40° 30′, long. 81° 15′–81° 30′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of July, 1911. 17.5×13.5 in. † 5c.

Oregon, Crater Lake National Park, lat. 42° 48′–43° 04′, long. 122°–122° 16′. Scale 1 : 62,500, contour interval 50 ft. [Washington, Geological Survey] edition of June, 1911. 18.8×13.9 in. † 5c.

NOTE.—Contains, on reverse, illustrations and description of Crater Lake.

Pennsylvania, Hamburg quadrangle, lat. 40° 30′–40° 45′, long. 75° 45′–76°. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×13.4 in. † 5c.

Wyoming-Montana, Sheridan quadrangle, lat. 44° 30′–45°, long. 106° 30′–107°. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of May, 1911. 17.5×12.6 in. † 5c.

GOVERNMENT HOSPITAL FOR INSANE

Bulletin 3; edited by William A. White. 1911. 125 p. il. 15 pl. * Paper, 20c. 9—35697/3

CONTENTS.—On association functions of cerebrum; by Shepherd Ivory Franz.—Sensory changes in skin following application of local anæsthetics and other agents: 1, Ethyl chloride; by Shepherd Ivory Franz and William C. Ruediger.—On function of post-central cerebral convolutions [with bibliography]; by Shepherd Ivory Franz.—Pachymeningitis interna; by I. W. Blackburn.—Atrophy of brain in insane; by I. W. Blackburn.—On median anterior cerebral artery as found among insane; by I. W. Blackburn.—Spindle-celled endothelial sarcoma of dura mater; by I. W. Blackburn.—Some findings in cerebrospinal fluid of acute anterior poliomyelitis, epidemic form; by William H. Hough and Gonzalo R. Lafora.—Comparative globulin estimation of luetic sera; by R. Müller and W. H. Hough.—On neuroglia karyorrhexis [with bibliography]; by Gonzalo R. Lafora.—On presence of amyloid bodies in protoplasm of ganglion cells, contribution to study of amyloid substance in nervous system [with bibliography]; by Gonzalo R. Lafora.—Notes on some phenomena of reaction and regeneration of central nervous system [with bibliography]; by Gonzalo R. Lafora.—Contribution to histopathology and pathogenesis of myoclonic-epilepsy [with bibliography]; by Gonzalo R. Lafora with Bernhard Glueck.—Pupillary disturbances in alcoholic psychoses; by Francis M. Barnes, jr.—Bibliography [of] publications by members of staff and of work performed at Government Hospital for Insane, Jan. 1903–June, 1911.

LAND OFFICE, GENERAL

NOTE.—The General Land Office publishes a large general map of the United States, which is sold at $1.00; and also separate maps of the States and Territories in which public lands are to be found, which are sold at 25c. per sheet. California is in 2 sheets. Address the Superintendent of Documents, Washington, D. C.

Maps

Missouri, State of, from official records of General Land Office and other sources; compiled by M. Hendges. Scale 12 m.=1 in. Eckert Lithographing Co., Washington, D. C., 1911. 28.5×32.8 in. * 25c.

MINES BUREAU

Coal. Comparative tests of run-of-mine and briquetted coal on torpedo boat Biddle; by Walter T. Ray and Henry Kreisinger. 1911. 50 p. il. (Bulletin 33.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing. This is a reprint of Geological Survey Bulletin 403.] * Paper, 5c. 11—35746

Explosives. Primer on explosives for coal miners, by Charles E. Munroe and Clarence Hall; [with Safe shipment and storage of explosives, by B. W. Dunn]. 1911. 70 p. il. 10 pl. (Bulletin 17.) [Includes list of publications of Geological Survey and Mines Bureau on mine accidents and explosives. This is a reprint of Geological Survey Bulletin 423, with additions.] * Paper, 15c. 11—35743

Gas-engines. Commercial deductions from comparisons of gasoline and alcohol tests on internal-combustion engines; by Robert M. Strong. 1911. 38 p. (Bulletin 32.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing. This is a reprint of Geological Survey Bulletin 392.] * Paper, 5c. 11—35745

Gas-producers. Incidental problems in gas-producer tests; [articles] by R. H. Fernald, C. D. Smith, J. K. Clement, and H. A. Grine. 1911. 29 p. il. (Bulletin 31.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing. This is a reprint of Geological Survey Bulletin 393.] * Paper, 5c. 11—35772

Mining accidents. Explosibility of coal dust [with bibliography], by George S. Rice; with chapters by J. C. W. Frazer, Axel Larsen, Frank Haas, and Carl Scholz. 1911. 204 p. il. 14 pl. (Bulletin 20.) [This is a reprint of Geological Survey Bulletin 425, with additions.] * Paper, 35c. 11—35744

Mining accidents—Continued. Notes on explosive mine gases and dusts, with special reference to explosions in Monongah, Darr, and Naomi coal mines; by Rollin Thomas Chamberlin. 1911. 67 p. il. (Bulletin 26.) [Includes list of Geological Survey and Mines Bureau publications on mine accidents and explosives. This is a reprint of Geological Survey Bulletin 383.] * Paper, 10c. 11—35771

Publications. New publications, list 5; July, 1911. [1911.] oblong 48° [These lists are published in the form of postal cards.] †

Steam-boilers. Significance of drafts in steam-boiler practice; by Walter T. Ray and Henry Kreisinger. 1911. 64 p. il. (Bulletin 21.) [Includes list of publications of Geological Survey and Mines Bureau on fuel testing. This is a reprint of Geological Survey Bulletin 367, with additions.] * Paper, 10c. 11—35781

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Braadland, John, Limited. In Court of Appeals of District of Columbia, Oct. term, 1911, patent appeal no. 729, in re John Braadland, Ltd., trade-mark Teddy-bear for sardines; brief for commissioner of patents. [1911.] cover-title, 5 p. ‡

South Dakota. Executive order [reserving land in South Dakota for use of Plant Industry Bureau in conduct of experiments in dry land agriculture]. Sept. 26, 1911. 1 p. f° (No. 1415.) ‡

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Cambrian geology and paleontology [v.] 2:5, Middle Cambrian annelids; by Charles D. Walcott. Washington, Smithsonian Institution, Sept. 4, 1911. [1]+109–144 p. 6 pl. (Publication 2014; Smithsonian miscellaneous collections, v. 57, no. 5.) † Price on application. 8—35374/3

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number will be an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

Forest Service Bulletin 86, Windbreaks; their influence and value, is a document primarily for the prairie States. It advocates the planting of evergreens for windbreaking uses. Paper, 30 cents.

Experiment Stations Office Bulletin 240, Tidal marshes and their reclamation, discusses a large subject which must soon be of nation-wide interest. Drainage is the natural parallel of irrigation, it being quite as essential to reclaim the land which has too much water as that which has too little. The bulletin is sold by the Superintendent of Documents at 35 cents.

The Red man, a magazine written and printed by red men at the Government school for Indians at Carlisle, Pa., has been reviewing Ethnology Bureau Bulletin 30, Handbook of American Indians north of Mexico, and says of it: "It is the most complete record of matters pertaining to the Indians that has yet appeared. It is a splendid aid to those who are interested in the Indian and who need some authoritative source from which to gather information." The red man ought to know about this Indian book, and he does know. The two parts are now on sale by the Superintendent of Documents at $1.50 for each part.

Plant Industry Bureau Circular 88, The picking and handling of peanuts, says: "The growth of the peanut industry in the United States during the last 15 or 20 years has been so great that few people recognize its importance." Another statement is that if the outer shell is not broken peanuts may be kept in storage indefinitely. Some of the machines now employed to pick peanuts break a good many shells, and because of this fact Circular 88 is issued, proposing improved plans.

Forest Service Bulletin 99 is the second number in the series called Uses of the commercial woods of the United States. This number gives the history of the pines, of which this country has 37 varieties. The white pine, which for 250 years was the leading American wood, leading in the variety of its uses and the quantity consumed, is no longer the leader, though still important. Its history, as given in Bulletin 99, is a most interesting chapter in our economic annals. (15 cents.) The first number in this series was Forest Service Bulletin 95, Cedars, cypresses, and sequoias. (10 cents.)

The Register of the Department of State, of which a new edition, dated Sept. 20, 1911, is just out of press, has an entertaining feature not found in any other Department register. It is a series of brief biographies of everybody connected with the Department, from the Secretary of State and the ambassadors to the laborers and messenger boys. Of course there is much more in the State Department Register, including full lists of the ambassadors, ministers, consuls-general, consuls, and consular agents who represent this country in foreign lands and of like officials who represent foreign lands in this country.

Fisheries Bureau document 752 maintains it has been demonstrated that fishes can hear, yet for reasons stated comes to the conclusion that explosive sounds, like those produced by motor boats, do not startle fishes. The firing of guns does startle them but only slightly and temporarily.

Cavalry notes, by Major Henry T. Allen, is something more than a drill book. It gives reasons and comments.

The interesting and hopeful address on Conservation of the soil, made by President Taft, Sept. 25, 1911, before the National Conservation Congress at Kansas City, Mo., has been printed by the Agriculture Department as Circular 38, Secretary's Office.

Part 1 of the Report of the commissioner of corporations on the steel industry, which has been awaited with much interest, has now been issued. This part has for title Organization, investment, profits, and position of the United States Steel Corporation. There may be two other parts of this report, but some months will intervene before the appearance of the second part. Part 1 can be supplied at 50 cents.

By act of June 7, 1906 (34 Stat., pt. 1, p. 218), the director of the census was authorized to collect decennially and publish as "special reports" statistics as to the defective, dependent, and delinquent classes, crimes, social statistics of cities, public indebtedness, religious bodies, transportation (printed in the Statutes "transportion") by water, express business, mines and quarries, savings banks, and fisheries, the latter to be made in cooperation with the Fisheries Bureau. The law also provides for five-year reports on other designated subjects. Fisheries of the United States, the second special report under the ten-year provision, has been received. It is a quarto of 324 pages, in the familiar dark-blue cloth and silvery aluminum lettering of the Census Bureau. Though of course a statistical work, the statistics are not wholly given in figure-tables. There is much text of an informing kind, including several appendices, one of which is an alphabetical list of the best-known common names of American fishes, with their synonyms, and notes on qualities and habitat. The index is full and easy of use. The general conclusions are (1) a marked decline in the value of the whale and menhaden fisheries, (2) large gains in the general fisheries and the sponge fisheries, and (3) an increase in the oyster industry, though the results for 1908 were below the best record.

There is an International Commission on the Teaching of Mathematics. It has three American commissioners in its membership. Under their direction the American report has been made by Committee No. 10, on Undergraduate work in mathematics in colleges of liberal arts and universities. It is in three parts, made by as many subcommittees, No. 1 on Men's colleges; No. 2 on Women's colleges; No. 3 on Coeducational colleges. All are published by the Education Bureau as Bulletin 7, series of 1911, and copies can be supplied by the Superintendent of Documents at 5 cents.

The United States Bureau of Engraving and Printing, which prints all of the paper money and postage stamps but none of the public documents, has grown to be a very great manufacturing plant. The 1911 annual report of Director Ralph shows that the employees number 3,814 and that the average production of engraved and printed sheets was 68,905 for each employee. Each of these sheets is made up of a number of banknotes, silver certificates, postage stamps, or other Government issues. As one hundred postage stamps go to a sheet and 97,734,242 sheets of this kind were turned out, it is evident that the total issue of stamps of this variety for one year was 9,773,424,200—almost ten billions. These are overwhelming figures, and give a vivid idea of the corresponding habit of our people. The turnout of notes, certificates, and bonds was in round numbers 67,000,000 sheets, of national bank notes 12,000,000 sheets, of internal-revenue stamps 84,000,000 sheets, of customs stamps 153,000 sheets, of checks, drafts, and miscellaneous 2,266,581 sheets, a grand total of 262,806,113 sheets, aggregating an untold number of billions of separate notes and stamps. It is a moral certainty that even these magnificent figures will be greatly increased in the future. The correspondence habit, the circularizing habit, and the paper-money habit are all firmly fixed in the minds and the practice of the American people. The average life of paper money is said to be only between two and three years. The Director of the Mint reports that nearly the whole gold production of the country goes into the Treasury, which now holds more than $1,200,000,000 in that metal, being the largest accumulation of the kind ever known. The people use the paper money issued against the metal, which remains inert in the vaults. This means that as the population increases more and more paper money must be printed. As for postage stamps, there seems to be no limit to the demand for them, and as they can be used but once, there must be a constant and constantly increasing supply. The Bureau of Engraving and Printing is sure to grow much greater. It is to be hoped it will not outgrow its new building before the structure has been completed.

Interesting discussions of sanitation and related topics may be found in Transactions of the ninth annual Conference of State and Territorial Health Officers with the United States Public Health and Marine-Hospital Service. 10 cents.

The movement of farming people toward the warm regions of the country will be aided by Soils Bureau Circular 43, The selection of land for general farming in the Gulf Coast region east of the Mississippi River.

Readers who do not see the catalogues of ships' and crews' libraries published by the Navigation Bureau, Navy Department, may perhaps accept our assurance that the selections are excellently made and that the ships' companies of the United States Navy need not lack for instruction and entertainment during such hours of leisure as their service leaves to them. The ships' libraries have a large proportion of text-books, the remainder being histories and biographies, with little or no fiction. The crews' libraries have a large proportion of high-class fiction.

The second draft of former Senator Aldrich's Suggested plan for monetary legislation has been printed in a revised edition, dated Oct., 1911, and is on sale with the Superintendent of Documents at 5 cents.

A Geological Survey Bulletin of much local interest to an important American city is no. 483, Economic geology of Richmond, Va., and vicinity.

The annual report of the register of copyrights for 1911 shows that the copyright fees turned into the United States Treasury since the reorganization of the Copyright Office in 1897 have exceeded a million dollars, being $162,905.23 more than the total of the sums paid for salaries in the Office during the same period. In that time 2,582,170 books, maps, and prints which have been filed for copyright have become the property of the Government without cost.

Biological Survey Bulletin 38, Birds of Arkansas, fills an important gap in our knowledge of the avifauna of the Mississippi Valley. Arkansas is remarkable for the variety and abundance of its bird life. This is the first detailed report on the subject that has been published. The bulletin is priced at 25 cents.

An important chapter in the Annual report of the Experiment Stations Office for 1910 has been reprinted in a separate pamphlet. Its title is Irrigation under the Carey act. This act, which was a rider on an appropriation bill passed August 18, 1894, "has made possible the successful reclamation and settlement of millions of acres of desert land," says the article. The text of the original act, and also of the amendments by which it has been perfected, is in the pamphlet. Idaho leads in the development of land under the Carey act. That State is now developing its third allotment of 1,000,000 acres. Eight States—Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, and Wyoming—have received grants of land of 1,000,000 acres or more under the Carey act.

Bulletin 442J, Alaska coal and its utilization, is by Alfred H. Brooks, the man supposed to know most about the subject. He is also the man who declined promotion to Chief Geologist so that he might continue his work in Alaska.

It is the age of cement. The report of the Geological Survey on the cement industry for 1910 shows that the American production for that year was 76,549,951 barrels, valued at $68,205,800. In 1880 the production was 82,000 barrels valued at $126,000. The price in 1880 touched $3.00 a barrel. In 1910 the average was 89 cents.

Series 1, vol. 24, Official records of the Union and Confederate navies in the War of the Rebellion, is now ready for delivery. Cloth bound, matching the previous volumes, 75 cents.

Fisheries Bureau Bulletin for 1909 (vol. 29 of the Bulletin series) is now on sale at $1.35 in cloth binding. The large volume is made up of seven scientific papers, all of which have been previously issued in pamphlet form. As now brought together, they have been provided with a general index, while the combination of all the illustrations makes an unusually attractive volume. The frontispiece is a portrait of one of the handsomest of American fishes, the lake trout. There are several colored pictures of the American lobster.

The United States has at the Hot Springs Reservation a superintendent who is an enthusiast in his work. In his Annual report, speaking of the medical efficacy of the springs, he says, "The cures effected here are so startling as to seem almost miraculous."

An important recent publication of the Library of Congress is Tentative headings and cross-references for a subject catalogue of American and English law. Sold by the Superintendent of Documents at 20 cents.

Insecticide decision 1 was issued in August by the Insecticide and Fungicide Board, a comparatively new organization created to pass upon the purity and efficacy of commercial insecticides and fungicides. Now the Board has issued Insecticide decision 2, in which it finds it necessary to warn the public that neither the decisions nor the correspondence of the Bureau must be taken to add anything to the Rules and regulations for carrying out the provisions of the insecticide act of 1910 nor to take anything away from them.

The Gaugers' weighing manual, 1911 edition, is now ready. In cloth, 75 cents.

Education Bureau Bulletin 18, series of 1911, has for title Teachers' certificates issued under general State laws and regulations. It is the outgrowth of a conference of State education officers concerning the recognition in each State of teachers' certificates granted in other States. 20 cents.

Fruit culturists should not overlook Plant Industry Bureau Bulletin 135, Orchard fruits in the Piedmont and Blue Ridge regions of Virginia and the South Atlantic States.

Annual report of the American Historical Association, 1909, is but a single volume, price in cloth, 75 cents.

PROCEEDINGS OF CONGRESS

Vol. 47, Congressional record, is the verbatim report of the proceedings of the 1st session of the 62d Congress, convened by Presidential mandate Apr. 4, and adjourned by its own authority Aug. 22, 1911. These proceedings have been published in the numbers of the Record issued daily while the session lasted. Now they are again published in the permanent bound books which will be preserved in the official and unofficial libraries of the country.

Vol. 47 is issued in five parts, each one of which is a very large book. Four of these books contain only proceedings, April 4–Aug. 18. The fifth part is an index volume, but contains also proceedings, Aug. 19–22, and an Appendix made up of delayed speeches.

The Superintendent of Documents offers the new volume of the Congressional record for sale at $2.00 each for parts 1–4 and $2.25 for the index volume.

SESSION LAWS

The session laws, otherwise known as the pamphlet laws, containing the enactments of the 1st session of the 62d Congress, are now on sale in one large pamphlet, price 40 cents.

The number of laws passed at the recent session was unusually small. The most important one was the act providing for reciprocity with Canada, and everybody knows what the Canadian voters did to that.

The act for publicity of campaign contributions and the resolution for the admission of the States of Arizona and New Mexico are the only other important measures of more than local interest. There are, however, an unusual number of Presidential proclamations relating to national forests and national monuments, and each of these is accompanied by a map.

PRICE OF SLIP LAWS REDUCED

The subscription price for the Federal laws, as published in separate pamphlets or slips during the sessions of Congress and immediately mailed to subscribers, has been reduced from $2.00 a session to $1.00 a session.

When the price was first fixed it was announced that it was an experimental rate, subject to change as experience might dictate. The session then current enacted a large number of laws—several hundred—but the number in the succeeding sessions has been much less, and it now seems evident that the reduced rate will be sufficient to meet the average cost, taking one session with another.

REPORTS OF COMMERCE COURT

The Superintendent of Documents, believing that there will be considerable demand for the reported decisions of the new Commerce Court, which decides appeals from the decisions of the Interstate Commerce Commission, has arranged to publish the decisions in a series of bound volumes.

It is too early to give any details. As the material accumulates, further announcements will be made.

TWENTY-SEVENTH ETHNOLOGY REPORT

The 27th annual report of the Bureau of American Ethnology, nominally for the year 1906, was not issued in time to be regularly catalogued in this number of the Monthly catalogue, but it has been printed, and copies will be on sale by the time this announcement reaches the reader.

A NEW FINANCIAL LIBRARY

The publications of the National Monetary Commission, which in the numbered Congressional document edition were printed in 44 separate paper-covered documents (one of them in two volumes), have been now collected in 24 cloth-bound volumes, having title-pages free of document numbers, with some changes in titles, and carrying on the backs of the title-pages information as to the document numbers and titles under which the first prints were made.

Following is the list of volumes, with the new forms of title and the document numbers of the first edition. All of the document numbers indicate Senate documents of the 61st Congress.

Publications of National Monetary Commission:

Vol. 1. Interviews on banking in England, France, Germany, Switzerland, and Italy. (Document 405.)

Vol. 2. Financial laws of the United States, 1778–1909. (Document 580.

Vol. 3. Digest of State banking laws. (Document 353.)

Vol. 4. Banking in United States before Civil War; including The first and second banks of the United States [and] State banking before the Civil War. (Documents 571, 581.)

Vol. 5. The national banking system; including The origin of the national banking system, History of the national bank currency, [and] History of crises under the national banking system. (Documents 582, 572, 538.)

Vol. 6. Clearing houses and credit instruments; including Clearing house methods and practices [and] The use of credit instruments in payments in the United States. (Documents 491, 399.)

Vol. 7. State banks, trust companies, and independent treasury system; including State banks and trust companies since the passage of the national bank act [and] The independent treasury system of the United States and its relations to the banks of the country. (Documents 659, 587.)

Vol. 8. The English banking system; including The English banking system [and] History of the Bank of England. (Documents 492, 591.)

Vol. 9. Banking in Canada; including The history of banking in Canada, The Canadian banking system, [and] Interviews on the banking and currency systems of Canada. (Documents 332, 583, 584.)

Vol. 10. The Reichsbank and renewal of its charter; including The Reichsbank, 1876–1900 [and] Renewal of Reichsbank charter. (Documents 408, 507.)

Vol. 11. Articles on German banking and German banking laws; including Miscellaneous articles on German banking [and] German imperial banking laws. (Documents 508, 574.)

Vol. 12. The German bank inquiry of 1908. Part 1. (Document 407.)

Vol. 13. The German bank inquiry of 1908. Part 2. (Document 407.)

Vol. 14. The great German banks. (Document 593.)

Vol. 15. Banking in France and the French Bourse; including Evolution of credit and banks in France, The Bank of France in its relation to national and international credit, [and] The history and methods of the Paris Bourse. (Documents 522, 494, 573.)

Vol. 16. Banking in Belgium and Mexico; including The National Bank of Belgium [and] The banking system of Mexico. (Documents 400, 493.)

Vol. 17. Banking in Sweden and Switzerland; including The Swedish banking system [and] The Swiss banking law. (Documents 576, 401.)

Vol. 18. Banking in Italy, Russia, Austro-Hungary, and Japan; including Italian banks of issue [and] Banking in Russia, Austro-Hungary, Holland, and Japan. (Documents 575, 586.)

Vol. 19. Administrative features of national banking laws and European fiscal and postal savings systems; including Suggested changes in administrative features of the national banking laws, Fiscal systems of England, France, Germany, and the United States, [and] Notes on the postal savings bank systems of the leading countries. (Documents 404, 403, 658.)

[illegible] region, which

[illegible] the historian who

supplies the missing word at once puts up an insurance against trouble hereafter.

A new print of the United States mining laws and regulations thereunder, issued by the General Land Office, retains the imprint date of the old edition, 1909, and also carries on its title-page the legend "Approved March 29, 1909," but on pages 60 and 61 appear amendments dated July 29 and Aug. 8, 1911, proving conclusively that the pamphlet can not have been issued prior to those dates. An imprint date two years out of the way is a serious error, very misleading to librarians, who can not be expected to read through all their documents to discover whether the imprint dates agree with the contents. The purpose of the imprint date in a book is to show the time of its publication. If it does not show this it might better be omitted altogether.

In the Statutes at large, vol. 34, part 1, page 218, authority is given the director of the census (among other things) to issue decennial reports on "transportion" by water. Under this authority a report has been issued on "transportation" by water—quite a different thing, as one may see by looking closely. We are taught that the laws are to be followed literally, and that nobody is authorized to add or subtract even a comma, much less two letters as in this case. Still, no particular catastrophes seem to have resulted from publishing "transportation" on the authority for publishing "transportion."

In vols. 218 and 219, United States Supreme Court Reports, the statements are published that Mr. Justice Van Devanter was appointed to succeed Mr. Justice Moody, resigned, and that Mr. Justice Lamar was appointed to succeed Mr. Justice White, promoted to the Chief Justiceship. In vol. 220 these statements are said to be "in error," Justice Lamar succeeding Justice Moody and Justice Van Devanter succeeding Justice White.

MONTHLY CATALOGUE

No. 202 OCTOBER 1911

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

[Bureau of Animal Industry] order 175 amendment 5; Sept. 28, 1911. [1911.] [Consists of order concerning quarantine of cattle, etc.] †

Conservation of soil, address of President Taft before National Conservation Congress, Kansas City, Mo., Sept. 25, 1911. Oct. 10, 1911. 8 p. (Circular 38.) * Paper, 5c. Agr 11—1656/2

Insecticide decision 2–4. Oct. 3, 1911. †

Notice of judgment 1063–68, 1079–1124, food and drugs act. Sept. 27–Oct. 22, 1911. † Agr 8—878/4

Rules and regulations [adopted by commission representing Treasury, Agriculture, and Commerce and Labor Departments] for enforcement of food and drugs act. Oct. 31, 1911. 20 p. (Circular 21, 4th revision.) * Paper, 5c. Agr 6—1734/3

ANIMAL INDUSTRY BUREAU

Animals imported for breeding purposes for which certificates of pure breeding have been issued by bureau: Cattle, Apr.–June, 1911. Oct. 12, 1911. 15 p. * Paper, 5c.

Breeding of range sheep by Department of Agriculture. [Oct. 10, 1911.] 4 p. 16° †

Cow-testing associations; by Helmer Rabild. Reprint Aug. 1911, with slight changes [issued Oct. 13, 1911]. 24 p. (Circular 179.) [From 26th report, 1909.] * Paper, 5c. Agr 11—502/3

Influence of type and of age upon utilization of feed by cattle; by Henry Prentiss Armsby and J. August Fries. Oct. 7, 1911. 245 p. il. 4 pl. (Bulletin 128.) [Prepared in cooperation with Institute of Animal Nutrition of Pennsylvania State College.] * Paper, 30c. Agr 11—1657/6

WEATHER BUREAU

Bulletin of Mount Weather Observatory, v. 4, pt. 2. Sept. 20, 1911. cover-title, p. 25-102, il. large 8° * Paper, 25c. Agr 8—85/3

CONTENTS.—Summary of free air data at Mount Weather, July, 1907-June, 1910.—Free air data at Mount Weather, Jan.-Mar. 1911.

Climatological service, district 1, North Atlantic States, report for Aug. 1911; Wilford M. Wilson, district editor. 1911. 14 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.] * Paper, 5c. single copy, 50c. a yr. for each district.

Same, district 2, South Atlantic and East Gulf States, report for Aug. 1911; Charles F. von Hermann, district editor. 1911. 16 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 3, Ohio Valley, report for Aug. 1911; Ferdinand J. Walz, district editor. 1911. 15 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 4, Lake region, report for Aug. 1911; Henry J. Cox, district editor. 1911. 12 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 5, upper Mississippi Valley, report for Aug. 1911; George M. Chappel, district editor. 1911. 16 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 6, Missouri Valley, report for Aug. 1911; Montrose W. Hayes, district editor. 1911. 19 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 7, lower Mississippi Valley, report for Aug. 1911; Isaac M. Cline, district editor. 1911. 16 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 8, Texas and Rio Grande Valley, report for Aug. 1911; Bernard Bunnemeyer, district editor. 1911. 12 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 9, Colorado Valley, report for Aug. 1911; Frederick H. Brandenburg, district editor. 1911. 10 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 10, Great Basin, report for Aug. 1911; Alfred H. Thiessen, district editor. 1911. 9 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 11, California, report for Aug. 1911; Alexander G. McAdie, district editor. 1911. 15 p. il. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Same, district 12, Columbia Valley, report for Aug. 1911; Edward A. Beals, district editor. 1911. 14 p. 2 p. of maps, 4° [From Monthly weather review, Aug. 1911.]

Meteorological chart of Great Lakes, Dec. 1911. [1911.] 17.9×26.1 in. [Monthly.] Agr 8—76/2

NOTE.—Contains, on reverse, Highest velocity of wind, 1900-10.—Total amount of snow in inches, unmelted, Dec. 1900-10.—Average depth of snow on ground and average thickness of ice in harbors, etc., in inches, Dec. 1900-10.—Approximate location of submarine signal bell stations, Mar. 1911.—Distribution of wireless telegraph stations on Great Lakes, and call letters for each.—Dates on which navigation closed at ports on Great Lakes during last 5 years.

The meteorological charts of the north Atlantic, north Pacific, and Indian oceans, and the Great Lakes, monthly, and of the south Atlantic and south Pacific oceans, quarterly, are issued by the Weather Bureau for gratuitous distribution to cooperating shipmasters and others interested in ocean meteorology.

Meteorological chart of Indian Ocean, Dec. 1911. [1911.] 17.7×25.9 in. [Monthly.]

NOTE.—Contains, on reverse, Errors of magnetic variation in Indian Ocean.

Meteorological chart of north Atlantic Ocean, Dec. 1911. [1911.] 17.8×26 in. [Monthly.]

NOTE.—Contains, on reverse, North Atlantic Ocean, water surface temperatures, air temperatures, and currents for December.—Hertzian waves as fog signals; by James E. Dunning.—Savannah-Charleston hurricane of Aug. 27, 28, 1911.

Meteorological chart of north Pacific Ocean, Dec. 1911. [1911.] 17.8×26 in. [Monthly.]

NOTE.—Contains, on reverse, Wireless weather reports on the Pacific; by Alexander G. McAdie.—Hertzian waves as fog signals; by James E. Dunning.—North Atlantic Ocean, water surface temperatures, air temperatures, and currents for December.—North Pacific Ocean, water surface temperatures, air temperatures, and currents for December.

Meteorological chart of south Atlantic Ocean, Dec. 1911-Feb. 1912. [1911.] 17.7×26 in. [Quarterly.]

Meteorological chart of south Pacific Ocean, Dec. 1911-Feb. 1912. [1911.] 17.7×26 in. [Quarterly.]

Monthly weather review, v. 39, no. 7; July, 1911. 1911. cover-title, p. 973-1134, il. map, 8 p. of pl. and maps, 4° * Paper, 35c. single copy, $4.00 a yr. Agr 9—990/4

NOTE.—This publication is confined to climatological data and the relations between climatology and practical problems in engineering, hygienics, or agriculture.

National weekly weather bulletin, Oct. 2, 1911; no. 29 [1911]. Oct. 3, 1911. 24×19 in. [Weekly, Apr.-Sept., monthly remainder of year.] * Paper, 25c. a yr. Agr 9—1305/2

Precipitation and altitude in the Sierra; by Charles H. Lee. [1911.] 8 p. il. 4° [From Monthly weather review, July, 1911.] * Paper, 5c.

Weather map [containing forecasts for Northeastern, middle Eastern, and Southeastern States], Oct. 2-31, 1911. [1911.] 19×24 in. [Daily except Sundays and holidays.] * Editions issued at Washington, D. C., 25c. a month, $2.50 a yr.; editions issued at about 50 stations throughout United States, 20c. a month, $2.00 a yr.

Same [containing forecasts for United States], Oct. 1-31, 1911. [1911.] 19×24 in. [Daily. The Sunday edition does not contain as much information as the edition for week days.]

CIVIL SERVICE COMMISSION

NOTE.—The Commission furnishes its publications gratuitously to those who apply for them.

[Announcements and postponements of examinations] Oct. 18, 1911–Jan. 11, 1912. Sept. 30–Oct. 30, 1911. 4° †

COMMERCE AND LABOR DEPARTMENT

NOTE.—The Department of Commerce and Labor distributes the Consular reports gratuitously.

CENSUS BUREAU

Fisheries of United States, [calendar year] 1908. 1911. 324 p. 4° (Special reports.) * Cloth, 70c. 11—35829

Thirteenth census of United States, 1910, bulletin: Agriculture, Delaware, farms and farm property, live stock, principal crops, and farm expenses. [Oct. 1911.] 11 p. il. 4° * Paper, 5c.

Same: Manufactures, Arizona, statistics of manufactures for Territory, cities, and industries. [Oct. 1911.] 15 p. 4° * Paper, 5c.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington.

Alaska Peninsula. Geology and mineral resources of parts of peninsula [with bibliography]; by Wallace W. Atwood. 1911. 137 p. il. 9 pl. 5 maps, 1 is in pocket. (Bulletin 467.) *Paper, 40c. GS 11—560/3

Tests of run-of-mine and briquetted coal in locomotive boiler; by Walter T. Ray and Henry Kreisinger. 1911. 33 p. il. (Bulletin 34.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing. This is a reprint of Geological Survey Bulletin 412.] * Paper, 5c. 11—35785

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Scheme of South Dakota, Chicago, Ill., standpoint. Aug. 1911. 105 p. [Half of the pages are blank.] ‡

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given postoffice, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps, for which see Monthly catalogue for January, 1911, page 367.

PRESIDENT OF UNITED STATES

Brown, Fort, Tex. Executive order [authorizing withdrawal of fort from reservation for military purposes and placing it under control of Secretary of Interior]. Oct. 14, 1911. 1 p. f° (No. 1422.) ‡

—— Executive order [reserving land in Arizona for use of Pima and Maricopa Indians]. Sept. 28, 1911. 1 p. f° (No. 1416.) ‡

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No sets of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

AMERICAN HISTORICAL ASSOCIATION

Annual report, 1909. 1911. 812 p. * Cloth, 75c. 4—18261/3

‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions, and unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number will be an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

A new Professional paper of the United States Geological Survey, no. 73, The tertiary gravels of the Sierra Nevada of California, by Waldemar Lindgren, who was recently promoted to the post of chief geologist, treats upon an unusually interesting subject. It traces the history of the great mountain range which for 300 miles divides the central valleys of California from the deserts of the Great Basin, dealing especially with the origin and distribution of the gold-bearing gravels which made these mountains one of the treasure houses of the world. The illustrations include geologic maps and sections and halftone plates showing features of hydraulic mining. The Superintendent of Documents can supply copies at 75 cents.

Another of the valuable papers included in the Annual report of the Experiment Stations Office for 1910 has been reprinted in a separate pamphlet, copies of which can be had from the Superintendent of Documents at 10 cents each. Its title is: Progress in agricultural education, 1910. It has 9 full-page plates and 3 illustrations in the text. It is a record of most hopeful advancement. The movement for scientific education in agriculture has become worldwide. In the United States every agricultural bureau and association, National and State, has enlisted in it, and the people are joining with even greater ardor. At present the United States Agriculture Department is unable to meet all the demands for publications and lecturers. Increased appropriations, by the United States and States, for new buildings, enlarged experimental facilities, and more teachers are the rule, while universities, colleges, and high schools everywhere are adding agricultural courses to their curricula. The movement for a wider diffusion of the kind of education that will lead to increased productiveness of the soil has come none too soon. Never before was the world's population increasing so rapidly as now, and the increased cost of living in all countries demonstrates that the demand for food is growing more rapidly than the supply. In former ages, when war was the normal state of man, when famine followed fast on the heels of war, and pestilence was the common companion of both, while the low state of medical knowledge prevented the raising of barriers against contagion, populations increased but slowly. Now long periods of peace, better knowledge of sanitation, the elevation of medical practice from mere empiricism to the rank (in many respects) of an exact science, and improved means of subsistence through the development of agriculture, permit a prodigiously rapid increase in the number of the world's inhabitants. The only obvious means of feeding and clothing the millions which in ever increasing multiplication from this day henceforth to the end of time must be provided for is the widest possible diffusion of scientific education in agriculture. Many competent and zealous men and women are engaged in this endeavor, and the practical details of important branches of their work are described in the pamphlet named at the beginning of this note. The catalogue entry for this pamphlet appears in the October Monthly catalogue, page 186.

No. 40 of the Interstate Commerce Commission's quarterly Accident bulletin series, railroad accidents in the United States, April-June, 1911, is the fourth number in a new series, issued under a new law. The difference between the two series is that in the first, under the old law, only a part of the accidents were reported. The limitation excluded everything but accidents by collisions and derailments, casualties to passengers, and casualties to employees on duty. May 6, 1910, a law was passed which enlarged the scope of the inquiry by requiring the railroads to report to the Commission also accidents to employees while at work, accidents to passengers in getting on and off cars, accidents to persons doing business at railway stations, accidents at highway crossings, accidents to trespassers (tramps), etc. Even now, however, accidents to employees which do not keep them away from work for more than three days and accidents to persons not employees which do not incapacitate them for more than one day are not reported at all. Neither are the so-called "industrial accidents" which occur to railroad men working on tracks or bridges or at stations, freight houses, engine houses, coaling stations, water stations, etc., when no car is moving at the place, or in and around shops, on boats and wharves, etc. The victims of fatal accidents are not reported as "killed" unless they die within 24 hours. If they linger longer they are reported as "injured." Notwithstanding these exceptions and exemptions, and the further fact that the railroads themselves do the reporting, the accident roll is most deplorably long and ghastly. Though bulletin 40 is the fourth one issued under the new law, it is the first in which a year's footings (July 1, 1910-June 30, 1911) are given. These footings tell their own story: Killed, 10,396; injured, 150,159.

The 27th annual report of the Bureau of American Ethnology (1905-1906) is brief, so far as the report proper goes, and carries but one accompanying paper. That, however, is a very full and important one, the fruit of the life labor and study of Miss Alice C. Fletcher, the distinguished ethnologist, and Francis La Flesche, the educated Indian, who for 25 years has been her collaborator. The title is The Omaha tribe. In her Foreword Miss Fletcher says: "In the account here offered nothing has been borrowed from other observers; only original material gathered directly from the native people has been used." For 29 years Miss Fletcher has been intimately acquainted with the Omaha; for many years she lived with them. Her paper fills 557 pages of text and is illustrated by 65 plates and 132 figures. Price, in cloth binding, $1.50.

Tariff series 27, Customs tariff of Cuba, is just issued by the Manufactures Bureau. The Superintendent of Documents can supply copies for 10 cents.

A new census bulletin, Center of population and median lines, continental United States, has a unique interest as (we believe) the first printed explanation of the methods used in determining the center of population, which seem to be equivalent to those followed in finding the center of gravity. The center of population moved, from 1900 to 1910, 39 miles west and $\frac{1}{10}$ of a mile north, and is now in the western outskirts of the city of Bloomington, Indiana.

Manufactures Bureau Special agents series 47, English cotton-goods trade, shows a great increase in the cotton-fabrics production of that country, it having passed the half billion mark (in dollars) in 1910 and promising to show a large further increase in 1911. The report, which is by commercial agent Hause, gives a careful and illuminating account of the system which enables hundreds of small cotton mills to carry on an independent and prosperous existence without fear of monopoly. American manufacturers in search of ideas may find them in this pamphlet, which the Superintendent of Documents sells at 5 cents.

Wisconsin is an advanced State in several respects. One of its latest moves is county schools of agriculture and domestic economy. Experiment Stations Office Bulletin 242 tells about them.

It has recently become known that vols. 33 and 34 of the Executive journals of the United States Senate have been printed, though not yet released from the injunction of secrecy.

A pamphlet both interesting and valuable is the one descriptive of its own work which has been issued by the Bureau of Standards. It may be called the bureau of precision. It takes nothing for granted, but tests and verifies everything. It not only supplies and verifies standards of length, area, volume, and weight, which a few years ago were the only known standards of weight and measure, but it also standardizes the measures of velocity, pressure, energy, electricity, temperature, and illumination. It is a clearing house for technical information. It is constantly consulted by Federal, State, and municipal officials, and by technical bodies such as public-service corporations and commissions. Its importance to the various industries and to the general public can hardly be overestimated. Its establishment was authorized by law in 1901, and it has already grown to broad and notable proportions. Its personal force numbers 268, it has in Washington four most modern and effective laboratories, with branch laboratories in Charleston, Northampton, and Pittsburg, and an electrical laboratory building under construction. Copies of the descriptive pamphlet can be supplied by the Superintendent of Documents at 5 cents each.

Forest Service Bulletin 98 deals with the next great step in forest conservation work—reforestation. The cut-over and burned-over tracts, much untillable mountain land, and many dry, sandy tracts can be made to grow timber. The Forest Service has taken up in earnest the enormous task of reforesting these millions of acres of waste lands. Bulletin 98 discusses those phases of the main question included under the headings Collection of seed and Direct seeding.

Complete sets of the Handbook of North American Indians north of Mexico (Ethnology Bureau Bulletin 30, 2 parts) are again in the sale stock of the Superintendent of Documents. Owing to the increased cost of reprinting, it has been found necessary to raise the price of part 1 from $1.25 to $1.50, making the price equal for the two parts.

Vol. 10, Memoirs of the National Academy of Sciences, is out of press. The seven memoirs which it contains have been previously published in as many separate pamphlets. They give the results of researches in the fields of astronomy, botany, medicine, physics, and zoology.

Vol. 16, 2d series, Index-catalogue of the Library of the Surgeon-General's Office, U. S. A., containing the titles alphabeting between Skinko and Stysanus, is now available for distribution by sale through the office of the Superintendent of Documents at $2.00. The first series ended with vol. 16, but as the second series is no further through the alphabet in vol. 16 than the first series was in vol. 13, it is evident that this series will fill several volumes more than were in series one. The volume of medical literature must be growing larger, as indeed is true of the literature of all the sciences. It is the age of science, and science is working wonderful benefits to humanity.

An important document, and one likely to be in much demand, is Senate document 89 of the 62d Congress, Everglades of Florida. It is a compilation of pretty much everything which can throw light on the history, condition, and prospects of the 4000 square miles of presumably fertile but submerged land whose reclamation it is believed will make Florida one of the richest of the States. Included in the publication is the report of the drainage engineers of the Experiment Stations Office, Agriculture Department, once announced for publication as a bulletin of that office, but subsequently withheld for reasons which have not been officially published, though they have been the subject of sundry newspaper speculations. Full accounts are also given of the progress and methods of the work of reclamation, now being prosecuted by the State authorities of Florida. It is gratifying to learn that the work is already one third completed.

The Annual report of the Smithsonian Institution for 1910 brings a fine budget of scientific papers, popular in their form but learned in their information. In cloth $1.10.

Former Senator Aldrich's Suggested plan for monetary legislation, revised edition, which has been published in an unnumbered pamphlet, is now issued also as Senate document 784, part 2, 61st Congress, 3d session.

Another handy tool for entomologists and librarians is An index to Circulars 1 to 100 of the Bureau of Entomology. The index is itself Circular 100. 5 cents.

Annual report of the Steamboat Inspection Service, 1911, further confirms the well known fact that new inventions breed new dangers. The report informs us that motor boats are nowadays the most prolific cause of water accidents.

The first year of Government control of the fur-seal fisheries of Alaska is reported upon in Fisheries Bureau document 749. There is apparently prospect of improved conditions since the termination of the lease system.

Farmers' bulletin 473 is a plain and intelligible statement of the facts in relation to tuberculosis (consumption) in domestic animals. It was prepared especially for farmers by the international commission of the American Veterinary Medical Association on the control of bovine tuberculosis.

The United States Geological Survey has published Mineralogical notes, series 1, and has announced series 2 under the same title. The denomination "series" for a single publication is justified by the fact that each numbered "series" is made up of several papers, which, combined, constitute a report on the mineralogical work of a geological character conducted by Waldemar T. Schaller in the chemical laboratory of the Survey.

A handy memorandum for medical, surgical, and dental men and women is: Authorized spelling of names of diseases and medical terms, collated from publications issued by the Government Printing Office. 5 cents.

A Census Bureau bulletin of a new kind is Irrigation in Idaho. It is a publication of the 13th census, and its facts will be embodied later in the Special report of the Census on irrigation, and also in the Final reports of the 13th census. Idaho is among the States which have practised irrigation most largely and most successfully.

Forest Service Circular 187, The manufacture and utilization of hickory, is a publication of peculiarly American interest, because hickory grows only in the United States (except a little in Southern Canada), and because for strength, toughness, and elasticity it is the world's foremost wood. Its consumption is large and its value to American manufactures very great. Circular 187 expresses the opinion that the unrivaled efficiency of the American ax is due as much to its hickory helve as to its steel blade, and the success of American farming machinery in all foreign lands is due very largely to the strength and lightness of the hickory used in it. So with light vehicles, spokes in racing sulkies and in motor cars, sucker rods in pumping wells, etc., it is due to hickory that the American products excel all competition. The Circular shows that the supply of hickory is holding out better than was feared, and that with use of the economies which are recommended indefinite continuance may be hoped for.

There is a new print of the Sherman antitrust law, its amendments and the decisions under it, brought up to Nov. 1, 1911. 10 cents.

The Gothenburg system of controlling the liquor traffic in Sweden has been newly written up by an American consul and published by the Manufactures Bureau as Special consular reports 49. An earlier document on the same subject aroused much interest and was widely distributed. The new document describes later experiences.

Vol. 17, Decisions of the Comptroller of the Treasury, July, 1910–June, 1911, is now on sale at $1.50.

Notes on frost, Farmers' bulletin 104, first published in 1899, has been revised and reissued. 5 cents.

A reprint from vol. 26, no. 40, Public health reports, gives extracts from the report of the commission appointed by the Academy of Medicine of Paris on one of the most important of all recent medical topics, namely, Antityphoid vaccination. A method of controlling the typhoid pestilence seems really to be in sight. But the new remedy is to be used with care. This report says the serum must be used only upon perfectly healthy subjects.

Mines Bureau Bulletin 13 is a Résumé of producer-gas investigations, Oct. 1, 1904–June 30, 1910. The results of the active inquiries into the merits of this new source of energy during nearly six years are here brought together in a single large volume. The Superintendent of Document's price for this document is 65 cents.

The latest document issued by the National Monetary Commission is Dr. Hollander's Bank loans and stock exchange speculation, a brief consideration of a large subject. It has its first publication as Senate document 589, 61st Congress, 2d session. 5 cents.

Vol. 10, History of women in trade unions, is the latest issue in the Labor Bureau's extensive series entitled Report on condition of woman and child wage-earners in the United States. It is a Congressional print, 61st Congress, 2d session, Senate document 645, which is also the number of all the other parts in the same series.

AN IMMORTAL DOCUMENT

The United States Department of State has published in attractive pamphlet form a literal print of the American Declaration of Independence, with the correct names of the 56 signers and a historical note. Copies are on sale by the Superintendent of Documents at 5 cents. The original manuscript document, preserved in the Department of State, has so faded that it is no longer legible.

GOOD DOCUMENTS FRESH FROM THE PRESS

So many new prints bearing titles that promise stores of practical knowledge have come to the table at the last moment that it is possible only to call attention to the attractiveness of their titles:

Cascade Range. Avalanches and forest cover in northern Cascades. (Forest Service Circular 173.) 5 cents.

Children. Provision for exceptional children in public schools. (Education Bureau Bulletin 14, series of 1911.) 10 cents.

Corn. Have you a more productive corn than 1st-generation cross no. 182? (Plant Industry Bureau.) 5 cents.

Cotton goods in Spain and Portugal. (Manufactures Bureau Special agents series 46.) 5 cents.

Crater national forest, its resources and their conservation. (Forest Service Bulletin 100.) 10 cents.

Crops. Government crop reports, their value, scope, and preparation. (Statistics Bureau Circular 17, revised.) 5 cents.

Medical statistics. International military medical statistics for year 1910. (Supplement to annual report of surgeon-general, 1911.)

National Museum. Proceedings of National Museum, vol. 40. $1.00.

Panama Canal. Some problems of Panama Canal; address of Henry L. Stimson, Secretary of War. 5 cents.

—— Treaties and acts of Congress relating to isthmian canal. (Reprinted from Report of Isthmian Canal Commission, 1911.) 5 cents.

Saccharin. Influence of saccharin on nutrition and health of man. (Report 94, Agriculture Department.) 35 cents.

Salmon fisheries of Pacific Coast. (Fisheries Bureau document 751.) 15 cents.

FORTHCOMING PUBLICATIONS

Manufactures Bureau, Commerce and Labor Department, has in press a first supplement to the World trade directory, a very large volume of which there has been a very large sale. The supplement will be an octavo pamphlet of probably 30 or 40 pages. Other supplements will follow as material for them may accumulate. The State Department has instructed the United States consuls in all parts of the world to supply information for this work.

By Senate resolution 237, introduced May 19, 1910, by Senator Borah, and agreed to June 23, 1910, the Labor Bureau was directed to make an investigation of the iron and steel industry in the United States and report the results. This has been done, and the report is now in press as Senate document 110, 62d Congress, 1st session, in 4 vols., under the title Conditions of employment in the iron and steel industry of the United States. It is expected that the first volume will be in the hands of readers at about the same time as this catalogue.

For two years the Statistics Bureau, Agriculture Department, has been collecting information as to the dates of sowing and harvesting the principal crops of all countries. This interesting and valuable information will be given to the public in a series of bulletins, the first of which is now in press.

ARBITRATIONS

Three international arbitrations of the United States with other Powers recently have been concluded. Several volumes of documents were printed in connection with each one, but no copies of these prints are available for distribution to the depository libraries.

1. The Orinoco arbitration with Venezuela. This was heard by the Hague tribunal, which rendered its decision Oct. 25, 1910, allowing only a part of the claims of the United States.

2. The Alsop claim against Chile, in which the King of England acted as arbitrator. This had been pending many years. King George gave his decision in favor of the United States to the amount of a million dollars.

3. The Chamizal tract arbitration, heard by the American-Mexican Boundary Commission, composed of one American and one Mexican representative, with a Canadian statesman, Hon. Eugene Lafleur, as a third member and umpire. El Chamizal was the name of a Mexican farm which by a change of the channel of the boundary river, the Rio Grande, was made American territory, upon which a part of the city of El Paso, Texas, has grown up. The question submitted by the convention of June 24, 1910, was in which country the international title to the tract inheres. The Commission did not answer this question, but the Mexican and Canadian commissioners, June 15, 1911, joined in an award dividing the tract between the two countries. The American

commissioner dissented and the American agent, William C. Dennis, filed a protest.

The hope is felt and expressed that no arbitrations have been lately held of so very confidential a nature that the Superintendent of Documents has been unable to get track of the printed documents in the case.

CATALOGUING CONFIDENTIAL DOCUMENTS

It is of course necessary that some Government documents, such as treaties and conventions, Government cases in international arbitrations, Presidential messages yet undelivered, advance copies sent to newspapers for publication on a future day, and some others, should be printed in secret and held in confidence until officially released. It is also necessary that the official catalogues of public documents shall be compiled, and consequently that the experts who are to compile them shall have copies of the documents which are to be compiled. These two necessities sometimes conflict.

No matter how confidential documents may be considered to be, and no matter how carefully all knowledge of their existence may be guarded at first, they must all, sooner or later, emerge from their concealment and become subject to record in the official catalogues as other documents are. Within a year or two the injunction of secrecy has been removed from certain treaties with Indian tribes which had been held in sacred confidence by several generations of official guardians for 53 years. This, however, was an extreme case. Usually the term of secrecy can be measured in weeks or months or even days. But whether the time be long or short, too often it is sufficient to break the chain of transmission which in regular course brings the documents from the binders or the publishing bureaus to the cataloguers. When first issued, the Public Printer cannot transmit them, because he wisely relieves himself of responsibility for their care by sending the entire edition at once to the publishing Department or bureau. If the documents are—as often happens—the case and countercase and brief and so on of the United States to be presented to some arbitration court, they of course are held in confidence until after they have been presented to the court. After they have been so presented and the arbitration has been concluded and the award made and published, the confidential character of the documents in the case of course ceases. But by that time it too often occurs that all parties concerned have forgotten—some of them have never known—that there is a law requiring all authorities who are responsible for the printing and publishing of documents to see to it that the Superintendent of Documents, under whose direction the catalogues are compiled and printed, shall be supplied with copies, to be duly catalogued and thus incorporated into the public official record by whose aid the future histories of the country must be written. Sometimes by effort, sometimes by chance, the Superintendent of Documents usually learns, sooner or later—and a few times it has been disastrously later—that there are documents once confidential, but from which the injunction of secrecy at last has been removed, which should be at once secured for the use of the cataloguers and for preservation in the extensive library of public documents which has been built up by preserving catalogued copies and by other legitimate means without a penny's cost to the Government.

It is not often easy—sometimes it is very difficult—for the Superintendent of Documents to secure so much as a single copy of the confidential documents even after they have reached the release stage, while the 500 depository libraries, which are entitled by law to receive everything have no chance whatever to get copies.

There are several reasons for this. As the documents are not to have, in their first or confidential form, more than a very limited distribution, but a small number is printed. As it is not required that documents, while under confidential restriction, shall be sent to the depository libraries, no allotment is printed for them. No thought is given to the fact that confidential documents will soon cease to be secret, and will become part and parcel of the open historical records of the country, and that then the entry of their titles in the official catalogues and the supply of copies to the principal libraries of the country for preservation are required by the spirit if not by the express letter of the law.

Those documents of arbitrations and other confidential proceedings which are subsequently reprinted as Congressional documents reach the depository libraries through that channel. But there are many once confidential documents which are not thus reprinted. The present year has seen the conclusion of three international arbitrations—the Chamizal tract arbitration with Mexico, the Orinoco claim arbitration with Venezuela, and the Alsop claim arbitration with Chile. Of the documents in the case of only one of these has the Superintendent of Documents yet been able to secure a complete set, while not a single copy of any volume has been secured for distribution to the depository libraries. And there is always the chance that there are other like sets of whose existence the Superintendent of Documents has not yet learned.

How can a cataloguer catalogue if the things to be catalogued cannot be procured? How can the depository libraries make the public documents accessible to citizens of all parts of the country if numerous important documents are not permitted to reach their shelves?

Librarians, bibliographers, historical students, and statesmen will be of one mind on the question, Should not legislation be enacted to secure a better supply of the confidential documents of the Government to the official cataloguers and the official libraries?

CORRIGENDA

American Historical Association Report, 1909, page 160, footnote, reads: "S. doc. 1 and H. doc. 2, 2nd sess., 60th Congress." Instead of "60th Congress" read "16th Congress". The document to which reference is made is the first Constitution of Missouri, enacted in July, 1820, and ordered printed by the United States Senate Nov. 14 and by the House of Representatives Nov. 16, 1820. The term of the 60th Congress began Mar. 4, 1907, and ended Mar. 4, 1909.

In the Congressional record, 56th Cong. 1st sess., Index volume, page 613, under heading Ryan, William H., a Representative from New York, last item under the subheading Bills and joint resolutions introduced by, is found in parentheses the phrase (See bill S. 4718). Instead of "S." read "H." It was a House bill. Mr. Ryan could not possibly have introduced a Senate bill. This particular bill was an important one relating to the Seneca nation of Indians and a considerable town which has grown up on their reservation in Western New York. It became a law in the 56th Cong., 2d sess. (Stat, L. v. 31, p. 819.)

Senate report 1281, 61st Congress, which was issued during the 3d session, is entitled Report of the Committee on Irrigation and Reclamation of Arid Lands on the investigation of irrigation projects. It carries on its title-page in parentheses the words (To accompany S. Res. 324). As the Congress by which this no. 324 was issued is not mentioned, the natural conclusion would be that it is the same Congress by which Report 1281 was issued. This, however, is not the case. Senate resolution 324 of the 61st Congress does not relate in any way to the irrigation investigation. By searching the Congressional Record it is found that the irrigation inquiry was authorized by the 60th Congress at its 2d session, but not by virtue of Senate resolution 324. It was by Resolution 319 that the investigation was set afoot. The parenthetical clause (To accompany S. res. 324) on the title-page of Senate rp. 1281, 61st Cong. 3d sess., should therefore be changed to read (To accompany S. res. 319, 60th Cong., 2nd sess.). Report 1281 and Resolutions 319 and 324 all had mishaps of their own in the course of editing and printing, but as these have all been straightened out except the erroneous Resolution number, they need not be detailed here. In the rush of numbering and printing between dark and dawn the thousands upon thousands of Congressional bills, resolutions, reports, and documents, it is almost miraculous that so small a percentage of errors occurs.

Congressional record index, 59th Congress, 1st session, History of House bills, H. R. 11946, 2d line in the 6-point type, instead of (H. R. Report 558) read (H. R. Report 1558). This is a favorable report from the Committee on Indian Affairs on a bill providing for the allotment of Indian lands in severalty.

There is a supposition abroad that in or about 1872 Congress investigated the South Improvement Company, an early combination of oil interests which became so odious that the Pennsylvania Legislature was constrained to conciliate public opinion by repealing its charter in the year named. The indexes to the public documents reveal very little to sustain this supposition. In vol. 1, Report of the Industrial Commission, page 147, is a statement that William G. Warden gave testimony before a Committee of Congress, March 30, 1872, in which he included a list of the stockholders and the amount of their holdings. A footnote on the same page says: "It appears from the testimony of Mr. Emery that the Committee of Congress referred to did not publish any report, and possibly did not even keep a record of the testimony taken. The chairman of the Committee was Mr. Gilfillin. Mr. Emery was in Washington at the time and has a complete copy of the testimony, taken either from newspapers or directly from stenographers. Mr. Boyle confirms the fact that there was such an investigation." There is a discrepancy here. March

30, 1872, when it is said that Mr. Warden's testimony was given, is in the period of the 42d Congress, 2d session. Mr. Calvin W. Gilfillan of Franklin, Pa., said to have been chairman of the committee of investigation, was not a member of the 42d Congress. He served only in the 41st Congress, having been defeated for reelection to the 42d Congress. It is evident, therefore, either that the investigation was not held in March, 1872, or that Mr. Gilfillan was not chairman of the committee. It is, by the way, improbable that a one-term member should be chairman of a committee, or even of a subcommittee designated to hear evidence. At page 668, Industrial Commission Report, vol. 1, both Mr. Lewis Emery, jr., and Mr. Patrick Boyle, editor of the Oil City Derrick, give interesting information as to the difficulty of getting copies of the evidence taken by the committees investigating oil matters, not only in 1872 but in 1888 as well.

CORRECTION FOR AUGUST, 1911, MONTHLY CATALOGUE

For "1911" in 3d line of 2d entry under subhead Fruit under Plant Industry Bureau on page 76, read "1910."

MONTHLY CATALOGUE

No. 203 NOVEMBER 1911

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture, which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Before Attorney General in re inspection, under act of June 30, 1906, of meat food products derived from carcasses of animals which did not receive post-mortem inspection under that act, question submitted by Secretary of Agriculture; brief of solicitor. 1911. cover-title, 41 p. ‡

[Bureau of Animal Industry] order 183 rule 1 revision 8, 184, 185; Nov. 1-13, 1911. [1911.] [Consist of orders concerning quarantine of cattle, etc.] †

Influence of saccharin on nutrition and health of man: Report of Referee Board of Consulting Scientific Experts; Influence of saccharin on digestion, metabolism, nutrition, and general health [with bibliography], by Christian A. Herter; Effect of saccharin on health, nutrition, and general metabolism of man, by Otto Folin. Nov. 15, 1911. 375 p. (Report 94.) * Paper, 35c. Agr 11—2039/4

Notice of judgment 1125-54, food and drugs act. Nov. 9, 1911. †

ANIMAL INDUSTRY BUREAU

Diagnosis of glanders by complement fixation; by John R. Mohler and Adolph Eichhorn. Apr. 7, 1911, reprint Oct. 1911, with slight revision. 32 p. 5 pl. (Bulletin 136.) * Paper, 15c. Agr 11—480/4

Directory of bureau. Oct. 1, 1911. 66 p. * Paper, 5c. Agr 10—511/2

Methods and results of paraffining cheese; by C. F. Doane. Nov. 1, 1911. 16 p. (Circular 181.) * Paper, 5c. Agr 11—2040/2

Service announcements 55; Nov. 15, 1911. [1911.] p. 79-84. [Monthly.] ‡ Agr 7—1658/2

Spontaneous oxidation of arsenical dipping fluids; by Aubrey V. Fuller. Nov. 9, 1911. 8 p. (Circular 182.) * Paper, 5c. Agr 11—2028/3

Tuberculosis, plain statement of facts regarding disease, prepared especially for farmers and others interested in live stock; by international commission of American Veterinary Medical Association on control of bovine tuberculosis. Nov. 14, 1911. 23 p. il. (Agriculture Dept. Farmers' bulletin 473.) * Paper, 5c. Agr 11—2038/2

BIOLOGICAL SURVEY BUREAU

Rabbit as farm and orchard pest; by D. E. Lantz. Reprint Nov. 1911. ii+329-342 p. il. 2 pl. ([Yearbook] separate 452.) [From Yearbook, 1907.] * Paper, 5c.

CHEMISTRY BUREAU

Analyses of sugar beets, 1905–10, with methods of sugar determination [with bibliography]; by A. Hugh Bryan. Nov. 28, 1911. 48 p. il. 2 pl. (Bulletin 146.) * Paper, 10c. Agr 11—2170

Rules and regulations regarding reindeer service in Alaska. 1911. 12 p. (Whole no. 466.) * Paper, 5c.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 252.

Asphalt. Production of asphalt, related bitumens, and bituminous rock, [calendar year] 1910 [with list of survey publications on asphalt]; by David T. Day. 1911. 9 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Coal. Production of coal, [calendar year] 1910 [with list of references], by Edward W. Parker; [with Classified list of papers dealing with coal, coke, lignite, and peat contained in publications of Geological Survey, by John M. Nickles and Willis T. Lee]. 1911. 241 p. il. 14 maps. [From Mineral resources, 1910.] † Paper; * paper, 45c.

Geochemistry. Data of geochemistry [with bibliography on water analyses]; by Frank Wigglesworth Clarke. 2d edition. 1911. 782 p. (Bulletin 491.) [Previous edition was issued in 1908 as Bulletin 330.] * Paper, 55c. GS 11—533/2

Geology. Bibliography of North American geology, 1910, with subject index; by John M. Nickles. 1911. 179 p. (Bulletin 495.) *Paper, 15c. 4—3948/5

West Virginia. Results of spirit leveling in West Virginia, 1909–10; R. B. Marshall, chief geographer. 1911. 54 p. 1 pl. (Bulletin 477; H. doc. 1471, 61st Cong. 3d sess.) [Prepared in cooperation with West Virginia.] * Paper, 5c. GS 11—487/3

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least $3.00.

Alaska, Prince of Wales Island, Copper Mountain and vicinity, lat. 55° 10′ 30″–55° 17′ 30″, long. 132° 30′ 30″–132° 40′. Scale 1:62,500, contour interval 100 ft. [Washington, Geological Survey] edition of [1911]. 8.2×7 in. † 5c.

California, Gilsizer Slough, lat. 39°–39° 07′ 30″, long. 121° 37′ 30″–121° 45′. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.3×13.5 in. † 5c.

California, Grimes quadrangle, lat. 39°–39° 07′ 30″, long. 121° 52′ 30″–122°. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Aug. 1911. 17.3×13.5 in. † 5c.

California, Mills quadrangle, lat. 38° 30′–38° 37′ 30″, long. 121° 15′–121° 22′ 30″. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Aug. 1911. 17.3×13.6 in. † 5c.

California, Ostrom quadrangle, lat. 39°–39° 07′ 30″, long. 121° 30′–121° 37′ 30″. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of July, 1911. 17.3×13.5 in. † 5c.

California, Sutter quadrangle, lat. 39° 07′ 30″–39° 15′, long. 121° 37′ 30″–121° 45′. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.3×13.4 in. † 5c.

California, Yuba City quadrangle, lat. 39° 07′ 30″–39° 15′, long. 121° 30′–121° 37′ 30″. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of July, 1911. 17.3×13.4 in. † 5c.

Colorado, De Beque oil field, lat. 39° 20′–39° 25′, long. 108° 10′–108° 20′. Scale 1:62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Sept. 1911. 12.3×12 in. † 5c.

Idaho-Wyoming-Utah, Montpelier quadrangle, lat. 42°–42° 30′, long. 111°–111° 30′. Scale 1:125,000, contour interval 50 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.5×13 in. † 5c.

Ohio, Cumberland quadrangle, lat. 39° 45′–40°, long. 81° 30′–81° 45′. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Aug. 1911. 17.5×13.5 in. † 5c.

Ohio, Oxford quadrangle, lat. 39° 30′–39° 45′, long. 84° 30′–84° 45′. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Aug. 1911. 17.5×13.5 in. † 5c.

Ohio, Spencerville quadrangle, lat. 40° 30′–40° 45′, long. 84° 15′–84° 30′. Scale 1:62,500, contour interval 10 ft. [Washington, Geological Survey] edition of June, 1911. 17.5×13.3 in. † 5c.

Ohio, Summerfield quadrangle, lat. 39° 45′–40°, long. 81° 15′–81° 30′1 Scale 1:62,500, contour interval 20 ft. [Washington, Geologica. Survey] edition of Aug. 1911. 17.5×13.5 in. † 5c.

Oklahoma, Sallisaw quadrangle, lat. 35°–35° 30′, long. 94° 30′–95°. Scale 1:125,000, contour interval 50 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.5×14.4 in. † 5c.

Oklahoma, Sansbois quadrangle, lat. 35°–35° 30′, long. 95°–95° 30′. Scale 1:125,000, contour interval 50 ft. [Washington Geological Survey] edition of Aug. 1911. 17.5×14.4 in. † 5c.

Sacramento Valley, Cal., Topographic map of, lat. 38°–40° 15′, long. 121° 122° 15′. Scale 1:250,000, contour interval 25 and 250 ft. [Washington, Geological Survey] edition of Oct. 1911. 39.4×17.3 in. †15c.

Wyoming, Shoshone quadrangle, lat. 44°–44° 30′, long. 110° 30′–111°. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.5×12.7 in. † 5c.

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued on 14th of November, 1911 [with list of inventions]. [1911.] xxix p. large 8° [From Official gazette, v. 172, no. 2.] † Paper, 5c. single copy, $1.00 a yr.

In Supreme Court of District of Columbia, at law no. 54011, United States ex relatione Isabella Scott and David J. Scott, executors of Walter Scott, *v.* Edward B. Schedule of steamers appointed to convey mails to foreign countries during Dec. 1911. Nov. 17, 1911. 1 p. narrow f° [Monthly.] *Paper, 10c. single copy, $1.00 a yr.

TOPOGRAPHY DIVISION

Note.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1911, page 367.

PRESIDENT OF UNITED STATES

Alaska. Executive order [authorizing withdrawal of right of way between Hot Springs and Fort Gibbon, Alaska, from reservation for military purposes and placing it under control of Secretary of Interior]. Nov. 23, 1911. 1 p. f° (No. 1438.) ‡

Assinniboine, Fort, Mont. Executive order [authorizing withdrawal of fort from reservation for military purposes and placing it under control of Secretary of Interior]. Nov. 20, 1911. 1 p. f° (No. 1436.) ‡

Barkley, Richard W. Executive order [authorizing reinstatement of Barkley in Patent Office]. Nov. 17, 1911. 1 p. f° (No. 1434.) ‡

Canal Zone, Isthmus of Panama. Executive order, to amend sec. 1 and 2, of act 2, of Canal Zone laws, relating to notaries public, enacted Aug. 17, 1904, and for other purposes. Nov. 18, 1911. 1 p. f° (No. 1435.) ‡

—— Executive order, Ear Mountain administrative site, near Lewis and Clark national forest, Mont. [reserving lands in Montana for use of Forest Service in administration of national forest]. Nov. 1, 1911. 1 p. f° (No. 1428.) ‡

—— Executive order, Santa Rosa national forest, Nev. [modifying proclamation of Apr. 1, 1911, so as to reduce area of national forest]. Nov. 3, 1911. 1 p. f° (No. 1429.) ‡

—— Executive order, Valley administrative site, near Sioux national forest, S. Dak. [reserving lands in South Dakota for use of Forest Service in administration of national forest]. Nov. 13, 1911. 1 p. f° (No. 1432.) ‡

—— Rainier national forest, Wash. [transferring portion of land to Snoqualmie national forest], 4th proclamation. Oct. 23, 1911. 1 p. map, f° (No. 1170.) †

—— Snoqualmie national forest, Wash. [to include and supersede part of Rainier national forest], proclamation. Oct. 23, 1911. 1 p. map, f° (No. 1171.) †

Peery, Edwin H. Executive order [authorizing reinstatement of Peery in office of Judge-Advocate-General]. Oct. 28, 1911. 1 p. f° (No. 1427.) ‡

Regan Barracks. Executive order [reserving lands near barracks, Albay Province, P. I., for target range and for other military purposes]. Nov. 23, 1911. 1 p. f° (No. 1437.) ‡

Thanksgiving, 1911, proclamation. Oct. 30, 1911. 1 p. f° (No. 1172.) †

SMITHSONIAN INSTITUTION

Note.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Agassiz, Alexander. Alexander Agassiz, 1835–1910; by Alfred Goldsborough Mayer. 1911. [1]+447–472 p. 1 por. (Publication 2036.) [From Report, 1910.] †

Animals. Significance of pulse rate in vertebrate animals [with list of references]; by Florence Buchanan. 1911. [1]+487–505 p. il. (Publication 2038.) [From Report, 1910.] †

Astronomical problems of southern hemisphere; by Heber D. Curtis. 1911. [1]+329–340 p. il. (Publication 2028.) [From Report, 1910.] †

Astrophysics. Recent progress in astrophysics in United States; by J. Boler. 1911. [1]+357–370 p. 8 p. of pl. (Publication 2030.) [From Report, 1910.] †

Bows and arrows. Origin of west African crossbows; by Henry Balfour. 1911. [1]+635–650 p. il. 1 pl. (Publication 2047.) [From Report, 1910.] †

Cave dwellings of Old and New Worlds; by J. Walter Fewkes. 1911. [1]+613–634 p. 1 pl. 10 p. of pl. (Publication 2046.) [From Report, 1910.] †

Druidism. Origin of Druidism; by Julius Pokorny. 1911. [1]+583–597 p. (Publication 2044.) [From Report, 1910.] †

Ear-flower. Sacred ear-flower of Aztecs, xochinacaztli; by William Edwin Safford. 1911. [1]+427–431 p. il. 1 pl. (Publication 2034.) [From Report, 1910.] †

Earth. Future habitability of the earth; by Thomas Chrowder Chamberlin. 1911. [1]+371–389 p. (Publication 2031.) [From Report, 1910.] †

Explosives. Some modern developments in methods of testing explosives; by Charles E. Munroe. 1911 [1]+291–306 p. 12 p. of pl. (Publication 2025.) [From Report, 1910.] †

Ferns. On Psomiocarpa, neglected genus of ferns; by H. Christ. Washington, Smithsonian Institution, Nov. 21, 1911. [2]+4 p. il. 1 pl. (Publication 2054; Smithsonian miscellaneous collections, v. 56, no. 23.) † Paper, 5c. 11—35930

Ferns—Continued. Remarkable new fern from Panama; by William R. Maxon. Washington, Smithsonian Institution, Nov. 22, 1911. [2]+5 p. 3 pl. (Publication 2055; Smithsonian miscellaneous collections, v. 56, no. 24.) † Paper, 10c. 11—35931

Flying. Recent progress in aviation; by Octave Chanute. 1911. [1]+145–167 p. 1 pl. 18 p. of pl. (Publication 2018.) [From Report, 1910.] †

Forest preservation; by Henry S. Graves. 1911. [1]+433–445 p. 1 pl. 6 p. of pl. (Publication 2035.) [From Report, 1910.] †

Fuller, Melville W. Melville Weston Fuller, 1833–1910; by Charles D. Walcott. 1911. [1]+113–123 p. 1 por. (Publication 2016.) [From Report, 1910.] †

Grass-warbler. Descriptions of 7 new African grass-warblers of genus Cisticola; by Edgar A. Mearns. Washington, Smithsonian Institution, Nov. 23, 1911. [2]+6 p. (Publication 2056; Smithsonian miscellaneous collections, v. 56, no. 25.) † Paper, 5c. 11—35932

Histology. Manifested life of tissues outside of organism; by Alexis Carrel and Montrose T. Burrows. 1911. [1]+573–582 p. (Publication 2043.) [From Report, 1910.] †

Hoactzin. Contribution to ecology of adult hoatzin [with bibliography]; by C. William Beebe. 1911. [1]+527–543 p. il. 1 pl. 6 p. of pl. (Publication 2040.) [From Report, 1910.] †

Huggins, Sir William. Sir William Huggins; by W. W. Campbell. 1911. [1]+307–317 p. 1 por. (Publication 2026.) [From Report, 1910.] †

Ions. Isolation of ion, precision measurement of its charge, and correction of Stokes's law; by R. A. Millikan. 1911. [1]+231–256 p. il. (Publication 2022.) [From Report, 1910.] †

Irrigation. Progress in reclamation of arid lands in western United States; by F. H. Newell. 1911. [1]+169–198 p. il. 12 p. of pl. (Publication 2019.) [From Report, 1910.] †

Isostasy. What is terra firma? review of current research in isostasy; by Bailey Willis. 1911. [1]+391–406 p. 1 pl. 2 p. of pl. (Publication 2032.) [From Report, 1910.] †

Matter. Modern ideas on constitution of matter; by Jean Becquerel. 1911. [1]+275–290 p. (Publication 2024.) [From Report, 1910.] †

Mississippi River. Electric power from river; by Chester M. Clark. 1911. [1]+199–210 p. 8 p. of pl. (Publication 2020.) [From Report, 1910.] †

Ostrich. Plumages of ostrich; by J. E. Duerden. 1911. [1]+561–571 p. 8 p. of pl. (Publication 2042.) [From Report, 1910.] †

Photographs. Telegraphy of photographs, wireless and by wire; by T. Thorne Baker. 1911. [1]+257–274 p. il. 2 pl. (Publication 2023.) [From Report, 1910.] †

Plover. Migration of Pacific plover to and from Hawaiian Islands; by Henry W. Henshaw. 1911. [1]+545–559 p. (Publication 2041.) [From Report, 1910.] †

Report. Annual report of regents, year ending June 30, 1910 [with report of secretary, etc., and appendix containing scientific papers]. 1911. vii+688 p. il. 3 por. 11 pl. 114 p. of pl. map. ([Publication 2050.]) * Cloth, $1.10. 4—18264/2 [also analytical cards].

CONTENTS.—Report of secretary.—Report of executive committee.—Proceedings of regents.—Melville Weston Fuller, 1833–1910; by Charles D. Walcott.—Ornamentation of rugs and carpets; by Alan S. Cole.—Recent progress in aviation; by Octave

Chanute.—Progress in reclamation of arid lands in western United States; by F. H. Newell.—Electric power from Mississippi River; by Chester M. Clark.—Safety provisions in United States Steel Corporation; by David S. Beyer.—Isolation of ion, precision measurement of its charge, and correction of Stokes's law; by R. A. Millikan.—Telegraphy of photographs, wireless and by wire; by T. Thorne Baker.—Modern ideas on constitution of matter; by Jean Becquerel.—Some modern developments in methods of testing explosives; by Charles E. Munroe.—Sir William Huggins; by W. W. Campbell.—Solar constant of radiation; by C. G. Abbot.—Astronomical problems of southern hemisphere; by Heber D. Curtis.—Progressive disclosure of entire atmosphere of the sun; by H. Deslandres.—Recent progress in astrophysics in United States; by J. Bosler.—Future habitability of the earth; by Thomas Chrowder Chamberlin.—What is terra firma? review of current research in isostasy; by Bailey Willis.—Transpiration and ascent of sap; by Henry H. Dixon.—Sacred ear-flower of Aztecs, xochinacaztli; by William Edwin Safford.—Forest preservation; by Henry S. Graves.—Alexander Agassiz, 1835-1910; by Alfred Goldsborough Mayer.—Recent work on determination of sex; by Leonard Doncaster.—Significance of pulse rate in vertebrate animals [with list of references]; by Florence Buchanan.—Natural history of solitary wasps of genus Synagris [with bibliography]; by E. Roubaud.—Contribution to ecology of adult hoatzin [with bibliography]; by C. William Beebe.—Migration of Pacific plover to and from Hawaiian Islands; by Henry W. Henshaw.—Plumages of ostrich; by J. E. Duerden.—Manifested life of tissues outside of organism; by Alexis Carrel and Montrose T. Burrows.—Origin of Druidism; by Julius Pokorny.—Geographical and statistical view of contemporary Slav peoples; by Lubor Niederle.—Cave dwellings of Old and New Worlds; by J. Walter Fewkes.—Origin of west African crossbows; by Henry Balfour.—Sanitation on farms; by Allen W. Freeman.—Epidemiology of tuberculosis; by Robert Koch.

Rugs. Ornamentation of rugs and carpets; by Alan S. Cole. 1911. [1]+125–144 p. 6 p. of pl. (Publication 2017.) [From Report, 1910.] †

Safety provisions in United States Steel Corporation; by David S. Beyer. 1911. [1]+211–229 p. 1 pl. 10 p. of pl. (Publication 2021.) [From Report, 1910.] †

Sanitation on farms; by Allen W. Freeman. 1911. [1]+651–657 p. (Publication 2048.) [From Report, 1910.] †

Sap. Transpiration and ascent of sap; by Henry H. Dixon. 1911. [1]+407–425 p. il. (Publication 2033.) [From Report, 1910.] †

Sex. Recent work on determination of sex; by Leonard Doncaster. 1911. [1]+473–485 p. (Publication 2037.) [From Report, 1910.] †

Slavs. Geographical and statistical view of contemporary Slav peoples; by Lubor Niederle. 1911. [1]+599–612 p. map. (Publication 2045.) [From Report, 1910.] †

Solar radiation. Solar constant of radiation; by C. G. Abbot. 1911. [1]+319–328 p. (Publication 2027.) [From Report, 1910.] †

Sun. Progressive disclosure of entire atmosphere of the sun; by H. Deslandres. 1911. [1]+341–356 p. il. 4 p. of pl. (Publication 2029.) [From Report, 1910.] †

Tuberculosis. Epidemiology of tuberculosis; by Robert Koch. 1911. [1]+659–674 p. il. (Publication 2049.) [From Report, 1910.] †

Wasps. Natural history of solitary wasps of genus Synagris [with bibliography]; by E. Roubaud. 1911. [1]+507–525 p. 4 p. of pl. (Publication 2039.) [From Report, 1910.] †

AMERICAN HISTORICAL ASSOCIATION

10th report of Public Archives Commission with appendices, 1909; edited by Herman V. Ames. 1911. [2]+323–490 p. [From Report, 1909.] † CA 10—2766

CONTENTS.—10th annual report of commission.—Proceedings of 1st annual conference of archivists.—American archival problems; by Waldo G. Leland.—Lessons of British archives; by Charles M. Andrews.—Lessons of German archives; by Marion Dexter Learned.—Lessons of Italian archives; by Carl Russel Fish.—Lessons of Dutch archives; by William I. Hull.—Lessons of Spanish archives; by William R. Shepherd.—Lessons of Swedish archives; by Amandus Johnson.—Tragedies in New York's public records; by Victor Hugo Paltsits.—Archives of Illinois; by Clarence Walworth Alvord and Theodore Calvin Pease.—Preliminary report on archives of New Mexico; by John H. Vaughan.

ETHNOLOGY. BUREAU

27th annual report [with accompanying paper, fiscal year] 1906. 1911. 672 p. il. 27 por. 37 pl. 2 maps, large 8° ([Publication 2057.]) * Cloth, $1.50. 7—38073/6

CONTENTS.—Report of chief.—Omaha tribe; by Alice C. Fletcher and Francis La Flesche.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise bulletins, annual reports, and an annual volume of Proceedings. The annual report is included in the Congressional set. The editions of the bulletins and Proceedings are too limited to admit of general distribution, and the volumes of the latter are sent only to libraries.

Proceedings. 1911. v. 40, xi+670 p. il. 70 pl. map. [Articles 1808–45 are included in this volume. Each article is also published separately in advance.] * Paper, $1.00. 11—20830/3

CONTENTS.—Recent crinoids of coasts of Africa; by Austin Hobart Clark.—Mammals collected by W. L. Abbott on Borneo and some of small adjacent islands; by Marcus Ward Lyon, jr.—Notes on distribution of millipeds in southern Texas, with descriptions of new genera and species from Texas, Arizona, Mexico, and Costa Rica; by O. F. Cook.—Descriptions of new genus and species of isopod crustacean of family Idotheidæ from mouth of Rio de la Plata, Argentina; by Harriet Richardson.—Descriptions of 6 new genera and 31 new species of ichneumon flies; by H. L. Viereck.—Final supplement to catalogue of published writings of Charles Abiathar White, 1897-1908; by Timothy W. Stanton.—Notes upon 2 rare flatfishes, Gymnachirus fasciatus Gunther and G. nudus Kaup; by W. C. Kendall.—Descriptions of tineoid moths, Microlepidoptera, from South America; by August Busck.—Electric ray and its young from west coast of Florida; by Barton A. Bean and Alfred C. Weed.—New trematode, Styphlodora bascaniensis, with blind Laurer's canal [with list of references]; by Joseph Goldberger.—Bees in collection of museum, 2; by T. D. A. Cockerell.—Hoffman Philip Abyssinian ethnological collection; by Walter Hough.—New species of shells from Bermuda; by William Healey Dall and Paul Bartsch.—Revision of several genera of gymnospermous plants from Potomac group in Maryland and Virginia; by Edward W. Berry.—Scientific results of Philippine cruise of fisheries steamer Albatross, 1907-10, no. 9, descriptions of 3 new fishes of family Chætodontidæ from Philippine Islands; by Hugh M. Smith and Lewis Radcliffe.—Recent and fossil mollusks of genus Cerithiopsis from west coast of America; by Paul Bartsch.—Notes on genus Lepomis; by Barton A. Bean and Alfred C. Weed.—Remarks on long-tailed shrews of eastern United States, with description of new species; by N. Hollister.—Recent and fossil mollusks of genus Bittium from west coast of America; by Paul Bartsch.—Scientific results of Philippine cruise of fisheries steamer Albatross, 1907-10, no. 10, new genera of starfishes from Philippine Islands; by Walter K. Fisher.—Two amphibians, 1 of them new, from carboniferous of Illinois; by Roy L. Moodie.—New mollusks of genus Aclis from the north Atlantic; by Paul Bartsch.—Descriptions of new Hymenoptera, 2; by J. C. Crawford.—New tropical millipeds of order Merocheta, with example of kinetic evolution; by O. F. Cook.—Descriptions of 1 new genus and 8 new species of ichneumon-flies; by H. L. Viereck.—On supposed origin of moldavites and like sporadic glasses from various sources; by George P. Merrill.—Notes on insects of order Strepsiptera, with descriptions of new species [with bibliography]; by W. Dwight Pierce.—Relation of bornite and chalcocite in copper ores of Virgilina district of North Carolina and Virginia; by Francis Baker Laney.—Descriptions of new genera and species of fishes from Japan and Riu Kiu Islands; by John Otterbein Snyder.—Descriptions of new species of wasps with notes on described species; by S. A. Rohwer.—Preliminary notices of some new Pacific cephalopods; by S. Stillman Berry.—Fresh-water sponges in collection of museum: pt. 5, New genus proposed, with Heteromeyenia radiospiculata Mills as type; by Nelson Annandale.—Revision of forms of hairy woodpecker, Dryobates villosus, Linnaeus; by Harry C. Oberholser.—Description of new species of Æga from Atlantic Coast of United States; by Harriet Richardson.—Hothouse milliped as new genus; by O. F. Cook.—Descriptions of new genus and species of Janiridæ from the northwest Pacific; by Harriet Richardson.—New cestode from African bustard [with list of references]; by Brayton Howard Ransom.—Systematic position of crinoid genus Marsupites; by Austin Hobart Clark.—Index.

Recent and fossil mollusks of genus Alvania from west coast of America; by Paul Bartsch. Nov. 15, 1911. [1]+333–362 p. 4 pl. [From Proceedings, v. 41; no. 1863.] †

Two new species of parasitic nematodes [with list of references]; by Brayton Howard Ransom. Oct. 31, 1911. [1]+363–369 p. il. [From Proceedings, v. 41; no. 1864.] †

STATE DEPARTMENT

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the Superintendent of Documents, Washington, D. C., are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions, and unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number will be an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

The 1911 annual report of the Isthmian Canal Commission is, like the previous reports of the present Commission, full of information and interest. Its 581 pages of profusely illustrated text are supplemented by a portfolio of maps and diagrams. The price for the text and maps is $1.60 in paper, $2.00 in cloth.

The recently issued 25th annual report of the commissioner of labor, 1910, is entirely given up to the great subject of industrial education. It presents the results of the latest investigations, showing the progress that has been made since the former reports on the subject by the Labor Bureau were made in 1892 and 1902. The conditions which make the need of greater facilities for industrial education one of the urgent necessities of our time are thus succinctly stated in the introduction to the 25th report: "Those who desire to fit themselves for business or professional life may secure a complete and well-rounded training, but for those who wish to take up a trade or a handicraft opportunities for an equivalent training are much harder to find. The old apprenticeship system has practically died out and the present system of subdivision and specialization in industry confines the beginner to one machine or one operation and gives him no chance to learn the trade as a whole. Consequently the ranks of unskilled and low-grade labor are overcrowded, industry suffers for want of skilled workmen, and the individual worker finds his life narrow and monotonous, his work a mere round of drudgery instead of a means of self-expression. Out of this situation has grown the demand for a system of education which shall meet the needs of workers of the industrial classes at least as thoroughly as the established system meets those of the professional and commercial classes." The Report comprises 822 well-filled pages and includes a bibliography of works in the French, German, and English languages, which does not aim at completeness, but is, on the contrary, rigorously selected, yet fills 19 pages and shows that the literature of the subject of industrial education is extensive. Cloth, 70 cents.

A revised edition of Chemistry Bureau Bulletin 16, which is a list of the officials charged with the enforcement of food laws in the United States and Canada, has been issued during the present month. The list is quite voluminous, as almost every State now has its pure food laws, and the names and addresses of all the State and Canadian officials interested in their enforcement are given, as well as those of the United States Government.

The Annual report of the chief of the Bureau of Insular Affairs for 1911 is a hopeful and encouraging document. It maintains that the material prosperity of Porto Rico and the Philippines is greater than ever before and shows a steady increase, while progress in other directions is continuous. The chief declares that to-day more Filipinos speak English than were ever able to speak Spanish.

Labor Bureau Bulletin 95 treats very fully the subject of industrial lead poisoning, a trouble which is more widespread than is generally understood.

Calosoma sycophanta is the scientific name of a handsome green beetle about an inch long which makes its living by devouring the larvæ of the gipsy moth. Entomology Bureau Bulletin 101 tells of the life history and behavior of calosoma and of its successful colonization in New England, where it is man's chief hope for the extermination, or at least the control, of the gipsy moth, our most insatiable devourer of foliage.

Miss Alice Henkel, the Agriculture Department's expert on the plants which from traditional days have filled the housewife's medicine chest, has compiled a new bulletin, published by the Plant Industry Bureau as no. 219, title: American medicinal leaves and herbs. Price, 15 cents.

Weather Bureau Bulletin 39 is: A course in meteorology and physical geography. It is a text-book of an unusual kind and sells at 20 cents a copy.

Root-knot and its control is Plant Industry Bureau Bulletin 217. This is a prevalent plant disease and to know how to control it is a boon to every farmer. 15 cents.

The annual report of the Comptroller of the Currency for 1911 supplies tremendous figures demonstrating the great and growing wealth of this country. The total bank resources are more than 23 billions. There are 140 clearing houses, and the aggregate of their transactions for the year ended Sept. 30, 1911, was more than 159 billions. This country's stock of gold is larger than that of any other country, being over 1,700 millions or 26 per cent of the total world supply. The United States has also the largest stock of silver, $729,000,000. The general stock of money in the country is $3,556,000,000, of which $342,000,000 is in the public treasury, $1,545,000,000 in the banks, and $1,668,000,000 in the pockets of the people.

The Postmaster General has submitted (in House document 105, 62d Congress, 1st session), a report, which is a big quarto volume of statistical tables, giving the results of an inquiry as to the operation, receipts, and expenditures of the railroads transporting the mails. The conclusion is reached that by a readjustment about $9,000,000 a year may be saved to the Government.

A further supplement to the General Land Office Manual for surveying instructions is Ephemeris of the sun and Polaris and tables of azimuths of Polaris for the year 1912. 5 cents.

The Interior Department has set afoot a new and promising idea for the stimulation of popular interest in the great national parks of this country, which exceed in number, magnitude, and scenic wonder those of any other country. The Department has secured from the various railroad companies which reach the parks a set of 77 large-scale photographs of the most striking views in the various parks. This remarkable collection the Interior Department offers to lend to public libraries and other educational institutions for free exhibition, the only condition being that the institution receiving them shall pay transportation one way. A descriptive circular of 16 pages, cataloguing the pictures and giving descriptive passages from the writings of Rudyard Kipling, John Muir, Joaquin Miller, Gouverneur Morris, Gordon Cumming, Diller, Hague, Stoddard, Baker, Stanley, White, and other distinguished writers who have been impressed by the colossal scenery of one or more of the great national reservations, has been printed for general distribution. Attached to the circular is a properly addressed blank to be used by citizens who wish to have their names entered on a mailing list to receive official information concerning the parks. This seems a well-devised and commendable plan for arousing popular interest in the great national parks.

The Commissioner of Internal Revenue in his 1911 annual report expresses plainly his belief that a large amount of oleomargarine, costing the retailer 12c. to 15c. a pound, is sold for butter at 25c. to 40c. a pound. He advocates a lower tax, to be collected on the colored and the uncolored oleomargarine alike, saying: "Had the tax been two cents a pound instead of a nominal rate of ten cents and an actual rate of one-fourth cent a pound the revenues would have been increased by $1,793,100.79, a large sum expended in attempting to enforce the present statutes would have been saved, and the corruption of great numbers of American citizens, as well as a fraud on the public to an extent not generally dreamed of, would have been prevented."

Regulations 30 revised, Internal Revenue Commissioner, is Regulations and instructions relative to the manufacture, sale, and use of denatured alcohol. Though this fuel for the production of power did not answer the expectations of many by springing into universal use as soon as it was relieved of taxation, its use has become considerable and is growing.

A Farmers' bulletin for which there long has been inquiry is no. 475, Ice houses, showing how to build and stock these necessary adjuncts to the modern farm equipment.

The Synopsis of the report of the Tariff Board on schedule K, relative to the duties on wool, has been printed as Senate document 210, 62d Congress, 2d session. It is also found in the Congressional record, v. 48, no. 16.

For the first time of which we have record the President's message informing the Congress of the state of the Union has been this year published in parts, or separate messages, each part discussing a different topic. Message no. 1, sent to the two Houses at the opening of the current session, Dec. 5th, considers anti-trust legislation. Message no. 2, sent in December 7th, discusses foreign relations. Message no. 3, laid before Congress Dec. 20th, has for theme Tariff schedule K, Wool, and the report of the Tariff Board thereon, and no. 4, transmitted Dec. 21st, deals with the finances. There may be more to come.

The hunt for potash in America in commercial quantities and under commercial conditions continues. The Geological Survey contributes to it an advance-printed chapter from Mineral resources, 1910, entitled Potash salts, their uses and occurrence in the United States. Also, The search for potash in the United States, an advance-printed chapter from Bulletin 530. Also, Occurrence of potash salts in bitterns of the eastern United States, another advance-printed paper from Bulletin 530. 5 cents each. There is also in press for early publication a Report on potash submitted by the Secretary of Agriculture. It will be printed as Senate document 190, 62d Congress, 2d session. No Department edition is to be issued.

The Railroad Securities Commission, of which President Hadley of Yale was chairman, held four hearings during 1911, but the reports of them have not been printed. The Report of the Commission is thus far its only publication. It is one of the most important documents of the current month. Its numerical designation is House document 256, 62d Congress, 2d session.

Agriculture Department Report 96, produced by the coöperation of the Bureaus of Soils and Plant Industry, discusses Soils of the prairie regions of Alabama and Mississippi and their use for alfalfa.

Part 5 of National Museum Bulletin 50, Ridgway's The birds of North and Middle America, long awaited by the numerous owners of Parts 1–4, has now been issued. Part 1 was published 1901; Part 2, 1902; Part 3, 1904; Part 4, 1907; Part 5, 1911. Parts 1–4 have been long out of stock in the Public Documents Office, and probably out of print also except for possibly a few copies of Part 4. It has been understood that 8 parts would be required to complete this very important contribution to natural history.

The refractive index of beeswax is the attractive title of Chemistry Bureau Circular 86. 5 cents.

The 9th volume of the Labor Bureau's 19-volume Report on condition of woman and child wage-earners in the United States has been issued. Its specific title is: History of women in industry in the United States. The document number for the whole 19 volumes is the same, 61st Congress, 2d session, Senate document 645.

Animal Industry Bureau Bulletin 146, Varieties of cheese, descriptions and analyses, a revision of Bulletin 105 of the same Bureau, will interest not only dairymen, but also many in the class known as "good livers." The number of varieties of cheese is much greater than most people know of. The descriptions and analyses fill 74 pages and there is a 4-page index.

FORTHCOMING PUBLICATIONS

Professional paper 28, Engineer Department, U. S. A., Report on testing hydraulic cements, with specifications for the several classes used by the Engineer Department, though published in 1901 and long out of print, is still in demand and rated as a standard manual on its subject. Numerous readers will be glad to know that this manual has been under revision for a long time past by a board of Engineer officers and that their labors are nearly completed. A new and revised edition of Professional paper 28 may therefore be looked for at no distant day.

The report of the north Atlantic coast fisheries arbitration, held at The Hague in 1910, is in course of publication in 12 volumes, four of which will be taken up with the arguments to which The Hague tribunal was required to listen. The leading counsel on the American and British sides spoke for eight days each—not eight hours, eight days. Another point for which this arbitration is remarkable and probably unique is the fact that both sides are pleased with the verdict, each of the contending nations holding that it got the better of the other. When it can be expected with confidence that all arbitrations may have an equally happy ending the millenium will be at hand. The north Atlantic coast arbitration set will be issued in an unnumbered cloth bound edition for distribution by the State Department, and also in a numbered Congressional document edition—61st Congress, 3d session, Senate document 870. The Congressional print includes the "usual number," from which the depository libraries are supplied.

Vol. 1, Official register (Blue book), 1911 edition, has been in the hands of users for several days. It contains the names, places of employment, and pay of all those in Government employ, both those who direct and those who are directed, except the members of the postal service, who have volume 2 to themselves. Volume 2 will not reach the public until some time in February. Price, per vol., $1.25.

The report of Mr. Gaillard Hunt, chief of the Manuscripts Division, Library of Congress, shows that vols. 19, 20, and 21 of the Journals of the Continental Congress are ready for press but have not been printed because the appropriation for printing has given out. Mr. Hunt's report, which contains several matters of interest to librarians and historical students, is not printed separately but is included in the Annual report of the librarian of congress.

A paper by Major F. F. Russell, Medical Department, U. S. A., The control of typhoid in the Army by vaccination, was ordered printed Mar. 2, 1911, as House document 1445, 61st Congress, 3d session. The House also ordered 37,000 extra copies in addition to the "usual number." Major Russell is booked for an address on the same very important subject next month before the American Medical Association. It is understood that in this address he will give the results of the latest tests and observations, bringing the history of the subject up to date, and that the address will be published as a document of the Army Medical Department.

EMPLOYER'S LIABILITY AND WORKMAN'S COMPENSATION COMMISSION

Some librarians have found the plan of publication of the hearings before the Employer's Liability and Workman's Compensation Commission confusing.

The Commission was authorized by House joint resolution 127, of the 61st Congress, 2d session, reprinted in the slip-law series as Public resolution 45, and in its final form, in the Statutes at large (vol. 36, p. 884), given the number 41.

Something has been done toward eliminating these misleading changes of number, so that a project of legislation may be known by the same number at all stages of its existence, but evidently not enough has yet been done.

Under authority of Resolution 127-45-41, which was approved June 25, 1910, the Employer's Liability and Workman's Compensation Commission is composed of two Senators appointed by the President of the Senate, two Representatives appointed by the Speaker of the House, and two citizens appointed by the President of the United States. Senator Sutherland of Utah is chairman.

The Commission held its first hearing May 10, 1911, the testimony taken being printed in an unnumbered and uncovered pamphlet of 34 pages. The next hearings were held June 14 and 15, 1911. The evidence then taken was published as Senate document 90, 62d Congress, 1st session, vol. 1. This was followed by Senate document 90, vol. 2, made up of briefs which had been submitted to the Commission.

The next hearings were held Oct. 16 and 17, 1911, and published without document number as Hearings before the Employer's Liability and Workman's Compensation Commission, Parts 2 and 3. Part 2 begins at page 545, the intention having been to connect it by continuous paging with vol. 2 of Senate document 90. As vol. 2 ended at page 514, there is a hiatus of 31 pages between vol. 2 and part 2. No explanation is given in or on any of the publications as to this hiatus, or as to the absence of part 1. It has been left to the Monthly catalogue to supply, for the benefit of readers and librarians, the much-needed explanation, which is that Senate document 90, vols. 1 and 2, is considered to be part 1 of the Hearings, and that the unnumbered pamphlet containing the hearings of May 10 is supposed to be interposed between document 90, vol. 2, and Hearings, part 2, thus supplying the missing pages. It is true that in natural order the hearings of May 10 should come before instead of after those of June 14 and 15, and that no unaided imagination could conjecture that vols. 1 and 2 mean part 1, and that the index which has been issued to parts 1 and 2 is embarrassed by the fact that in the arrangement decided upon pages 1 to 34 are duplicated, but when the explanatory key has been supplied the solution is easy.

By concurrent resolution adopted Aug. 10, 1911, authority is given to print 3,500 copies of these hearings as a "public document" for the use of the Commission. In the phraseology customary in bills and resolutions the term "public document" usually means a numbered Congressional document, though it is true that there are many public documents which are not numbered and not issued by direct Congressional authorization. It is understood that under the authority given August 10 all the publications of the Commission will be brought together under one document number, in one or more volumes, with unbroken paging. In that revised print it would be advisable to use a uniform title-page, differing as much from that used in the existing print of part 3 as that one differs from the title-pages of part 2 and document 90. Part 3's title-page gives Public resolution 45, approved June 25, 1910, as the authority for the creation of the Commission, but also states that the hearings were held pursuant to some unnumbered and undated act, apparently other than Resolution 127–45–41. There is, however, no such act. The much-numbered resolution is the sole warrant for the Commission and its work, and of course no other is required, the authority being ample as it stands.

These explanations are given, not by way of cavil, but to make clear matters which some librarians have found confusing.

The report of the Commission is due, by law, January 1, 1912.

PUBLICATIONS OF THE IMMIGRATION COMMISSION

The extensive series of reports of the Immigration Commission, long awaited, have now begun to issue from the Government press, and a detailed schedule of the volumes has been published.

The Commission was created by virtue of an act of Feb. 20, 1907, and consists of three Senators named by the President of the Senate, three Representatives named by the Speaker of the House, and three citizens named by the President. Senator Dillingham of Vermont is Chairman.

The reports will fill 42 volumes. The method of publication chosen is somewhat complex. All are Senate documents of the 61st Congress, but some are listed as of the 2d session and some as of the 3d session. While there is a general title, Reports of the Immigration Commission, there are also several subtitles and numerous sub-subtitles. One of the subtitles, Immigrants in industries, is subdivided into 25 parts, each with a sub-subtitle, and one of these sub-subtitles is further divided into two volumes. The load of numbers and titles which one of these two volumes staggers under looks rather formidable when brought together, thus:

Reports of the Immigration Commission, vol. 18. Immigrants in industries: part 21, Diversified industries, vol. 2. Part 22, The floating immigrant labor supply. (Senate document no. 633, 61st Congress, 2d session.)

A book by any one of these numbers and titles would be more easily identified, but librarians have become accustomed to public document profusion and will know how to make allowance for it.

About a year ago the Commission had made for the convenience of its members pamphlet abstracts, averaging about 50 pages each, of its voluminous reports. Of these pamphlet abstracts comparatively small editions were printed, and they have not been generally available to the public. The abstracts, 21 in number, have now been collected, with a few of the briefer full reports, and reprinted as vols. 1 and 2 of the 42-volume set, these volumes being also designated as Senate document 747, 61st Congress, 3d session, both volumes carrying the same number. It is probable that most readers will be able to get a comprehensive and sufficiently complete view of the work of the Commission from these two volumes of abstracts. The whole 42 volumes will, however, in due course go to all the depository libraries.

The volumes which had come out of press up to the end of December will be found entered under the heading Immigration Commission in this number of the Monthly catalogue.

A SUSPENDED SERIES REVIVED

When it was a bureau of the Treasury Department, the Coast and Geodetic Survey began a series of numbered Special publications, no. 1 having been issued in 1898 and no. 7, the last one of the Treasury series, in 1902.

For 8 years the series lay dormant, and as lately as January, 1910, the compilers of the Checklist of United States public documents received assurances from the Survey that the series of numbered Special publications had been definitely discontinued, and this information was incorporated in the Checklist. There must have been a change of plan, for in November, 1910, a third edition of no. 5 was issued, followed in the present month by no. 9. Inquiry brought the information that no. 8 is in press.

Clearly, this series has been revived, and of course, like other Government series, it may go on indefinitely.

NATIONAL WATERWAYS COMMISSION

This important commission, of which Senator Burton of Ohio is chairman, is still engaged upon its report, which it is supposed will be presented to Congress in January.

By act approved Mar. 3, 1909, the term of the Commission was made to expire Mar. 4, 1911; but before that date was reached the act was repealed, and the term was extended to Nov. 4, 1911, and it was ordered that the final report of the Commission should be filed not later than that date. The Commission did expire November 4th—that is, the appropriation for its maintenance ceased, and of course when the life's blood of an official body is thus cut off the end speedily follows.

Nevertheless the time for filing the final report has been extended till January.

No provision apparently has been made for the printing of library editions of the fine list of documents, 22 in number, which has been printed for the exclusive use of the Commission.

THE GREATEST PUBLISHING OFFICE

As the season for printing the annual reports of the administrative officials of the Government arrives, a constantly recurring wonder is the printing activities of the Agriculture Department as reported by the Department editor, Mr. Joseph Addison Arnold, in his capacity as chief of the Publications Division. The copies of its publications issued during the fiscal year 1911 by the Agriculture Department reached the almost inconceivable number of 27,594,877, an increase of nearly 10 per cent over any previous year. Even this number was far from filling all demands, and Mr. Arnold thinks that 5,000,000 copies more might readily have been distributed.

CORRIGENDA

It is a little late to be noting an error in a document sixty years old, but such things can not be noted until they are found. Perhaps the one now in mind has been found by many librarians, but the first knowledge of it in the United States Public Documents Library came from a western correspondent to whom had been sold a copy of Senate executive document 1, 31st Congress, 2d session, containing the President's message and reports of Cabinet officers for the year 1850. This document is in two parts, bound together in one volume. Part 2 contains the report of the Secretary of War, which contains the report of the General-in-Chief, which contains the reports of the commanders of military departments, designated and distinguished by letters in common with some other statistical returns. Letters A to E designated five schedules in the form of large folded tables, inserted between pages 116 and 117. Our western correspondent missed from this series schedule D, Position and distribution of the troops in the Western Division, under the command of brevet Major General David E. Twiggs. As the location of troops in New Mexico at that time was the particular bit of historical information of which the correspondent was in search, he of course reported to the Superintendent of Documents the defect in the document. As there were in stock several copies in the "sheep set" and also several copies in the "Message and documents" print, all were examined, when it was found that schedule D was missing from all the sheep-bound copies, but was in all the Message and documents copies. Of course the document under consideration is not likely to be often called for, but in libraries even more than elsewhere it is the unexpected that happens, and librarians who have the volumes in question or either of them will do well to file the information here given where it will be available when the unexpected drops in.

In the Annual report of the Coast and Geodetic Survey for 1896, Appendix 12 is Logarithms, their nature, etc., Part 1. No promise was given that succeeding parts should be published in succeeding Annual reports, but that was taken for granted in the Documents Office and elsewhere. Part 1 was published not only under the direction of Superintendent Duffield, but over his name as author. He also prepared the Annual report for 1897, but it was published by a new Superintendent, Professor Pritchett, who assumed office Dec. 1, 1897. The 1897 Report did not contain an additional part of the logarithm tables. In view of this omission, and of sundry inquiries concerning it, the Librarian of the Public Documents Library, on Aug. 25, 1898, called up the Coast and Geodetic Survey by telephone and asked whether Part 2 of the Tables of Logarithms would appear in the Survey's 1898 Report. The new Superintendent made prompt reply. It was an emphatic No. From that time to this nothing has been heard of any publications supplementary to Logarithms, Part 1. This lone part has, however, found favor in the eyes of some good citizens of the Republic, who to get it have bought copies of the 1896 Coast Survey Report from the Superintendent of Documents. The demand has not at any time reached the proportions of a rush, but it has been fairly constant, and the aggregate sales have amounted to perhaps 200 copies. Not until about a month ago was any complaint heard from a user of the logarithm tables. So far as this office was informed, the formulæ were supplying accurate bases for computation.

Something like a month ago a western correspondent informed the Superintendent of Documents that he had found an error in Appendix 12, Coast Survey Report, 1896. He said that on page 418, in the table headed Reduction of common logarithms, in the line of figures of the 2d column, opposite the number 9 in the first column, the first 3 should be a 2. This did not seem like a very alarming error, but as it might be the means of vitiating important computations it was thought advisable to inquire into the matter a little. On calling up the Survey, information was obtained to the effect that it was surprising the western correspondent had not found more than one error in the logarithm tables; that the Survey had found many, perhaps a thousand in all; that this was one of the two reasons why Part 2 had not been printed, the other being that the matter was not new, the same data being readily procurable from private publishers. This information concerning the shortcomings of Appendix 12 has not hitherto been published. It will come as a surprise to the buyers of the 1896 Report, whose faith in the trustworthiness of Government documents may thus be considerably undermined. They may rest assured, however, that this is an instance with but few parallels. The American people have general confidence in the authenticity and accuracy of Government documents, and their faith is justified by the facts.

An unfortunate but not irreparable error occurred in the published report of the proceedings relative to the death of Chief Justice Fuller taken by the Board of Regents of the Smithsonian Institution at its meeting Dec. 8, 1910. The Smithsonian reporter extended his report by quoting from the proceedings of a meeting of the bar of the Supreme Court held Dec. 10, 1910, but failed to make an exact copy. Where the report (U. S. Reports, v. 219, p. xv) used the words "The Chief Justice responded", the Smithsonian reporter substituted the words, "Chief Justice Harlan, in responding to the words of the Attorney-General, said." As there was no Chief Justice Harlan, and as the words following were said by Chief Justice White, the mistake was awkward. It was not discovered until the full edition had been printed. It was necessary to reprint the leaf containing pages 121 and 122, substituting on the latter page the name "White" for "Harlan", and "tipping in" the reprinted leaf. The discovery was made in time to substitute the corrected leaf in the buckram-bound copies for the depository libraries. At this writing shipments to the libraries have not been made, but will be soon, and all will contain the correction. The "separate" entitled "Melville Weston Fuller, 1833–1910" (Smithsonian publication 2016) also contained the error, but has been reprinted. The corrected leaf has been mailed to the few persons to whom the 1910 Annual report had been sent before the error was discovered. The mistake of calling Mr. Justice Harlan Chief Justice is probably accounted for by the fact that after Chief Justice Fuller's death, and pending the appointment of his successor, Associate Justice Harlan had been acting as Presiding Justice *ad interim*.

Congressional record, vol. 40, Index, History of bills, page 556, H. R. 12987, 6th line under this number, the reference (S. Report 242) should read (S. Report 1242). This is the Senate report on the railroad rate bill, which originated in the House and caused a prolonged struggle between House and Senate in the 59th Congress, 1st session. The report was in two parts, part 2, the minority report, by Senator Elkins, having been so long delayed that it was found necessary to bind it in the reports of the 2d session, with an explanatory note. There were three conferences on the bill, and of course three conference reports. The third of these, House report 5076, was also printed as Senate document 525, 59th Congress, 1st session, a fact which does not appear in the Record index.

Chemistry Bureau Circular 82 corrects errors in the tables for lactose given in the Journal of the American Chemical Society, v. 29, p. 541–554. It also calls attention to the fact that the same corrections should be made in Chemistry Bureau Bulletin 107, revised, p. 243–251.

MONTHLY CATALOGUE

No. 204 DECEMBER 1911

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

[Bureau of Animal Industry] order 175 amendment 6; Dec. 12, 1911. [1911.] 1 p. [Consists of order concerning quarantine of cattle, etc.] †

Expenditures for travel performed by certain officers and employees of Department, fiscal year 1911. Dec. 5, 1911. 134 p. (H. doc. 219.) ‡

How to prevent typhoid fever, by Logan Waller Page, John R. Mohler, and Erwin F. Smith; [with introduction, by James Wilson]. Dec. 21, 1911. 8 p. (Farmers' bulletin 478.) * Paper, 5c. Agr 11—2223/4

Notice of judgment 1052, 1053, 1155–98, food and drugs act. Sept. 27–Dec. 16, 1911. † Agr 8—878/4

Report of Secretary of Agriculture, 1911. 1911. 162 p. * Paper, 15c. Agr 9—987/2

Soils of prairie regions of Alabama and Mississippi and their use for alfalfa: pt. 1, Houston clay and associated soils, by Hugh H. Bennett; pt. 2, Alfalfa on Houston clay, its culture and management, by M. A. Crosby. Dec. 15, 1911. 48 p. il. 7 pl. (Report 96.) [Prepared in cooperation with Soils Bureau and Plant Industry Bureau.] * Paper, 10c. Agr 11—2220/6

Statement showing number of persons employed in meat inspection, where employed, and amount paid them, fiscal year 1911. Dec. 6, 1911. 104 p. (H. doc. 235.) ‡

ACCOUNTS AND DISBURSEMENTS DIVISION

Report of chief, [fiscal year] 1911; by A. Zappone. 1911. 67 p. [From Annual reports of Agriculture Dept. 1911.] † 8—30669/2

ANIMAL INDUSTRY BUREAU

Animals imported for breeding purposes for which certificates of pure breeding have been issued by bureau: Cattle, July–Sept. 1911. Dec. 16, 1911. 8 p. * Paper, 5c. Agr 12—13

Same: Horses, July–Sept. 1911. Dec. 14, 1911. 22 p. * Paper, 5c. Agr 12—14

Army remount problem; by George M. Rommel. Dec. 15, 1911. ii+103–124 p. 5 pl. (Circular 186.) [From 27th report, 1910.] * Paper, 5c. Agr 11—2221/3

Directions for constructing vat and dipping cattle to destroy ticks; by H. W. Graybill and W. P. Ellenberger. Dec. 11, 1911. 15 p. il. (Circular 183.) * Paper, 5c. Agr 11—2216/4

Service announcements 56; Dec. 15, 1911. [1911.] p. 85-92. [Monthly.] ‡ Agr 7—1658/2

Some common disinfectants; by M. Dorset. Dec. 17, 1908, reprint Dec. 1911. 12 p. (Agriculture Dept. Farmers' bulletin 345.) * Paper, 5c. Agr 8—1115/2

Special report on diseases of horse. Revised edition. 1911. 614 p. il. 42 pl. * Cloth, 65c. Agr 12—16

Varieties of cheese, descriptions and analyses [with sources of analytical data]; by C. F. Doane and H. W. Lawson. Dec. 21, 1911. 78 p. (Bulletin 146.) [This is a revision of Bulletin 105.] * Paper, 10c. [Agr 11—2386/3

APPOINTMENT CLERK

Report, [fiscal year] 1911; by R. W. Roberts. 1911. 19 p. [From Annual reports of Agriculture Dept. 1911.] † 8—32043

BIOLOGICAL SURVEY BUREAU

Report of chief, [fiscal year] 1911; by Henry W. Henshaw. 1911. 20 p. [From Annual reports of Agriculture Dept. 1911.] †

Report on condition of elk in Jackson Hole, Wyo., in 1911; by Edward A. Preble. Dec. 21, 1911. 23 p. 5 pl. 2 maps. (Bulletin 40.) * Paper, 10c. Agr 11—2387/2

CHEMISTRY BUREAU

Chemical analysis. Official and provisional methods of analysis, Association of Official Agricultural Chemists; edited by Harvey W. Wiley. Reprint Nov. 28, 1911. xxi+272 p. il. (Bulletin 107 revised.) * Paper, 20c. Agr 7—2096/3

Employees. Detailed report of sums paid for compensation or expenses to persons employed by State, County, or municipal governments, fiscal year 1911. Dec. 5, 1911. 2 p. (S. doc. 117.) ‡

Food. Officials charged with enforcement of food laws in United States and Canada; revised to July 1, 1911. Dec. 9, 1911. 48 p. (Circular 16 revised.) * Paper, 5c. Agr 9—3147/3

Lactose. Unification of reducing sugar methods; by Percy H. Walker. Dec. 30, 1911. 6 p. (Circular 82.) * Paper, 5c. Agr 12—15/2

Malic acid. Modification in determination of malic acid; by David S. Pratt. Dec. 23, 1911. 2 p. (Circular 87.) * Paper, 5c. Agr 11—2389/2

Paint. Use of paint on farm; by Percy H. Walker. Nov. 29, 1911. 22 p. il. (Agriculture Dept. Farmers' bulletin 474.) * Paper, 5c. Agr 11—2215/2

Report of chemist, [fiscal year] 1911; by H. W. Wiley. 1911. 59 p. [From Annual reports of Agriculture Dept. 1911.] †

Wax. Refractive index of beeswax; by L. Feldstein. Dec. 28, 1911. 3 p. (Circular 86.) * Paper, 5c. Agr 11—2388/3

Wood turpentine, its production, refining, properties, and uses; by F. P. Veitch and M. G. Donk. Dec. 12, 1911. 76 p. il. (Bulletin 144.) * Paper, 10c. Agr 11—2222/3

ENTOMOLOGY BUREAU

Bark-weevils. Technical papers on miscellaneous forest insects: 1, Contributions toward monograph of bark-weevils of genus Pissodes [with bibliography]; by A. D. Hopkins. Reprint Nov. 11, 1911. x+1-68 p. il. 22 pl. (Technical series 20, pt. 1.) * Paper, 10c. Agr 11—40/3

Calosoma sycophanta, its life history, behavior, and successful colonization in New England; by A. F. Burgess. Dec. 8, 1911. 94 p. il. 8 pl. map. (Bulletin 101.) * Paper, 25c. Agr 11—2217/4

Chinch-bugs. Papers on cereal and forage insects: Chinch-bug investigations west of Mississippi River; by E. O. G. Kelly and T. H. Parks. Dec. 14, 1911. iv+23-52 p. il. 2 pl. (Bulletin 95, pt. 3.) * Paper, 10c. Agr 11—2223/3

—— Results of artificial use of white-fungus disease in Kansas, with notes on approved methods of fighting chinch-bugs [with bibliography]; by Frederick H. Billings and Pressley A. Glenn. Dec. 21, 1911. 58 p. il. 5 pl. (Bulletin 107.) * Paper, 10c. Agr 11—2390/5

Gipsy-moths. Index to Bulletin 91 [Importation into United States of parasites of gipsy moth and brown-tail moth, report of progress, with some consideration of previous and concurrent efforts of this kind; by L. O. Howard and W. F. Fiske]. [1911.] 313-344+[1] p. ([Bulletin 91, index.]) * Paper, 5c. Agr 11—1494/4

Pine. Dying of pine in Southern States, cause, extent, and remedy; by A. D. Hopkins. Dec. 26, 1911. 15 p. il. (Agriculture Dept. Farmers' bulletin 476.) * Paper, 5c. Agr 11—2385/2

Report of entomologist, [fiscal year] 1911; by L. O. Howard. 1911. 42 p. [From Annual reports of Agriculture Dept. 1911.] † 8—9985/3

Scolytids. Contributions toward monograph of scolytid beetles: 1, Genus Dendroctonus [with bibliographies]; by A. D. Hopkins. June 30, 1909, reprint Nov. 15, 1911. xiii+164 p. il. 7 pl. map. (Technical series 17, pt. 1.) * Paper, 25c. Agr 9—1695/2

EXPERIMENT STATIONS OFFICE

Experiment station record, v. 25, no. 7; Nov. 1911. 1911. cover-title, viii+601-700 p. * Paper, $1.00 a vol. (6 nos., 2 abstracts, and an index). Agr 9—832/4

NOTE.—Mainly made up of abstracts of reports and publications on agricultural science which have recently appeared in all countries, especially the United States. Extra numbers, called abstract numbers, are issued quarterly, which are made up almost exclusively of abstracts, that is, they contain no editorial notes and only a limited number of current notes.

Experiment station work, v. 4, no. 6. Dec. 15, 1911. iv+101-120 p. il. 1 tab. [Same, with addition of table, as Farmers' bulletin 469.] * Paper, 5c. Agr 6—305/3

Forestry in nature study, by Edwin R. Jackson; [with Key to common kinds of trees, by William H. Lamb]. Dec. 22, 1911. 43 p. il. (Agriculture Dept. Farmers' bulletin 468.) * Paper, 5c. Agr 11—2384/3

List of State directors of farmers' institutes and farmers' institute lecturers of United States; [by John Hamilton]. Dec. 27, 1911. 14 p. (Circular 114.) * Paper, 5c. Agr 11—2392/2

List of station publications received by office during Oct. 1911. Dec. 9, 1911. 5 p. ([Publication] 1416.) [Monthly.] † Agr 9—1395/2

Same, Nov. 1911. Dec. 27, 1911. 6 p. ([Publication] 1424.) [Monthly.] †

Report of director, [fiscal year] 1911; by A. C. True. 1911. 31 p. [From Annual reports of Agriculture Dept. 1911.] † 8—32049/3

Respiration calorimeter, recent improvements and new application; by C. F. Langworthy and R. D. Milner. 1911. ii+601-606 p. ([Publication] 1409.) [From Experiment station record, v. 24, no. 7.] * Paper, 5c.

HAWAII AGRICULTURAL EXPERIMENT STATION

Avocado in Hawaii; by J. E. Higgins, Chester J. Hunn, and Valentine S. Holt. Dec. 16, 1911. 48 p. il. 7 pl. (Bulletin 25; Experiment Stations Office, [publication] 1376.) * Paper, 10c. Agr 11—2224/4

FOREST SERVICE

Forest products laboratory series: Modification of sulphonation test for creosote; by E. Bateman. Dec. 9, 1911. 7 p. il. (Circular 191.) * Paper, 5c. Agr 11—2226/3

Identification of important North American oak woods based on study of anatomy of secondary wood; by George B. Sudworth and Clayton D. Mell. Dec. 11, 1911. 56 p. il. (Bulletin 102.) * Paper, 10c. Agr 11—2225/4

National forest manual: Timber sales, administrative use, timber settlement, free use. 1911. 90 p. [To take effect Dec. 1, 1911, and to constitute a part of the Use book.] * Paper, 10c. Agr 11—2227

Tree distribution [in Nebraska] under Kinkaid act, 1911. Dec. 18, 1911. 10 p. il. * Paper, 5c.

LIBRARY

Monthly bulletin, Oct. 1911, v. 2, no. 10. Dec. 23, 1911. p. 261-296. * Paper, 5c. single copy, 50c. a yr. Agr 10—620/2

Report of librarian, [fiscal year] 1911; by Claribel R. Barnett. 1911. 31 p. [From Annual reports of Agriculture Dept. 1911.] † 8—26939/3

PLANT INDUSTRY BUREAU

Grape propagation, pruning, and training; by George C. Husmann. Dec. 19, 1911. 29 p. il. (Agriculture Dept. Farmers' bulletin 471.) * Paper, 5c. Agr 11—2232/2

Ice houses; by L. C. Corbett. Dec. 13, 1911. 20 p. il. (Agriculture Dept. Farmers' bulletin 475.) * Paper, 5c. Agr 11—2219/2

Medicinal plants. American medicinal leaves and herbs; by Alice Henkel. Dec. 8, 1911. 56 p. il. (Bulletin 219.) * Paper, 15c. Agr 11—2218/3

Report of commissioner [with reports of Indian superintendent for Union Agency and supervisor of schools of Five Civilized Tribes], fiscal year 1911. 1911. 88 p. † Interior Dept. 6—35346

FREEDMEN'S HOSPITAL

Statement of expenditures for salaries, etc., of officers and employees of hospital, fiscal year 1911. Dec. 5, 1911. 4 p. (H. doc. 202.) ‡

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library of Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington.

Antelope Valley, Cal. Water resources of valley; by Harry R. Johnson. 1911. 92 p. il. 5 pl. 2 maps, 1 is in pocket. (Water-supply paper 278.) * Paper, 25c. GS 11—617/2

—— Same. (H. doc. 1459, 61st Cong. 3d sess.)

Antimony. Production of antimony, arsenic, bismuth, and selenium, [calendar year] 1910; by Frank L. Hess. 1911. 10 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Borax. Production of borax, [calendar year] 1910; by Charles G. Yale. 1911. 4 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Breckenridge, Colo. Geology and ore deposits of Breckenridge district [with bibliography]; by Frederick Leslie Ransome. 1911. 187 p. il. 28 pl. 5 maps, 2 are in pocket, 1 tab. 4° (Professional paper 75; H. doc. 1454, 61st Cong. 3d sess.) * Paper, 75c. GS 11—531/4

California. Surface water supply of United States, 1909: pt. 11, California; by W. B. Clapp and F. F. Henshaw. 1911. 256 p. il. 6 pl. (Water-supply paper 271.) * Paper, 25c. GS 11—647

Clay. Statistics of clay-working industries in United States, [calendar year] 1910 [with list of survey publications on clays, fuller's earth, etc.]; by Jefferson Middleton. 1911. 66 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Copper. Production of copper, [calendar year] 1910; by B. S. Butler. 1911. 70 p. il. map in pocket. [From Mineral resources, 1910.] † Paper; * paper, 15c.

Gold. Production of gold and silver, [calendar year] 1910; by H. D. McCaskey. 1911. 39 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Gulf States. Surface water supply of United States, 1910: pt. 8, Western Gulf of Mexico; by W. B. Freeman and J. G. Mathers. 1911. 149 p. il. 3 pl. (Water-supply paper 288.) * Paper, 15c. GS 11—649

—— Same. (H. doc. 1498, 61st Cong. 3d sess.)

Idaho. Retracement of boundary line between Idaho and Washington, from junction of Snake and Clearwater rivers to international boundary; R. B. Marshall, chief geographer. 1911. 39 p. il. 6 pl. map in pocket. (Bulletin 466.) * Paper, 20c. GS 11—645

—— Same. (H. doc. 1460, 61st Cong. 3d sess.)

Illinois. Results of spirit leveling in Illinois, 1909–10; R. B. Marshall, chief geographer. 1911. 115 p. 1 pl. (Bulletin 493.) [Prepared in cooperation with Illinois.] * Paper, 10c. GS 11—616/3

—— Same. (H. doc. 168.)

Metals. Production of metals and metallic ores, [calendar years] 1909-10; by H. D. McCaskey. 1911. 8 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Mining Laws of Australia and New Zealand, by Arthur C. Veatch; with preface, by Walter L. Fisher. 1911. 180 p. (Bulletin 505.) * Paper, 15c. GS 11—646

Missouri River. Surface water supply of United States, 1910: pt. 6, Missouri River basin; by W. A. Lamb, W. B. Freeman, Raymond Richards, and R. C. Rice. 1911. vii+308 p. il. 4 pl. (Water-supply paper 286.) * Paper, 25c. GS 11—648

—— Same. (H. doc. 1496, 61st Cong. 3d sess.)

Mount McKinley region, Alaska, with descriptions of igneous rocks and Bonnifield and Kantishna districts; [articles] by Alfred H. Brooks, L. M. Prindle [D. L. Reaburn, R. W. Porter, and F. H. Moffit]. 1911. 234 p. il. 13 pl. 6 maps, 3 are in pocket, 4° (Professional paper 70; H. doc. 1050, 61st Cong. 3d sess.) * Paper, 70c. GS 11—493/6

Petroleum. Production of petroleum, [calendar year] 1910 [with list of survey publications, 1901-11, on oil fields of United States; by David T. Day. 1911. 136 p. [From Mineral resources, 1910.] † Paper; * paper, 10c.

Platinum. Production of platinum and allied metals, [calendar year] 1910; by Waldemar Lindgren. 1911. 10 p. [From Mineral resources, 1910.] † Paper; * paper. 5c.

Potash. Advance chapter from Contributions to economic geology, [calendar year] 1911, pt. 1: Potash, occurrence of potash salts in bitterns of eastern United States; by W. C. Phalen. 1911. 19 p. (Bulletin 530 B.) * Paper, 5c.

PATENT OFFICE

NOTE.—The Patent Office publishes specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued, Oct. 1911 [with list of inventions]. [1911.] cx p. large 8° [Monthly index to Official gazette.] * Paper, 10c. single copy, included in price of Official gazette for subscribers.

Official gazette, Dec. 5–26, 1911; v. 173, no. 1–4. 1911. cover-title, 1084+[cx] p. il. large 8° [Weekly.] * Paper, 10c. single copy, $5.00 a yr. 4—18256/3

NOTE.—Contains the patents, trade-marks, designs, and labels issued each week; also decisions of the Commissioner of Patents and of the United States courts in patent cases.

Patent appeal no. 740, in Court of Appeals of District of Columbia, Oct. term, 1911, in re Schweinfurter-Präcisions-Kugel-Lager-Werke Fichtel & Sachs, trade-mark; brief for commissioner of patents [1911.] cover-title, 13 p. ‡

Schedule of steamers appointed to convey mails to foreign countries during Jan. 1912. Dec. 16, 1911. 1 p. narrow f° [Monthly.] *Paper, 10c. single copy, $1.00 a yr.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1911, page 367.

PRESIDENT OF UNITED STATES

Appointments. Amendment to civil service rules [rule 7, sec. 1, paragraph c, concerning probationary appointments]. Dec. 9, 1911. 1 p. f° (No. 1443.) ‡

Same, without half-title. Dec. 11, 1911. 42 p. (H. doc. 256.) 11—35949

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Accounts. Detailed statement of expenditures, fiscal year 1911. Dec. 4, 1911. 41 p. (H. doc. 197.) ‡

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE—Lake Survey charts may be obtained from U. S. Lake Survey Office Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit" found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

The decisions of the Comptroller of the Treasury are like the laws of the Medes and Persians and also like the decisions of the United States Supreme Court, because there is no appeal from them. One may well think of this when noting, among recent publications, Vol. 18, pt. 1, Comptroller's decisions, containing those rendered during the months July–Sept. 1911. The catalogue entry for this publication appears in the Dec. 1911 Monthly catalogue, page 345.

The new Rules of the Supreme Court of the United States, promulgated Dec. 22, 1911, can be supplied in pamphlet form by the Superintendent of Documents at 10 cents.

Information concerning some of the principal navies of the world, a series of tables compiled by the Navy Department for the purpose of answering popular inquiries, can be supplied also by the Superintendent of Documents. It shows that the Navy of the United States is second in size, but with Germany a good third and coming strong. England is of course far in the lead of all other countries. 5 cents.

Changes in the bodily form of descendants of immigrants, published by the Immigration Commission a year or so ago in a pamphlet of 113 pages, and also in an abstract of 58 pages, has now been expanded to 573 pages and reprinted in its final form as Senate document 208, 61st Congress, 2d session. Paper, 45 cents.

Forest Service Circular 196, The influence of age and condition upon seed production in the western yellow pine, records the results of investigations important in their bearing on the vast reforesting operations which the Government has undertaken. To most persons a seed is a seed, but it has been demonstrated that it is necessary to secure seeds from trees in their prime and free from blemish if the reforesting campaign is to attain the highest success.

The Superintendent of Documents can supply for 25 cents a new work that must be invaluable to all who wish to keep themselves informed in American naval affairs. It is issued by the Navy Department and entitled Ships' data, U. S. naval vessels, 1911. Its 300 pages are entirely filled with statistical tables which give the name, official number, when, where, and by whom built, condition or service July 1, 1911, dimensions, speed, bunker capacity, types of engines and boilers, indicated horse power, weight of machinery, generating sets, batteries, complement, etc., of all naval vessels of the United States.

Summary of the mineral production of the United States, 1910, has been reprinted from Mineral resources for that calendar year in a separate pamphlet. For the second time in the history of the country the value of its mineral products exceeded the vast sum of two billion dollars. Coal was most valuable of all the minerals, exceeding six hundred million dollars. Iron was next, with a $425,000,000 valuation. These are big figures, but the value of the agricultural products of the country for the same year was about $9,000,000,000. 5 cents.

The Navy yearbook for 1911 is now on sale by the Superintendent of Documents, in cloth binding, at 75 cents. This number is edited by Woodbury Pulsifer, a brother of the late Pitman Pulsifer, by whom the series was founded. These brothers were for many years the private secretaries of Senators Hale and Frye of Maine.

There is a new compilation—the first in several years—of the Laws of the United States governing the granting of bounty-land warrants, with the regulations relating thereto.

In his Annual report for 1911 Mr. E. T. Chamberlain, commissioner of navigation of the Department of Commerce and Labor, makes an extended argument in favor of Congressional appropriations to pay the Panama canal tolls of American vessels.

The National forest manual continues its course of publication in pamphlet parts. The latest part covers the subjects of Claims, settlement, and administrative sites. The instructions given become effective Feb. 1, 1912.

Public health bulletin 45, is A digest of the laws and regulations of the various States relating to the reporting of cases of sickness. This is a matter of serious import, for all knowledge of the increase or decrease of disease depends upon the reports of cases made by physicians and the compilation of these reports into general statistics. Only a limited part of this country is included in what is called the "registration area," from which alone health statistics can be collected. There should be more laws to require the registration of diseases and more strict enforcement of these already in the statute books.

Did you ever hear of alunite? It is not a very common mineral. There is a newly discovered deposit of it near Marysvale, Utah, and Geological Survey Bulletin 511 tells about it. It is a source of potash.

Contributions from the national herbarium, v. 13, pt. 12, is a third paper on New or noteworthy plants from Colombia and Central America.

The parole system for United States prisoners is an experiment still in its earliest stages. The first annual report of the Boards of Parole shows that 207 prisoners have been released on parole, and of these only one has been returned to prison for violation of the conditions of the parole.

The Experiment station record, vol. 25, July-December, 1912, will have 10 numbers instead of the usual number. No. 9, which is a third abstract number, has been issued and the index number is yet to come. The Experiment station record is the most liberal of all monthly magazines. Not only does it publish six monthly issues for each half-yearly volume, and a separate index number also, but in addition two special or abstract numbers, making 9 numbers for each semiannual volume, or 18 numbers for each twelvemonth. And now it had added a 10th number to vol. 25. Record subscribers get full measure, and something over.

A brief survey of educational progress during the decade 1900 to 1910 and Library extension in the United States are two interesting chapters in the 1911 Report of the commissioner of education which have been reprinted in separate pamphlets. A sentence or two from the second one gives a bird's-eye view of the existing library situation: "The modern conception of the duties of the public library extends them to the entire community, requiring the library to find a reader for every book on its shelves and provide a book for every reader. . . The public library is made an essential factor in the educational system. . . The tax-supported public library, like the public school, is now the accepted type, because they are recognized as integral parts of our system of public education."

That standard manual, Chemistry Bureau Bulletin 107, revised, Official and provisional methods of analysis, was officially reprinted Jan. 18, 1912, and is in stock at 20 cents.

The National Monetary Commission has made a unanimous report, which has been printed as Senate document 243, 62d Congress, 2d session. Remembering the large and comprehensive membership of the Commission, in which all parties and all regions of the country are represented, this unanimity is somewhat remarkable and may well be held to entitle the report to respectful consideration at the hands of Congress and of the voters who make Congresses and Commissions.

TARIFF BOARD REPORT

The complete report of President Taft's Tariff Board on tariff schedule K, entitled Wool and manufactures of wool, has been published as House document 342 of the current Congress, in 4 volumes and an index pamphlet.

Considered as a report and not as a document, the publication is in 5 parts, namely: Part 1, Glossary on schedule K; 2, Raw wool, production and shrinkage; 3, Manufacturing costs; 4, Ready-made clothing and wearing apparel; 5, Wages and efficiency of labor and machinery in the United States.

Considered as a document and not as a report, it is made up as follows:

Vol. 1 contains the Message of the President transmitting the Report; the Board's letter of submittal, with a summary of its findings; Part 1 of the Board's Report, entitled Glossary on schedule K, in 4 sections; Appendixes A, B; Index; several photographic illustrations.

Vol. 2. Part 2, Raw wools, in 3 sections and 7 addenda; Index; two folded maps, 1 folded diagram, many photographic illustrations.

Vol. 3. Part 3, Manufacturing costs, in 2 sections. Part 4, Ready-made clothing and wearing apparel, in 2 sections; Index to Part 3; Index to Part 4.

Vol. 4. Part 5, Report on wages and efficiency of labor and machinery in the United States; Index.

The few sets which the Superintendent of Documents has been able to obtain have been offered for sale at $1.30 a set, including the General index published in a separate pamphlet.

NEW SERIES

The new list of Publications of the United States Geological Survey, dated Jan. 1, 1912, has the legend "New series, no. 1," on the upper righthand corner of its cover and title-page. Several numbers of the list have been published, but this is the first one to be numbered in a series. This series will be made up entirely of the lists of publications, which hereafter it is planned to issue quarterly. It is an invaluable guide to the numerous and varied publications of the Survey.

No. 1, Lighthouse Service bulletin, bearing date Jan. 1912, has been issued by the Lighthouses Bureau. It is to be published monthly for the purpose of supplying information to the personnel of the service and keeping them advised of the progress of the work. It is not intended for distribution to the general public.

Statistics Bureau Bulletin 85 is the first of a series of most interesting agricultural publications under the general title Seedtime and harvest. When completed it will show the dates of sowing and harvesting about 50 of the principal crops grown in this country and many of those grown in foreign lands. The first number gives these dates for the cereals and for flax, cotton, and tobacco in the United States east of meridians 102–104. The range of corn-planting is from February 10 in southern Texas to May 15 in North Dakota.

The Education Bureau has issued Library circular no. 1, dated Jan. 15, 1912, and entitled Monthly record of current educational publications. It is an annotated list, and includes proceedings of associations and articles in periodicals as well as books and pamphlets. The plan is to cumulate the monthly lists annually, thus composing the Bibliography of education, already a regular publication of the Bureau.

GENERALLY KNOWN AS THE BLUE BOOK

The United States Official register for July 1, 1911, vol. 1, has been issued.

It records the names, the places and kinds of employment, land of birth, pay, and Congressional district and county from which appointed, of all employees of the United States Government except those in the postal service, who have a volume to themselves, and also excepting temporary employees who have served less than six months and enlisted men in the Army and the Navy. Notwithstanding these considerable exceptions, and unavoidable omissions mentioned in the preface and estimated to run into thousands, the two volumes of the 1911 register contain more than 370,000 names.

The director of the census promises a supplemental pamphlet which shall tabulate the number of employees by the Departments in which employed, by the States and Territories from which appointed, and by the aggregate compensation. This is to comply with a law of Mar. 3, 1893, hitherto disregarded.

The director also suggests that the Register might be discontinued altogether, substituting for it a card index, which could be kept constantly up to date, something not possible with the Register, owing to the time necessarily consumed in tabulating and printing the statistics after they have been collected. If, however, the publication of the Register is to be continued, the director says, "It may be questioned whether a return to the system of classifying all employees by Departments, with an index, would not be preferable, despite some increase in cost." This suggestion will be welcome to many business men who made good use of the magnificent lists of addresses supplied by the Register in its earlier form. The directory plan of compilation now followed has defeated nearly all of the commercial uses for which the Blue book was found valuable before the Census Bureau transformed it.

DIGEST OF PARDONS NOT PRINTED

Feb. 24, 1903, the President approved Public resolution 9 (32 Stat. pt. 1, p. 1231) providing for the preparation of a digest of the laws and decisions of the United States and the several States relating to the extent of the pardoning power, the legal effect of pardons, etc., to be printed under the supervision of an editor to be appointed by the Attorney General. An appropriation of $2,500 was made to cover all cost except printing and binding. As the work thus ordered has not appeared, inquiries have been made by librarians. Information has been obtained to the effect that Mr. James S. Easby-Smith, attorney in charge of pardons, made the digest. It is a voluminous work, and considerable time was spent on it. When completed there seemed to be no widespread demand for its publication, and it has not so far been sent to the Public Printer. It was also feared that changes in State laws, which would make the work obsolete, might have occurred, and there was no appropriation to pay for revising the digest. Ultimately the manuscript was bound and added to the Justice Department library, where it now rests.

THE CHECKLIST

The last revised page-proof of the Checklist of United States public documents was returned to the printers Jan. 19, 1912.

The last page is 1707, but there are also XXI preliminary pages.

May no untoward happenings impede the electrotypers, pressmen, and binders in whose hands the completion of the work now rests.

CORRIGENDA

Congressional record, vol. 42, Index, page 801, H. J. resolution 134, said to have been introduced at page 1745. It was really introduced at page 1795, Feb. 10, 1908. Probably few librarians will have occasion to refer to this entry, which is a private claim. Still, the prudent librarian will take down his index volume and make the correction, for library queries are usually just those which are not expected. The error was discovered in looking up the case for one of the bureaus of the Treasury Department.

There are two Census Bureau Bulletins 109. The first one so numbered was issued some months ago and gave the population of the United States by States and Territories at the 13th census. After this bulletin had been printed it was decided to issue all the publications of the 13th census unnumbered. Those who have received the earliest no. 109 will therefore be pleased to ignore the number and consider it an unnumbered publication. The real Bulletin 109 in the Permanent Census Bureau series has been issued this month. Its subject-matter is Mortality statistics, 1910.

CORRECTNESS OF LOGARITHMIC TABLES VOUCHED FOR

Sometimes it is necessary to correct a correction. This is one of the times. The re-correction is supplied by Mr. Ralph M. Brown, librarian of the Coast and Geodetic Survey, in a letter reading thus: "Some months ago you telephoned me and informed me that some correspondent of your office had found an error in Appendix 12 (Logarithms, their nature, etc., Part 1), of our report for 1896. I replied that it was surprising that your correspondent had not found more than one error in the tables, since the Coast and Geodetic Survey had found many, perhaps a thousand in all. This was my understanding of the case at that time, but I have since learned that my statement was not correct, that but two or three slight errors have been found in the tables. My mistake was due to the fact that I confused the errors found in the original manuscript, two thousand or so, with the errors to be found in the work itself. All of the original manuscript errors were corrected in the final proof, and did not appear in the published work. I regret exceedingly that this mistake on my part has brought discredit upon such an accurate and reliable logarithmic table as that published by this office. You will be conferring a great favor upon this bureau if you will correct our statement in regard to the 1896 logarithmic table, in the next issue of the Monthly catalogue of United States public documents." Of course it is a pleasure to publish Mr. Brown's correction and his certificate of the value of the logarithmic tables in Coast Survey Annual report for 1896. Copies of that Report are still on sale by the Superintendent of Documents at $1.60.

Another reason why it is pleasant to have the assurance that the Survey's logarithmic tables are correct and valuable is found in a letter from Mr. F. R. Low, editor of the weekly paper, "Power," who gives the information that "even the seven-place table is a voluminous work, and the ten-place so much so and so expensive that few engineers possess them." Mr. Low of course refers to the tables issued by private publishers. The Government tables are ten-place and the price charged for them ($1.60) is certainly moderate.

CORRECTION FOR DECEMBER, 1911, MONTHLY CATALOGUE

For "Chemistry Bureau Bulletin 16" in 1st line of 3d paragraph on page 281, read "Chemistry Bureau Circular 16."

MONTHLY CATALOGUE

No. 205 JANUARY 1912

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

[Bureau of Animal Industry] order 183 amendment 1 to rule 1 revision 8; amendment regarding return of cattle of nonquarantined area that are exhibited at National Feeders' and Breeders' Show, Fort Worth, Tex., Mar. 18-23, 1912. Dec. 30, 1911. 1 p. †

Live stock and miscellaneous agricultural statistics, 1910. 1911. iii+606-687 p. ([Yearbook] separate 554.) [From Yearbook, 1910.] *Paper, 5c.

Notice of judgment 1199-1246, 1248-50, 1341, food and drugs act. Jan. 10-25, 1912. various paging. †

Revised estimates of appropriations under title, Salaries, office of Secretary of Agriculture, fiscal year 1913. Jan. 8, 1912. 3 p. (H. doc. 404.) ‡

Statistics of principal crops, 1910. 1911. ii+499-596 p. ([Yearbook] separate 555.) [From Yearbook, 1910.] *Paper, 5c.

ANIMAL INDUSTRY BUREAU

26th annual report, [fiscal] year 1909. 1911. 407 p. il. 15 pl. (House doc. 130, 61st Cong. 2d sess.) [For contents see entry of this publication without Congressional document number in Monthly catalogue for Apr. 1911, page 558. 1st document print of this publication incorrectly published as House document 1032, 61st Congress, 3d session.] *Cloth, 50c.

Directory of bureau. Jan. 1, 1912. 68 p. *Paper, 5c. Agr 10—511/2

Practical methods of disinfecting stables; by George W. Pope. Jan. 24, 1912. 16 p. il. (Agriculture Dept. Farmers' bulletin 480.) *Paper, 5c. Agr 12—143

Service announcements 57; Jan. 15, 1912. [1912.] p. 1-8. [Monthly.] ‡ Agr 7—1658/2

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The charts, coast pilots, and tide tables of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

Formulæ and tables for computation of geodetic positions, 5th edition; with preface, by Charles R. Duvall. 1911. 91 p. 4° (Special publication 8.) *Paper, 15c.

Statement of expenditures in survey, fiscal year 1911. Jan. 17, 1912. 16 p. (H. doc. 459.) ‡

Charts

California, Greenwood to Fort Bragg, original surveys 1872–1909, scale 1:40,000; with insets, Approaches to Albion, scale 1:10,000; Fort Bragg Landing, scale 1:10,000; chart 5703. Washington, Coast and Geodetic Survey, Nov. 1911. 43×27.9, 5.9×9, and 5.8×9.8 in. † 50c.

Cebu, Harbors in, P. I.; chart 4465. Washington, Coast and Geodetic Survey, Jan. 1912. 25.4×32 in. † 30c.
Argao, southeast coast of Cebu, surveyed in 1910. Scale 1:25,000. 6.2×8.1 in.
Balamban Bay, west coast of Cebu, surveyed 1909. Scale 1:30,000. 6.2×7.9 in.
Barili Bay, west coast of Cebu, surveyed 1909. Scale 1:15,000. 6.2×8.1 in.
Bogo Bay, northeast coast of Cebu, surveyed 1907. Scale 1:30,000. 12.8×10.2 in.
Carcar Bay, southeast coast of Cebu, surveyed in 1910. Scale 1:15,000. 12.8×11.8 in.
Carmen, Port, east coast of Cebu, surveyed in 1909. Scale 1:15,000. 12.8×10 in.
Dumanjug Bay, west coast of Cebu, surveyed 1907. Scale 1:20,000. 6.2×8 in.
Hagnaya Bay, northwest coast of Cebu, surveyed in 1909. Scale 1:30,000. 6.3×8 in.
Lambusan, northwest coast of Cebu, surveyed in 1909. Scale 1:30,000. 6.3×8 in.
Moalbual, west coast of Cebu, surveyed in 1906. Scale 1:20,000. 6.3×7.9 in.
Tuburan, northwest coast of Cebu, surveyed in 1909. Scale 1:30,000. 6.3×8 in.

Chickahominy River, Va., surveyed 1873–75, additional topography in 1906 and 1910; chart 412. Scale 1:25,000. Washington, Coast and Geodetic Survey, Nov. 1911. 38.4×32.1 in. † 50c.

Cook Inlet, northern part, Alaska, south coast, original surveys 1908–10, Geological Survey and other sources; chart 8553. [Scale 1:200,000.] Washington, Coast and Geodetic Survey, Jan. 1912. 33.4×43.1 in. † 50c.

Jolo Island and vicinity, P. I., from Spanish surveys to 1874, with additional information, corrections from surveys in 1911 and other sources; chart 4542. Scale 1:189,000. Washington, Coast and Geodetic Survey, Dec. 1911. 20.8×25.1 in. † 30c.

Latouche, Elrington, and Prince of Wales passages, Prince William Sound, south coast of Alaska; chart 8523. Scale 1:40,000. Washington, Coast and Geodetic Survey, Nov. 1911. 39.6×31.5 in. † 50c.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington.

Alaska Peninsula. Geology and mineral resources of parts of peninsula [with bibliography]; by Wallace W. Atwood. 1911. 137 p. il. 9 pl. 5 maps, 1 is in pocket. (Bulletin 467; H. doc. 1461, 61st Cong. 3d sess.) *Paper, 40c. GS11—560/3

Alunite, newly discovered deposit near Marysvale, Utah; by B. S. Butler and H. S. Gale. 1912. 64 p. 2 pl. map. (Bulletin 511.) *Paper, 10c. GS12—43/3

Same. (H. doc. 355.)

Birmingham folio [Ala.]; by Charles Butts. Field edition. Washington, Geological Survey, 1911. 180+[5] p. il. 11 pl. 4 maps in pocket. (Geologic atlas of United States 175.) *Paper, 50c. GS11—334/2

Burgettstown-Carnegie folio [Pa.]; by E. W. Shaw and M. J. Munn. Field edition. Washington, Geological Survey, 1911. 124+[4] p. il. 1 pl. and 8 maps in pocket. (Geologic atlas of United States 177.) *Paper, 50c. GS11—340/3

California. Surface water supply of United States, 1909: pt. 11, California; by W. B. Clapp and F. F. Henshaw. 1911. 256 p. il. 6 pl. (Water-supply paper 271; H. doc. 1455, 61st Cong. 3d sess.) *Paper, 25c. GS11—647/3

LAND OFFICE, GENERAL

NOTE.—The General Land Office publishes a large general map of the United States, which is sold at $1.00; and also separate maps of the States and Territories in which public lands are to be found, which are sold at 25c. per sheet. California is in 2 sheets. Address the Superintendent of Documents, Washington, D. C.

Statutes and regulations governing entries and proof under desert-land laws, with suggestions to persons desiring to make entries under said laws. Sept. 30, 1910, reprint with additions, Nov. 20, 1911. 28 p. * Paper, 5c. 12—35046

MINE INSPECTOR FOR TERRITORY OF NEW MEXICO

Report, fiscal year 1911. 1912. 72 p. * Paper, 10c. 5—41343

MINES BUREAU

Investigations of fuse and miners' squibs; by Clarence Hall and Spencer P. Howell. 1912. 19 p. (Technical paper 7.) [Includes list of Mines Bureau and Geological Survey publications on mine accidents and tests of explosives.] * Paper, 5c. 12—35126

Liquefied products from natural gas, their properties and uses [with bibliography and list of bureau publications on fuel testing]; by Irving C. Allen and George A. Burrell. 1912. 23 p. (Technical paper 10.) [Includes list of Geological Survey publications on fuel testing for sale by Superintendent of Documents.] * Paper, 5c. 12—35114

Methods of analyzing coal and coke [with list of bureau publications on fuel testing]; by Frederic M. Stanton and Arno C. Fieldner. 1912. 21 p. il. (Technical paper 8.) [Includes list of Geological Survey publications on fuel testing for sale by Superintendent of Documents.] * Paper, 5c. 12—35112

Publications of Bureau of Mines, Jan. 1912 [Publications reprinted by Bureau of Mines, and Publications that may be obtained only through Superintendent of Documents]. [1911.] 4 p. † 12—35113

Rate of burning of fuse as influenced by temperature and pressure [with list of Mines Bureau publications on mine accidents and tests of explosives]; by Walter O. Snelling and William C. Cope. 1912. 28 p. (Technical paper 6.) * Paper, 5c. 12—35071

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

PURCHASING AGENT

Report, year ended June 30, 1911. 1912. 8 p. † 7—32973/2

TOPOGRAPHY DIVISION

NOTE.—Post route maps corrected to the 1st of those months are distributed in March, June, September, and December to the postal service. For a list of the maps composing the set, with prices, see below. Orders for the maps should be addressed to the Disbursing Clerk, Post-Office Department, and money orders should be made payable to him.

Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given postoffice, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps described in the preceding paragraph.

Post route maps of—

Alabama. Scale 8 m.=1 in. 80c.

Alaska. Scale 40 m.=1 in. 80c.

Arizona. Scale 12 m.=1 in. 80c.

Arkansas. Scale 9 m.=1 in. 80c.

California, Nevada. Scale 10 m.=1 in. $3.20.

Canal Zone, Isthmus of Panama. Scale 1.6 m.=1 in. 80c.

Colorado. Scale 9 m.=1 in. 80c.

Delaware, Maryland, District of Columbia. Scale 5 m.=1 in. 80c.

Florida. Scale 10 m.=1 in. 80c.

Georgia. Scale 8 m.=1 in. 80c.

Hawaii, Samoan Islands, Guam. Scale 9 m.=1 in. 80c.

Illinois. Scale 8.3 m.=1 in. 80c.

Indiana. Scale 7 m.=1 in. 80c.

Iowa. Scale 7 m.=1 in. 80c.

Kansas, Nebraska. Scale 10 m.=1 in. $1.60.

Kentucky, Tennessee. Scale 7 m.=1 in. $1.60.

Louisiana. Scale 9 m.=1 in. 80c.

Maine. Scale 6.5 m.=1 in. 80c.

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of those are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Annual report of regents, year ending June 30, 1910 [with report of secretary, etc., and appendix containing scientific papers]. 1911. vii+688 p. il. 3 por. 11 pl. 114 p. of pl. map. ([Publication 2050]; H. doc. 1217, 61st Cong. 3d sess.) [For contents see entry of this publication without Congressional document number in Monthly catalogue for Nov. 1911, pages 267 and 268.] *Cloth, $1.10.
4—18264/2 [also analytical cards]

NOTE.—In the edition of this report without the Congressional document number the words "Chief Justice Harlan" appeared at the beginning of the first line on page 122. This page has been reprinted and White substituted for Harlan. The corrected page appears in the document edition and has also been substituted in many of the copies of the edition without the Congressional document number.

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit" found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

It will be of no use for libraries to ask the State Department for copies of Information series, a numbered set proceeding from the Division of Far Eastern Affairs. These are confidential prints, not supplied outside of the Department, and the Superintendent of Documents will not enter them in his printed catalogues of public documents.

General information regarding the Hot Springs of Arkansas is a new illustrated pamphlet, with which goes a supplementary leaf giving the new scale of reduced rates for scalding hot medicinal baths at this Government health resort.

The Report of the commissioner of corporations on the steel industry, part 2, Cost of production, preliminary report, is now ready, price 15 cents. The evidences which it presents of large profits, both in mining ore and manufacturing steel, will command the attention of legislators and economists.

The Immigration Commission has published Dictionary of races or peoples (61st Congress, 3d session, Senate document 662), 150 pages. It is an alphabetical and explanatory list of the names of races, tribes, clans, and peoples—more than 600 of them altogether, and probably there are not half a dozen of the whole number who are at this moment unrepresented in the United States. 10 cents.

Tea is grown and cured in the United States. It has been done for several years at Summerville, S. C., and Plant Industry Bureau Bulletin 234 declares that the experiments there have "gone far to demonstrate the practicability of growing tea commercially in suitable parts of this country."

Farmers' bulletin 482 is likely to be ranked among the "six best sellers." Its title is The pear and how to grow it.

Course in the use and preparation of vegetable foods for movable and correspondence schools of agriculture. This is the title of Experiment Stations Office Bulletin 245 (10 cents) which promises to be a valuable addition to the curriculum of the agricultural schools. It is well known that the plenteous and varied vegetable food supplies of our country are only partially utilized and often unskilfully. The wide circulation of this scientific textbook should improve the existing vegetable food supply and add new and appetizing and wholesome elements.

Public Roads Office Bulletin 42, New Hampshire highways, is a report of an inspection made in August, 1911, of the roads of that rugged northern State. A great number of photographic plates speak louder than words of the growth of the good-roads movement in the North.

The 27th annual report of the Animal Industry Bureau, devoted principally to describing the plans and efforts of the Bureau to protect domestic animals from the multitude of diseases which beset them, is on the whole rather depressing reading. Evidently the work of the Bureau is doing a lot of good, but on the other hand the diseases which assail the animals are so many and so malignant and so hard to eradicate that it gives the uninitiated a sort of discouraged feeling to read much about them. For those who do not require the whole book several interesting "separates" have been issued in pamphlets. One of these is Vaccination of cattle against tuberculosis (Circular 190, 5 cents) and another is Army remount problem (Circular 186, 5 cents). As an illustration of the results which flow from the present plan of publishing public documents in several different forms, may be cited the fact that the bureau edition of the 27th Animal Industry Bureau report and the document edition of the 26th report in the same series were received at the Public Documents Library on the same day in February, 1912. The bureau edition of the 26th report had been received in April, 1911.

The maintenance rations of farm animals is the title of a new document (Animal Industry Bureau Bulletin 143) which may be expected to become a standard manual with stock raisers.

Psychrometric tables, originally printed in 1900, has been reprinted under date of 1912. The original plates have been used, as they are still the standard tables of the Weather Bureau for vapor pressure, relative humidity, and temperature of the dew-point. The new print has, however, an appendix of three pages, giving additional information.

For two or three years past the Monthly list of publications issued by the Agriculture Department has failed to give the prices at which the bulletins of the various bureaus of the Department are sold by the Superintendent of Documents. In all Monthly lists hereafter issued the earlier practice of giving the prices will be resumed. Experience has proved that this is a convenience to many without harm to any.

The President's proclamation announcing the entry of the 48th State, Arizona, into the Union, was issued Feb. 14, 1912, making that date the birthday of the new State. Will there be any more States? If so, when and where? Few Americans will be ready to believe that this is now a finished country.

The 10th annual report of the Reclamation Service, for the year ended June 30, 1911, carries an index to the whole series of ten reports. A useful and welcome feature.

Coöperation is the order of the day. The immigration, land, and labor officials of 26 States got together with those of the U. S. Immigration and Naturalization Bureau last November in Washington and created the National Conference of Immigration, Land, and Labor Officials, to be a permanent organization, having for its chief purpose the commendable one of inducing immigrants to leave the congested cities and settle on the land. The proceedings of the first meeting of the Conference are now printed in a pamphlet. 10 cents.

The Labor Bureau's report on Wage conditions in the steel industry is Senate document 110, 62d Congress, 1st session, in 5 vols. It is still in press.

Bulletin 1, series of 1912, Education Bureau, is A course of study for the preparation of rural school teachers. The special subjects of which outlines are here given are Nature study, elementary agriculture, sanitary science, and applied chemistry. A rural teacher well grounded in these modern branches will be a prize for any little red schoolhouse.

There is a second edition of that standard book, The data of geochemistry.

Parts 2 and 4 of the Catalogue of copyright entries will hereafter be issued quarterly instead of monthly.

Senate document 870, 61st Congress, is the Proceedings of the north Atlantic coast fisheries arbitration, which was heard by The Hague Tribunal June 1–Sept. 7, 1911. Three volumes of the 12 in the set have been issued.

The memorial volumes commemorating the public services of the late Senator John Warwick Daniel, Representative Francis Rives Lassiter, and Representative James Breck Perkins have been published. As a rule, to which the exceptions are few, memorial volumes are issued by Congress to commemorate only those Senators and Representatives who are actually in office at the time of death.

A recent publication of that very active and prolific publishing bureau, the Interstate Commerce Commission, is: Notice to shippers in foreign countries who ship dangerous articles to the United States of America. Accompanying the pamphlet are facsimiles of the red, yellow, white, and green labels required to be used for shipment of different classes of inflammable, corrosive, or otherwise dangerous articles. On sale with the Superintendent of Documents, 10 cents.

Feb. 20, 1912, the President sent to Congress the Report of the Employers' Liability and Workmen's Compensation Commission, and a proposed bill to carry out its recommendations. The President's accompanying message gives the Report and bill a strong endorsement for reasons which are fully and forcibly set forth. This Report is the same whose complex method of publication was commented upon in the December Monthly catalogue. It is now to be printed as Senate document 338, 62d Congress, 2d session, in complete, consecutive, and final form.

The new compilation of Federal anti-trust decisions (same title as the earlier compilation) should be in stock by the time this Catalogue reaches the reader. It is in 4 vols., covering the period 1890–1912, price not fixed at the time of writing. It will be sold by the Superintendent of Documents. It will be printed as 62d Congress, 1st session, Senate document 111, with provision also for 3,000 extra copies, 1,000 for the Senate, 2,000 for the House.

The report of the Commission on Economy and Efficiency relative to centralization of the distribution of Government publications, the use of window envelopes, and a photographic process for copying printed and written documents, which the President sent to Congress Feb. 5, 1912, with a commendatory message, has been published as Senate documen 293, 62d Congress, 2d session.

House document 458, current Congress, in 2 volumes, is the report of the President's Economy and Efficiency Commission, awaited with general interest. The title of the document is: Message of the President of the United States on economy and efficiency in the Government service. The Message fills 20 pages. Its Appendix, which is the Report of the Commission, fills 1513 pages.

There is a new edition of the Navigation laws, the first since 1907. As a Congressional print it is House document 476, 62d Congress, 2d session.

When the Index-catalogue of medical and veterinary zoology (Animal Industry Bureau Bulletin 39) had, in its 35th part, attained to the title Zypkin, the Monthly catalogue, seeing that the extreme limit of the alphabet had been reached, concluded that the Index-catalogue had come to its legitimate end, and said so. It was a word spoken too soon, for now comes along Part 36. This part does not seek to extend the alphabet, but is made up of Addenda and Corrigenda to Parts 1-35. The possessors of those parts should of course have also Part 36.

The last report of the Territorial Governor of Arizona is one of the February publications. The Territory was organized in 1863, but the first pamphlet report of its Governors in the Public Documents Library is that by John C. Fremont in 1878.

House concurrent resolution 32, providing for printing 20,000 additional copies of the message of the President and the report of the Tariff Board on schedule K, Wool and manufactures of wool, was agreed to in the Senate March 1. The new print will be in 2 volumes. This important report has been previously printed as House document 342, 62d Congress, 2d session, in 4 vols. It has also been issued in one volume, without document number, for the Senate Committee on Finance.

Interstate Commerce Commission reports, vol. 21, May-Dec. 1911, is now available. In buckram, $1.50.

Mines Bureau Bulletin 15, Investigation of explosives used in coal mines, an important report in 197 pages, 7 plates, and several minor illustrations, can be supplied for 25 cents.

Chapter 23, Education Bureau Report, 1911, title Educational directory, has been issued also in a separate pamphlet.

A list of references to books, pamphlets, and periodicals containing material on parcels post has been published by the Library of Congress. It is sold by the Superintendent of Documents at 10 cents.

The Census Bureau has issued 51 Population Bulletins, one for each of the 48 States and for Alaska, District of Columbia, and Hawaii. Similar bulletins giving agricultural statistics, and a third series giving manufacturing statistics, have been issued for most of the States. The Superintendent of Documents supplies these bulletins at 5 cents each.

A new list of the now numerous publications of the Public Health and Marine-Hospital Service not only refers its users to an important series of medical works, but also further aids them by giving prominence to the fact of their sale by the Superintendent of Documents.

The new edition of Wireless telegraph stations of the world, corrected to Jan. 1, 1912, is out of press. It can be had only from the Superintendent of Documents, price 15 cents.

SCHEDULE FOR SIXTY-FIRST-THIRD

The Preliminary schedule of the set of volumes of the Congressional reports and documents of the 3d session of the 61st Congress (Dec. 5, 1910–Mar. 4, 1911) has been published.

There are several numbers missing, owing to changes of plan of publication after numbers had been assigned to documents in accordance with early announcements. The missing numbers are mostly in the extensive series of publications of the Immigration Commission, consolidations and other changes in that series having eliminated Senate documents numbered 661, 664, 751, 752, 754, 755, 757, 759, 760, 762, and 763, none of these numbers being represented by publications. Senate document 663, also eliminated by combination with another number, is a publication of the National Monetary Commission. All of these are indicated in the Schedule by footnotes. While the numbers are blank, the publications are not lost; they are merely transferred and combined.

There is, however, one other, concerning which information did not come to hand until after the Schedule had been printed. This is House document 1457, which would have been vol. 82, serial 6026. In this case the publication as well as its numbers disappears from the Document set. When the number was assigned it was intended to print the Agriculture Department's Report for 1910 on the beet-sugar industry as House document 1457. This intention has been reconsidered. The 1910 Report will not appear as a distinct publication. It will be combined with the Beet-sugar report for 1911 and the combined report will be issued as a bulletin of the Plant Industry Bureau. There will not be a numbered Congressional document print of this report.

UNCLE SAM'S COOKBOOK

This popular title was first given to Farmers' bulletin 391, Economical use of meat in the home. This went very well for a while, and the circulation of the little 5 cent pamphlet was enormous. But after a while people who asked for Uncle Sam's Cookbook and got Bulletin 391 came back with complaints, saying that neighbor So-and-so had had from Washington a big book with the name Uncle Sam's Cookbook on it. In reply to the statement that the Government did not publish such a book two correspondents came back with the statement that they had been in Washington, and among the Government establishments they had been shown through was the Printing Office, and there they saw big red books on which binders were putting the title Uncle Sam's Cookbook in gilt letters.

Of course men will believe their own eyes, and explanations to the contrary would be wasted on these sightseers. There is, however, an explanation which does not ask the sightseers to disbelieve their eyes and yet shows that Uncle Sam does not issue such a book as they have seen.

All of the Government publications on cooking and nutrition have been comparatively small pamphlets and the most of them in the series known as Farmers' bulletins which are never larger than 50 pages. The number of these printed runs into millions, and among the several agencies for their distribution are the Senators and Representatives, each one of whom may have an allotment of them if he chooses. The popularity of Bulletin 391 gave some members of Congress the idea of making a big Government cookbook by selecting the bulletins relating to foods, food values, cooking, and nutrition, of which there are many, and having them bound together under the taking title "Uncle Sam's Cookbook." No such book was ever issued by order of Congress, but a limited number was issued, on the order and at the expense of individual Congressmen, which is quite a different thing.

Should such volumes be undertaken hereafter they will be sure to contain two of February's publications, namely, Miss Anna Barrows's Course in the use and preparation of vegetable foods for movable and correspondence schools of agriculture and Mr. C. F. Langworthy and Miss Caroline Hunt's Cheese and its economical uses in the diet. These are among the most notable of recent contributions to Uncle Sam's Cookbook.

WORLD TRADE DIRECTORY—SUPPLEMENT

The thousands of American merchants and exporters who have been buyers of the World trade directory, compiled by the Manufactures Bureau, Commerce and Labor Department, and sold by the Superintendent of Documents, will be interested to know that the first supplement to that extensive work has been printed and is now on sale. It is a pamphlet list of names which American consuls have recommended should be eliminated from the Directory. Price 10 cents.

SECOND CLASS MAIL

House document 559, current Congress, is a composite volume, containing, 1st, the President's Message, in which he approves the recommendation of the Hughes Commission that the 2d-class mail rate be raised from 1 cent to 2 cents a pound and disapproves the plan of Government ownership of the telegraph service; 2d, the Annual report of the Postmaster General, in which the taking over of the telegraph system is advocated; and, 3d, the Report of the Commission on second-class mail matter, of which Mr. Justice Hughes of the United States Supreme Court, President Lowell of Harvard, and President Wheeler of the Chicago Association of Commerce were the members.

MONETARY COMMISSION SET

The set of bound volumes of the publications of the National Monetary Commission, which was described in detail in the Monthly catalogue for October, 1911, page 180, will soon be in stock. The volumes are substantially bound in dark red buckram and are sold by the Superintendent of Documents, in sets only, at $45.

COTTON TARE

By the adoption in both branches of House concurrent resolution 23 (Cong. Rec. v. 48, no. 65, p. 2622) an unusually large edition of a forthcoming document has been ordered. It is a compilation of special consular reports relating to the tare deductions made in foreign countries on cotton received from the United States. The very large number of 100,000 copies ordered indicates great interest in the subject.

In this case, as in all similar cases, the order for "extra copies" carries with it, automatically, the "usual number" of about 2,000 copies bearing a document number from which the depository libraries, the foreign exchanges, and other regular recipients of the numbered Congressional documents are supplied.

It is to be hoped that this compilation of special consular reports will be so numbered and titled that it cannot be confused with the numbered series of special consular reports which has been in course of publication since 1890. Even better would be an understanding between the Departments concerned by which the new volume might receive a consecutive number and become a part of the regular series of numbered Special consular reports.

The contents of the cotton tare book are 13 special reports from the American consuls in the 13 principal cotton-receiving ports of Europe. Speaking generally, they sustain the contention of American shippers that the tare deductions on American cotton bales are excessive. They show also that American cotton baling is less careful and secure than that of other cotton-growing countries. The aggregate loss to American cotton growers from these causes is estimated to amount to the great sum of $25,000,000 annually. The reports of the consuls are accompanied by numerous photographic illustrations which will be reproduced in the volume.

NEW SERIES

Economic circular no. 1, issued Feb. 13, 1912, proceeds from the Bureau of Fisheries. It is but 4 pages, an advance summary of a complete report on Mussel beds of the Cumberland River to be published later. Future numbers in this series will be of a similar character, summarizing reports which will later appear in full in the regular publications of the Bureau. The purpose is to supply to the interested trades at the earliest possible moment any economic information which the scientific researches of the Bureau may bring to light. No. 1 is of special interest to the pearl button trade, which is a large industry on the western rivers.

INTERNATIONAL CONGRESSES COMING

Four international congresses have been invited in one fashion or another to hold their next meetings in this country, three of them during the present year, the other in 1914, and all are ready to do so—though for some Congressional appropriations for entertainment, etc., are asked.

By act of Congress approved Feb. 26, 1907, the President was authorized to invite the 15th International Congress on Hygiene and Demography to meet in the United States in 1910. The invitation was transmitted by the American delegates to the 14th Congress, sitting in Berlin, Sept. 1907, and was accepted. After invitations had been sent by the United States to all foreign governments, it was found that preparations could not be completed so soon, and by resolution approved Feb. 3, 1910, Congress authorized postponement for one or two years. The Department of State subsequently approved Sept. 23–28, 1912, as the date of the Congress. Invitations to be represented have been accepted by 23 foreign nations and by 29 States of this country. Congress has appropriated $20,000 for preparations and the State Department is now recommending the appropriation of $40,000 more for the entertainment of the very large Congress which is expected. The 14 Congresses hitherto held have all been located in Europe and all at national capitals and pursuant to national invitations. Demography, as defined by the Century dictionary, is "that department of anthropology which relates to vital and social statistics and their application to the comparative study of races and nations."

The Interparliamentary Union is a body composed entirely of members of the legislative bodies of various countries who favor arbitration as the best method of settling international difficulties. The Union met in this country in 1904 and will meet here again this year if Congress will extend an official invitation. In October last, at the session of the Union in Paris, an American delegate presented an unofficial invitation, signed by 304 members of the Congress of the United States. The House Committee on Foreign Affairs has recommended the passage of House resolution 207, extending an official invitation and appropriating $50,000 for the entertainment of the body in which nearly all the governments of the world are represented.

The 2d Pan-American Scientific Congress is booked for this country in 1914 and the State Department has submitted an estimate of $50,000 for preliminary expenses, entertainment of delegates, and publication of the proceedings in English and Spanish. Three Latin-American Scientific Congresses have been held in South America. When the 4th was appointed to be held at Santiago, Chile, Dec. 25, 1908–Jan. 5, 1909, it was decided to make it Pan-American by inviting the United States to be represented. The invitation was accepted and delegates were sent, the 4th Latin-American Scientific Congress thus becoming the 1st Pan-American Scientific Congress. This body designated the city of Washington as the seat of the 2d Pan-American Congress. The transactions of the body are not restricted to any special branch, but range over the whole field of scientific inquiry. The report of the United States delegates to the Santiago Congress has been published as Senate document 64, 61st Congress, 1st session. It dilates upon the generosity of the reception given them in the Chilean capital, and the State Department suggests that this country should do as well.

By joint resolution approved March 4, 1909, Congress authorized the President to invite the International Congress of Applied Chemistry to hold its 8th meeting in this country. The resolution also provided "that no appropriation shall be asked or granted for any expense connected with said Congress." The invitation thus authorized has been given and accepted, and the Congress will assemble in Washington Sept. 4 and after one day's session, over which President Taft will preside, will adjourn to New York, where it will sit, Sept. 6–13. A very large attendance is expected, and extensive arrangements have been made for touring the country and visiting factories and works where chemistry is applied to production. The President has appointed a large committee of Government scientists, with Dr. Wiley as chairman, to welcome the visitors to Washington.

CORRECTION FOR JANUARY, 1912, MONTHLY CATALOGUE

For "42d" in 2d line of 4th entry under Navigation Bureau on page 379, read "43d."

MONTHLY CATALOGUE

No. 206 FEBRUARY 1912

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

[Bureau of Animal Industry] order 186; regulations governing certification of recognized breeds and purebred animals. Jan. 18, 1912. 6 p. †

Cooperative laboratory [of Mackay School of Mines, U. S. Bureau of Soils, and U. S. Geological Survey] at Reno, Nev., for examination of potash-bearing materials. Feb. 15, 1912. 4 p. * Paper, 5c.

Food inspection decision 140. Feb. 27, 1912. 3 p. † Agr 7—1659/2

Insecticide decision 5. Feb. 3, 1912. 1 p. †

Letter acknowledging receipt of resolution relative to persons injured fighting forest fires [and stating that information desired will be furnished as soon as Department can collect data]. Feb. 20, 1912. 1 p. (S. doc. 339.) ‡

Notice of judgment 1251–76, food and drugs act. Feb. 24, 1912. various paging. † Agr 8—878/4

ANIMAL INDUSTRY BUREAU

Butter. Temperature of pasteurization for butter making; by L. A. Rogers, W. N. Berg, and Brooke J. Davis. 1912. iv+307–326 p. il. (Circular 189.) [From 27th report, 1910.] * Paper, 5c. Agr 12—254/5

Cattle-ticks. Progress and prospects of tick eradication; by Cooper Curtice. 1912. iii+255–265 p. il. (Circular 187.) [From 27th report, 1910.] * Paper, 5c. Agr 12—246/2

Creameries. Increasing creamery profits by handling special products and utilizing by-products; by S. C. Thompson. [1912.] p. 297–306. (Circular 188.) [From 27th report, 1910.] * Paper, 5c. Agr 12—247/3

Food for cattle. Maintenance rations of farm animals; by Henry Prentiss Armsby. Feb. 15, 1912. 110 p. il. (Bulletin 143.) * Paper, 15c. Agr 12—469

Glanders. Various methods for diagnosis of glanders; by John R. Mohler and Adolph Eichhorn. 1912. iv+345–370 p. 4 pl. (Circular 191.) [From 27th report, 1910.] * Paper, 5c. Agr 12—284/3

Lymphatic glands. Regional lymph glands of food-producing animals; by John S. Buckley and Thomas Castor. 1912. ii+371–400 p. il. 3 pl. (Circular 192.) [From 27th report, 1910.] * Paper, 5c. Agr 12—296/3

Meat inspection. State and municipal meat inspection and municipal slaughterhouses; by A. D. Melvin. 1912. ii+241–254 p. il. 1 pl. (Circular 185.) [From 27th report, 1910.] * Paper, 5c. Agr 12—253/3

Milk. Improved methods for production of market milk by ordinary dairies; by C. B. Lane and Karl E. Parks. Reprint Jan. 1912 [with omissions]. 11 p. il. (Circular 158.) [From 25th report, 1908.] * Paper, 5c. Agr 10—539/3

Parasites of animals. Our present knowledge of distribution and importance of some parasitic diseases of sheep and cattle in United States [with bibliography]; by Maurice C. Hall. 1912. ii+419–463 p. il. 2 pl. (Circular 193.) [From 27th report, 1910.] * Paper, 5c. Agr 12—285/3

Reports. 27th annual report, [fiscal year] 1910. Feb. 10, 1912. 573 p. il. 43 pl. * Cloth, 80c. Agr 9—976/3

CONTENTS.—Report of chief; by A. D. Melvin.—Army remount problem; by George M. Rommel.—Principles of breeding and origin of domesticated breeds of animals; by J. Cossar Ewart.—Ancestry of domesticated cattle [with bibliography]; by E. W. Morse.—State and municipal meat inspection and municipal slaughterhouses; by A. D. Melvin.—Progress and prospects of tick eradication; by Cooper Curtice.—Use of arsenical dips in tick eradication; by B. H. Ransom and H. W. Graybill.—Live stock industry of Honduras; by William Thompson and James E. Downing.—Increasing creamery profits by handling special products and utilizing by-products; by S. C. Thompson.—Temperature of pasteurization for butter making; by L. A. Rogers, W. N. Berg, and Brooke J. Davis.—Vaccination of cattle against tuberculosis; by E. C. Schroeder, W. E. Cotton, John R. Mohler, and Henry J. Washburn.—Various methods for diagnosis of glanders; by John R. Mohler and Adolph Eichhorn.—Regional lymph glands of food-producing animals; by John S. Buckley and Thomas Castor.—Preparation of hog cholera serum in Hungary; by Adolph Eichhorn.—Primary splenomegaly in sheep; by L. Enos Day.—Our present knowledge of distribution and importance of some parasitic diseases of sheep and cattle in United States [with bibliography]; by Maurice C. Hall.—Protozoan parasites of domesticated animals; by Howard Crawley.—Miscellaneous information concerning live-stock industry; by John Roberts.—Appendix [including Publications of bureau, 1910].

—— Same. 1912. 573 p. il. 43 pl. (H. doc. 1041, 61st Cong. 3d sess.)

—— Report of chief, [fiscal year] 1911; by A. D. Melvin. 1911. 66 p. [From Annual reports of Agriculture Dept., 1911.] † Agr 9—976/3

Service announcements 58; Feb. 15, 1912. [1912.] p. 9–16. [Monthly.] ‡ Agr 7—1658/2

Tuberculosis in animals. Vaccination of cattle against tuberculosis; by E. C. Schroeder, W. E. Cotton, John R. Mohler, and Henry J. Washburn. 1912. ii+327–343 p. (Circular 190.) [From 27th report, 1910.] * Paper, 5c. Agr 12—255/6

Zoology. Index-catalogue of medical and veterinary zoology, pt. 36, addenda and corrigenda to pts. 1–35; by Ch. Wardell Stiles and Albert Hassall. Feb. 29, 1912. iv+2705–66 p. (Bulletin 39 [pt. 36].) * Paper, 5c. Agr 9—1180/6

APPOINTMENT CLERK

Regulations governing appointments and other changes affecting personnel in field service of Department of Agriculture. Jan. 25, 1912. 28 p. 12° ‡

CHEMISTRY BUREAU

Association of Official Agricultural Chemists. Extracts from proceedings of association, 1911. Feb. 7, 1912. 19 p. (Circular 90.) * Paper, 5c. Agr 8—405/2

Coal-tar colors used in food products; by Bernhard C. Hesse. Feb. 10, 1912. 228 p. il. (Bulletin 147.) * Paper, 25c. Agr 12—256/3

Crucibles. Marking porcelain and silica crucibles, etc.; by P. A. Yoder. Feb. 23, 1912. 3 p. (Circular 93.) * Paper, 5c. Agr 12—287/3

Oil of spearmint. Chemical investigation of American spearmint oil; by E. K. Nelson. Feb. 5, 1912. 4 p. (Circular 92.) * Paper, 5c. Agr 12—248/2

Paint. Some technical methods of testing miscellaneous supplies, including paints and paint materials, inks, lubricating oils, soaps, etc.; by Percy H. Walker. Revised Feb. 28, 1910. Reprint Jan. 24, 1912 [with corrections]. 68 p. il. (Bulletin 109 revised.) * Paper, 10c. Agr 10—430/2

Petroleum. Modification of Herzfeld-Bohme method for detection of mineral oil in other oils; by F. P. Veitch and Marion G. Donk. Feb. 28, 1912. 15 p. il. (Circular 85.) * Paper, 5c. Agr 12—298/4

Shellac. Arsenic content of shellac and contamination of foods from this source; by Bernard H. Smith. Feb. 20, 1912. 4 p. (Circular 91.) * Paper, 5c. Agr 12—286/2

Sorghum sirup manufacture; by A. Hugh Bryan. Feb. 9, 1912. 40 p. il. (Agriculture Dept. Farmers' bulletin 477.) [Supersedes Farmers' bulletin 135.] * Paper, 5c. Agr 7—211/2

Wine. Enological studies: 1, Experiments in cider making applicable to farm conditions, 2, Notes on use of pure yeasts in wine making; by William B. Alwood. Nov. 12, 1909, reprint Feb. 20, 1912 [with slight changes]. 32 p. il. (Bulletin 129.) * Paper, 5c. Agr 9—2568/4

ENTOMOLOGY BUREAU

Movement of Mexican cotton boll weevil in 1911; by W. D. Hunter. Feb. 12, 1912. 4 p. il. (Circular 146.) * Paper, 5c. Agr 12—257/2

Papers on deciduous fruit insects and insecticides: Notes on peach bud mite, enemy of peach nursery stock; by A. L. Quaintance. Feb. 24, 1912. iii+103-114 p. 5 pl. (Bulletin 97, pt. 6.) * Paper, 10c. Agr 12—299/2

EXPERIMENT STATIONS OFFICE

Cheese and its economical uses in diet; by C. F. Langworthy and Caroline L. Hunt. Feb. 26, 1912. 40 p. (Agriculture Dept. Farmers' bulletin 487.) * Paper, 5c. Agr 12—295/4

Course in use and preparation of vegetable foods for movable and correspondence schools of agriculture [with list of references]; by Anna Barrows. Feb. 17, 1912. 98 p. (Bulletin 245.) * Paper, 10c. Agr 12—288/3

Experiment station record, v. 26, no. 1; Jan. 1912. 1912. cover-title, viii+1-100+[1] p. * Paper, $1.00 per vol. (2 vols. a yr.). Agr 9—832/4

Note.—Mainly made up of abstracts of reports and publications on agricultural science which have recently appeared in all countries, especially the United States. Extra numbers, called abstract numbers, are issued quarterly, which are made up almost exclusively of abstracts, that is, they contain no editorial notes and only a limited number of current notes.

Experiment station work, v. 4, no. 7. Feb. 3, 1912. iv+121-140 p. il. [Same as Farmers' bulletin 479.] * Paper, 5c. Agr 6—305/3

List of station publications received by office during Jan. 1912. Feb. 20, 1912. 6 p. ([Publication] 1437.) [Monthly.] † Agr 9—1395/2

Report on Belzoni drainage district in Washington County, Miss.; by H. A. Kipp. Feb. 10, 1912. 55 p. il. 2 pl. map, 1 tab. (Bulletin 244.) * Paper, 15c. Agr 12—256/2

PLANT INDUSTRY BUREAU

Agriculture. Field instructions for farmers' cooperative demonstration work; [by Bradford Knapp]. 4th revision. Jan. 29, 1912. 8 p. ([Publication] 523.) * Paper, 5c.

Bulletins of bureau, 218-226, 1911-12, v. 29 [title-page and contents]. 1912. 16 p. †

Cocoanut-palm. History and cause of coconut bud-rot; by John R. Johnston. Feb. 5, 1912. 175 p. il. 14 pl. (Bulletin 228.) * Paper, 30c. Agr 12—259

Corn. Crossbreeding corn; by C. P. Hartley, Ernest B. Brown, C. H. Kyle, and L. L. Zook. Feb. 17, 1912. 72 p. il. (Bulletin 218.) * Paper, 10c. Agr 12—289/6

Lemons. Preliminary study of forced curing of lemons as practiced in California; by Arthur F. Sievers and Rodney H. True. Feb. 13, 1912. 38 p. il. (Bulletin 232.) * Paper, 10c. Agr 12—261/3

Nematode gallworm on potatoes and other crop plants in Nevada; by C. S. Scofield. Feb. 20, 1912. 15 p. il. (Circular 91.) * Paper, 5c. Agr 12—291

Pear and how to grow it; by G. B. Brackett. Feb. 14, 1912. 31 p. il. (Agriculture Dept. Farmers' bulletin 482.) * Paper, 5c. Agr 12—294/2

Potatoes. Suggestions to potato growers on irrigated lands; by L. C. Corbett. Feb. 6, 1912. 6 p. (Circular 90.) * Paper, 5c. Agr 12—251

Refrigerating processes. Precooling of fruit; by A. V. Stubenrauch and S. J. Dennis. [Reprint] 1912 [with slight changes]. iii+437-448 p. 5 pl. ([Yearbook] separate 550.) [From Yearbook, 1910.] * Paper, 5c. Agr 11—838/2

Seeds and plants imported, Jan.-Mar. 1911; inventory 26, nos. 29328-30461. Feb. 20, 1912. 98 p. (Bulletin 233.) * Paper, 10c. Agr 7—1331/6

Sorghum. Grain-sorghum production in San Antonio region of Texas; by Carleton R. Ball and Stephen H. Hastings. Jan. 31, 1912. 30 p. il. (Bulletin 237.) * Paper, 5c. Agr 12—250/3

Tea. Cultivation and manufacture of tea in United States; by George F. Mitchell. Feb. 15, 1912. 40 p. il. 4 pl. (Bulletin 234.) * Paper, 10c. Agr 12—290/2

Wilting coefficient for different plants and its indirect determination; by Lyman J. Briggs and H. L. Shantz. Feb. 3, 1912. 83 p. il. 2 pl. (Bulletin 230.) * Paper, 10c. Agr 12—260/4

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The charts, coast pilots, and tide tables of the Coast and Geodetic Survey are sold at the office of the survey in Washington, and also by one or more sales agents in each of the important American seaports.

Report of superintendent showing progress of work, July, 1910–June, 1911. 1912. 584 p.+[3] l. 14 maps, 9 are in pocket, 38 p. of maps, 4°
* Cloth, $1.35.

Same. (H. doc. 152.)

Results of magnetic observations made by survey between July, 1910, and June, 1911; by R. L. Faris. 1912. [1]+77–158 p. large 8°
[From Report, 1911.] * Paper, 15c. 5—35368/5

Triangulation along 98th meridian, Nebraska to Canada, and connection with Great Lakes; by William Bowie. 1912. [1]+159–342 p. 2 maps, 10 p. of maps, 4° [From Report, 1911.] * Paper, 40c.

Triangulation along 98th meridian, Seguin to Point Isabel, Tex.; by A. L. Baldwin. 1912. [1]+343–414 p. 2 maps, 6 p. of maps, 4°
[From Report, 1911.] * Paper, 20c.

COURT OF CLAIMS

Adams. Findings in case of Hannah J. Adams, widow of Augustus H. Adams, and sundry subnumbered cases. Jan. 29, 1912. 3 p. (S. doc. 278.) ‡

Alfred, schooner. Conclusions of law and fact in French spoliation cases relating to schooner, Elbridge Drinkwater, master. Feb. 22, 1912. 4 p. (H. doc. 561.) ‡

Ashcraft. Findings in case of N. B. Ashcraft, administrator of Eliza Ann Ashcraft. Feb. 15, 1912. 2 p. (H. doc. 541.) ‡

Best. Findings in case of Mary Tooker Best, executrix of Clermont Livingston Best. Feb. 19, 1912. 2 p. (S. doc. 330.) ‡

Brew. Findings in case of Ellen Brew, widow of Frank Brew, and sundry subnumbered cases. Jan. 29, 1912. 5 p. (S. doc. 279.) ‡

Caldwell. Findings in case of James E. Caldwell. Feb. 6, 1912. 2 p. (H. doc. 516.) ‡

Cammack. Findings in case of Charles P. Cammack, Lillie V. Oldham, Mary B. Harbin, and Frances H. Glover, heirs of Mary R. Cammack. Feb. 15, 1912. 2 p. (S. doc. 310.) ‡

Carroll. Findings in case of Katharine Du B. Beale, administratrix of Samuel S. Carroll. Feb. 19, 1912. 2 p. (S. doc. 324.) ‡

Cases. February calendar [of cases ready for trial or hearing], 1912. 1912. 11 p. [Half of the pages are blank.] ‡

Centerville, Va. Findings in case of trustees of Methodist Episcopal Church South, Centerville. Feb. 15, 1912. 2 p. (S. doc. 308.) ‡

Culpeper, Va. Findings in case of trustees of Presbyterian Church, Culpeper. Feb. 1, 1912. 2 p. (S. doc. 290.) ‡

Dant. Findings in case of Clements T. Dant and sundry subnumbered cases. Jan. 29, 1912. 3 p. (S. doc. 277.) ‡

Deibel. John Deibel v. United States; evidence for claimant. [1912.] no. 30255, p. 87–102. ‡

Dieter. Findings in case of J. P. Deiter [Dieter]. Feb. 22, 1912. 3 p. (S. doc. 342.) ‡

Drye. John B. Pondrom, administrator of Jacob A. Drye, v. United States and Comanche Indians; evidence for defendants. [1912.] Indian depredations, no. 7164, p. 643–652. ‡

Eastman. Findings in case of Annie H. Eastman, administratrix of Seth Eastman. Feb. 19, 1912. 2 p. (S. doc. 323.) ‡

Edson. Findings in case of John Henry Edson. Feb. 19, 1912. 2 p. (S. doc. 331.) ‡

Fonder, Edward F., Company. Edward F. Fonder Company v. United States; evidence for defendants. [1912.] no. 29989, p. 255–282. ‡

Frederick County, Va. Findings in case of trustees of Macedonia Methodist Episcopal Church South, Frederick County. Feb. 1, 1912. 2 p. (S. doc. 291.) ‡

Gardner. Findings in case of Silas E. Gardner. Jan. 29, 1912. 2 p. (S. doc. 284.) ‡

Garland. Heirs of Samuel Garland v. Choctaw Nation; evidence for defendant. [1912.] no. 30252, p. 37–68. ‡

Gifford. Findings in case of Mary W. Gifford, widow of John F. Gifford. Jan. 29, 1912. 2 p. (S. doc. 283.) ‡

Goshorn. Findings in case of Sidney M. Goshorn. Feb. 19, 1912. 2 p. (S. doc. 329.) ‡

Graham. Findings in case of William M. Graham, sr., administrator of William Montrose Graham. Feb. 19, 1912. 2 p. (S. doc. 320.) ‡

Gunn. Findings in case of Alice E. Gunn, widow of William A. Gunn. Jan. 29, 1912. 2 p. (S. doc. 282.) ‡

Hargrave. Findings in case of Emily Hargrave, widow of Lemuel R. Hargrave. Feb. 19, 1912. 2 p. (S. doc. 328.) ‡

Haupt. Lewis M. Haupt v. United States; evidence for claimant. [1912.] no. 30379, p. 15–30. ‡

Hay. Findings in case of Edward S. Hay. Jan. 29, 1912. 2 p. (S. doc. 281.) ‡

Haseltine. Findings in case of Evah A. Davis, widow of Ross J. Hazeltine. Jan. 29, 1912. 2 p. (S. doc. 280.) ‡

Heinzmann Brothers v. United States; evidence for defendants. [1912.] no. 30310, p. 435–444. ‡

Hendrickson. Findings in case of Clarkson V. Hendrickson and Jasper Chisholm. Jan. 29, 1912. 3 p. (S. doc. 286.) ‡

Hughes. Findings in case of Elizabeth B. Hughes, executrix of William Burton Hughes. Feb. 19, 1912. 2 p. (S. doc. 322.) ‡

Johnson. Findings in case of J. H. Smalling, administrator of Henry Johnson. Feb. 15, 1912. 2 p. (H. doc. 542.) ‡

Kendrick. Findings in case of Edward H. Peaslee and Edmund P. Kendrick, executors of Henry L. Kendrick. Feb. 19, 1912. 2 p. (S. doc. 313.) ‡

Lewy. Leopold Lewy v. United States; Mrs. Sarah Lewy v. [same]; Mrs. Mary E. Hughes v. [same]; evidence for claimants. [1912.] no. 30689, 30688, 30606, p. 41–46. ‡

Lovejoy. Findings in case of Sussana R. Lovejoy, widow of John T. Lovejoy. Jan. 29, 1912. 2 p. (S. doc. 276.) ‡

Marks. Findings in case of Clarence Marks and George T. Clifford. Jan. 29, 1912. 3 p. (S. doc. 287.) ‡

Mason. Findings in case of Cornelia M. Mason, widow of John Sanford Mason. Feb. 19, 1912. 2 p. (S. doc. 318.) ‡

Michigan Steel Box Company. Eugene D. Scheble, trading as Michigan Steel Box Company, v. United States; evidence for defendants. [1912.] no. 30433, p. 203–270. ‡

Morton. Findings in case of Alexander Logan Morton. Feb. 19, 1912. 2 p. (S. doc. 316.) ‡

Norvell. Findings in case of Francis A. Norvell. Feb. 19, 1912. 2 p. (S. doc. 327.) ‡

Peters. Findings in case of Mingo Peters. Feb. 19, 1912. 2 p. (S. doc. 325.) ‡

Pomeroy. Findings in case of Fanny G. Pomeroy, widow of Willis B. Pomeroy. Feb. 19, 1912. 2 p. (S. doc. 326.) ‡

Prince. Findings in case of Lincoln H. Newcomb, administrator of Henry Prince. Feb. 19, 1912. 2 p. (S. doc. 317.) ‡

Pussy, Tiger & Co. Clarence W. Turner [surviving partner of Pussy, Tiger & Co.] v. United States and Creek Nation of Indians; evidence for defendants. [1912.] no. 30241, p. 153–193. ‡

Red Bone, Miss. Findings in case of trustees of Methodist Episcopal Church South, Red Bone. Feb. 19, 1912. 2 p. (S. doc. 336.) ‡

Reynolds. Findings in case of Mary E. Reynolds, widow of Joseph J. Reynolds. Jan. 29, 1912. 2 p. (S. doc, 285.) ‡

Rhoda, schooner. Conclusions of law and fact in French spoliation cases relating to schooner, Uriah Green, master. Feb. 22, 1912. 3 p. (H. doc. 562.) ‡

Robinson. Sam A. Robinson and C. S. Robinson *v.* United States; evidence for claimants. [1912.] no. 30813, p. 3–22. ‡

Ruff. Findings in case of Annie E. Ruff, executrix of Charles Frederick Ruff. Feb. 22, 1912. 2 p. (S. doc. 340.) ‡

Seawell. Findings in case of James M. Seawell, administrator of Washington Seawell. Feb. 19, 1912. 2 p. (S. doc. 321.) ‡

Sullivan. Findings in case of American Security & Trust Co., executor of Thomas Crook Sullivan. Feb. 19, 1912. 2 p. (S. doc. 337.) ‡

Tassin. Findings in case of Mary Tassin, widow of Augustus G. Tassin. Feb. 19, 1912. 2 p. (S. doc. 314.) ‡

Tompkins. Findings in case of W. N. Talley, administrator of Beverly Tompkins. Feb. 24, 1912. 2 p. (H. doc. 567.) ‡

Tully. Findings in case of Catherine Tully, executrix of Redmund Tully. Feb. 19, 1912. 2 p. (S. doc. 315.) ‡

Twining. Findings in case of John A. Baker, administrator of William J. Twining. Feb. 19, 1912. 2 p. (S. doc. 319.) ‡

Vicksburg Wharf and Land Co. v. United States; evidence for claimant. [1912.] no. 30740, p. 59–62. ‡

Westmore. Findings in case of Cecile W. King, daughter of Stephen Moore Westmore, known as Stephen West-Moore. Feb. 15, 1912. 3 p. (S. doc. 311.) ‡

Wright. Findings in case of Elizabeth P. O'Conner, widow, and Edward B. Wright, son of Edward Maxwell Wright. Feb. 22, 1912. 3 p. (S. doc. 341.) ‡

Statistics of State universities and other institutions of higher education partially supported by State, year ended June 30, 1911. 1912. 23 p. (Bulletin 19, 1911; whole no. 468.) * Paper, 5c. E9—429

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 498.

Brick. Production of sand-lime brick, [calendar year] 1910; by Jefferson Middleton. 1912. [1]+623–626 p. [From Mineral resources, 1910.] † Paper; * paper, 5c.

Coal. Production of coal, [calendar year] 1910 [with list of references], by Edward W. Parker; [with Classified list of papers dealing with coal, coke, lignite, and peat contained in publications of Geological Survey, by John M. Nickles and Willis T. Lee]. 1911 [reprint 1912, with additions and corrections]. 242 p. il. 14 maps. [From Mineral resources, 1910.] † Paper; * paper, 45c. CA8–2676/3

Maps

North America, Geologic map of; with insets, Aleutian Islands; Windward Islands. Scale 1:5,000,000. [Washington] Geological Survey, 1911. 4 sheets, each about 37.5×28.6 in., size of insets, 5.5×13.8 and 11.9×6.8 in. [Prepared in cooperation with Geological Survey of Canada and Instituto Geologico de Mexico.] † 75c.

United States base map; compiled by Henry Gannett. Scale 1:7,000,000. [Washington, Geological Survey] edition of Nov. 1911. 17.6×28.3 in. † 10c.

United States contour map; compiled by Henry Gannett. Scale 1:7,000,000. [Washington, Geological Survey] edition of Nov. 1911. 17.6×28.3 in. † 10c.

United States relief map; compiled by Henry Gannett. Scale 1:7,000,000. [Washington, Geological Survey] edition of Nov. 1911. 17.6×28.4 in. † 10c.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least $3.00.

California, Browns Valley quadrangle, lat. 39° 07′ 30″–30° 15′, long. 121° 22′ 30″–121° 30′. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.3×13.4 in. † 5c.

California, Landlow quadrangle, lat. 39° 22′ 30″–30° 30″, long. 121° 45′–121° 52′ 30″. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.3×13.4 in. † 5c.

California-Nevada, Bridgeport quadrangle, lat. 38°–38° 30′, long. 119°–119° 30′. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×13.8 in. † 5c.

Colorado, Montrose quadrangle, lat. 38°–38° 30′, long. 107° 30′–108°. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.5×13.8 in. † 5c.

Colorado, Mt. Jackson quadrangle, lat. 39°–39° 30′, long. 106° 30′–107°. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.5×13.6 in. † 5c.

Glacier National Park, Mont., Topographic map of, lat. [48° 13′]–49°, long. 113° 10′–114° 30′. Scale 1:125,000, contour interval 100 feet. [Washington, Geological Survey] edition of Aug. 1911. 28.4×32.3 in. [No description on reverse.] † 15c.

Idaho-Montana, Cataldo quadrangle, lat. 47° 30′–48°, long. 116°–116° 30′. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.5×11.9 in. † 5c.

Illinois, Elizabeth quadrangle, lat. 42° 15′–42° 30′, long. 90°–90° 15′. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Oct. 1911. 18.1×13 in. † 5c.

Iowa, Knoxville quadrangle, lat. 41° 15′–41° 30′, long. 93°–93° 15′. Scale 1: 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.5×13.2 in. † 5c.

Kansas-Missouri, Leavenworth and vicinity, lat. [39° 12′ 55″–] 39° 30′, long. 94° 45′ [–95° 08′ 37″]. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Oct. 1911. 19.8×21.4 in. [No description on reverse.] † 10c.

Kasaan Peninsula, Prince of Wales Island, Alaska, Topography of, lat. 55° 25′–55° 40′, long. 132° 05′–132° 35′. Scale 1 : 62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×20.8 in. [No description on reverse.] † 5c.

Louisiana, Lake Providence quadrangle, lat. 32° 45′–32° 52′ 30″, long. 91° 05′–91° 15′. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.2×19.4 in. † 5c.

Maine-New Hampshire, Kezar Falls quadrangle, lat. 43° 45′–44°, long. 70° 45′–71°. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×12.7 in. † 5c.

Montana, Blackfoot quadrangle, lat. 48° 30′–49°, long. 112° 30′–113°. Scale 1 : 125,000, contour interval 20 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×11.7 in. † 5c.

New York, Canton quadrangle, lat. 44° 30′–44° 45′, long. 75°–75° 15′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.5×12.6 in. † 5c.

North Carolina, Lincolnton quadrangle, lat. 35° 15′–35° 30′, long. 81° 15′–81° 30′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.5×14.3 in. † 5c.

North Dakota, Ray quadrangle, lat. 48°–48° 30′, long. 103°–103° 30′. Scale 1 : 125,000, contour interval 50 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.5×11.8 in. † 5c.

Ohio, Loramie quadrangle, lat. 40° 15′–40° 30′, long. 84° 15′–84° 30′. Scale 1 : 62,500, contour interval 10 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.5×13.4 in. † 5c.

Pennsylvania, Franklin quadrangle, lat. 41° 15′–41° 30′, long. 79° 45′–80°. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Nov. 1911. 17.5×13.2 in. † 5c.

West Virginia, Madison quadrangle, lat. 38°–38° 15′, long. 81° 45′–82°. Scale 1 : 62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Aug. 1911. 17.5×13.8 in. † 5c.

Wyoming, [Yellowstone] Lake quadrangle, lat. 44°–44° 30′, long. 110°–110° 30′. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.5×12.6 in. † 5c.

Wyoming, Yellowstone National Park, Canyon quadrangle, lat. 44° 30′–45°, long. 110°–110° 30′. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of July, 1911. 17.5×12.5 in. † 5c.

Wyoming, Yellowstone National Park, Gallatin quadrangle, lat. 44° 30′–45°, long. 110° 30′–111°. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Sept. 1911. 17.5×12.5 in. † 5c.

INDIAN AFFAIRS OFFICE

Revised estimate of appropriation for restoration [to public domain] of lands in forest reserves. Feb. 26, 1912. 3 p. (H. doc. 570.) ‡

MINES BUREAU

Investigations of explosives used in coal mines, [articles] by Clarence Hall, W. O. Snelling, and S. P. Howell; with chapter on natural gas used at Pittsburgh, by G. A. Burrell; and introduction, by Charles E. Munroe. 1912. v+3–197 p. il. 7 pl. (Bulletin 15.) [Includes list of Mines Bureau and Geological Survey publications relating to mine accidents and tests of explosives.] * Paper, 25c. 12—35045

Volatile matter of coal; by Horace C. Porter and F. K. Ovitz. [Revised edition, Jan. 1, 1912.] 1912. 58 p. il. 1 pl. (Bulletin 1.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing.] * Paper, 10c.

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

In Court of Appeals of District of Columbia, Jan. term, 1912, patent appeal no. 774, in re Egbert H. Gold, improvement in art of heating by steam; brief for commissioner of patents. 1912. cover-title, 25 p. ‡

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1912, page 424.

PRESIDENT OF UNITED STATES

Address of William H. Taft at banquet of Tippecanoe Club, Cleveland Ohio, Jan. 29, 1912, in celebration of birthday of William McKinley presented by Mr. Smoot. Feb. 5, 1912. 12 p. (S. doc. 292. * Paper, 5c. 12—35168

—— Same. (H. doc. 559.)

Telegraph. Message transmitting joint reports by officers representing insular government of Philippine Islands, Army and Navy relative to wireless telegraphy in Philippine Islands. Feb. 8, 1912. 23 p. (S. doc. 299.) ‡ 12—35170

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Descriptions of 2 new species of nun birds from Panama; by E. W. Nelson. Washington, Smithsonian Institution, Feb. 16, 1912. [2]+2 p. (Publication 2074; Smithsonian miscellaneous collections, v. 56, no. 37.) † Paper, 5c.

Descriptions of 12 new species and subspecies of mammals from Panama; by E. A. Goldman. Washington, Smithsonian Institution, Feb. 19, 1912. [2]+11 p. (Publication 2073; Smithsonian miscellaneous collections, v. 56, no. 36.) † Paper, 10c.

New leather flower from Illinois; by Paul C. Standley. Washington, Smithsonian Institution, Feb. 7, 1912. [2]+3 p. 1 pl. (Publication 2070; Smithsonian miscellaneous collections, v. 56, no. 34.) † Paper, 5c.

New mammals from Canada, Alaska, and Kamchatka; by N. Hollister. Washington, Smithsonian Institution, Feb. 7, 1912. [2]+8 p. 3 pl. (Publication 2072; Smithsonian miscellaneous collections, v. 56, no. 35.) † Paper, 10c.

Notes on birds observed during brief visit to Aleutian Islands and Bering Sea in 1911; by A. C. Bent. Washington, Smithsonian Institution, Feb. 12, 1912. [2]+29 p. (Publication 2068; Smithsonian miscellaneous collections, v. 56, no. 32.) † Paper, 10c.

Report on investigation of geological structure of the Alps; by Bailey Willis. Washington, Smithsonian Institution, Feb. 7, 1912. [2]+13 p. il. (Publication 2067; Smithsonian miscellaneous collections, v. 56, no. 31.) † Paper, 10c.

Three new plants from Alberta; by Paul C. Standley. Washington, Smithsonian Institution, Feb. 7, 1912. [2]+3 p. (Publication 2069; Smithsonian miscellaneous collections, v. 56, no. 33.) † Paper, 5c.

NATIONAL MUSEUM

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Charts

Fairport Harbor, Ohio. Scale 1:8,000. [U. S. Lake Survey Office, Detroit, Mich.] Jan. 20, 1912. 24.5×16.2 in. † 12c.

Green Bay, Head of, including Fox River below Depere, Wis. Scale 1:25,000. [U. S. Lake Survey Office, Detroit, Mich.] Feb. 7, 1912. 33.2×24.1 in. † 15c.

Michigan, Lake, vicinity of Milwaukee; coast chart 3. Scale 1:80,000. [U. S. Lake Survey Office, Detroit, Mich.] Feb. 5, 1912. 42.2×25.5 in. † 13c.

Portage Lake and River, Lake Superior, including Torch Lake, Mich., scale 1:30,000; with insets, Portage Entry and River, Chart of, scale 1:15,000; Portage Lake upper entrance, and canal, scale 1:15,000. [U. S. Lake Survey Office, Detroit, Mich.] Jan. 24, 1912. 42.7×29.1, 21.7×16.6, and 15.1×8.1 in. † 20c.

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit" found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{5}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

Notes of General Interest

Senate document 190, 62d Congress, 2d session, on the fertilizer resources of the United States, is the latest document discussing one of the most important subjects now engaging the attention of economists. Its value is enhanced by plates and map.

Forestry in nature study, Farmers' bulletin 468, is another handy school textbook, first issued by the Agriculture Department in Dec. 1911 and reprinted in Feb. 1912. 5 cents.

Interstate Commerce Commission's Second annual report on the statistics of express companies in the United States, for the year ended June 30, 1910, furnishes several interesting items, including Wells, Fargo & Co.'s $24,000,000 dividend from surplus, leaving the undivided surplus of the combined companies at $59,215,600. The statistics of the 13 important companies are given, the American Company leading all others in amount of business transacted.

Court of Claims reports, vol. 46, Oct. 1910 to May 1911, is now in stock. Full sheep, $1.50.

Supplement no. 1 to Tariff circular no. 19a has been issued by the Interstate Commerce Commission.

The opinion of Chancellor Pitney of New Jersey in the case of the Glass Bottle Blowers' Association, Nov. 16, 1908, and the dissenting opinion of Judge Minturn in the same case, have been printed as Senate document 374, 62d Congress, 2d session. Chancellor Pitney is now Mr. Justice Pitney of the United States Supreme Court, succeeding the late Justice Harlan.

Senate document 338, 62d Congress, 2d session, is in 2 vols. Vol. 1 contains the Message of the President transmitting the Report of the Employers' Liability and Workman's Compensation Commission, in which he commends the Report and advocates the passage of the bill drafted by the Commission. This volume contains also the text of the Report and of the bill, with several statistical tables. Vol. 2 is much larger, containing hearings, briefs, table of cases, and general index. This edition supersedes Senate document 90, 2 parts, and 3 unnumbered pamphlets, which made up the first edition of the Commission's report.

The United States Pharmacopœia has been published in Spanish. It is not a public document of the United States, but the fact that the Public Health and Marine-Hospital Service has lately published its 5th digest of commentaries on it (House document 184, 62d Congress, 2d session; also, Hygienic Laboratory Bulletin 79) makes it evident that there are Government officials who feel an active interest in it.

Experiment Stations Office Bulletin 247 is the latest revision of the Organization lists of the agricultural colleges and experiment stations of the United States, containing information for which there is demand in these days of agricultural development.

A list of the arbitration treaties and conventions submitted to and acted upon at various times by the United States Senate has been printed as Senate document 373, 62d Congress, 2d session. Seventy-four such international agreements are in the list. The document gives also a list of 13 arbitration treaties which were ratified by the Senate Feb. 11, 1905, but with such amendments that no Administration has thought it advisable to resubmit them to the countries with which they were originally made. To this list of 13 treaties thus amended probably may be added those with France and Great Britain ratified with amendments Mar. 7, 1912.

The speech of Senator Lodge of Massachusetts, Feb. 29, 1912, advocating amendment of the arbitration treaties with France and Great Britain, has been printed as Senate document 353. It carries also as an appendix the contents of Senate document 373.

The 52 State population bulletins of the 13th Census, giving the enumeration statistics of the 48 States, the District of Columbia, Alaska, Hawaii, and Porto Rico, have been issued as one publication. Price, 65 cents in paper, 95 cents in cloth.

The Geological Survey makes a timely contribution to the potash hunt by expediting the publication of Potash salts, summary for 1911, which is an advance chapter from Mineral resources, 1911, this latter being an extensive report which can not be issued complete for months to come. Potash salts, summary for 1911, is a 5 cent pamphlet, giving all the latest potash news, excepting only that concerning the ten-million-ton deposit in the Mohave Desert, which at first appeared in print only in the newspapers, but has since been validated by a reference in the President's message of Mar. 26, 1912.

The Intracoastal waterway, Boston to the Gulf, is one of the many big things which the children of our day may hope to live to see in this irresistibly expansive country. Something of what it will mean may be learned from House document 391, 62d Congress, 2d session, just printed, which describes the section from Boston to Beaufort, N. C. A board of engineers has been considering the subject since Congress authorized and directed a preliminary survey by act approved Mar. 3, 1909. The document has many maps and tables.

Plant Industry Bureau Circular 93, The danger of using foreign potatoes for seed, is a word of warning to farmers in the eastern United States who may be misled by the large size and good looks of imported potatoes.

The February, 1912, edition of Civil service act, rules, Executive orders, etc., is now in the stock of the Superintendent of Documents. 10 cents.

Among the new Census Bureau bulletins issued in March is one entitled Population: United States, which shows several interesting things. One of these is the relative rank of the States in population, which has changed considerably since 1900. California, which was the 21st State, is now the 12th. Iowa has dropped from 10th to 15th. New Jersey has jumped from 16th to 11th. Texas, which was the 6th State, is now the 5th.

Missouri, which was the 5th State, is now the 7th. Massachusetts, which was the 7th State, is now the 6th. Other equally interesting and significant changes are shown. Another valuable feature of this bulletin is a table of the Congressional apportionments from the beginning of the Government. Another feature is diagrams showing graphically the increases of population. One of the late Census Bureau bulletins shows the population of cities and their suburbs—that is, to each large city is assigned the territory assumed to be tributary to it and the tributary population is added to that of the city proper. On this basis some cities gain much more than others, and changes in relative standing result. Another new bulletin gives the population of all incorporated places of 2,500 or more inhabitants and tables showing the relative rank of the 50 largest cities at each enumeration beginning with 1840. Very few persons would now guess that in 1840 Baltimore was the 2d city, New Orleans the 3d, and Philadelphia only 4th, with less than 100,000 people. New York, of course, is at the head of the list from first to last. Chicago first broke into the 50 list in 1850, when it was 25th in rank, with 29,963 inhabitants, being outranked by Lowell, Rochester, Newark, Charleston, Washington, and other cities now low down in the list. This bulletin, not numbered but entitled Population of cities, gives many other interesting data and comparisons, including the comparative growth of urban and rural populations. Of the latter it says: "The decrease or slow increase in the rural population is in no sense due to lack of agricultural prosperity. In most of the States showing a decrease or a very slight increase in rural population during the past decade there has been a remarkable increase in the value of farm property."

A 10 cent pamphlet issued by the Biological Survey Bureau as Bulletin 41 is not remarkable for the volume of its information, but for its character. It is reference material of a kind not easily found, and therefore, small though it is, the book fills a rather large field heretofore pretty much unoccupied. The title is: Chronology and index of the more important events in American game protection, 1776–1911. If you want to find when English sparrows were first acclimated in America, when and where was the last great wild-pigeon roost, when and in what States game laws were first passed, what "game" is by law, etc., etc., this is the book for you.

Medical handbook for the use of lighthouse vessels and stations (canvas, 30 cents) is a manual of plain and simple directions for use in emergencies by Government people whose occupations usually put them out of the reach of doctors. The plainness and simplicity of the directions given may commend the handbook to many who do not live in lighthouses.

Mineral resources of the United States, 1910; Part 2, Nonmetals; cloth, $1.25. This important annual report by the United States Geological Survey is now available. Many of the most important mineral products are not metals. Among these are coal, natural gas, petroleum, cement, clay, and stone. We are digging wealth beyond the dreams of avarice out of the earth's crust. For the second time in the country's history, in 1910 a year's mineral production exceeded $2,000,000,000 in value.

Geological Survey Bulletin 494 describes most interestingly the New Madrid earthquake of Dec. 16, 1811, which is better understood now than it was at the time of its occurrence.

Hon. W. B. Wilson of Pennsylvania, who is a practical miner, Hon. W. C. Redfield of New York, who is a large employer of labor, and Hon. J. Q. Tilson of Connecticut, who is a lawyer, are the members of a special committee to investigate the Taylor and other systems of shop management. They have made a unanimous report, questioning the feasibility of much that is proposed under the general subject of "scientific management" of bodies of workmen. The Committee say that while Mr. Taylor has done much good in working out the details of shop management, nobody has presented to the Committee a system of shop management sufficiently complete and perfect to justify a recommendation for its adoption in entirety. The Committee's chief objection is to the effort to stimulate the exertions of workmen by timing their operations. The official designation of the Committee's report is House report 403, 62d Congress, 2d session.

Forest Service Circular 205 relates to forest fire protection under the Weeks law in coöperation with the States. The Weeks law is the law establishing the Southern Appalachian and White Mountain forest reserves. Under this law a Government commission is now actively at work acquiring lands for the protection of water powers. As this protection is to be secured by preserving the forests, the protection of the forests from fire is logically the next step after acquirement.

There is a new edition of the Judicial code of the United States, including all the amendments to Feb. 6, 1912. 20 cents.

Senate document 439, 62d Congress, 2d session, is a reprint of Abraham Lincoln's 1st and 2d inaugural addresses, his message to the special session of Congress called by him July 4, 1861, his proclamation of freedom to the slaves dated Jan. 1, 1863, and his Gettysburg speech of Nov. 19, 1863—a small collection of great documents.

Army register, 1912 (50 cents), Navy register, 1912, (30 cents), and Statistics of railways, 1910 (75 cents) are now ready for delivery.

May 18 is to be Peace Day. The programme for its observance in schools is to be printed as Education Bureau Bulletin 8, series of 1912. Large orders for copies are being filled by the Superintendent of Documents at $30 a thousand.

A "preprint" from the American Library Association's forthcoming Manual of library economy is Mr. W. W. Bishop's handbook of the Library of Congress. It is a handy manual for librarians, with ground plan illustrations, and professional information not readily accessible elsewhere.

American ephemeris and nautical almanac, 1914, is now on sale, price $1.00 in cloth binding.

The income-tax cases in the United States Supreme Court, 1895, when an income tax was declared to be unconstitutional, Justices White and Harlan filing dissenting opinions, and the corporation-tax cases, 1911, when the Supreme Court sustained the law imposing an excise tax on the incomes of corporations, are the two chief judicial precedents bearing upon the bill now pending in Congress which proposes to place an excise tax on certain partnership and personal incomes. For this reason these record-making decisions have been conveniently reprinted as House document 601, 62d Congress, 2d session.

Wave-lengths of neon. If in doubt about this, consult Standards Bureau Reprint 179, from Standards Bureau Bulletin, vol. 8, no. 4.

Orchestral music catalogue: Scores. This is the latest compilation from the Division of Music, Library of Congress. It is a work of magnitude (663 pages) and provided with copious class and title indexes. Sold by the Superintendent of Documents at $1.00.

The various pending bills in Congress proposing to establish a parcel-post system have been printed together as Senate document 430, 62d Congress, 2d session. The Superintendent of Documents can not supply bills. Not until they become laws do they come to him for distribution. But he can supply documents, and Senate document 430, giving the text of 21 different parcel-post bills, costs only 5 cents.

The Labor Bureau's report on wage and living conditions in the United States steel industry will be Senate document 110, 62d Congress, 1st session, in 4 volumes.

FEDERAL ANTI-TRUST DECISIONS

In the Monthly catalogue for February, page 509, vols. 1–3 of the new set of Federal anti-trust decisions were entered crediting the authorship to Mr. John L. Lott. This was as it appeared in the volumes (Senate doc. 111, 62d Cong. 1st sess., vols. 1–3), but it was an error. Mr. Lott is the compiler of vols. 3 and 4, covering the period 1906 to 1912, but vols. 1 and 2, 1890 to 1906, were compiled by Mr. James A. Finch and were published under his name in 1907. The new set includes the Finch volumes and adds two volumes compiled by Mr. Lott. Volumes 1 and 2 have been recalled and corrected covers and title-pages carrying Mr. Finch's name instead of Mr. Lott's have been substituted. The set of 4 volumes, bound in dark red buckram, is sold by the Superintendent of Documents at $4.00. Single volumes will not be sold.

SCHEDULE K

House document 342, 62d Congress, 2d session, Message of the President and Report of the Tariff Board, has been again reprinted, this time in 2 volumes. This print is to fill the order of Congress for 20,000 additional copies, made by concurrent resolution agreed to Mar. 1, 1912. Under this resolution the Senate gets 8,000 and the House 12,000 sets for free distribution, giving each of the Senate recipients 80 sets and each of the House recipients 30 sets.

The 2-volume print differs from the first or 4-volume print, and also from the second or 1-volume print, in having a table of contents and a list of illustrations, which of course are improvements. The 1-volume print, which was made for the Senate Committee on Finance, is without a document number. The general index was supplied with the 4-vol. print in a separate pamphlet.

Librarians will understand that with the exceptions noted the three prints are identical.

PINEAPPLES

Chemistry Bureau Circular 57, published May 14, 1910, reported the results of experiments in the preparation of sugared dried pineapples, made in the expectation of producing a new commercial product. The author, Assistant Chemist H. C. Gore, stated in Circular 57 that a method of much promise had been developed, but that another season's study was necessary before final recommendations could be made.

Recently a British Columbia correspondent of the Public Documents Office inquired if the second season's study had been made and what its results were. The information obtained from the author for the information of the correspondent is perhaps worth printing for the benefit of other readers and correspondents. Mr. Gore has found that the dried product has not held its flavor as well as had been hoped. This discovery has delayed the experiments, which, however, have not been concluded.

PUBLICATIONS OF AGRICULTURE DEPARTMENT

A prospective customer lately asked the sales clerk of the Public Documents Office how many separate publications of the Agriculture Department he could supply and what they would cost. It was rather a wholesale question, for which no data had been made ready, but in a couple of hours the efficient salesman was able to give the information that he had in stock about 2,919 distinct agricultural publications, one full set being worth about $650. This is probably the publication record for one Government Department—here at least, and probably anywhere. And these are publications which are almost without exception practical, useful, valuable, constantly adding to the health, wealth, and prosperity of the country.

SOIL SURVEYS

The soil surveys of counties and areas in various parts of the country, which have been made by the Soils Bureau, Agriculture Department, during the last dozen years, have now become very numerous. There is a large allotment of the first prints or "advance sheets" to Representatives of the districts in which the surveys are made, but there are always some interested persons whom the free distribution does not reach. According to the experience of those most familiar with the document service, free distribution, no matter how profuse it may be made, always does fall short of supplying the full demand, and often those who are not reached are those most interested. For the benefit of the many who have not been reached by the free distribution, the Superintendent of Documents, at the opening of the present year, effected an arrangement for supplying the "advance sheets" of the soil surveys at the uniform rate of 15 cents each. These are substantial pamphlets and each one contains a large colored map of the county or area surveyed. The new sales arrangement does not include the pamphlets published before 1912. Occasionally one of these can be supplied, but this can not be depended on.

All of the surveys of each year are bound together in a large volume, and all the maps for the year are put together in a large case, the two constituting the Field operations of the Bureau of Soils, an annual publication of which eleven numbers, 1899–1909, have been issued. These have been always for sale by the Superintendent of Documents, the prices ranging from 95 cents for 1899 to $6.35 for 1903. The 1908 issue is $4.75. It contains 37 surveys and a map for each one. The 1909 issue, priced at $4.80, contains 53 surveys. It has not been found that persons are eager to buy a volume containing 30 to 50 surveys in order to get the one survey in which they are interested. The demand is for the pamphlet prints, and so far as sales demand goes the costly annual volume of Field operations might almost as well not be issued.

PELATIAH WEBSTER AND THE CONSTITUTION

The celebration by Mr. Hannis Taylor, of Pelatiah Webster, a citizen of Revolutionary days, as the putative author of the Constitution of the United States, has been generally accepted without dispute as a historical discovery of moment. Now, however, the claim of such superlative merit for Webster is strongly disputed, in a letter by Mr. Gaillard Hunt, first published in the Nation, Dec. 28, 1911, and on motion of Senator Lodge ordered printed, Mar. 11, 1912, as Senate document 402, 62d Congress, 2d session. Those students of American history who have accepted the exploitation of Pelatiah Webster without discount, will do well to read Mr. Hunt's review before fully making up their minds. Mr. Hunt is chief of the Division of Manuscripts in the Library of Congress, editor of that Library's original edition of the Journals of the Continental Congress, author of a Life of James Madison, editor of the Writings of Madison, etc., and in questioning the validity of the Webster exploitation he is not on unfamiliar ground.

There is one misprint in Senate document 402 which may be misleading to librarians unless attention is called to it. The matter is printed in sections or parts, designated by Roman numerals, beginning with I and ending with VI, but there is no III. This would lead the reader to infer that the section of the text numbered III had been omitted. On consulting the author it is learned that this is not the case. Though the document is marred by the omission of the numerals III, the text is intact. The omission was made in the first print, in the Nation, not in the Government Printing Office.

GINSENG

Hon. Elmer A. Morse of Wisconsin, in the House of Representatives Mar. 11, 1912, made an interesting speech on the history, character, and difficulties of culture of ginseng. He described the plant's appearance and its manner of growth, and being himself a grower of ginseng the information he gave was practical. The most impressive of the many facts he communicated are these: A good average crop is 5,000 pounds to the acre; the 1911 crop brought to the grower $6.50 a pound. If there is any virtue in arithmetic, this means $32,500 an acre. For such a crop many difficulties and risks of cultivation may well be encountered. Mr.

Morse also gave assurance that China will readily take twice the present supply. Whether this holds good since that country became involved in civil war may perhaps be open to question.

The United States Agriculture Department has not up to the present time published much about ginseng, its reluctance to do so being attributed to the fact that the plant has no recognized medicinal or other value in this country. If, however, the Chinese believe it a cure-all, and will get it elsewhere if not from America, there seems to be nothing for us but to meet the commercial demand. This can best be done if the Department shall supply instructions for ginseng culture in which the people will have confidence. Mr. Morse announced in his speech that the Department had a ginseng document in preparation, to be ready in the early spring. Additional information is to the effect that two new publications on this subject are planned. The first, which is now in press and expected soon, is Plant Industry Bureau Bulletin 250, Diseases of ginseng. The second, which it is expected will follow at a short interval, will be a Farmers' bulletin on the general culture of the ginseng plant. If wide circulation should be given to Mr. Morse's speech a large sale of the new ginseng bulletins would seem to be assured.

SETS OF NATIONAL MONETARY COMMISSION

In the Notes of general interest, Monthly catalogue of United States public documents, Oct. 1911, a detailed schedule of the then forthcoming set of bound volumes of the publications of the National Monetary Commission was given and some positive statements were made and pledges passed in terms here reproduced:

> The contents of volumes 1-23 are definitely determined as above stated. Those of volume 24 are somewhat less certain. The Report of the Commission has not yet been printed, and there has not been any public announcement that it has been drafted or considered by the Commission as a body. It will, however, whether long or short, be the chief feature of the volume. Already two drafts of Mr. Aldrich's Suggested plan (Document 784), have been printed, and it is intimated there may be still others. All will be found in volume 24. Dr. Hollander's Bank loans and stock exchange speculation, listed as Document 589, but never printed because the manuscript had not reached the Commission, will be included in the volume, the manuscript having been lately received.

These statements were made on the authority of officials of the Commission. Such statements are never made in the Monthly catalogue except upon information received from those whose duty it is to know the facts in the case.

Twenty-three volumes were issued in accordance with the schedule printed in the October Catalogue, with the single exception that document 589, listed for vol. 24, was included in vol. 20. At this stage it was determined by officials of the Commission to abandon vol. 24 and rebind the copies of vol. 1 so as to include in that volume the Report of the Commission with draft of a bill (Document 243) and the Suggested plan, parts 1 and 2 (Document 784), on the ground that as these are the most important documents of the Commission they should be printed in vol. 1 instead of vol. 24.

The Superintendent of Documents felt obliged to decline the invitation rather pressingly given him to join in the plan to cut the set down to 23 volumes. His pledge in the October Monthly catalogue, following which he had solicited and received orders for 24-volume sets, he felt bound to keep; there was also the further fact that he had already, in compliance with orders received, shipped nearly a hundred sets, complete except vol. 24, and he did not feel inclined to attempt the unwelcome and probably impossible task of recalling these sets for reconstruction.

Consequently, there are two permanent bound sets of the publications of the National Monetary Commission. One is the 24-volume set, supplied by the Superintendent of Documents at $45 in accordance with the announcements in the Monthly catalogue and in thousands of circulars widely distributed by the Superintendent of Documents and by the National Monetary Commission itself. This set is bound in dark red buckram. The other set is that of the National Monetary Commission in 23 volumes, dark green buckram. The contents of the two sets are identical, though the arrangement differs.

The Commission has lately had printed two pamphlets which are not numbered Congressional documents and are not included in its bound sets. One is an octavo of 50 pages entitled Savings departments of national banks and real estate loans. The other is a quarto of 107 pages, entitled Proposed codification of the national banking laws. Both imprints are 1912. These have been printed in limited editions for the use of the Commission. The Superintendent of Documents will not be able to supply them.

The existence of the National Monetary Commission ended by limitation Mar. 31. It is not expected that any action will be taken on its recommendations at the present session of Congress.

AN UNOBTAINABLE PUBLICATION

The Superintendent of Documents cannot supply copies of the pamphlet entitled Paper pulps from various forest woods. Neither can the Agriculture Department nor any of its bureaus supply copies of this pamphlet. Requests for it made to any of the bureaus or to the Superintendent of Documents will be unavailing and will cause useless correspondence. Unfortunately, a demand for it has been started by reviews in certain scientific journals to which press copies had been sent in the ordinary routine.

CORRECTION FOR FEBRUARY, 1912, MONTHLY CATALOGUE

For "Drimm" in 1st line of 3d entry on page 481, read "Grimm."

MONTHLY CATALOGUE

No. 207 MARCH 1912

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Amendment 1-6 to National forest manual. [1912.] Each 1 p. [Manual issued by Forest Service.] †

NOTE.—Amendments to the National forest manual are being issued from time to time. Those numbered from 1-100 amend the Regulations, and those numbered 101 up amend the Instructions to Forest Service officers. Of the first series (see above) only 6, and of the second series (see Forest Service) only 21, have been issued.

[Bureau of Animal Industry] order 187, rule 1, revision 9; to prevent spread of splenetic, southern, or Texas fever in cattle. Mar. 15, 1912. 12 p. †

Food inspection decision 139,142. Feb. 23, Mar. 11, 1912. 1 p. and 2 p. †

Information in response to resolution relative to persons injured fighting forest fires. Mar. 1, 1912. 9 p. (S. doc. 372.) ‡

Insecticide decision 6. Feb. 12, 1912. 2 p. †

Report of documents received and distributed, year ended June 30, 1911. Feb. 16, 1912. 66 p. (H. doc. 545.) ‡

Statement of expenditures of Department, fiscal year 1911. Dec. 5, 1911, [published] 1912. 937 p. (H. doc. 220.) ‡

ANIMAL INDUSTRY BUREAU

Ancestry of domesticated cattle [with bibliography]; by E. W. Morse. 1912. iv+187-239 p. il. 3 pl. [From 27th report, 1910.] *Paper, 10c.

Bacterium of contagious abortion of cattle demonstrated to occur in milk; [by A. D. Melvin]. Mar. 2, 1912. 3 p. (Circular 198.) *Paper, 5c.

[Includes list of Geological Survey and Mines Bureau publications on fuel testing.] * Paper, 10c. 11—35826/5

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued, Jan. 1912 [with list of inventions]. [1912.] cviii p. large 8° [Monthly index to Official gazette.] * Paper, 10c. single copy, included in price of Official gazette for subscribers.

Same, Feb. 1912 [with list of inventions]. [1912.] xcviii p. large 8° [Monthly index to Official gazette.]

FOREIGN MAIL SERVICE

Schedule of steamers appointed to convey mails to foreign countries during Apr. 1912. Mar. 16, 1912. 1 p. narrow f° [Monthly.] * Paper, 10c. single copy, $1.00 a yr.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1912, page 424.

Wilson, J. C. Executive order [authorizing reinstatement of Wilson as storekeeper-gauger in internal revenue service]. Mar. 26, 1912. 1 p. f° (No. 1506.) ‡

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Cambrian geology and paleontology [v.] 2:6, Middle Cambrian, Branchiodopa, Malacostraca, Trilobita, and Merostomata; by Charles D. Walcott. Washington, Smithsonian Institution, Mar. 13, 1912. Information in response to concurrent resolution relative to improvement of Mississippi River from Vicksburg to Bayou Sara. Mar. 21 1912. 4 p. (S. doc. 450.) ‡

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices, in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Charts

Erie, Lake, Buffalo to Dunkirk; coast chart 1. Scale 1:80,000. [U. S. Lake Survey Office, Detroit, Mich.] Feb. 28, 1912. 36.8×24.4 in. † 15c.

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number is an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

The Superintendent of Documents' new law Price list (no. 10, 5th edition) explains the technical titles under which the laws of the United States are published and sold and which are often unfamiliar and not wholly intelligible even to members of the bar. The Slip laws, the Session laws, the Pamphlet laws, the Statutes at large, and the Revised statutes are the official titles of the United States laws. The material is virtually the same. The differing titles indicate differing stages of publication. There are early prints for the prompt information of those most directly interested. There are collected editions at the close of each session of each Congress and again at the expiration of the Congress. Finally, there is a revised collection, in which only the general and permanent enactments are included. These are all laws, and the same laws, but the varying conditions of their publication call for varying titles, each of which has its special significance, as explained in the 5th edition of Price list 10. The explanations are brief, but the effort has been to make them so clear that nobody need be in doubt as to what he is ordering. The Government is not the only publisher of its laws. Various enterprising private publishers issue more or less complete editions of the statutes, edited, titled, and annotated in ways unknown to this office. With these editions the Superintendent of Documents has nothing to do. He is able to give positive assurance, however, that the only official editions of the laws of the United States, the only editions which are published by the Government itself, are those listed in his Price list 10, 5th edition. These official law books can be procured by purchase from the Superintendent of Documents and not otherwise.

Naval medical bulletin, v. 6, no. 2, April, 1912, has a special article of general as well as medical importance entitled Loss of life by drowning in naval warfare.

Water-supply paper 280 (10 cents) lists the many hundred gaging stations maintained by the Geological Survey on the streams of the country. The extent of this work is very remarkable and its ultimate value beyond reasonable calculation. This number contains also a list of the numerous Survey publications relating to the nation's water resources.

The pamphlet collection of consular reports on cotton tare—the document of which Congress ordered the unusual number of 100,000 extra copies—is out. It is House document 577, 62d Congress, 2d session. Its most striking feature is its demonstration, by words and views, that American cotton producers are cutting their own throats by packing their cotton more poorly than the cotton of other countries. The large deductions in foreign ports for tare, due in large part to the waste by poor packing, are like a millstone around the neck of the American cotton grower. 15 cents.

Education Bureau Bulletin 7, series of 1912, is the Educational status of nursing. It appears that 30 States have passed laws regulating nursing, while more than 1,100 American schools are training nearly 30,000 nurses. Evidently, nursing is rapidly becoming one of the learned professions, as it should be. Here is a field of supreme usefulness in which woman has and can have no competition, because the perfect nurse must have, besides education, the innate charm of womanliness which can not be taught. Even now, though the profession of nursing is still in its beginnings, no other words carry more of comfort and hope to the sick and to the friends of the sick than these: "trained nurse." The price of Education Bureau Bulletin 7, series of 1912, is 10 cents.

Probably few people have a clear idea of what the duties of a noncombatant officer, the chaplain, may be in the Army. Now comes War Department document 414, Chaplain's duties and how best to accomplish his work, to enlighten us. It is a little manual, but it suffices to show that no chaplain need rust for want of employment.

Vol. 2, Official register, 1911, giving the names, stations, pay, etc., of all members of the United States postal service, is now ready. Price, in cloth, $1.25.

Beginning in the 37th Congress (1862) and continuing to the present time, numerous bills and resolutions respecting Federal control of interstate commerce have been introduced in Congress. Each one of these has its little history, usually ending in zero, but each being an item in the general history of a great legislative movement not yet ended. These bill-histories have been scattered through many volumes of Congressional record indexes and thus have been practically inaccessible. They have been now collected and printed for the use of the Senate Committee on Interstate Commerce under the title Regulation of interstate commerce, history of bills and resolutions, etc. Statesmen and publicists will undoubtedly be grateful for this convenient tool.

Farmers' bulletin 490, Bacteria in milk, is another contribution of the Agriculture Department to the cause of sanitation. Still another is Animal Industry Bureau Circular 197, Directions for the home pasteurization of milk. 5 cents each.

Statistical abstract for 1911 is now on sale. Paper, 50 cents.

The Secretary of Commerce and Labor has issued, under date April 15, 1912, Regulations governing the operation of the Government compensation act for employees injured in the service of the United States. Paper, 5 cents.

The act taxing the manufacture of white phosphorus matches at 2 cents a hundred, a rate thought to be sufficient to put an end to the manufacture altogether, was signed by the President April 9. The United States is said to have been the last civilized country to take up the regulation of this manufacture. Distressing accounts have been published of the sufferings of matchmakers from "phossy jaw" and other diseases contracted by workers in white phosphorus. 5 cents.

The Mines Bureau continues to issue new numbers in its important series of Technical papers. Recent numbers are: 12, The behavior of nitroglycerin when heated; 19, The factor of safety in mine electrical installations; 21, The prevention of mine explosions. The Superintendent of Documents supplies these at 5 cents each.

The vest-pocket edition of the text of the party platforms of the two leading parties, 1856–1908, for years past supplied free to all comers by the clerk of the House of Representatives, is apparently this year in more demand than ever.

The special articles in Public health reports which have been reprinted in pamphlet have often been in such demand that 2d editions have been called for. Such editions are now in hand of: 46, What the local health officer can do in the prevention of typhoid fever; 48, What the mayor and city council can do in the prevention of typhoid fever; 49, The present organization and work for the protection of health in the United States; 69, Epidemic cerebrospinal meningitis; 76, The necessity for safe water supplies in the control of typhoid fever. 5 cents each.

Numerous students of Indian life and language will welcome Bulletin 47 of the Bureau of American Ethnology, A dictionary of the Biloxi and Ofo languages, accompanied with 31 Biloxi texts and numerous Biloxi phrases, by the late James Owen Dorsey and John R. Swanton. It is bound in cloth and sold by the Superintendent of Documents for 45 cents.

Monetary systems of the principal countries of the world, a new pamphlet from the Mint Bureau, is not an essay but a collection of solid facts of recent date concerning the coinage of various countries. In each case the value of the coins in United States money is stated. Copies can be supplied by the Superintendent of Documents at 5 cents.

There is a 1912 edition of Professional paper 29, the Engineer field manual, 6 parts in one. In leather, pocketbook style, $1.00.

A Reconnoissance soil survey of western Kansas has been published by the Soils Bureau, Agriculture Department. Copies from the Superintendent of Documents, 15 cents. All the advance sheets of soil surveys published during the present year are on sale at the same price.

The first Yearbook of the Agriculture Department is dated 1894. It contains all the scientific papers formerly printed with the Annual report of the Department. The administrative matter left to make up the Annual report hardly exceeded 200 pages in 1894. During the succeeding 17 years the administrative work of the Department has been growing and there has been a corresponding growth in the size of the Annual report, until in 1911 it exceeded a thousand pages, and was considerably larger than it had been before the Yearbook was taken out of it. It presents a comprehensive view of the vast range of the beneficent activities of the Agriculture Department, and is about the only place where such a view can be obtained.

Public Roads Office Bulletin 43, Highway bridges and culverts, is an up-to-date version of Bulletin 39 of the same office. Modern concrete construction is described and illustrated. Price 15 cents.

Standards Bureau Circular 33, announced as just coming out of press, is a most timely publication, an important contribution to the literature of the Age of Cement. Its title is: United States Government specifications for Portland cement. Presumably it will establish the American standard for quality of this great structural material. Copies can be supplied by the Superintendent of Documents.

Special agents series 51, Manufactures Bureau, Cotton goods in Russia, is a report conveying information which may be familiar to the cotton trade but certainly is not so to the average reader. It is shown that Russia is the fourth cotton-producing country in the world; that it grows more than half the cotton it consumes, and that it exports more cotton goods than it imports. Turkestan and the Caucasus are the districts where cotton is grown and has been grown from the most ancient times. The cotton industry in all its branches is firmly established and highly prosperous in Russia.

The Annual report of the United States Life-Saving Service for 1911 is an interesting volume. Its subjects are difficult rescues, restoration of the apparently drowned, awards of life-saving medals, report of the Board on Life-Saving Appliances, and others along similar lines. Cloth, 30 cents.

The President's Commission on Economy and Efficiency has published its Circular 21, Memorandum of conclusions reached by the Commission concerning the principles that should govern in the matter of handling and filing correspondence and preparing and mailing communications, etc. Business men as well as Government officials may find useful hints in the pamphlet.

Farm management, organization of research and teaching. This is Plant Industry Bureau Bulletin 236. It seems to point to the fact that the modern farmer on a large scale must be a student as well as various other things.

There is a 5th revision, dated April 13, 1912, of the Secretary of Agriculture's Circular 21, Rules and regulations for the enforcement of the food and drugs act. 5 cents.

Farmers' bulletin 492, The more important insect and fungous enemies of the fruit and foliage of the apple, is a timely issue in these days of expanding and profitable apple culture. 5 cents.

The Index number of vol. 25, Experiment station record, July–Dec. 1911, was issued April 9.

Animal Industry Bureau Circular 184, Pasteurization of milk, tells what pasteurization is and how to do it. There are many different ways, and many different kinds of apparatus therefor. Probably nowhere else in so brief a compass or at so small a price can so much information on the subject be obtained. 5 cents.

Senate document 615, Address of President Taft at Boston April 25; Senate document 616, Address of former President Roosevelt in reply to Senate document 615, at Worcester, Mass., April 26; Senate document 617, Reply of President Taft to the Reply of former President Roosevelt to the Address of President Taft, were all ordered printed April 29, on motion of Senator Reed of Missouri, no objection being made by any Senator.

The 1912 edition of the Special report on the diseases of cattle, ordered printed in an edition of 100,000 copies by resolution approved Mar. 4, 1911, is now available. The letter of transmittal states that for the new edition it was necessary to make only a few slight changes. Cloth, $1.00.

Special consular reports 51, Foreign trade in denatured alcohol, indicates that such trade is more active and general abroad than here, where free alcohol for power has been something of a disappointment. 5 cents.

Proceedings of the national park conference, Yellowstone National Park, Sept. 11 and 12, 1911, is a document that will interest pleasure travelers and vacation seekers. The members of the conference were national park officials and transportation men who are interested in travel to and from the parks. Secretary Fisher of the Interior Department presided and the needs and prospects of the parks were considered from various points of view.

International radio telegraph convention of Berlin, 1906, and propositions for the international radio telegraph conference of London, is a new Navy Department pamphlet. The London conference is to be held in June of this year and the "propositions" are proposed amendments of the convention signed at the Berlin conference of 1906. Radio telegraphy is the formal name for wireless telegraphy. The United States is a party to the convention of Berlin (a plan for joint international control of radio telegraphy), and will of course be represented at the London conference, which, in view of the Titanic calamity, may be expected to take radical action for the better control of radio operators and radiograms.

No volume of Foreign relations of the United States has been printed for 1909, 1910, or 1911. The entry for the 1908 volume appears in this catalogue, but as to 1909, 1910, and 1911 no information is obtainable. The time of publication of these volumes of diplomatic correspondence is entirely within the discretion of the State Department.

One of the important books of the month is the Report of the commissioner of corporations on water-power development in the United States. It is in 3 parts, but all are in one volume, well illustrated by tables, charts, and maps. It is notable for its good tables of contents, lists of tables and illustrations, and index. It is in paper covers and sells at 45 cents.

Plant Industry Bureau Bulletin 250, Diseases of ginseng and their control, is out of press. Price 15 cents. This is the first important Government publication on ginseng, but others are promised.

House document 643, 62d Congress, 2d session, in 2 volumes, is the report of the Tariff Board on tariff schedule I, Cotton manufactures, transmitted to Congress Mar. 26 last. Vol. 2 contains photographic reproductions of 100 samples of textiles.

Vol. 24 of the Superintendent of Documents' set of the publications of the National Monetary Commission is now ready, completing the set.

The 3d edition of the Congressional directory for the 62d Congress, 2d session, corrected to Mar. 28, 1912, is now on sale by the Superintendent of Documents at 60 cents in cloth.

Twenty-four of the 42 volumes of the Reports of the Immigration Commission had been received up to May 1st. The aggregate price of the 24 volumes is $11.95, the average being a fraction less than 50 cents a volume. It is thought safe to estimate that the cost of the 42 volumes will be not less than $20 and not more than $25. All are in paper covers. It is supposed that the publication of vol. 42, which will be a general index, will be considerably delayed.

FOR NUMISMATISTS

Catalogue of coins, tokens, and medals in the numismatic collection of the mint of the United States at Philadelphia, Pa. This is the title of a book of 634 pages of text and 16 pages of plates illustrating early and rare coins of this country and of other American republics which will be welcome to collectors and students. Numismatic collectors are numerous and eager for information in their line which this book will supply.

In addition to its descriptions of lawful money, it describes numerous "tokens" which have been used as substitutes for money at critical periods in the country's history. Also the historical medals which were numerously ordered by Congress to commemorate some remarkable event or to compliment some prominent citizen in the closing years of the 18th and the first half of the 19th century. The coins of the other American republics are also listed, as well as those of European countries, ancient and modern.

In a modest note at the back of the book the cataloguer apologizes for the incompleteness of the collection and consequently of the catalogue. Making all due allowance for any such shortcomings, it is safe to say that the collection is a remarkable one and that the catalogue, though making no display of typography or illustration, serves well its office as a guide. Sold by the Superintendent of Documents, cloth, $1.00.

WEIGHTS AND MEASURES

A 2d edition of State and national laws concerning the weights and measures of the United States has been issued by the Standards Bureau. The former edition was published in 1904, and since that time numerous changes have been made—all, however, by State legislation. While it is true that the Constitution expressly authorizes Congress to fix the standards of all weights and measures, it is also true that Congress has not exercised this authority.

The early Presidents, Washington, Adams, Jefferson, urged the importance of the subject upon Congress, but unavailingly. Congress did, however, pass a resolution, in response to which John Quincy Adams, a man of many-sided learning, then Secretary of State, in 1821 wrote a somewhat famous report on weights and measures which was published in the 16th Congress, 2d session, as House document 109 and Senate document 119.

Though no Congressional action followed, the Treasury Department found it necessary, in the course of its duties in enforcing the customs laws, to establish standards for the fundamentals, the pound, yard, gallon, and bushel. These have been made State standards by legislative action in only a part of the States. As to other weights and measures State action is discordant and Federal action wanting.

The new compend of information on this important subject is well printed on unusually thick and smooth paper, making a large book, though its pages number less than 600. It is dated Jan. 1, 1912. Its price, from the Superintendent of Documents, is 85 cents.

NATIONAL GALLERY OF ART

This is at last a reality. National Museum Bulletin 70, published 1909, made this reasonably clear, and Bulletin 78, published 1912, puts it beyond doubt. This latest bulletin is: Catalogue of a selection of art objects from the Freer collection exhibited in the new building of the National Museum, April 15 to June 15, 1912. Citizens who have doubt of the existence of a national gallery, or of its worthiness, should see the exhibition now open and also should read Bulletins 70 and 78, which may be had from the Superintendent of Documents. No. 70, richly illustrated, is $1.00. No. 78 is 10 cents.

A NEW HOLIDAY

It seems there is to be a new annual holiday—in the schools, at least, with proper observances to impress upon young minds the importance of Peace day, which is the name of the new anniversary. The date is May 18, which is also the date of the assembling of the first Hague Conference. The Education Bureau has issued as Bulletin 8, series of 1912, Peace day, suggestions and material for its observance in the schools. It is not to be expected that on the first occasion the new anniversary will be observed in all the schools, but the strong demand for Bulletin 8, of which the Superintendent of Documents has sold a good many thousands, indicates already a wide-spread interest. The bulletin contains information concerning The Hague tribunal and various associations for the promotion of international peace and conditions for the award of prizes which are offered for essays on the subject; also a compilation of selections in prose and verse appropriate for school use on Peace day and a bibliography of recent peace publications.

A NEW BUREAU

April 9 President Taft signed the law creating the Children's Bureau in the Commerce and Labor Department. April 17 he sent to the Senate the name of Julia C. Lathrop of Illinois as nominee for chief of the new Bureau. April 23 the nomination was confirmed by the Senate. Miss Lathrop is the first woman to be appointed chief of bureau in the United States Government service.

The new Bureau is of considerable magnitude even at the outset, and, like other bureaus, will undoubtedly grow. The law provides for a chief at $5,000 a year; an assistant chief at $2,400; a private secretary at $1,500; a statistical expert at $2,000; 2 clerks of class 4 ($1,800 each); 2 clerks of class 3 ($1,600 each); 1 clerk of class 2 ($1,400); 1 clerk of class 1 ($1,200); 1 clerk at $1,000; 1 copyist at $900; 1 special agent at $1,400; 1 special agent at $1,200; 1 messenger at $840; total, $25,640 for salaries. The Secretary of Commerce and Labor has sent in estimates for the new Bureau as follows: Rent, $2,000; contingent expenses, $15,000; printing, $10,000, the aggregate being $52,640.

Evidently it is planned to be an important bureau. Its duties, as defined in the law creating it, are to "investigate and report upon all matters pertaining to the welfare of children and child life among all classes of our people, especially investigate the questions of infant mortality, the birth rate, orphanage, juvenile courts, desertion, dangerous occupations, accidents and diseases of children, employment, and legislation affecting children."

Miss Lathrop is a native of Illinois, a graduate and a trustee of Vassar College, has long been associated with Jane Addams in Hull House, has served three terms as a member of the State Board of Charities of Illinois, and has been active in securing a juvenile court and probation law and other reform legislation in her State and in exposing abuses in State charitable institutions.

A NEW LEGAL SERIES

In a circular dated May 3, 1912, the Librarian of Congress announces the publication of Guide to the law and legal literature of Germany, by Edwin M. Borchard, law librarian, being the first of a series of guides to foreign law now in course of preparation in the Library.

The occasion for the series arises out of the great increase in our day of international intercourse and the constantly enlarging number of Americans traveling abroad and living abroad, to whom a knowledge of the laws of the foreign lands in which they are domiciled is not only a convenience but often a necessity.

Though Mr. Borchard's volume at the time of writing had not been received, and therefore is not entered in this catalogue in its proper place under the heading Library of Congress, it will undoubtedly be on sale by the Superintendent of Documents before this note falls under the reader's eye. It is a cloth bound book of 226 pages. The price is 65 cents. Postage to foreign countries 12 cents. An idea of its comprehensiveness may be gathered from a list of its chapter headings which are: Bibliography, legislation, court reports, legal education, philosophy of law, legal history, civil code, literary and industrial property, commercial law, bankruptcy, social insurance, labor law, civil procedure, criminal law and procedure, law reform, public law. It contains an extensive Glossary of technical terms with English translations and a comprehensive index.

A SERIES DISCONTINUED

In 1881 the Mint Bureau issued Report of the director of the mint upon the statistics of the production of the precious metals in the United States. Though the title does not say so, the statistics given were those of the production of gold and silver for the calendar year 1880. A like report was issued as a separate volume for each succeeding calendar year up to 1909, making a set of 30 volumes, 1909 being the last issue in this form.

The statistics are still to be gathered and published, but not in a separate volume. The Precious metals report will hereafter be part 2 of the Annual report of the director of the mint for the following year; that is, the Report of the production of precious metals for the calendar year 1910 is part 2 of the Annual report of the director of the mint for the fiscal year 1911, the two being printed in one volume.

The explanation is made that the public confused the two annual reports from the Mint Bureau, asking for the Annual report when the Precious metals report was wanted, and vice versa. By issuing but one report, covering the ground formerly occupied by both, no such confusion can arise. The annual report for the fiscal year 1911, carrying as part 2 the Precious metals report for the calendar year 1910, is now on sale by the Superintendent of Documents at 45 cents in cloth.

CORRIGENDA

Education Bureau Bulletin 6, series of 1912, page 7, the heading states: "Papers read at the second annual meeting of the American Association for the Advancement of Science, Columbus, Ohio, November 14, 1911." Of course this is a slip of the pen. The 2d annual meeting of the American Association specified was not held in 1911, but in 1849. The one which really met in Columbus in 1911, and before which the papers now printed as Education Bureau Bulletin 6 were read, is the American Association for the Advancement of Agricultural Teaching, as correctly appears on other pages of Bulletin 6.

Librarians, navigators, and all buyers of Bowditch's Practical navigator (Hydrographic Office Publication no. 9), edition of 1912, are likely to be puzzled by the fact that Part 1 ends at page 339 while Part 2 does not begin till page 501, no explanation of the hiatus of 162 pages appearing in the book itself. There is, however, an explanation. The omission is not accidental. A revision and expansion of the text of Part 1 is going on. It is not known when it will be completed nor how many pages it will fill. An estimate was made, however, resulting in the beginning of Part 2, Tables, on page 501. It is hoped that this will leave clearance enough to prevent the expanding text of Part 1 from colliding with the Tables of Part 2. It is, however, too much to expect that the new matter will exactly fill the missing 162 pages, so that some additional readjustment will probably be necessary even after the new text of Part 1 has been incorporated in the volume. So far, however, from the 1912 edition being 162 pages deficient as compared with earlier editions, the 1912 edition is larger than its predecessors. Tables 45, Haversines; 46, Corrections to be applied to the observed altitude of a star or of the Sun's lower limb to find the true altitude; 47, Longitude factors; and 48, Latitude factors, have been added. Table 45 is a very extensive table, filling more than a hundred pages. The total number of pages is 933 less 162, equaling 771, while the last previous edition had but 652 pages.

Senate document 305, 62d Congress, 2d session, is also Entomology Bureau Bulletin 114, but the customary bureau edition has not been printed, the 2000 copies ordered by the Bureau bearing the Senate document number instead of the Bureau bulletin number, though that number is parenthetically stated in the letter of transmittal. No precedent is known for this method of publication. It will be troublesome to librarians unless they read this notice and take warning by it. The Superintendent of Documents will explain it to buyers. The subject of Senate document 305 (Entomology Bureau Bulletin 114) is the Mexican cotton-boll weevil, being a restatement of the result of all the investigations up to the close of the year 1911.

CORRECTIONS FOR FEBRUARY, 1912, MONTHLY CATALOGUE

For "Lapanto, Ark." in last line of last entry under Public laws on page 465, read "Lepanto, Ark."

For "Dec. 18, 1911 [and Jan. 15, 1912]" in 2d line of 3d entry under Rules Committee on page 476, read "Dec. 18, 1911 [-Jan. 16, 1912]."

MONTHLY CATALOGUE

No. 208 APRIL 1912

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Adulterations. Adulteration and misbranding of seeds of red clover, Kentucky bluegrass, orchard grass, and hairy vetch; [by B. T. Galloway]. Apr. 6, 1912. 7 p. (Circular 39.) *Paper, 5c. Agr 12—687/6

—— Rules and regulations [adopted by commission representing Treasury, Agriculture, and Commerce and Labor Departments] for enforcement of food and drugs act. Apr. 13, 1912. 20 p. (Circular 21, 5th revision.) *Paper, 5c. Agr 6—1734/3

[Bureau of Animal Industry] order 146 amendment 12 to rule 3 revision 1, 186 amendment 1, 187 amendment 1 to rule 1 revision 9; Apr. 3-15, 1912. [1912.] Each 1 p. or 2 p. †

Canal Zone, Isthmus of Panama. Agricultural possibilities of Canal Zone: pt. 1, Reconnoissance soil survey, by Hugh H. Bennett; pt. 2, Outlook for agriculture, by Wm. A. Taylor. Mar. 23, 1912. 49 p. il. 12 p. of pl. map in pocket. (Report 95.) [The Soils Bureau and Plant Industry Bureau cooperated in preparing this publication.] *Paper, 30c. Agr 12—500

Food inspection decision 143. Apr. 25, 1912. 1 p. † Agr 7—1659/2

Meat inspection. Supplemental estimate to enable Department to inspect microscopically flesh of hogs converted into meat food products. Apr. 16, 1912. 2 p. (S. doc. 569.) ‡

National forests. Statement of expenditures for national forest administration, etc. [fiscal years 1900-10]. Apr. 5, 1912. 49 p. il. (H. doc. 681.) ‡ 12—35553

Notice of judgment 1279-1303, food and drugs act. Apr. 4, 1912. various paging. † Agr 8—878/4

Reports. Annual reports of Department, year ended June 30, 1911. 1912. 1010 p. il. *Cloth, 75c. Agr 9—987/2

—— Same. (H. doc. 121.)

Soils Bureau. Estimate of urgent deficiency appropriation required for bureau. Mar. 29, 1912. 2 p. (H. doc. 655.) ‡

Truckee-Carson-Lake Tahoe irrigation project. Letter transmitting, in response to resolution, information relating to Truckee-Carson-Lake Tahoe project. Jan. 13, 1912. 160 p. il. and 3 pl. 1 tab. 2 maps in pocket. (H. doc. 451.) *Paper, 50c. 12—35453

Vehicles. Information in response to resolution relative to motor and other vehicles in Government service [used by Department]. Ap 17, 1912. 4 p. (S. doc. 570.) ‡

ANIMAL INDUSTRY BUREAU

Cattle. Special report on diseases of cattle [articles]; by Drs. Atkinson, Dickson, Harbaugh, Hickman, Law, Lowe, Mohler, Murray, Pearson, Ransom, Salmon, Smith, and Trumbower. Revised edition, 1912. Apr. 22, 1912. 576 p. il. 51 pl. map. *Cloth, $1.00.
1908: Agr 9—831/16

Dairying. Plan for small dairy house; by Ernest Kelly and Karl E. Parks. Apr. 8, 1912. 5 p. il. (Circular 195.) *Paper, 5c.
Agr 12—688/3

Dips. Investigations relative to arsenical dips as remedies for cattle ticks; by B. H. Ransom and H. W. Graybill. Apr. 10, 1912. 65 p. il. 6 p. of pl. (Bulletin 144.) *Paper, 15c. Agr 12—695/4

Directory of bureau. Apr. 1, 1912. 68 p. *Paper, 5c. Agr 10—511/2

Milk. Bacteria in milk; by L. A. Rogers. Apr. 13, 1912. 23 p. il. (Agriculture Dept. Farmers' bulletin 490.) [This is a revision of Farmers' bulletin 348.] *Paper, 5c. Agr 12—766/2

—— Directions for home pasteurization of milk; by L. A. Rogers. Apr. 19, 1912. 3 p. il. (Circular 197.) [This is a revision of Circular 152.] *Paper, 5c. Agr 12—768/2

—— Pasteurization of milk; by S. Henry Ayers. Apr. 23, 1912. 44 p. il. (Circular 184.) * Paper, 5c. Agr 12—775/2

Service announcements 60; Apr. 15, 1912. [1912.] p. 23-38. [Monthly.] ‡ Agr 7—1658/2

CHEMISTRY BUREAU

Chemical analysis and composition of imported honey from Cuba, Mexico, and Haiti [with list of chemical literature on honey, 1907-11]; by A. Hugh Bryan, with Arthur Given and Sidney Sherwood. Apr. 29, 1912. 21 p. (Bulletin 154.) * Paper, 5c. Agr 12—776/4

Measurement of translucency of papers; by C. Frank Sammet. Apr. 8, 1912. 4 p. (Circular 96.) * Paper, 5c. Agr 12—681/2

Method for detection of small quantities of coumarin, particularly in fictitious vanilla extracts; by H. J. Wichmann. Apr. 6, 1912. 2 p. (Circular 95.) * Paper, 5c. Agr 12—680/2

Technical drug studies by Division of Drugs: Examination of hydrogen dioxid solutions, by L. F. Kebler, L. E. Warren, and E. A. Ruddiman; Purity of glycerin [with list of references], by L. F. Kebler and H. C. Fuller; Notes on 2 important alkaloidal reactions, by H. C. Fuller; Separation and identification of small quantities of cocain, by H. C. Fuller; Determination of molybdic trioxid, by B. Herstein; Method for testing ammonium salts, by B. Herstein; Character of samples of beeswax submitted with bids, by L. F. Kebler and F. M. Boyles. Apr. 22, 1912. 51 p. (Bulletin 150.) * Paper, 10c.
Agr 12—769/1

Toxicity of caffein, experimental study on different species of animals [with bibliography]; by William Salant and J. B. Rieger. Apr. 4, 1912. 98 p. (Bulletin 148.) * Paper, 15c. Agr 12—679/3

Wood turpentine, its production, refining, properties, and uses; by F. P. Veitch and M. G. Donk. Dec. 12, 1911, reprint Apr. 6, 1912. 76 p. il. (Bulletin 144.) * Paper, 10c. Agr 11—2222/3

ENTOMOLOGY BUREAU

Alder blight aphis. Life history of alder blight aphis; by Theo. Pergande. Apr. 29, 1912. 28 p. il. (Technical series 24.) * Paper, 5c. Agr 12—779/2

Alfalfa gall midge, Asphondylia miki Wachtl; by F. M. Webster. Apr. 6, 1912. 4 p. il. (Circular 147.) * Paper, 5c. Agr 12—686/2

Ants. Two destructive Texas ants; by W. D. Hunter. Apr. 26, 1912. ii+7 p. (Circular 148.) * Paper, 5c. Agr 12—777/2

Apples. More important insect and fungous enemies of fruit and foliage of apple; by A. L. Quaintance and W. M. Scott. Apr. 24, 1912. 48 p. il. (Agriculture Dept. Farmers' bulletin 492.) [Prepared in cooperation with Plant Industry Bureau.] * Paper, 5c. Agr 12—774/4

Cabbage web-worms. Papers on insects affecting vegetables: Imported cabbage webworm [with bibliography]; by F. H. Chittenden and H. O. Marsh. Apr. 5, 1912. iii+23–45 p. il. (Bulletin 109, pt. 3.) * Paper, 5c. Agr 12—683/3

Colorado potato-beetles. Papers on insects affecting vegetables: Arsenite of zinc and lead chromate as remedies against Colorado potato beetle; by Fred A. Johnston. Apr. 5, 1912. iii+53–56 p. (Bulletin 109, pt. 5.) * Paper, 5c. Agr 12—685/4

Cotton stainer; by W. D. Hunter. Apr. 8, 1912. ii+5 p. il. (Circular 149.) * Paper, 5c. Agr 12—689/2

Curlew bugs. Papers on cereal and forage insects: So-called curlew bug; by F. M. Webster. Apr. 10, 1912. iv+53–71 p. il. 4 pl. (Bulletin 95, pt. 4.) * Paper, 10c. Agr 12—696/2

Cutworms. Papers on insects affecting vegetables: Little-known cutworm; by F. H. Chittenden. Apr. 5, 1912. iii+47–51 p. il. (Bulletin 109, pt. 4.) * Paper, 5c. Agr 12—684/2

False wireworms. Papers on cereal and forage insects: False wireworms of Pacific Northwest; by James A. Hyslop. Apr. 22, 1912. iii+73–87 p. il. (Bulletin 95, pt. 5.) * Paper, 5c. Agr 12—770/2

Mexican cotton-boll weevils. Insect enemies of cottonboll weevil [with bibliography]; by W. Dwight Pierce, assisted by R. A. Cushman and C. E. Hood. Apr. 3, 1912. 99 p. il. 3 pl. (Bulletin 100.) * Paper, 15c. Agr 12—682/5

—— Report on Mexican cotton-boll weevil [with bibliography; by W. D. Hunter and W. D. Pierce]. 1912. 188 p. il. 12 pl. 10 p. of pl. ([Bulletin 114]; S. doc. 305.) * Paper, 25c. Agr 12—785

Parasite insects. Miscellaneous papers: Internal parasite of Thysanoptera; by H. M. Russell. Apr. 27, 1912. iv+25–52 p. il. (Technical series 23, pt. 2.) * Paper, 5c. Agr 12—778/3

—— Technical results from gipsy moth parasite laboratory: 4, Chalcidoid genus Perilampus and its relations to problem of parasite introduction; by Harry S. Smith. Apr. 22, 1912. iv+33–69 p. il. (Technical series 19, pt. 4.) * Paper, 5c. Agr 12—771/3

Spiders. Red spider on cotton; by E. A. McGregor. Apr. 25, 1912. ii+13 p. il. (Circular 150.) * Paper, 5c. Agr 12—784

EXPERIMENT STATIONS OFFICE

Cheese and its economical uses in diet; by C. F. Langworthy and Caroline L. Hunt. Feb. 26, 1912, reprint Mar. 1912. 40 p. (Agriculture Dept. Farmers' bulletin 487.) *Paper, 5c. Agr 12—295/4

Evaporation from irrigated soils; by Samuel Fortier and S. H. Beck Apr. 10, 1912. 77 p. il. 2 pl. (Bulletin 248.) *Paper, 15c. Agr 12—

Experiment station record, v. 25; index number. Apr. 9, 1912. cover-title, xvi+901–1003 p. *Paper, $1.00 per vol. (2 vols. a yr.). Agr 9—832/4

NOTE.—Mainly made up of abstracts of reports and publications on agricultural science which have recently appeared in all countries, especially the United States. Extra numbers, called abstract numbers, are issued quarterly, which are made up almost exclusively of abstracts, that is, they contain no editorial notes and only a limited number of current notes.

Same, v. 26, no. 3; abstract number. Mar. 20, 1912. cover-title, x+201–300+[1] p.

Monthly record of current educational publications. Mar. 15, 1912. 13 p. (Library circular 3.) * Paper, 5c. E 12—227/2

Same. Apr. 15, 1912. 14 p. (Library circular 4.) * Paper, 5c.

Peace day, May 18, suggestions and material for its observance in schools [with bibliography]; by Fannie Fern Andrews. 1912. 46 p. (Bulletin 8, 1912; whole no. 476.) * Paper, 5c. E 12—339/2

Report of committee on uniform records and reports adopted by department of superintendence of National Education Association. Feb. 29, 1912. 46 p. (Bulletin 3, 1912; whole no. 471.) [A preliminary edition was issued in February and was entered in the February Monthly catalogue, page 497. This new edition bears Feb. 29, 1912 on title-page and has further alterations.] * Paper, 5c. E 12—520

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets, see next page.

Atlantic Coast. Surface water supply of United States, 1910: pt. 2, South Atlantic Coast and eastern Gulf of Mexico; by M. R. Hall and J. G. Mathers. 1912. 109 p. 3 pl. (Water-supply paper 282.) * Paper, 15c. GS 12—255/3

—— Same. (H. doc. 1492, 61st Cong. 3d sess.)

Bauxite. Production of bauxite and aluminum, [calendar year] 1911 [with bibliography]; by W. C. Phalen. 1912. 19 p. il. [From Mineral resources, 1911.] † Paper; * paper, 5c.

Bismarck folio, N. Dak.; by A. G. Leonard. [Library edition.] Washington, Geological Survey, 1912. cover-title, 8 p. il. 2 maps, large 4° (Geologic atlas of United States 181.) * Paper, 25c. GS 12—295/3

Black Hills. Coal near Black Hills, Wyo.-S. Dak. [with bibliography]; by R. W. Stone. 1912. 66 p. il. 7 pl. (Bulletin 499.) * Paper, 15c. GS 12—257/3

Copper. Advance statement of production of copper in United States, [calendar year] 1911; by B. S. Butler. 1912. 4 p. †

Gaging stations maintained by survey, 1888–1910, and survey publications relating to water resources; by B. D. Wood. 1912. 102 p. (Water-supply paper 280.) * Paper, 10c. GS 12—258/4

Same. (H. doc. 1490, 61st Cong. 3d sess.)

Jarbidge, Nev. Reconnaissance of Jarbidge, Contact, and Elk Mountain mining districts, Elko County, Nev. [with bibliography]; by F. C. Schrader. 1912. 162 p. il. 17 pl. 9 maps. (Bulletin 497.) * Paper, 40c. GS 12—256/2

—— Same. (H. doc. 172.)

Matanuska Valley. Geology and coal fields of lower Matanuska Valley, Alaska; by G. C. Martin and F. J. Katz. 1912. 98 p. il. 14 pl. 5 maps, 4 are in pocket. (Bulletin 500; H. doc. 175.) * Paper, 30c. GS 12—220/4

Michigan. Iron-ore reserves of Michigan, [calendar year] 1911; by C. K. Leith. 1912. [1]+18 p. il. [From Mineral resources, 1911.] † Paper; * paper, 5c.

Mineral resources of United States, calendar year 1910: pt. 2, Nonmetals [with bibliographies]. 1911. 1005 p. il. 17 maps, 3 are in pocket. (H. doc. 134.) * Paper, $1.25. 4—18124/5

Petroleum. Advance chapter from Contributions to economic geology, [calendar year] 1910, pt. 2: Petroleum and natural gas in Alabama; by M. J. Munn. 1912. [1]+26–51 p. 1 pl. map. (Bulletin 471 A 2.) * Paper, 10c.

—— Same: Petroleum and natural gas in California; by Robert Anderson. 1912. [1]+102–132 p. map. (Bulletin 471 A 5.) * Paper, 5c.

—— Same: Petroleum and natural gas in Kentucky; by M. J. Munn. 1912. 25 p. 2 pl. 2 maps. (Bulletin 471 A 1.) * Paper, 5c.

Petroleum—Continued. Same: Petroleum and natural gas in Utah; by E. G. Woodruff. 1912. [1]+72–101 p. il. (Bulletin 471 A 4.) * Paper, 5c.

—— Same: Petroleum and natural gas in Wyoming; by C. H. Wegemann. 1912. [1]+52–71 p. (Bulletin 471 A 3.) * Paper, 5c.

Publications. New publications, list 53; Mar. 1912. [1912.] 3 p. [Monthly.] † GS 11—99/3

—— Publications of survey, not including topographic maps. Apr. 1, 1912. 116 p. (New series, no. 2.) [Quarterly.] †

Talc. Production of talc and soapstone, [calendar year] 1911; by J. S. Diller. 1912. 9 p. [From Mineral resources, 1911.] † Paper; * paper, 5c.

Topographic sheets

Note.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000 and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least $3.00.

Arizona, Miami copper belt, lat. 33° 23′–33° 25′, long. 110° 53′–110° 56′. Scale 1:12,000, contour interval 25 ft. [Washington, Geological Survey] edition of Mar. 1912. 14.3×19.1 in. † 5c.

Arizona, Ray and vicinity, lat. 33° 09′ 28″–33° 11′ 32″, long. 110° 58′ 32″–111° 01′ 26″. Scale 1:12,000, contour interval 25 ft. [Washington, Geological Survey] edition of Jan. 1912. 12.6×14.8 in. † 5c.

California, Clear Creek quadrangle, lat. 39° 37′ 30″–39° 45′, long. 121° 37′ 30″–121° 45′. Scale 1: 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Feb. 1912. 17.3×14.9 in. † 5c.

California, Gridley quadrangle, lat. 39° 15′–39° 22′ 30″, long. 121° 37′ 30″–121° 45′. Scale 1: 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Mar. 1912. 17.3×13.5 in. † 5c.

California, Honcut quadrangle, lat. 39° 15′–39° 22′ 30″, long. 121° 30′–121° 37′ 30″. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.3×13.5 in. † 5c.

California, Mt. Goddard quadrangle, lat. 37°–37° 30′, long. 118° 30′–119°. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.5×14 in. † 5c.

California, Sanborn Slough, lat. 39° 15′–39° 22′ 30″, long. 121° 52′ 30″–122°. Scale 1: 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.3×13.5 in. † 5c.

California, Tisdale Weir quadrangle, lat. 39°–39° 07′ 30″, long. 121° 45′–121° 52′ 30″. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Feb. 1912. 17.3×13.5 in. † 5c.

Colorado, Creede and vicinity, lat. 37° 50′–37° 55′, long. 106° 54′–106° 59′. Scale 1 : 24,000, contour interval 50 ft. [Washington, Geological Survey] edition of Feb. 1912. 15.2×12 in. † 5c.

Georgia, Milledgeville quadrangle, lat. 33°-33° 15′, long. 83°-83° 15′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1912. 17.5×14.7 in. † 5c.

Michigan, Mason quadrangle, lat. 42° 30′-42° 45′, long. 84° 15′-84° 30′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×13 in. † 5c.

Missouri, Rolla quadrangle, lat. 37° 45′-38°, long. 91° 45′-92°. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.5×13.9 in. † 5c.

Montana, Cut Bank quadrangle, lat. 48° 30′-49°, long. 112°-112° 30′. Scale 1 : 125,000, contour interval 20 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.5×11.7 in. † 5c.

New York, Delhi quadrangle, lat. 42° 15′-42° 30′, long. 74° 45′-75°. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×13 in. † 5c.

New York, Hartwick quadrangle, lat. 42° 30′-42° 45′, long. 75°-75° 15′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Mar. 1912. 17.5×13 in. † 5c.

New York, Ontario Beach quadrangle, lat. 43° 15′-43° 30′, long. 77° 30′-77° 45′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1912. 17.5×12.8 in. † 5c.

Ohio, Cambridge quadrangle, lat. 40°-40° 15′, long. 81° 30′-81° 45′. Scale 1 : 62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.5×13.5 in. † 5c.

Tennessee-North Carolina, Mt. Guyot quadrangle, lat. 35° 30′-36°, long. 83°-83° 30′. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.5×14.3 in. † 5c.

West Virginia-Virginia, Pocahontas special quadrangle, lat. 37° 15′-37° 30′, long. 81° 15′-81° 30′. Scale 1 : 62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×14 in. † 5c.

West Virginia-Virginia-Kentucky, Gilbert quadrangle, lat. 37° 30′-37° 45′, long. 81° 45′-82°. Scale 1 : 62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Jan. 1912. 17.5×14 in. † 5c.

Wyoming-Montana-Idaho, Yellowstone National Park, Topographic map of, lat. 44° 10′-45°, long. 110°-111°. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Jan. 1912. 32.1×28.6 in. † 20c.

INDIAN AFFAIRS OFFICE

Regulations approved Oct. 27, 1911, as amended Feb. 21, 1912, governing placing of and accounting for moneys of Five Civilized Tribes to be deposited in national and State banks in Oklahoma. [1912.] 3 p. †

Supplies for Indian service, fiscal year 1912. [1912.] 94 p. [From Report, 1912.] ‡

CARLISLE INDIAN SCHOOL

Red man, v. 4, no. 8; Apr. 1912. Carlisle Indian Press, Carlisle, Pa. [1912]. cover-title, 311-356+[2] p. il. large 8° [Monthly except July and August.] † Paper, $1.00 a yr. 11—24446/3

LAND OFFICE, GENERAL

NOTE.—The General Land Office publishes a large general map of the United States, which is sold at $1.00; and also separate maps of the States and Territories in which public lands are to be found, which are sold at 25c. per sheet. California is in 2 sheets. Address the Superintendent of Documents, Washington, D. C.

Estimates of deficiencies in appropriations required by Interior Department for public lands service. Apr. 6, 1912. 5 p. (H. doc. 683.) ‡

MINES BUREAU

Carbon monoxid. Use of mice and birds for detecting carbon monoxide after mine fires and explosions [with list of bureau publications on mine accidents and explosives]; by George A. Burrell. 15 p. (Technical paper 11.) * Paper, 5c. 12—35496

Coal. Constituents of coal soluble in phenol [with list of bureau publications on fuel testing]; by J. C. W. Frazer and E. J. Hoffman. 1912. 20 p. 1 pl. (Technical paper 5.) [Includes list of Geological Survey publications on fuel testing for sale by Superintendent of Documents.] * Paper, 5c. 12—35495

—— Smokeless combustion of coal in boiler furnaces, with chapter on central heating plants [with lists of bureau publications on fuel testing], by D. T. Randall and H. W. Weeks; revised by Henry Kreisinger. 1912. 188 p. il. (Bulletin 40.) [This is a revision of Geological Survey Bulletin 373.] * Paper, 20c. 12—35525

—— Steaming tests of coals and related investigations, Sept. 1, 1904–Dec. 31, 1908; by L. P. Breckenridge, Henry Kreisinger, and Walter T. Ray. 1912. x+380 p. il. 5 pl. (Bulletin 23.) [Includes list of Mines Bureau and Geological Survey publications on fuel testing.] * Paper, 50c. 12—35523

Explosives. Use of permissible explosives [with list of bureau publications on mine accidents and tests of explosives]; by J. J. Rutledge and Clarence Hall. 1912. 34 p. il. 1 pl. 4 p. of pl. (Bulletin 10.) [This Bulletin is printed as a supplement to Bulletin 17.] * Paper, 10c. 12—35714

Mines and mining. Factor of safety in mine electrical installations [with list of bureau publications on mine accidents and tests of explosives]; by H. H. Clark. 1912. 14 p. (Technical paper 19.) * Paper, 5c. 12—35498

Mining accidents. Prevention of mine explosions, report and recommendations; by Victor Watteyne, Carl Meissner, and Arthur Desborough. 1912. 12 p. (Technical paper 21.) [This is a reprint of Geological Survey Bulletin 369.] * Paper, 5c. 12—35499

New publications, list 9; Mar. 1912. [1912.] oblong 48° [These lists are published in the form of postal cards.] †

Nitroglycerin. Behavior of nitroglycerin when heated [with list of bureau publications on mine accidents and tests of explosives]; by Walter O. Snelling and C. G. Storm. 1912. 14 p. il. 1 pl. (Technical paper 12.) * Paper, 5c. 12—35497

Smoke problem at boiler plants, preliminary report [with bibliography], by D. T. Randall; revised by S. B. Flagg. 1912. 31 p. (Bulletin 39.) [This is a revision of Geological Survey Bulletin 334.] * Paper, 5c. 12—35524

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

In Court of Appeals of District of Columbia, Apr. term, 1912, patent appeal no. 775, in re Gottfried Heinrich Jacob Maas, improvements in supports for railroad rails; brief for commissioner of patents. 1912. cover-title, 15 p. ‡

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1912, page 424.

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Annual report, year ending June 30, 1911: [pt. 2] Report of National Museum. 1912. 147 p. (H. doc. 159 [pt. 2].) *Cloth, 35c. 4—18264/2

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that most of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{7}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number is an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in the United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

Patent decisions, 1911, is now available. In paper covers, $1.00 a copy; in buckram binding, $2.00. Prices fixed by the Patent Office.

Court of Customs Appeals reports, vol. 2, now on sale, in buckram, price, $1.00.

A new number in the extensive series of bibliographies published by the Library of Congress is Select list of references on the initiative, referendum, and recall. Sold by the Superintendent of Documents at 15 cents.

Washington's farewell address, which for many years has been read in the United States Senate on February 22d, was this year read also in the House of Representatives, and that body ordered a reprint of the immortal document. This has been made by the Government Printing Office in large clear type on good paper. Price, 10 cents.

The Census Bureau, having completed a series of State bulletins giving the numbers of the population of cities, counties, and minor civil divisions in 1910, with comparative statistics for 1890 and 1900, has now begun a second population series, giving the composition and characteristics of the population, namely, color, nativity, parentage, sex, citizenship, illiteracy, school attendance, dwellings, and families. There are 52 numbers in the first population series, one for each State and for the District of Columbia, Alaska, Hawaii, and Porto Rico. Presumably there will be the same number in the second population series. These preliminary bulletins, as well as those in three similar series, giving statistics of agriculture, manufactures, and irrigation, can be supplied by the Superintendent of Documents at 5 cents each.

The Agriculture Department has issued a bulletin called Raising Belgian hares and other rabbits. It is in the Farmers' bulletin series, no. 496. All Farmers' bulletins are sold at the uniform price of 5 cents.

Mines Bureau Bulletin 25, Mining conditions under the city of Scranton, Pa., describes conditions almost unbelievable by those to whom life in the coal mining districts is unfamiliar. Scranton is a booming city of about 140,000 inhabitants, the metropolis of the hard-coal region. Its corporate limits are about 5 miles square. In this territory 27 collieries are operating, and have been operating for many years, some of them for half a century. The city is underlain by 11 separate beds or veins of coal, one above the other, varying from 2 to 24 feet in thickness and separated from each other by layers of clay, sand, and rock of different thicknesses. The eleven veins it is estimated originally contained 600,000,000 tons of coal. To the present time 177,000,000 tons of coal have been remov along with 44,000,000 tons of rock and other waste. Reduced to cubic yards, this excavation amounts to 198,000,000, or about 3,000,000 yards more than the total estimated excavations for the Panama Canal. And there are 420,000,000 tons more to come out! As might be expected, there have been various cave-ins, not yet doing serious damage, but sufficient to cause alarm and show the necessity of taking measures to prevent further subsidences. Something has been done toward filling in the yawning caverns with sand and gravel and a support of stone and cement has been built under the high school, but it is evident from the reports of the expert mining engineers which are printed as Bulletin 25 that general and extensive remedial measures must ultimately be used. The bulletin has 89 pages of text, 4 pages of plates, and an accompanying case of 25 maps. All supplied by the Superintendent of Documents for 50 cents.

Under the title Coöperation and cost of living in certain foreign countries, the President sends to Congress reports from 21 American consuls in France, Belgium, Holland, and Denmark, as a supplement to a similar collection from consuls in other countries sent to Congress Mar. 13 last. The latest collection has been printed as House document 736, 62d Congress, 2d session.

Those persons—and they are numerous—who like to read of the habits and peculiarities of birds will welcome Farmers' bulletin 497, Some common game, aquatic, and rapacious birds in relation to man. 5 cents.

An alphabetical list of national banks by States has been published by the Comptroller of the Currency. It is alphabeted, 1st, by States, and, 2d, not by the names of the banks but by the names of the towns in which the banks are located. Copies from the Superintendent of Documents 15 cents.

A new Census Bureau bulletin gives population of incorporated places in the United States, with comparative numbers for 1900 and 1890. There were 7,726 incorporated places (cities, towns, villages, and boroughs) in 1890, 10,584 in 1900, and 13,985 in 1910. No doubt there are fully 15,000 by this time. We have 3 cities of over a million inhabitants, 8 of over half a million, 19 of over a quarter of a million, 50 of over 100,000, 109 of over 50,000, 226 of over 25,000, 572 of over 10,000, and 1123 places of over 5,000 inhabitants. No other country since the world began could boast such an array of cities. Of the 91,972,266 Americans inhabiting continental United States in 1910, 49,307,414 lived in incorporated places, being 53.6 per cent. of the whole. In 1900 the percentage was 47.1 per cent.; in 1890 it was 41.5 per cent. The 13th census is the first to show more than half the population living in cities and incorporated towns, but all the indications point to an ever increasing percentage of city dwellers in the future.

A digest of opinions of the judge advocates general of the Army, just published, covers the whole period from 1862, when that official was created, to Jan. 31, 1912. It fills 1103 pages, is bound in buckram, and sold by the Superintendent of Documents at $1.50.

Labor Bureau Bulletin 98, nominally issued Jan. 1912, really published in the month of May, has its usual miscellany relating to labor questions, but its main subject is Mediation and arbitration of railway labor disputes in the United States. The law commonly known as the Erdman act, which provides a means for mediation and arbitration, was approved June 1, 1898, but for eight and a half years but one attempt was made to utilize it and that one was unsuccessful. In recent years there has been a marked change. During the last 5 years the mediation provided for in the Erdman act has been invoked in nearly 60 cases. All of these cases are reported in Bulletin 98. By an act of Mar. 4, 1911, the provision that the chairman of the Interstate Commerce Commission should in every case be one of the mediators was repealed. Bulletin 98 gives 500 pages to various reports on labor matters. Price, 35 cents.

Bulletin 16, Copyright Office, Library of Congress, Copyright in England, is an indexed print of the new copyright act of the United Kingdom, passed Dec. 16, 1911, which, says the Bulletin, "is a most important piece of copyright legislation and has been awaited with eager and widespread interest." It is to come into operation July 1, 1912. Copies can be supplied for 5 cents.

Compilation of laws and decisions of the courts relating to war claims is the title of a Congressional committee publication, not available to the public.

Education Bureau Bulletin 14, series of 1911, originally published in November of last year, has now appeared as House document 679, 62d Congress, 2d session, in consequence of a resolution adopted Apr. 4, 1912, by the House of Representatives, ordering that 5000 copies be printed for the use of that body. The title is Provision for exceptional children in public schools. It has a tripartite authorship, the names and titles of James H. Van Sickle, superintendent of public instruction, Springfield, Mass., Lightner Witmer, director, psychological laboratory and clinic, University of Pennsylvania, and Leonard P. Ayres, director, division of education, Russell Sage Foundation, all being carried on the title-page. Copies can be supplied by the Superintendent of Documents at 10 cents.

Major-General Emory Upton's Military policy of the United States, which has been several times reprinted, has now appeared as Senate document 494, 62d Congress, 2d session.

The final report of the National Waterways Commission—an important document of nearly 600 pages—has been issued as Senate document 469, 62d Congress, 2d session. The few copies available for sale are priced at 50 cents each in paper covers.

The bloody battle of Gettysburg was fought July 1, 2, and 3, 1863. An extensive celebration of its 50th anniversary is being planned for next year. Senate document 663, 62d Congress, 2d session, is a contribution to the plans. It gives estimates, on the basis of an attendance of 40,000, for tents, rations, and service for a four-days camp on the battle ground. The document also carries a large map showing the proposed site of the camp, public lands, private lands, etc.

In 1904 the Mint Bureau published a pamphlet containing the coinage laws of the United States, 1792 to 1903. Now a Supplement appears giving the coinage laws passed since 1903, including also an act of the Philippine Commission dated Mar. 23, 1903. Though there has been no apparent change in the national coinage, the coinage laws of these few recent years are sufficient to fill 30 pages of a large pamphlet.

Circular 23 of the President's Commission on Economy and Efficiency is a Memorandum concerning its work, completed and in progress, submitted for the information of the Committee on Appropriations of the House of Representatives. Copies can not be supplied by the Superintendent of Documents.

Circular 33, Bureau of Standards, Commerce and Labor Department, issued May 1, 1912, has for title United States Government specification for Portland cement. This specification is the result of a Government inquiry by a board on which all Government departments were represented. This board conferred with representative unofficial consumers and manufacturers and with special committees of engineer societies. The specification given in Circular 33 was unanimously adopted by all Departments of the Government at a Departmental conference February 13, 1912, and by an Executive order issued April 30, 1912, it was directed that all cement used in Government work shall conform to this specification. Circular 33 is sold by the Superintendent of Documents at 10 cents a copy.

The price of the advance sheets or pamphlet edition of soil surveys is usually 15 cents, each report of a survey containing one large colored map. In a few cases, however, two such maps accompany one survey. For these the price is 25 cents. Soil survey of the Uncompahgre Valley, Colorado, issued May 21, 1912, is a 2-map edition.

G. R. Putnam, commissioner of lighthouses, has issued, under date of Apr. 1, 1912, Regulations for lighting bridges, which supersede all previous regulations on this subject and apply to all bridges over navigable waters. The pamphlet is illustrated with many colored plates. Sold by the Superintendent of Documents, 15 cents.

From the Information Division, Immigration and Naturalization Bureau, proceeds a pamphlet entitled Agricultural opportunities, information concerning resources, products, and physical characteristics of the Western States (southern group), comprising Colorado, New Mexico, Arizona, Utah, Nevada, and California, and the Territory of Hawaii. This is published in aid of the work of the Information Division in trying to divert the currents of immigration from the congested cities of the East to the fertile unoccupied lands of the West. Sold by Superintendent of Documents, 5 cents.

CHECKLIST OF PUBLIC DOCUMENTS

The 3d edition of the Checklist of United States public documents, which has been impending since the 2d edition (1896) went out of print, and which has been worked at intermittently for more than a dozen years and incessantly for about 5 years last past, is now out of press, and will shortly be in the hands of the official librarians who are entitled to it and will be offered to others who wish it for $1.50 per copy.

It is a big book, 1707 pages, strongly bound in dark red buckram, and nothing is risked in asserting that it contains more, and more accurate, information concerning the printed official documents of the United States than was ever before collected between two covers. As one looks it over and through, the most impressive feature perhaps is the wealth of historical and illustrative and explanatory notes by which almost every page is enriched. These, drawn from the original sources, have, even more than the long schedules of publications, consumed the time, the thought, and the nervous energy of the compilers. Great confidence is felt that librarians and collectors will more and more appreciate the worth of these notes, and also the skilled and patient industry with which all the multiplied and irregular and overlapping editions have been traced out, as continued use of the Checklist makes the value of these features apparent.

It must be evident to users of the book that its compilers have had good tools with which to work. The best of these tools is the Public Documents Library in the office of the Superintendent of Documents. The remarkable thing about this unique library is that it has cost the Government hardly a cent. No money has been appropriated for the buying of books for this library. Laws which have directed public officers to turn over to the Superintendent of Documents official publications for which they had no use and a similar arrangement with public libraries have been the sources of the collection of public documents of earlier date than the establishment of the Documents Office (1895), while for the later period the careful preservation of copies which the law requires to be sent for cataloguing has been the source of supply.

The Superintendent of Documents will be glad to hear from librarians or collectors who find in the Checklist what appear to be inconsistencies or matters concerning which further information is desired. All correspondence of this nature will receive careful consideration and early reply. Corrections are solicited from users of the Checklist for the special reason that an official copy will be kept in which all needed changes will be entered with a view to a possible second edition should sufficient occasion therefor arise. Attention is directed to the entries followed by asterisks, indicating that the publication entered is not in the Public Documents Library. During the progress of the work through the press several of these missing numbers have come to hand from various sources. The Library will be glad to receive from friendly librarians or others any of these missing numbers which the present possessors may not care to keep. The ambition of the Public Documents Library is to acquire a complete set of United States public documents, and therefore it welcomes many documents which but few general libraries would think it worth while to preserve. Because of the receipt of missing publications and of additional information too late for use, quite a little list of minor corrections has already accumulated. It is printed here for the purpose of giving librarians the promptest possible information of them. Many will no doubt wish to enter them at once in their copies of the Checklist.

p. III, 1st paragraph, 2d line, for page IX read page XI.

p. 23, serial no. 580. In "Notes" column, insert at end: 88 is incorrectly printed "2d session."

p. 32, serial no. 891. In "Notes" column, 1st line, change "1st sess." to "3d sess."

p. 32, serial no. 911^1. H. misc. docs. 34th Congress, 3d session, documents 27, 39, and 40 are said to be missing from the copy in the Public Documents Library. Since the Checklist went to press the Library has received a copy of serial 911^1, which contains the missing documents. They are of no value, and any librarian whose copy is short these numbers has no occasion to worry over the loss. Twenty-seven, Jan. 31, 1857, is a resolution of the Iowa Legislature asking for two new star-route mail lines (1 page); 39, Feb. 9, 1857, is a memorial of the New Mexico Legislature asking Congress to contribute $50,000 to complete its "State-house," though this was 55 years before it became a State (1 page); 40, Feb. 10, 1857, is a memorial of the New Mexico Legislature asking better provision for its schools (2 pages). The newly-found volume, however, prints only 16 pages of misc. doc. 55, Smithsonian Institution Report, 1856, which, complete, as found in the copy described in page 32 of the Checklist, has 467 pages. This omission makes it necessary to keep both copies in the Public Documents Library, and they are designated as 911^1 copy 1, for the one having misc. doc. 55 complete, and 911^1 copy 2 for the one containing misc. docs. 27, 39, and 40.

p. 473, I 19.2:M66^1. Cancel the 3-line entry beginning "Mine industry," as it is a duplicate of the entry on p. 1606, under Y4.M66^4. Although this statement was prepared by the director of the Geological Survey, the publication was issued by the Mines and Mining Committee.

p. 473, I 19.2:M66^2. Dele superior figure ^{2}, so that the call number will stand "I 19.2:M66."

p. 590, J 1.5: Under "(v. nos.)," in 1st column, following "v. 5," insert "2 editions."

p. 593, J 1.12: Dele the 6-point note "[Discontinued.]" at the end. This series has been revived, a new issue having appeared under date of Jan. 1, 1912.

p. 665, N 1.11^1:838^1. The Public Documents Library has obtained a copy of these regulations and the title is found to be as follows: Regulations for government of commanders and pursers of vessels of United States, and recruiting officers. Washington, printed by Blair & Rives, 1838. The star (*) following the entry should now be removed.

p. 804, N 17.9: Insert a dagger (†), indicating "None issued," after 1908, July 25, and after 1908, Aug. 24.

p. 805, N 17.9: After "1909, Mar. 31" change † to *.

p. 829, N 20.9: Remove brackets from "46" as the number appears on the publication. No. 47 was printed without number. The Public Documents Library has no information as to the date of no. 48 or whether it bore a printed number.

p. 981, SI 1.2:As 8^4. The Smithsonian publication number for v. 2 of Annals of Astrophysical Observatory is not the same as that for v. 1. This entry should be changed to read "v. 2, large 4° ([Publication 1738.])"

p. 1063, T 11.16: Dele the 6-point note "[Discontinued.]" at the end of the series. After a lapse of nearly 10 years this series has been revived, a 3d edition of no. 5, and nos. 8–10 having been issued since the Checklist went to press. The Public Documents Library has a new class for these publications under C 4.19:

p. 1145, T 28.7: The issue of the "Production of precious metals" as a separate publication was discontinued with the volume covering the calendar year 1909. Later reports are to appear as part 2 of the Annual report of the director of the mint for the succeeding fiscal year; e. g., the Precious metals report for calendar year 1910 is part 2 of the Annual report of the director for fiscal year 1911, classed in the Public Documents Library as T 28.1:911.

p. 1238, W3.14: For "Until Apr. 1909," at beginning of 6-point note, substitute so as to read, "[Until no. 1 for 1909, issued Feb. 17, 1909, these were" etc.

p. 1301, W24.2:B82. In 4th line, following "1907," insert serial and document number so as to read, "1907. [5253–402, pt. 2] [*See*, for hearings" etc.

p. 1463, Annals of Congress, 6-point note, between 2d and 3d paragraphs add the following:

Another print of v. 1 and 2 of the Annals of Congress has been found containing preceding the title-page a half-title which reads "Annals of Congress." The contents are identical with the set entered under Y1.1: D$35^{1,2}$, but the back titles read "Annals of Congress," instead of "Debates of Congress, old series" as in that set. These volumes are not in the Public Documents Library, but should be classed under Y1.1: D35.

p. 1493, Y1.1: D35^1. Add at end of note "See also 6-point note, p. 1463."

p. 1572, Y4.In2^2: C88. Insert at end of bracketed note following entry: "Same, with additions and with different title, as 60th Congress, 1st session, Senate document 445, 2 pts., serial no. 5260.]"

p. 1650, Y4.W36: T17^{21}. Change in 4th–6th lines so as to read: ". . . The last formal hearings were held Dec. 22, 1908, after which date the hearings are supplementary in character.]"

p. 1651, Y4.W36: T17^{83} and Y4.W36: T17^{84}. At end of title in each entry dele "index to names."

p. 1651, Y4.W36: T55^1. At end of entry after "1904." add serial and document number "[5242–390]."

A NEW YEARBOOK

The 18th number of that standard annual, the Yearbook of the United States Department of Agriculture, being the issue bearing date 1911, is now available for sale by the Superintendent of Documents, Washington, D. C., at $1.00 a copy.

It is a cloth bound book of 732 pages, containing 31 special articles by agricultural experts, an appendix of nearly 200 pages carrying a great variety of practical information, 20 text figures, and 67 full-page plates, of which 9 are in colors. The subjects illustrated are birds, fruits, insect pests, forest plantations, molds, yeasts, irrigation, crop-destroying crawfish, forestry, canning in factories, July snow scenes in the mountains, a new respiration calorimeter.

The Superintendent of Documents has learned through his extensive correspondence with citizens who are interested in United States public documents that many suppose this Yearbook to be a collection of bulletins and circulars previously published in separate form. This is altogether an erroneous supposition. The entire contents of the Yearbook are prepared especially for it and have not been previously published in any form. They are subsequently republished in a series known as "Yearbook separates"; that is, each of the special articles is printed in a separate small pamphlet, so that those who wish a certain article can be supplied without sending them the whole book. This is an economy, and may almost be said to be a necessity also, because the allotment of Yearbooks to the Agriculture Department is sufficient to supply copies to only a small part of the citizens in all parts of the country to whom the Department is under obligation for information and assistance of various kinds. Being unable to supply complete Yearbooks to all its volunteer helpers, the "separates" are made to serve as a more or less acceptable substitute. The "separates" are also on sale by the Superintendent of Documents at 5 cents each.

Though the 1911 edition of the Yearbook is not published till 1912, its statistical records are as nearly as possible brought up to the time of going to press.

POPULARIZING THE NATIONAL PARKS

This country has now 12 national parks, 28 national monuments, and 52 bird reserves, established by the Federal Government and embracing altogether several million acres of public lands mostly unavailable for settlement. The parks are intended to preserve for the free recreation and instruction of the people certain natural wonders and grand scenic effects which might otherwise by vandalism or commercialism be destroyed or injured or be made show places to be seen only for a price. Only a few of the parks are well known or much visited. Everybody knows of the Yosemite, the Yellowstone, and the Hot Springs, and the Crater Lake and the Glacier are now accessible and will probably have many visitors this season. But the Casa Grande, the Mesa Verde, Sullys Hill, Wind Cave, Platt, and Sequoia, who knows of these?

The Interior Department has undertaken the task of popularizing all of the great national parks and making the way easy for those who wish to visit them. It began by making a collection of large-size photographs of the most striking views in some of the parks and offering this collection as a free loan to public libraries and other institutions which might feel an interest in such an exhibition. The collection has proved a success. It has been in constant demand since it was first offered and is now spoken for ahead to December next. The Department is getting together a second similar collection, so that two sets of park views may be constantly on the road.

The Department has also begun two series of publications relating to the parks. One series is of generously illustrated and handsomely printed pamphlets, giving general and scientific information in untechnical language. Of this series three numbers have been issued, namely: Geysers, by Walter Harvey Weed; Geological history of Crater Lake National Park, by J. S. Diller; Geological history of Yellowstone National Park, by Arnold Hague. These are sold by the Superintendent of Documents at 10 cents each. It is the intention of the Department to continue this series until all the national parks and national monuments have been described. It will necessarily be several years before this can be done, but it is so desirable a work that it is much to be hoped nothing may occur to prevent its completion.

The other series which the Interior Department is publishing relating to the national playgrounds consists of circulars for the convenience of tourists, one for each park, telling how best to get to it, what the accommodations are, what are the authorized prices for service, what side trips may be made and how, the rules and regulations for using the parks, and all other things that vacationers and sightseers wish to know. These circulars, which are very complete, are supplied free by the Secretary of the Interior on application. The numbers issued to date are for Crater Lake National Park, Glacier National Park, and the Sequoia and General Grant National Parks.

Brief descriptions of all the national parks and national monuments are given in the Superintendent of Documents' Price list 20, Lands, which is sent free on request.

Each of the national monuments, so-called, is established for the protection from vandalism of some antiquity like the homes of the cliff-dwellers or some natural wonder like the petrified forest, the Utah natural bridges, or the Grand Canyon. Some of these are already accessible to tourists and all of them in time no doubt will be.

VARIETY IN OFFICIAL LITERATURE

The United States Senate has been very liberal of late in ordering, usually on the request of single Senators, sundry addresses and memorials, not by Senators nor spoken in the Senate Chamber, to be printed as numbered Senate documents. These miscellaneous utterances are all no doubt able discussions of important questions, but they are no part of the proceedings of the Senate, and the heading "62d Congress, 2d session, Senate Document" such-and-such a number, should not cause any reader of these unofficial treatises to believe that they speak with the voice of the Government or carry any official authority. Here are the titles and authors of a few of the Senate documents printed during May, which are really not Senatorial utterances at all but the views either of unofficial citizens or of officials speaking unofficially:

Senate document 488. Interstate shipments of intoxicating liquors; argument of F. S. Caldwell of Oklahoma.

Senate document 493. Memorial relating to the conservation of human life, prepared by Prof. Irving Fisher, assisted by Miss Emily F. Robbins.

Senate document 549. River and harbor improvements; addresses delivered before the National Rivers and Harbors Congress, 1910 and 1911; by Brig.-Gen. W. H. Bixby.

Senate document 614. Public and private hospitals and charities in the District of Columbia; report of W. C. Clephane, chairman committee of Washington Board of Trade.

Senate document 616. Address of Theodore Roosevelt, delivered at Boston, Apr. 27, 1912.

Senate document 617. Statement of Hon. W. H. Taft, published in the Washington post Apr. 29, 1912, in reply to a speech of Theodore Roosevelt, delivered at Worcester, Mass., Apr. 27, 1912.

Senate document 618. History and operation of workmen's compensation in Great Britain; by Launcelot Packer, L. L. B.

Senate document 647. Health conservation and well communities v. materia medica and sick communities; memorial to Congress by Parker H. Sercombe.

Senate document 648. Tendencies toward race degeneracy; by J. H. Kellogg, M. D., F. R. S. M., of Battle Creek. [This is an address made at a medical congress in New Haven last year.]

Senate document 649. Recall of judges, argument in opposition before Minnesota Bar Association at Duluth, July, 1911; by Rome G. Brown.

Senate document 651. A glaring error in certain Senate documents opposing popular government; a memorial by C. F. Taylor.

Senate document 656. The naval situation; article from the London Times, Mar. 11, 1912.

Senate document 665. The initiative and referendum; remarks of Hon. Frank E. Gove in the Colorado State Senate, Aug. 19, 1910.

Senate document 692. The problems of the Land Office have been the problems of the nation; address by Hon. Fred Dennett, delivered at Washington May 7, 1912.

Senate document 696. The economic aspect of immigration; by Isaac A. Hourwich. Reprinted from Political science quarterly (called Political science monthly in the document).

INFORMATION IN COMMITTEE REPORTS

The experience of the Public Documents Office indicates that there is but little popular demand for printed copies of the most numerous class of Congressional documents, the numbered reports made by Senate and House committees on the bills which are referred to them for consideration. Yet upon the committee reports the fate of pending bills largely hangs, and often the reports carry much information of both interest and importance. Such are Senate report 675, on Senate bill 6497, to protect migratory game and insectivorous birds of the United States; House report 597, on House bill 23713, to provide for the acquisition of the express companies' property so far as engaged in the express or parcel-post business and the utilization thereof by the Post Office Department; and House report 645, on House bill 23673, to abolish the involuntary servitude imposed upon seamen in the merchant marine, etc., bearing the heading Free and efficient seamen.

These three committee reports have been put in the sales stock and can be supplied, as long as they last, for 5 cents each.

LABOR LEGISLATION

Bulletin 97, Labor Bureau, is the third annual review of labor legislation issued by this Bureau. The 22d Annual report, issued 1908, under the title Labor laws of the United States, with decisions of courts relating thereto, was a compilation of all the labor laws of the United States and of the several States in force at the close of the year 1907.

This was followed by Bulletin 85, giving the legislation of the years 1908 and 1909; Bulletin 91, legislation of 1910, and Bulletin 97, legislation of 1911, this being the third in the series of annual reviews of labor legislation. The series is to be continued.

PASSING OF A BOARD

The Block Signal and Train Control Board, a branch of the Interstate Commerce Commission service, appointed in July, 1907, to investigate block signal systems and other devices to promote the safety of railroad operation, has since been engaged in that work, has made four annual reports, each one of them recommending that the adoption of block-signal systems be made obligatory upon all railroads, under reasonable limitations as to time and cost, and having fulfilled its mission its tenure will lapse and it will go out of existence June 30, 1912.

The Interstate Commerce Commission, by which the Board was originally appointed, did not ask an appropriation for its continuance beyond the present fiscal year, believing that the occasion for its services no longer existed.

CORRIGENDA

Corrected reprints have been made of two recent publications of the Agriculture Department. In Circular 19, Publications Division, page 29, the entry for Experiment Stations Circular 110, Food customs and diet in American homes, had been placed under a heading which made it appear to be Circular 110 of the Secretary's Office, a series in which only 39 numbers have been issued. In page 119 of Animal Industry Bureau Circular 186 a footnote referred to page 116 for matter which is on page 122. Careful librarians who have received the first print of the two reprinted circulars will lose no time in making their defective copies good with pen or pencil.

In the January, 1912, Monthly catalogue, page 414, Sleeping-car companies, the word "Reprint" in the 4th line is not altogether accurate. The words "1st issue" in the same entry come nearer the fact, for though there was an earlier copy of the Classification of operating revenues, etc., it had not been printed; it had not passed the typewritten ms. stage. It now appears that even the printed copy, from which the entry in the January Monthly catalogue was made, has not been and will not be circulated. It is to be superseded by another edition varying slightly.

MONTHLY CATALOGUE

No. 209 MAY 1912

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Bulletin of Mount Weather Observatory, v. 4, pt. 4. Apr. 5, 1912. cover-title, p. 183–304, il. large 8° * Paper, 25c. Agr 8—85/3

CONTENTS.—Free air data, sounding balloon ascensions at Indianapolis, Omaha, and Huron.

Same, v. 4, pt. 5. Apr. 24, 1912. cover-title, p. 305–395, il. large 8° * Paper, 25c.

CONTENTS.—Vertical temperature gradients in Hawaii; by Alfred J. Henry.—Diurnal variation of pressure at Point Reyes light; by James Jones.—Temperature at Mount Weather and adjacent valley stations; by Alfred J. Henry.—Free air data at Mount Weather, July-Sept. 1911.

Climatological service, district 1, North Atlantic States, report for Mar. 1912; Wilford M. Wilson, district editor. 1912. 15 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.] * Paper, 5c. single copy, 50c. a yr. for each district.

Same, district 2, South Atlantic and East Gulf States, report for Mar. 1912; Charles F. von Herrmann, district editor. 1912. 16 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 3, Ohio Valley, report for Mar. 1912; Ferdinand J. Walz, district editor. 1912. 16 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 4, Lake region, report for Mar. 1912; H. B. Hersey, acting district editor. 1912. 11 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 5, upper Mississippi Valley, report for Mar. 1912; George M. Chappel, district editor. 1912. 15 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 6, Missouri Valley, report for Mar. 1912; Montrose W. Hayes, district editor. 1912. 19 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 7, lower Mississippi Valley, report for Mar. 1912; Isaac M. Cline, district editor. 1912. 17 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 8, Texas and Rio Grande Valley, report for Mar. 1912; Bernard Bunnemeyer, district editor. 1912. 10 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 9, Colorado Valley, report for Mar. 1912; Frederick H. Brandenburg, district editor. 1912. 11 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 10, Great Basin, report for Mar. 1912; Alfred H. Thiessen, district editor. 1912. 9 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 11, California, report for Mar. 1912; Alexander G. McAdie, district editor. 1912. 16 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Same, district 12, Columbia Valley, report for Mar. 1912; Edward A. Beals, district editor. 1912. 15 p. 2 p. of maps, 4° [From Monthly weather review, Mar. 1912.]

Meteorological chart of Great Lakes, July, 1912. [1912.] 17.9×26.1 in. [Monthly.] 7—37084/4

NOTE.—Contains on reverse, Prevailing direction of wind on Great Lakes during July, with percentages, 1900–09.—Approximate location of submarine signal bell stations, Mar. 1911.—Distribution of radio telegraph stations on Great Lakes, and call letters for each.—Highest velocity of wind, direction, and date of occurrence during July, 1900–11.

The meteorological charts and supplements of the north Atlantic, north Pacific, and Indian oceans, and the Great Lakes, monthly, and of the south Atlantic and south Pacific oceans, quarterly, are issued by the Weather Bureau for gratuitous distribution to cooperating shipmasters and others interested in ocean meteorology.

Meteorological chart of Indian Ocean, July, 1912. [1912.] 17.7×25.9 in. [Monthly.]

Meteorological chart of north Atlantic Ocean, July, 1912. [1912.] 17.8×26 in. [Monthly.]

NOTE.—Contains on reverse, North Atlantic Ocean, meteorological chart of air temperatures, water surface temperatures, currents, and air pressure for winter season.

Meteorological chart of north Pacific Ocean, July, 1912. [1912.] 17.6×26 in. [Monthly.]

NOTE.—Contains on reverse, North Pacific Ocean, meteorological chart of air temperatures, water surface temperatures, currents, and air pressure for winter season.

Monthly weather review, v. 40, no. 3; Mar. 1912. 1912. cover-title, p. 321–486, 10 p. of pl. and maps, 4° *Paper, 35c. single copy, $4.00 a yr. Agr 9—990/5

NOTE.—This publication is confined to climatological data and the relations between climatology and practical problems in engineering, hygienics, or agriculture.

National weekly weather bulletin, May 6–27, 1912; no. 7–10 [1912]. May 7–28, 1912. 24×19 in. [Weekly, Apr.–Sept., monthly remainder of year.] *Paper, 25c. a yr. Agr 9—1305/2

Report of chief [meteorological tables for calendar year] 1910; [with administrative report, fiscal year] 1911. 1912. [4 pts.] 260 p. 4 maps, 4° *Cloth, 75c. Agr 9—1419/2

Same. (H. doc. 135.)

Weather map [containing forecasts for Northeastern, middle Eastern, and Southeastern States], May 1–31, 1912. [1912.] 19×24 in. [Daily except Sundays and holidays.] *Editions issued at Washington, D. C., 25c. a month, $2.50 a yr.; editions issued at about 50 stations throughout United States, 20c. a month, $2.00 a yr.

Same [containing forecasts for United States], May 1-31, 1912. [1912. 19×24 in. [Daily. The Sunday edition does not contain as much information as the edition for week days.]

CIVIL SERVICE COMMISSION

NOTE.—The Commission furnishes its publications gratuitously to those who apply for them.

[Announcements of examinations] June 5-29, 1912. Apr. 29-May 23, 1912. various paging, 4° †

Instructions to applicants for post-office service, 6th civil-service district, headquarters, Cincinnati, Ohio. Apr. 1912. 12+[1] p. †

Instructions to applicants, 4th civil service district, headquarters, Washington, D. C. Mar. 1912. 32+[1] p. †

COMMERCE AND LABOR DEPARTMENT

NOTE.—The Department of Commerce and Labor has a limited edition of its publications which it distributes gratuitously to those who apply for them.

Beaufort, N. C. Revised estimate of appropriation under title Salaries, Bureau of Fisheries, biological station, Beaufort. May 8, 1912. 2 p. (H. doc. 743.) ‡

Catalogue of books and blanks furnished by Department to customs officers. 1912. 27 p. †

Chicago, Ill. Estimate of appropriation for establishment of immigrant station in Chicago. May 23, 1912. 2 p. (H. doc. 764.) ‡

Hawaii. Letter giving opinion as to proposed amendment to Burnett bill, pending in House, and Dillingham bill, which has passed Senate [exempting Hawaii from operations of illiteracy test for immigrants]. May 6, 1912. 2 p. (H. doc. 735.) ‡

Immigration and emigration. Letter giving Department views on H. 19544 [to amend immigration act of Feb. 20, 1907, so as to exclude insane persons and to impose penalty upon transportation companies for bringing such inadmissable immigrants to United States]. May 4, 1912. 1 p. (H. doc. 731.) ‡

—— Letter giving Department views on H. 19545, relating to [amendment of sec. 17, regarding medical examination of aliens, of] immigration act of 1907. May 1, 1912. 2 p. (H. doc. 725.) ‡

International Conference on Maritime Law. Estimate of appropriation to pay expenses of delegates of United States to conference to meet at Brussels in 1912. May 20, 1912. 4 p. (H. doc. 763.) ‡

Lawrence, Mass. Letter transmitting, in response to resolution, information relative to conditions concerning mill workers at Lawrence [statement that data will be furnished as soon as report is completed]. May 11, 1912. 1 p. (S. doc. 662.) ‡

Standards Bureau. Estimate of appropriation for investigations to be made by bureau [for establishment of units and standards of refrigeration, etc.]. May 24, 1912. 2 p. (H. doc. 766.) ‡

CENSUS BUREAU

Thirteenth census of United States, 1910, bulletin: Agriculture, United States, abstract, farms and farm property, by States. [Apr. 1912.] 20 p. il. 4° * Paper, 5c.

Same: Irrigation, Arizona, farms and acreage irrigated, irrigation works, cost of construction, cost of operation and maintenance, and crops irrigated. [May, 1912.] 10 p. il. 4° * Paper, 5c.

Same: Irrigation, New Mexico, farms and acreage irrigated, irrigation works, cost of construction, cost of operation and maintenance, and crops irrigated. [May, 1912.] 11 p. il. 4° * Paper, 5c.

Same: Irrigation, Oregon, farms and acreage irrigated, irrigation works, cost of construction, cost of operation and maintenance, and crops irrigated. [Apr. 1912.] 11 p. il. 4° * Paper, 5c.

Same: Irrigation, Utah, farms and acreage irrigated, irrigation works, cost of construction, cost of operation and maintenance, and crops irrigated. [Apr. 1912.] 11 p. il. 4° * Paper, 5c.

Same: Irrigation, Washington, farms and acreage irrigated, irrigation works, cost of construction, cost of operation and maintenance, and crops irrigated. [Apr. 1912.] 11 p. il. 4° *Paper, 5c.

Same: Manufactures, Indiana, statistics of manufactures for State, cities, and industries. [May, 1912.] 31 p. 4° * Paper, 5c.

Same: Manufactures, Kansas, statistics of manufactures for State, cities, and industries. [May, 1912.] 23 p. 4° * Paper, 5c.

Same: Manufactures, Minnesota, statistics of manufactures for State, cities, and industries. [May, 1912.] 27 p. 4° * Paper, 5c.

Same: Manufactures, Virginia, statistics of manufactures for State, cities, and industries. [May, 1912.] 23 p. 4° * Paper, 5c.

Same: Manufactures, Washington, statistics of manufactures for State, cities, and industries. [Apr. 1912.] 23 p. 4° * Paper, 5c.

Same: Manufactures, Wisconsin, statistics of manufactures for State, cities, and industries. [May, 1912.] 31 p. 4° * Paper, 5c.

Same: Population, Alabama, composition and characteristics of population. [Apr. 1912.] 26 p. il. 4° *Paper, 5c.

Same: Population, United States, abstract of statistics of number and distribution of inhabitants. [Apr. 1912.] 55 p. il. 4° * Paper, 10c.
12—35748

Same: Population, United States, population of incorporated places. [May, 1912.] 111 p. 4° *Paper, 15c. 12—35749

Thirteenth census of United States, 1910: Population by counties and minor civil divisions, 1910, 1900, 1890. 2d [edition]. 1912. 596 p. 4° * Paper, 65c. 12—35378/5

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The charts, coast pilots, and tide tables of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

Coast pilot notes on Hawaiian Islands, Feb. 21,1912. 1912. 57 p. large 8° † 12—35650

United States coast pilot, Atlantic Coast: pt. 3, Cape Ann to Point Judith; [by Edwin H. Tillman, assisted by John Ross]. 3d edition [revised by Herbert C. Graves, assisted by C. L. Warwick and E. Vance Miller]. 1912. 166 p. il. 2 maps, large 8° † Paper, 50c. 12—35750

Charts

Alaska, south coast, bays and anchorages; chart 8822. Washington, Coast and Geodetic Survey, Apr. 1912. 31.1×37.9 in. † 50c.

Anchorage and Mud bays, Chignik Bay, Alaska Peninsula, from surveys in 1874 and 1906. Scale 1:40,000. 8.9×9.8 in.

Isanotski Strait, southern part, Alaska Peninsula, from reconnaissance by U. S. Fish Commission in 1894. Scale 1:40,000. 18×12.4 in.

Karluk Anchorage, Kodiak Island, from surveys in 1897 and 1908. Scale 1:20,000. 9.2×16.5 in.

Larsen Bay, Kodiak Island, from surveys in 1908. Scale 1:20,000. 13.1×22.5 in.

Shearwater Bay, Kodiak Island, from British survey in 1904. Scale 1:15,000. 13.1×15.4 in.

Uyak Anchorage, Kodiak Island, from surveys in 1908. Scale 1:20,000. 9.2×9 in.

[Atlantic Coast] Nantucket Shoals to Montauk Point, surveys to 1910 and other sources; chart 51. [Scale 1:203,000.] Washington, Coast and Geodetic Survey, Apr. 1912. 33.7×43.6 in. † 50c.

Buzzards Bay, Head of, Mass., original surveys 1895–97, additional hydrography in 1910; chart 251. Scale 1:20,000. Washington, Coast and Geodetic Survey, Apr. 1912. 32.7×40.5 in. † 50c.

Galveston Bay, Tex., Galveston Bay and entrance from surveys by Corps of Engineers, U. S. A., 1898–1910, outside hydrography from surveys 1850–1884; with inset, Continuation of West Bay; chart 204. Scale 1:80,000. Washington, Coast and Geodetic Survey, Apr. 1912. 41.5×33.4 and 8.9×6.7 in. † 50c.

Humboldt Bay, Cal.; chart 5832. Scale 1:30,000. Washington, Coast and Geodetic Survey, Apr. 1912. 30×24.4 in. † 50c.

Illana Bay and vicinity, Harbors in, south coast of Mindanao, P. I.; chart 4652. Washington, Coast and Geodetic Survey, Apr. 1912. 31.2×33.1 in. † 30c.

Baras, Port, surveyed in 1906. Scale 1:20,000. 7.8×8.6 in.

Limbug Cove, surveyed in 1909. Scale 1:15,000. 7.8×8.6 in.

Maligay Bay, surveyed in 1909. Scale 1:50,000. 10.4×15.9 in.

Pagadian Bay, surveyed in 1909. Scale 1:50,000. 9.9×15.9 in.

Sambulauan, Port, surveyed in 1909. Scale 1:30,000. 10.9×15.9 in.

Sibulan, Port, surveyed in 1908. Scale 1:60,000. 23.4×17.2 in.

James River, Chesapeake Bay, Va., Jordan Point to Richmond, surveys in 1910 and 1911 with additions to topography from older survey; with inset, Continuation of Appomattox River; chart 531. Scale 1:20,000. Washington, Coast and Geodetic Survey, Apr. 1912. 31.7×41.5 and 14.6×11.6 in. † 50c.

Mendocino Bay, Cal., original surveys 1871–1909; chart 5719. Scale 1:10,000. Washington, Coast and Geodetic Survey, May, 1912. 15.4×18.4 in. † 20c.

New York Harbor, upper bay and Narrows; chart 541. Scale 1:10,000. Washington, Coast and Geodetic Survey, May, 1912. 43.2×33.7 in. † 50c.

Pacific Coast, Cape Lookout to Grays Harbor, Oreg. and Wash.; chart 6100. Scale 1:200,000. Washington, Coast and Geodetic Survey, Apr. 1912. 38.9×27.3 in. † 50c.

Satilla River, Ga., Bailey Cut to Burnt Fort, U. S. Engineers surveys in 1909 and 1910; chart 450. [Scale 1:20,000.] Washington, Coast and Geodetic Survey, Apr. 1912. 29.4×42.6 in. [Map is divided into 3 sections.] † 50c.

FISHERIES BUREAU

Fishes from Bering Sea and Kamchatka; [by Charles Henry Gilbert and Charles Victor Burke]. May 6, 1912. [1]+31-96 p. il. large 8° ([Bureau of Fisheries] doc. 754.) [From Bulletin, v. 30.] *Paper, 15c. F12—93/3

Oyster industry of New York, New Jersey, Pennsylvania, and Delaware, 1911 [and Comparative statistics of oyster product of New York, New Jersey, Pennsylvania, and Delaware, 1880-1911]. [1912.] 1 p. f° (Statistical bulletin 270.) †

Statement of quantities and values of certain fishery products landed at Boston and Gloucester, Mass., by American fishing vessels, Mar. 1912. [1912.] 1 p. oblong large 8° (Statistical bulletin 269.) †

Studies on reproduction and artificial propagation of fresh-water mussels [with bibliography; by George Lefevre and Winterton C. Curtis]. May 10, 1912. [1]+105-201 p. il. 12 pl. large 8° ([Bureau of Fisheries] doc. 756.) [From Bulletin, v. 30.] *Paper, 20c. F12—106/4

IMMIGRATION AND NATURALIZATION BUREAU

Agricultural opportunities, information concerning resources, products, and physical characteristics of Western States, southern group, comprising Colorado, New Mexico, Arizona, Utah, Nevada, and California, and Territory of Hawaii. 1912. 32 p. *Paper, 5c. 12—35751

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 780.

Maps

North America, Map of, reduced from map on scale of 1:5,000,000; with insets, Aleutian Islands; Windward Islands. Scale 1:10,000,000. [Washington] Geological Survey, 1912. 37.5×28.7, 2.8×6.9 and 5.9×3.5 in. † 20c.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least $3.00.

California, Biggs quadrangle, lat. 39° 22′ 30″–39° 30′, long. 121° 37′ 30″–121° 45′. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Apr. 1912. 17.3×13.4 in. † 5c.

California, Butte City quadrangle, lat. 39° 22′ 30″–39° 30′, long. 121° 52′ 30″–122°. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Mar. 1912. 17.3×13.4 in. † 5c.

California, Meridian quadrangle, lat. 39° 07′ 30″–39° 15′, long. 121° 52′ 30″–122°. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Apr. 1912. 17.3×13.5 in. † 5c.

California, Randsburg quadrangle, lat. 35° 15′–35° 30′, long. 117° 30′–117° 45′. Scale 1:62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Feb. 1912. 17.5×14.4 in. † 5c.

Illinois, New Athens quadrangle, lat. 38° 15′–38° 30′, long. 89° 45′–90°. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Mar. 1912. 17.5×13.9 in. † 5c.

Kentucky-Indiana, Kosmosdale quadrangle, lat. 38°–38° 15′, long. 85° 45′–86°. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Apr. 1912. 17.5×13.9 in. † 5c.

New York, Rochester quadrangle, lat. 43°–43° 15′, long. 77° 30′–77° 45′. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1912. 17.5×12.9 in. † 5c.

New York, Rochester special map, lat. 43° 05′–43° 20′, long. 77° 30′–77° 45′. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Mar. 1912. 17.5×12.9 in. † 5c.

Ohio, Caldwell quadrangle, lat. 39° 30′–39° 45′, long. 81° 30′–81° 45′. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Apr. 1912. 17.5×13.6 in. † 5c.

Ohio, Canal Dover quadrangle, lat. 40° 30′–40° 45′, long. 81° 15′–81° 30′. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Mar. 1912. 17.5×13.4 in. † 5c.

Scranton, Pa. Mining conditions under Scranton, report and maps, by William Griffith and Eli T. Conner; with preface, by Joseph A. Holmes, and chapter, by N. H. Darton. 1912. [1]+89 p. 4 p. of pl. and portfolio of 25 maps. (Bulletin 25.) Text and portfolio, *paper, 50c. 12—35651

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Decisions of commissioner of patents and of United States courts in patent and trade-mark and copyright cases; compiled from Official gazette of Patent Office, [calendar] year 1911. 1912. xxi+623 p. il. *Cloth, $2.00; *paper, $1.00.

Same. (H. doc. 132.)

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps, for which see Monthly catalogue for January, 1912, page 424.

PRESIDENT OF UNITED STATES

Address of William H. Taft delivered in Boston, Mass., Apr. 25, 1912 [refuting charges made by Mr. Roosevelt]; presented by Mr. Reed. Apr. 29, 1912. 19 p. (S. doc. 615.) *Paper, 5c. 12—35680

Poundstone, Homer C. Executive order [authorizing employment of Poundstone on rolls of Civil Service Commission]. Apr. 30, 1912. 1 p. f° (No. 1524.) ‡

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Further notes on breeding of American black bear in captivity; by A. B. Baker. Washington, Smithsonian Institution, May 17, 1912. [2]+4 p. (Publication 2086; Smithsonian miscellaneous collections, v. 59, no. 10.) †Paper, 5c. 12—35778

Infection and recovery from infection; by Simon Flexner. Washington, Smithsonian Institution, May 29, 1912. [2]+14 p. 5 pl. (Publication 2083; Hamilton Lecture; Smithsonian miscellaneous collections, v. 59, no. 8.) †Paper, 10c. 12—35779

New decapod crustaceans from Panama; by Mary J. Rathbun. Washington, Smithsonian Institution, May 20, 1912. [2]+3 p. (Publication 2090; Smithsonian miscellaneous collections, v. 59, no. 13.) †Paper, 5c. 12—35780

Notes on animals now, or recently, living in National Zoölogical Park; by A. B. Baker. Washington, Smithsonian Institution, May 17, 1912. [2]+3 p. 1 pl. (Publication 2085; Smithsonian miscellaneous collections, v. 59, no. 9.) †Paper, 5c. 12—35781

Observations on habits of crustacean Emerita analoga [with bibliography]; by Frank Walter Weymouth and Charles Howard Richardson, jr. Washington, Smithsonian Institution, May 10, 1912. NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices, in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

* Document for sale by Superintendent of Documents.
† Distribution by office issuing document, free if unaccompanied by a price.
‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.,** are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION.

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

The Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1912. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number is an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1912. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.,** by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for $1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

"A plant cancer" is what the destructive plant disease known as crown gall is called in Plant Industry Bureau Bulletin 255, issued June 29, 1912. The full title is The structure and development of crown gall: a plant cancer. The bulletin is made up mainly of 109 photographic plates, there being only sufficient text to explain the plates. It is the result of many months of critical study and experimentation, and its demonstration of the existence of a certain parasitic organism within the cells of the crown gall is declared by Dr. Galloway in his letter of transmittal to be "a discovery of the first magnitude in pathology." Dr. Erwin F. Smith, the senior author, closes his résumé of the bulletin with these words: "Nothing in this bulletin should be construed as indicating that we think the organism causing crown galls is able also to cause human cancer, but only that we believe the latter due to a cell parasite of some sort, and offer the preceding pages in support of this contention." Sold by the Superintendent of Documents for 50 cents.

Chemistry Bureau Bulletin 151 is to an extent a new departure in the preparation of food and diet publications by the Agriculture Department in that it relates to operations in factories rather than in the household. Its title is The canning of foods, a description of the methods followed in commercial canning. This has come to be an enormous industry, touching at one end the farmers and gardeners and fishermen and live-stock breeders who supply the raw material to the canneries and at the other end the people who buy and eat the products, this latter class including all of the first-named classes and virtually everybody else. There should be many readers of Bulletin 151, for people generally like to learn something about the way their food is manipulated. The report is generally favorable to the canneries, a high standard of cleanliness and soundness of materials being usually maintained, though there are of course different grades of goods turned out. 10 cents.

The Interior Department continues to issue illustrated pamphlets in its series descriptive of the national parks. A June issue is Some lakes of Glacier National Park, by Morton J. Elrod of the University of Montana, who for several years has spent his vacations in the park. The numerous views given show the scenery to be on a stupendous scale. Sold by the Superintendent of Documents at 10 cents.

Tuberculosis, a plain statement of facts regarding the disease, prepared especially for farmers and others interested in live stock, by the international commission of the American Veterinary Medical Association on the control of bovine tuberculosis, is the title of Farmers' bulletin 473 published by the Agriculture Department and sold by the Superintendent of Documents at 5 cents.

The elements of a lottery. In the pamphlet thus entitled the Assistant Attorney-General for the Post-Office Department examines the elements of various gift and premium enterprises which use the mails for spreading their advertising announcements, and defines what features of their planning may bring them under the ban of the law which denies the use of the mails to lotteries. 5 cents.

Labor Bureau Bulletin 100, for May, 1912, is the smallest number ever issued in this series, its price being only 5 cents. But it carries important matter, the chief feature being a list of industrial poisons—that is, the various substances encountered in industrial processes which are injurious to the health of the workers. This is an important matter which has received but little attention in this country. Even the list under consideration is a translation from the German by Dr. W. H. Rand of the Labor Bureau. It is a comprehensive list, not only naming the poisons, but giving information as to how they invade the body and descriptions of the early symptoms by which warning may be taken before it is too late.

Vol. 22, Interstate Commerce Commission reports, is on sale. Bound in buckram, price $1.50.

New circulars from the Interior Department give general information for the season of 1912 regarding the Mesa Verde, Yellowstone, and Yosemite national parks. Mesa Verde is the park in which are found the most remarkable homes of that vanished race, the cliff-dwellers. An enterprising woman has set up in the midst of the ruins a wayside inn, where tents and cots are substituted for skyscrapers and out-of-door American cooking for French fal-lals. Or tourists may set up their own camps. The three circulars tell how and where and how much for everything the reasonable tourist can possibly desire. Evidently a visit to either one of these great scenic parks will be considerable of a picnic, with the exception that it will have an intelligible motive, which can not be said of many picnics. Each circular sold for 5 cents.

By Senate resolution 237, 61st Congress, 2d session, the Commissioner of Labor was directed to make a report on the conditions of employment in the iron and steel industry in the United States. This report is now appearing as Senate document 110, 62d Congress, 1st session. Vol. 1 has for subtitle Wages and hours of labor.

The Public Health and Marine-Hospital Service has issued under date of May, 1912, a new catalogue of its publications, which are becoming numerous as well as important. They report the results of many original investigations into the causes and treatment of disease.

Farmers' bulletin 501, Cotton improvement under weevil conditions, shows the planters of the cotton-growing States how they may improve their crop despite the ravages of the Mexican cotton-boll weevil. The Agriculture Department thus points the way. If the farmers fail to follow, theirs is the loss.

Plant Industry Bureau Circular 95 deals in similar fashion with the seed-corn situation. It seems there is this year a shortage of good seed-corn, threatening a crop reduction which in the aggregate may total many million bushels. The circular tells the corngrowers of simple and easy means by which they may ensure a sufficient supply of sound seed corn for every season. The wise farmers will take the good advice. The foolish farmers will follow the old ways. As corn, not cotton, is now king, this is a matter of national interest.

The memorial volume containing the Congressional eulogies on the life and character of the late Stephen Benton Elkins of West Virginia has recently been published.

Randolph County, Ala., Columbia County, Ga., and Ontario County, N. Y., are this month's contributions to the rapidly growing list of soil surveys. On sale by the Superintendent of Documents at 15 cents each.

Special agents series 52, Utilization of atmospheric nitrogen, is one of the most extensive and important numbers in this interesting series of information reports issued by the Manufactures Bureau. Nitrogen is one of the three essentials of plant life. There is a plentiful supply of nitrogen—Consul Norton of Chemnitz, Germany, author of the publication under consideration, says the supply is "unlimited." The difficulty is to bring it into available form for use by man, especially as a fertilizer. The nitrate deposits of Chile are the most available large supply, but they must within a comparatively short time be exhausted by the great and increasing exportation to American and European countries. The United States alone pays $16,000,000 a year for this rock and as much more to other countries for other nitrogen compounds. The proportion of free elementary nitrogen in the atmospheric air is 78 per cent of its volume and 75.5 per cent of its weight. Various speculations have been put forward as to the calamitous effects of extracting the nitrogen from the air, but Mr. Norton holds that this supply is unlimited, the amount of this element in the column of air above one square mile of land being sufficient to meet the world's needs for 50 years at the present rate of consumption. Sundry computations and estimates have been made as to the probable duration of the nitrate deposits in Chile and of other possible sources of supply, and the conclusion reached, as stated by the author, is this: "Economic students in Europe, and especially in Germany, feel that the time has come when the best talent must be directed to solving the problem of utilizing industrially the nitrogen of the air." This great problem is now being worked out in several European countries, under various patents and by various processes, which have been investigated and described by Mr. Norton in his notable monograph. His summing up fills a couple of pages, the sentence of greatest import to American readers being this: "It can be regarded as beyond doubt that the present achievements of applied chemistry in this field render it possible for American industry and American agriculture to face the threatened exhaustion of the nitrate deposits of Chile and the demands attendant upon a rapidly growing population without any feeling of apprehension." Sold by the Superintendent of Documents for 15 cents.

House report 756, 62d Congress, 2d session, coming from the Committee on Patents, introduces a couple of new classes to literary society. It proposes that "Motion-picture photoplays" and "Motion pictures other than photoplays" shall be added to the list of productions which may be protected by copyright, adding this comment: "The occasion for this proposed amendment is the fact that the production of motion-picture photoplays and motion pictures other than photoplays has become a business of vast proportions. The money invested therein is so great and the property rights so valuable that the committee is of the opinion that the copyright law ought to be so amended as to give to them distinct and definite recognition and protection." The entry for House report 756 appears on page 755 of the May Monthly catalogue.

Vol. 41, Proceedings of the United States National Museum, is now ready in cloth. From the Superintendent of Documents, $1.00.

Standards Bureau has issued (as Circular 13) a 5th edition of Standard specifications for incandescent electric lamps. Former specifications have been thoroughly revised for this edition. In an introduction Director Stratton says that "although these specifications have been prepared primarily for the use of the departments of the Government in buying incandescent lamps, it seems desirable, on account of the thoroughness with which the subject has been studied and discussed, that the specifications should be available to the general public." A caution is given, however, that "only those thoroughly instructed in the art of lamp manufacture and in the science of photometry should undertake to determine upon the acceptability of lamps under the terms of the specifications." The Government is such a very large buyer of electric lamps that the establishment of standard specifications for them is a matter of much moment.

The 17th number of the Document index, furnishing a guide to the 1667 documents and reports ordered printed by the 61st Congress at its 3d session (Dec. 5, 1910–Mar. 4, 1911) is now ready for delivery. Those not officially entitled to receive it free may secure copies, cloth-bound, from the Superintendent of Documents, at 30 cents each.

Farmers' bulletin 494, Lawn soils and lawns, is just as good for city dwellers as for farmers. Like all other Farmers' bulletins, it is sold by the Superintendent of Documents at 5 cents.

Labor Bureau Bulletin 99 (20 cents) presents detailed tables of wholesale prices of commodities for the years 1890 to 1911. These show that 1897 was the year of lowest prices and 1910 of highest. On a scale of 100, the average for 1890 was 114, for 1897, 89, and for 1910, 132.

Education Bureau Bulletin 11, series of 1912, is no. 1 of a subseries entitled Current educational topics. This first number gives five papers on as many phases of educational progress, no one of them of sufficient length to require a separate bulletin for its publication.

The Navy Department has in type a report of the ceremonies attendant on the unveiling of the monument to John Paul Jones, the typical American naval hero, which stands in Potomac Park. It will report the distinguished speakers of the occasion and have 6 illustrations. Copies will be sold by the Superintendent of Documents at 10 cents.

The Alaska school service of the Education Bureau has published Report on education of the natives of Alaska and the reindeer service, 1910–11, which is partly a reprint of a chapter from the Annual report of the commissioner of education but in larger part reports from teachers in the Government schools in Alaska. These teachers perform a dual service. They are also superintendents of the reindeer herds in their vicinity. In June, 1911, there were 33,629 reindeer in Alaska, the descendants of 1,280 of the animals imported from Siberia during the 10 years 1892–1902. From an economic point of view the most important work of the Bureau in Alaska is the reindeer service. It has become the most efficient instrument in elevating the native races. Its civilizing effect upon the Eskimo especially has been remarkable. The reindeer increase rapidly. Their meat is in demand by both whites and natives and their skins supply the most satisfactory winter clothing. The report declares it to be probable "that the exportation of reindeer meat will eventually become an industry of extensive proportions."

A 2d edition of Public health bulletin 35, The relation of climate to the treatment of pulmonary tuberculosis, has been issued. It says that "physicians are practically agreed that there is no specific climate for tuberculosis." But the out-door life is good in all climates.

The negotiation of treaties between sovereign countries is a work of much deliberation. Treaty series 568, just published by the State Department, is a convention relating to wireless telegraphy which was signed at Berlin Nov. 3, 1906, by the representatives of 27 powers. Its ratification was advised by the United States Senate Apr. 3, 1912. This action was ratified by President Taft Apr. 22, 1912. The ratification was deposited with the German Government May 17, 1912. The treaty was proclaimed May 25, 1912, and has now been printed—almost six years from the time of the signing of the agreement. How many years were consumed in coming to the signing point does not appear in the record.

An unnumbered publication in the Forest products laboratory series of the Forest Service has for title Experiments with jack pine and hemlock for mechanical pulp. The jack pine and hemlock pulps have been made up into paper, of which 9 samples in a pocket are attached to the publication. The samples are made from different combinations of the pulps, and show that in the absence of better materials jack pine and hemlock might be depended upon for usable papers. This bulletin is not available for the public, the short supply of jack pine paper for the illustrative samples limiting the edition to a small number.

Education Bureau Bulletin 9, series of 1912, has new ideas in it. The title is Country schools for city boys.

Miners' circular 4, The use and care of mine-rescue breathing apparatus, can be supplied by the Superintendent of Documents at 5 cents a copy. The same price will buy Miners' circular 6, Permissible explosives tested prior to Jan. 1, 1912, and precautions to be taken in their use. It is explained in the circular that "permissible" explosives "give a short and relatively cool flame that is less likely to ignite inflammable gas or coal dust than is the longer and hotter flame of dynamite or the longer and much more lasting flame of black powder." Even with the permissible explosives great caution is required, and a long list of warnings is supplied. The designated explosives are permissible only when used under certain conditions which are set forth in the circular.

ECONOMY AND EFFICIENCY

The President's Commission on Economy and Efficiency has recently published several important documents. One is called Outline of classification of objects of Government expenditure on a uniform basis, with symbols for convenient reference to price lists and catalogues, suggested for use in making descriptive entries on documents and records, as a means of facilitating current work and of reducing the cost of analyzing accounts and of making special reports. This voluminous title seems to leave little in the way of information to be desired, but it will interest librarians to know also that the classification of objects of expenditure adopted by the Commission is a decimal system, resembling very much, and probably based upon, the Dewey system of library classification in use in a majority of American public libraries.

Another recent publication of the Economy Commission is Circular 20, Suggested forms for reporting assets and liabilities, revenues and expenses, funds and appropriations, together with definitions of Governmental accounting and reporting terms.

Another is Report to the President on the use of the outline of organization of the Government, prepared by the Commission as a means for showing currently organization conditions of the Government.

NATURAL WONDERS

The Interior Department has issued a pamphlet giving more information as to those natural wonders of the American continent which have received official recognition by the Government than has before been brought into one compilation. Its title is Report on Platt and Wind Cave national parks, Sullys Hill Park, Casa Grande Ruin, Muir Woods, Petrified Forest, and other national monuments, including list of bird reserves. This title does not enumerate all the contents. There are now 17 national monuments administered by the Interior Department, 10 by the Agriculture Department, and 1 by the War Department. Descriptive notes are given to 27 of the 28 and also a map or diagram of each. There are now 52 bird reserves, and these are all listed, though more briefly. Sold by Superintendent of Documents, 10 cents.

TIMELY WARNINGS

Reprint 81, from vol. 27, nos. 21 and 22, of Public health reports, the weekly periodical published by the Public Health and Marine-Hospital Service, is made up of two papers by Dr. W. C. Rucker, Assistant Surgeon General of that Service, entitled Sanitary advice for summer tourists and Sanitary advice for keepers of summer resorts.

Dr. Rucker does not let the facts that he is a high official and is writing a public document override his natural bent for expressing himself picturesquely and in a way to make his statements of scientific fact impress themselves on the reader's memory. The chief enemies of health against which he warns summer tourists and the managers of summer resorts are typhoid fever, house flies, and mosquitoes, and some of his racy sentences read thus:

"The only bad thing about night air is the mosquito which it contains."

"Most summer resort keepers breed their own mosquitoes."

"Flies are bred in filth and lead a life of sin and iniquity."

"The model summer resort has no flies."

"At the present time typhoid fever is essentially a disease of the country."

"The best advertisement that any country resort can have is a clean, airy, wholesome dairy, in which clean cows are milked by clean laborers, and in which the processes to which the milk is subjected follow a cleanliness of levitical scrupulosity."

NEW SERIES

The Interstate Commerce Commission has published the first issue, effective on July 1, 1912, of Form of income and profit and loss statement for steam roads as prescribed by the Interstate Commerce Commission in accordance with section 20 of the act to regulate commerce. 5 cents.

THE QUESTION OF INVERSION

The agitation as to the continuance or abolition of the Commerce Court has not involved the libraries, but there is a phase of it which was the cause of hot debate in library conferences years before the Commerce Court was thought of.

It is that of the inversion of titles in the alphabetic cataloguing of public documents. The original legal titles of most Government offices begin with the word department or bureau or court or office or division. To alphabet under such names is virtually no alphabeting at all, because it gives rows of the words department, bureau, court, office, and division, with the significant or designating word buried out of easy sight. Still, it is of course desirable to follow the legal form of the title—if it can be ascertained, and some cataloguers think it obligatory to follow it no matter where it may lead. Besides the loss of any useful alphabetic order, these cataloguers have the additional difficulty—and this is almost an insuperable one—of finding out what the legal titles of many Government organizations really are. The name given by law at the time of a bureau's creation is not often adhered to in appropriation acts or other subsequent laws.

In compiling the 3d edition of the Checklist of United States public documents efforts were made to ascertain the legal designation of all Government establishments. In the course of the inquiry heads of offices were found who frankly acknowledged that they did not know what were the legal designations of the organizations they were administering. In the Checklist, page 493, the following note is found under the heading Indian Affairs Office: "There is no law establishing the name of the Washington office, but there is some authority of law for every name by which it has been known, e. g.: Indian Department, Office of Indian Affairs, Office of the Commissioner of Indian Affairs, Indian Office, and Indian Bureau. The present usage in the office itself, and in recent Congressional directories, Registers of the Department of the Interior, and Official registers of the United States is in favor of 'Office of Indian Affairs' as its official name." Here the cataloguer who feels obliged to use only the legal title may be puzzled to choose, while the cataloguer who uses the distinguishing word continues to alphabet under "Indian" and makes a uniform record no matter what pranks the statutes and common usage may play with official titles.

The complications in the name or names of the Indian Office are nothing unusual. Such confusion is among the commonest occurrences in official literature. The law creating the Education Bureau said "there shall be a bureau in the Interior Department which shall be called and known as the Office of Education," yet the very next year Congress appropriated for it under the title Bureau of Education. In a recent appropriation bill, in the same paragraph one of the largest Government establishments is called both Bureau of Pensions and Pension Office. Such instances might be cited almost without limit.

Another body of cataloguers hold that alphabeting which really alphabets, that is, which brings the distinguishing and significant word of the title into its correct alphabetic order where it may be most quickly and easily found, is the really vital thing in cataloguing, and that to secure it the legal titles may properly be inverted when necessary. This has been always the attitude and practice of the Public Documents Office, which, however, has always welcomed the rare occasions when it was possible to bring the distinguishing word in true alphabetic order without inversion.

Here is where the Commerce Court comes in. When the bill to establish it first came up the title stood Court of Commerce, but before it was passed some one secured the substitution of Commerce Court, thus removing one cause of controversy in the American Library Association. When the legal form of the title brings the significant word to the front, so that it automatically falls into its proper alphabetic order, everybody is satisfied and no ground for argument remains.

Librarians and cataloguers are not the only persons who would like to have the distinguishing words of official titles placed first in order. The common speech of the people shows that this liking is universal. It appears everywhere except in the legal form as expressed in the statutes, and that form is universally disregarded by popular usage when it relegates the significant word to the rear. Nobody says Department of the Interior, or Department of State, or Department of War, or Department of the Navy or Bureau of Chemistry, or Bureau of Fisheries, but Interior Department, State Department, War Department, Navy Department, Chemistry Bureau, Fisheries Bureau, or even more frequently Fish Bureau. Even in the cases of words like Agriculture and Congress, which the people hesitate to use adjectively, they substitute an adjectival form for the designating noun rather than throw the distinctive word in the rear, and thus they incorrectly say Congressional Library and Agricultural Department. This latter form can be found in the publications of the Agriculture Department itself.

This instinctive use of the significant word at the beginning of official titles is not confined to the common speech of the people. Official literature is full of it. In the Congressional record, in the appropriation bills, and in the index to the statutes the inverted titles are constantly encountered. So nearly universal is this practice that one scarcely knows where to look for the formal legal titles of departments and bureaus except in the statutes by which they were originally created, and it seems something like affectation to go back to the sources for forms of catalogue entries which when found are unfamiliar and inconvenient to readers.

CORRIGENDA

Librarians who have received Reprints from Public health reports no. 53, Cholera, 1st and 3d editions, should not spend much time looking for the 2d edition, because it does not exist. There was a second print, but through an oversight the words "second edition" were not added to the title-page, and consequently, in a library sense, the 2d edition is nonexistent. The contents of the 3 prints are identical.

CORRECTIONS FOR MAY, 1912, MONTHLY CATALOGUE

For "Works, J. W." in 1st line of 12th entry on page 772, read "Works, J. D."

For "*Paper, 5c." in last line of entry subheaded Volunteers, on page 805, read "‡."

Binding the Catalogue

The Documents Office will soon issue a consolidated index to all entries in the twelve numbers of the Monthly catalogue, July, 1911, to June, 1912. The quarterly indexes, heretofore published, may therefore be thrown aside in binding the catalogue for the year. A title-page for the twelve numbers of the catalogue will accompany the consolidated index. Duplicate numbers of the Monthly catalogue can not be supplied.

MONTHLY CATALOGUE

No. 210 JUNE 1912

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Estimate of reappropriation for inclusion in general deficiency bill [to provide for fencing on national mammal and bird reservations]. June 3, 1912. 2 p. (H. doc. 783.) ‡

In response to resolution, information relative to homestead entries, ranger stations, and timber sold on national forests. June 7, 1912. 3 p. (S. doc. 783.) ‡

Notice of judgment 1478–99, food and drugs act. May 29–31, 1912. Each 1 p. or 2 p. † Agr 8—878/4

ANIMAL INDUSTRY BUREAU

Tuberculosis of hogs; by John R. Mohler and Henry J. Washburn. June 15, 1912. 40 p. il. (Circular 201.) [This a revision of Circular 144.] *Paper, 5c. Agr 9—586/3

Tuberculosis, plain statement of facts regarding disease, prepared especially for farmers and others interested in live stock; by international commission of American Veterinary Medical Association on control of bovine tuberculosis. Nov. 14, 1911, reprint Feb. 1912. 23 p. il. (Agriculture Dept. Farmers' bulletin 473.) *Paper, 5c. Agr 11—2038/2

CHEMISTRY BUREAU

Calcium carbid method for determining moisture; by H. C. McNeil. June 14, 1912. 8 p. il. (Circular 97.) *Paper, 5c. Agr 12—1014/3

Canning of foods, description of methods followed in commercial canning; by A. W. Bitting. June 6, 1912. 77 p. (Bulletin 151.) *Paper, 10c. Agr 12—1007/3

Elimination of caffein, experimental study on Herbivora and Carnivora [with bibliography]; by William Salant and J. B. Rieger. June 7, 1912. 23 p. (Bulletin 157.) *Paper, 5c. Agr 12—1008/3

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington.

Abrasive materials. Production of abrasive materials, [calendar year] 1911; by W. C. Phalen. 1912. 22 p. [From Mineral resources, 1911.] †Paper; *paper, 5c.

Alaska. Geologic investigations along Canada-Alaska boundary; by A. G. Maddren. 1912. 20 p. (Bulletin 520 K.) *Paper, 5c.

—— Tin resources of Alaska; by Frank L. Hess. 1912. 6 p. (Bulletin 520 B.) *Paper, 5c.

Alunite in San Cristobal quadrangle, Colo.; by Esper S. Larsen. 1912. 7 p. (Bulletin 530 F.) *Paper, 5c.

Antelope district. Notes on Antelope district, Nevada; by F. C. Schrader. 1912. 14 p. il. map. (Bulletin 530 J.) *Paper, 5c.

Asphalt. Production of asphalt, related bitumens, and bituminous rock, [calendar year] 1911 [with list of survey publications on asphalt]; by David T. Day. 1912. 21 p. [From Mineral resources, 1911.] †Paper; *paper, 5c.

Chromite. Production of chromic iron ore, [calendar year] 1911; by W. C. Phalen. 1912. 10 p. [From Mineral resources, 1911.] †Paper; *paper, 5c.

Clay. Notes on clays of Delaware, by G. C. Matson; Clay in Portland region, Me., by F. J. Katz. 1912. 24 p. il. (Bulletin 530 I.) *Paper, 5c.

Coal. Coal fields in Montana; [articles] by L. J. Pepperberg and W. R. Calvert. 1912. 66 p. 3 maps. (Bulletin 471 E.) *Paper, 10c.

—— Coal near Black Hills, Wyo.-S. Dak. [with bibliography]; by R. W. Stone. 1912. 66 p. il. 7 pl. (Bulletin 499; H. doc. 174.) *Paper, 15c. GS 12—257/3

—— Coal on Dan River, N. C. [with bibliography]; by R. W. Stone. 1912. 35 p. il. map. (Bulletin 471 B.) *Paper, 5c.

Gold. Gold and silver in Idaho; [articles] by J. B. Umpleby, F. C. Calkins, and E. L. Jones, jr. 1912. 23 p. il. map. (Bulletin 530 G.) *Paper, 5c.

—— Gold, silver, copper, lead, and zinc in Eastern States, [calendar year] 1911, mine production; by H. D. McCaskey. 1912. 18 p. [From Mineral resources, 1911.] †Paper; *paper, 5c.

—— Notes on gold lodes of Carrville district, Trinity County, Cal.; by D. F. MacDonald. 1912. 37 p. il. map. (Bulletin 530 D.) *Paper, 5c.

Graphite near Raton, N. Mex., by W. T. Lee; Mica in Idaho, New Mexico, and Colorado, by D. B. Sterrett. 1912. 22 p. il. (Bulletin 530 L.) *Paper, 5c.

Gypsum. Gypsum in Utah and Virginia; [articles] by C. T. Lupton and G. W. Stose. 1912. 37 p. il. map. (Bulletin 530 N.) *Paper, 5c.

—— Gypsum industry, [calendar year] 1911; by Ernest F. Burchard. 1912. 8 p. [From Mineral resources, 1911.] †Paper; *paper, 5c.

La Sal Mountains. Notes on northern La Sal Mountains, Grand County, Utah; by J. M. Hill. 1912. 22 p. il. (Bulletin 530 M.) *Paper, 5c.

Lignite in Fort Berthold Reservation, N. Dak., north of Missouri River; by Max A. Pishel. 1912. 19 p. 1 pl. map. (Bulletin 471 C.) *Paper, 10c.

Mineralogical notes, series 2 [with bibliography]; by Waldemar T. Schaller. 1912. 115 p. il. 1 pl. (Bulletin 509; H. doc. 353.) *Paper, 10c. GS 11—592/2

Mining laws of Australia and New Zealand, by Arthur C. Veatch; with preface, by Walter L. Fisher. 1911. 180 p. (Bulletin 505; H. doc. 186.) *Paper, 15c. GS 11—646/4

NOTE.—This publication was issued originally as an appendix to the Hearings of the Joint Committee to Investigate the Interior Department and Forestry Service but the supply being exhausted it has been reissued as Geological Survey Bulletin 505.

Pottery. Statistics of pottery industry in United States, [calendar year] 1911; by Jefferson Middleton. 1912. 11 p. [From Mineral resources, 1911.] †Paper; *paper, 5c.

Publications. New publications, list 55; May, 1912. [1912.] 3 p. [Monthly.] † GS 11—221/3

Quicksilver, [calendar year] 1911, production and resources [with bibliography]; by H. D. McCaskey. 1912. 35 p. [From Mineral resources, 1911.] †Paper; *paper, 5c.

Seward Peninsula. Notes on mining in Seward Peninsula, Alaska; by Philip S. Smith. 1912. 8 p. (Bulletin 520 M.) *Paper, 5c.

Sulphur in Utah, Wyoming, and Colorado; [articles] by F. L. Hess, D. F. Hewett, E. S. Larsen, and J. F. Hunter. 1912. 25 p. il. map. (Bulletin 530 O.) *Paper, 5c.

Turquoise copper-mining district, Ariz.; by F. L. Ransome. 1912. 12 p. il. (Bulletin 530 C.) *Paper, 5c.

Yakutat Bay. Earthquakes at Yakutat Bay, Alaska, Sept. 1899, by Ralph S. Tarr and Lawrence Martin; with preface, by G. K. Gilbert. 1912. 135 p. il. 25 pl. 8 maps, 1 is in pocket, 4° (Professional paper 69.) *Paper, 60c. GS 12—371/3

INDIAN AFFAIRS OFFICE

Health rules for distribution among Indians of Yakima Reservation, Wash.; by Geo. W. Wimberly. [1912.] 4 p. narrow 12° †

CARLISLE INDIAN SCHOOL

Red man, v. 4, no. 10; June, 1912. Carlisle Indian Press, Carlisle, Pa. [1912]. cover-title, 437–486+[2] p. il. large 8° [Monthly except July and August.] †Paper, $1.00 a yr. 11—24446/3

LAND OFFICE, GENERAL

NOTE.—The General Land Office publishes a large general map of the United States, which is sold at $1.00; and also separate maps of the States and Territories in which public lands are to be found, which are sold at 25c. per sheet. California is in 2 sheets. Address the Superintendent of Documents, Washington, D. C.

Estimate of appropriation for employing temporary clerks for office. June 5, 1912. 2 p. (H. doc. 810.) ‡

Maps

New Mexico, State of, from official records of General Land Office and other sources; compiled by A. F. Dinsmore. Scale 12 m.=1 in. Eckert Lithographing Company, Washington, D. C., 1912. 37×31.6 in. *25c.

MINES BUREAU

Breathing-apparatus. Use and care of mine-rescue breathing apparatus [with list of bureau publications on mine accidents and tests of explosives]; by James W. Paul. [Revised edition.] [May] 1912. 28 p. il. (Miners' circular 4.) *Paper, 5c. 12—35858

Briquetting tests of lignite at Pittsburg, Pa., 1908–9, with chapter on sulphite-pitch binder [with bibliography]; by Charles L. Wright. [Revised edition.] [Apr.] 1912. 64 p. il. 12 pl. (Bulletin 14.) [Includes list of Mines Bureau and Geological Survey publications on fuel testing.] *Paper, 15c. 12—14668/6

Coal. Deterioration and spontaneous heating of coal in storage, preliminary report [with list of bureau publications on fuel testing]; by Horace C. Porter and F. K. Ovitz. [1st edition.] [Apr.] 1912. 14 p. (Technical paper 16.) *Paper, 5c. 12—35666/4

—— Experimental work conducted in chemical laboratory of United States fuel-testing plant at St. Louis, Mo., Jan. 1905–July, 1906; by N. W. Lord. 1911 [reprint June, 1912]. 51 p. (Bulletin 28.) [Includes list of Mines Bureau and Geological Survey publications on fuel testing.] *Paper, 5c. 11—35647/2

—— Government coal purchases under specifications with analyses, fiscal year 1910, by George S. Pope; with chapter on Fuel-inspection laboratory of bureau, by Joseph D. Davis. 1912. 97 p. 3 pl. (Bulletin 41.) [Includes list of Mines Bureau and Geological Survey publications on fuel testing.] *Paper, 15c. 12—35815

Explosives. Permissible explosives tested prior to Jan. 1, 1912 and precautions to be taken in their use [with list of bureau publications on mine accidents and tests of explosives]; by Clarence Hall. [Revised edition.] [May] 1912. 20 p. (Miners' circular 6.) *Paper, 5c. 12—35444

Gas-producers. Incidental problems in gas-producer tests; [articles] by R. H. Fernald, C. D. Smith, J. K. Clement, and H. A. Grine. 1911 [reprint May, 1912]. 29 p. il. (Bulletin 31.) [Includes list of Mines Bureau and Geological Survey publications on fuel testing.] *Paper, 5c. 11—35772/7

Heat. Flow of heat through furnace walls; by Walter T. Ray and Henry Kreisinger. [Revised edition.] [June] 1912. 32 p. il. (Bulletin 8.) [Includes list of Geological Survey and Mines Bureau publications on fuel testing.] *Paper, 5c. 12—35859

Mining accidents. Preliminary statement on coal-mine accidents in United States, 1910, 1911 and Jan.-Apr. 1912. 1912. 13 p. *Paper, 5c.

Petroleum. Physical and chemical properties of petroleums of San Joaquin Valley of California, by Irving C. Allen and W. A. Jacobs; with chapter on Analyses of natural gas from oil fields of southern California, by G. A. Burrell. [Reprint] 1912 [with corrections]. 60 p. il. 2 pl. (Bulletin 19.) [Includes list of Mines Bureau and Geological Survey publications on fuel testing.] *Paper, 10c. 11—35826/5

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at $5.00 per volume or $60 per year, and back numbers, prior to 1907, may be had at $3.00 per volume or $36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to $10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at $1.00 per package, or in books containing 100 coupons at $5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued, Mar. 1912 [with list of inventions]. [1912.] xciv p. large 8° [Monthly index to Official gazette.] *Paper, 10c. single copy, included in price of Official gazette for subscribers.

Same, Apr. 1912 [with list of inventions]. [1912.] cxvii p. large 8° [Monthly index to Official gazette.] *Paper, 10c. single copy, included in price of Official gazette for subscribers.

Same, May, 1912 [with list of inventions]. [1912.] civ p. large 8° [Monthly index to Official gazette.] *Paper, 10c. single copy, included in price of Official gazette for subscribers.

Annual report of commissioner of patents [to Congress, with indexes to patentees, inventions, etc., calendar] year 1911. 1912. xiv+1061 p. large 8° *Cloth, $2.00; *paper, $1.00. 12—3671/3

Same. (H. doc. 131.)

Manual of classification of subjects of invention of Patent Office; revised to Jan. 1, 1912. 1912. 99 p. large 8° [Supersedes Classification of subjects of inventions, 1908.] *Paper, 10c. 12—35818

Official gazette, June 4–25, 1912; v. 179, no. 1–4. 1912. cover-title, 1112+[cxiv] p. il. large 8° [Weekly.] *Paper, 10c. single copy, $5.00 a yr. 4—18256/3

NOTE.—Contains the patents, trade-marks, designs, and labels issued each week; also decisions of the Commissioner of Patents and of the United States courts in patent cases.

Same [title-page, errata, index to decisions, etc., to] v. 176. 1912. [3]+1075–80 p. large 8° *Paper, 10c. single copy, included in price of Official gazette for subscribers.

Same [to] v. 177. 1912. [3]+1301-6 p. large 8°

Specifications and drawings of patents issued Jan., Feb. 1911; patents 980,178-985,764; reissues 13,189-214. 1912. v. 464,465, various paging, il. pl. large 8° [Monthly. Each volume in 3 parts.] *Cloth, $5.00 per vol.; $60 a yr.

RECLAMATION SERVICE

Reclamation record, v. 3, no. 6; June, 1912. [1912.] p. 93-112, 2 p. of pl. 4° [Monthly.] 9—35252/3

NOTE.—The Reclamation record is sold for 50 cents per year. Subscriptions may be forwarded to the Chief Clerk, U. S. Reclamation Service, Washington, D. C., and remittances should be made payable to the Special Fiscal Agent, U. S. Reclamation Service.

Specifications 216. [1912.] 15 p. 4° [Consists of advertisement, proposal, and specifications for reclamation project.] †

INTERSTATE COMMERCE COMMISSION

NOTE.—The bound volumes of the decisions, usually known as Interstate Commerce Commission reports, are sold by the Superintendent of Documents. Separate opinions are sold on subscription, price $1.00 per volume; single copies 5 cents each.

Apples. Investigation and suspension nos. 67, 67-A, 67-B, 67-C, 67-D, and 67-E, in matter of investigation and suspension of advances in rates by carriers for transportation of apples in carloads; [decided June 4, 1912; report of commission]. 1912. [1]+38-42 p. (Opinion 1912.) [From Interstate Commerce Commission reports, v. 24.] * Paper, 5c.

Baggage. Order [promulgated] at general session of Interstate Commerce Commission on 10th of June, 1912, investigation and suspension no. 122, in matter of investigation and suspension of certain new rules and regulations restricting dimensions of trunks and other articles handled as baggage by carriers operating throughout United States. [1912.] 49 p. * Paper, 5c.

Canned goods. No. 4290, Transportation Bureau of Wichita, Kans., *v.* St. Louis & San Francisco Railroad Company et al.; decided May 7, 1912; report of commission. [1912.] p. 679-681. (Opinion 1902.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

Cattle. Order [promulgated] at general session of Interstate Commerce Commission on 10th of May, 1912, investigation and suspension no. 55, in matter of investigation and suspension of advances in rates by carriers for transportation of stock cattle and sheep. [1912.] 2 p. * Paper, 5c.

Cement. No. 4038, Ashgrove Lime & Portland Cement Company et al. *v.* Atchison, Topeka & Santa Fe Railway Company et al.; no. 3904, Western States Portland Cement Company et al. *v.* Missouri Pacific Railway Company et al.; no. 4485, Ashgrove Lime & Portland Cement Company et al. *v.* Atchison, Topeka & Santa Fe Railway Company et al.; decided May 7, 1912; [report of commission]. [1912.] p. 519-526. (Opinion 1894.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

Coal. In Commerce Court, no. 65, Chamber of Commerce of Augusta, Ga., *v.* United States and Interstate Commerce Commission, on motion to dismiss petition; brief for commission. 1912. cover-title, 15 p. ‡

—— Investigation and suspension no. 75, in matter of investigation and suspension of advances in rates by carriers for transportation of soft coal from Illinois mines to stations on St. Louis & Hannibal Railway; [decided May 7, 1912; report of commission]. 1912. [1]+518-519 p. (Opinion 1893.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

Coal—Continued. Investigation and suspension nos. 60 and 60-A, in matter of investigation and suspension of advances in rates by carriers for transportation of soft coal; decided June 4, 1912; report of commission. [1912.] p. 43-45. (Opinion 1913.) [From Interstate Commerce Commission reports, v. 24.] * Paper, 5c.

—— No. 1180, Henry E. Meeker and Caroline H. Meeker, trading as Meeker & Company, *v.* Lehigh Valley Railroad Company; no. 3235, Henry E. Meeker *v.* [same; decided May 7, 1912; supplemental report of commission]. 1912. [1]+480-482 p. (Opinion 1880.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

—— No. 3592, Marian Coal Company *v.* Delaware, Lackawanna & Western Railroad Company; [decided June 8, 1912; report of commission]. 1912. [1]+140-148 p. (Opinion 1925.) [From Interstate Commerce Commission reports, v. 24.] * Paper, 5c.

—— No. 3853, John W. Boileau et al. *v.* Pittsburgh & Lake Erie Railroad Company et al.; decided June 4, 1912; report of commission on application for modification of order. [1912.] p. 129-133. (Opinion 1923.) [From Interstate Commerce Commission reports, v. 24.] * Paper, 5c.

—— No. 4052, Colorado Coal Traffic Association *v.* Denver & Rio Grande Railroad Company et al.; [decided May 6, 1912; report of commission]. 1912. [1]+458-465 p. (Opinion 1876.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

—— No. 4185, Crescent Coal & Mining Company *v.* Chicago & Eastern Illinois Railroad Company et al.; decided June 8, 1912; report of commission. [1912.] p. 149-158. (Opinion 1926.) [From Interstate Commerce Commission reports, v. 24.] * Paper, 5c.

—— Order [promulgated] at general session of Interstate Commerce Commission on 10th of June, 1912, no. 4914, in matter of rates, practices, rules, and regulations governing transportation of anthracite coal. [1912.] 5 p. * Paper, 5c.

Cork. No. 4482, Fred W. Wolf Company *v.* Mallory Steamship Company et al.; [decided May 7, 1912; report of commission]. 1912. [1]+490-491 p. (Opinion 1882.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

Cotton. No. 4033, in matter of wharfage charges of Galveston Wharf Company, at Galveston, Tex.; investigation and suspension no. 44, in matter of investigation and suspension of I. C. C. no. 2 filed by Galveston Wharf Company; investigation and suspension no. 53, in matter of loading and unloading charges at Galveston, Tex.; decided May 13, 1912; [report of commission]. [1912.] p. 535-548. (Opinion 1897.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

Cotton-seed. No. 4498, New Roads Oil Mill & Manufacturing Company, Limited, *v.* St. Louis, Iron Mountain & Southern Railway Company et al.; decided June 3, 1912; report of commission. [1912.] p. 167-169. (Opinion 1930.) [From Interstate Commerce Commission reports, v. 24.] * Paper, 5c.

Decisions. Decisions, Nov. 1911-Mar. 1912. 1912. xxvii+732 p. il. (Interstate Commerce Commission reports, v. 22.) *Cloth, $1.50.
8—30656/2

—— Same, index to [Interstate Commerce Commission reports], v. 22 1912. cover-title, p. 677-732. ‡

Decisions—Continued. Unreported opinions 580–589, 591, 594–596. [1912.] various paging. ‡

NOTE.—These opinions deal with reparation cases and are semi-confidential in character. These publications are not to be obtained but may be consulted at the Library of the Interstate Commerce Commission.

Demurrage. National car demurrage rules and explanations. June, 1912. 11 p. * Paper, 5c.

—— No. 4261, Central Commercial Company *v.* Gulf & Ship Island Railroad Company et al.; [decided May 7, 1912; report of commission]. 1912. [1]+532–534 p. (Opinion 1896.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

—— No. 4340, Alan Wood Iron & Steel Company *v.* Pennsylvania Railroad Company et al.; decided June 3, 1912; report of commission. [1912.] p. 27–33. (Opinion 1910.) [From Interstate Commerce Commission reports, v. 24.] * Paper, 5c.

Dried fruit. No. 4294, Transportation Bureau of Wichita, Kans., *v.* St. Louis & San Francisco Railroad Company et al.; [decided May 7, 1912; report of commission]. [1912.] [1]+682–683 p. (Opinion 1903.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

Flour. No. 4572, Southern Illinois Millers' Association *v.* Louisville & Nashville Railroad Company et al.; [decided May 7, 1912; report of commission]. 1912. [1]+672–678 p. (Opinion 1901.) [From Interstate Commerce Commission reports, v. 23.] * Paper, 5c.

Freight rates. Fourth section application no. 1243, in matter of application of Southern Pacific Company for relief under provisions of 4th section with respect to traffic moving between Portland and San Francisco and other San Francisco Bay points; [decided June 6, 1912; supplemental report of commission]. TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given postoffice, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps, for which see Monthly catalogue for January, 1912, page 424.

PRESIDENT OF UNITED STATES

Army. Message returning without approval H. 18956, making appropriation for support of Army, fiscal year 1913 [etc.]. June 17, 1912. 35 p. (H. doc. 835.) ‡ 12—35830

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The *volumes* of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for *free* distribution. Publications should be ordered by the *serial number*. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Names of large wolves of northern and western North America; by Gerrit S. Miller, jr. Washington, Smithsonian Institution, June 8, 1912. [2]+5 p. (Publication 2093; Smithsonian miscellaneous collections, v. 59, no. 15.) †Paper, 5c. 12—35862

Report on landshells collected in Peru in 1911 by Yale expedition under Hiram Bingham, with descriptions of new subgenus, new species, and new varieties; by William Healey Dall. Washington, Smithsonian Institution, June 8, 1912. [2]+12 p. il. (Publication 2092; Smithsonian miscellaneous collections, v. 59, no. 14.) †Paper, 5c. 12—35863

Smithsonian miscellaneous collections, v. 56 [title-page and contents]. Washington, Smithsonian Institution, 1912. vii p. (Publication 2091.) †

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise bulletins, annual reports, and an annual volume of Proceedings. The annual report is included in the Congressional set. The editions of the bulletins and Proceedings are too limited to admit of general distribution, and the volumes of the latter are sent only to libraries.

Proceedings. 1912. v. 41, xiv+719 p. il. 60 pl. map. [Articles 1846–79 are included in this volume. Each article is also published separately in advance.] *Cloth, $1.00. 11—20830/3

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices, in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Regulations for sale of lake survey charts [with catalogue of charts]. U. S. Lake Survey Office, Detroit, Mich., 1912. [7] p. il. 4° †
